

Premier **AI** Platform for

**INTEGRATED PLANNING &
DIGITAL OPERATIONS**

Our Heritage and Mission

- Started by founder of i2, and its core team
- i2 delivered \$10 billion in value to customers
- o9's mission is to deliver \$50 billion in value

Recognized by Gartner in their Magic Quadrant Debut

Positioned on S&OP MQ* in the Visionaries Quadrant

Highest in Execution

Furthest in Vision

In our view, being positioned furthest for completeness of vision and highest in ability to execute in the Visionaries quadrant of Gartner's Magic Quadrant for S&OP in **our very first appearance** is evidence of the **trajectory** we are on.

Chakri Gottemukkala, CEO, Co-Founder

Magic Quadrant

Figure 1. Magic Quadrant for Sales and Operations Planning Systems of Differentiation

*Gartner's Magic Quadrant for Sales and Operations Planning Systems of Differentiation, May 2017

This graphic was published by Gartner, Inc. as part of a larger research document and should be evaluated in the context of the entire document. The Gartner document is available upon request from o9.

Digital Transformation Reality - Happening fast in our personal lives, raising expectations, while **enterprises are still lagging behind**. Challenge & opportunity in S&OP!

Consumer systems	Consumer Systems Experience	Enterprise Systems Reality
	<i>Fingertip visibility to all information across the world</i>	Tough time getting data within the enterprise
	<i>Real-Time Collaboration</i>	Silos, hierarchies, meeting overload
 Maps	<i>Real time visibility & Prescriptive Systems</i>	Visibility is often poor & late , creating surprises
	<i>Learning Systems</i>	Tribal Knowledge
	<i>Real-time Demand-Supply Match, Dynamic pricing</i>	Slow, Sub-optimal Resource Allocation, erratic pricing
	<i>Digital Assistants</i>	Spreadsheets, PowerPoint, Email...

What can we learn from this simple example?

3 key capabilities powering the maps use case

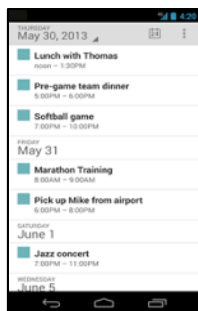

2

Real Time Sensors

Location Tracking

Calendars

Flight Status

1

AI-Powered Knowledge Model

Network Master Data

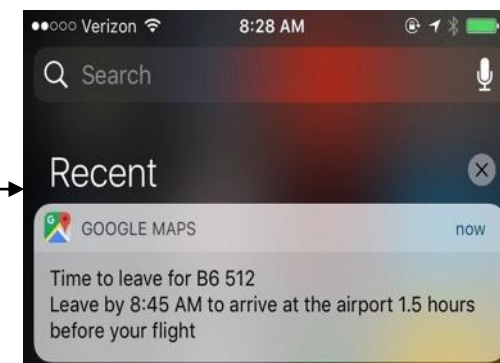

Algorithms

Big Data Store

3

Digital Assistants

Predictive Alerts!
Prescriptive Actions!!

AI-Platform Architecture

for Integrated Planning & Operations

Digital Assistants for Key Roles

10x Productivity, Expertise
Enterprise Grade Siri / Alexa

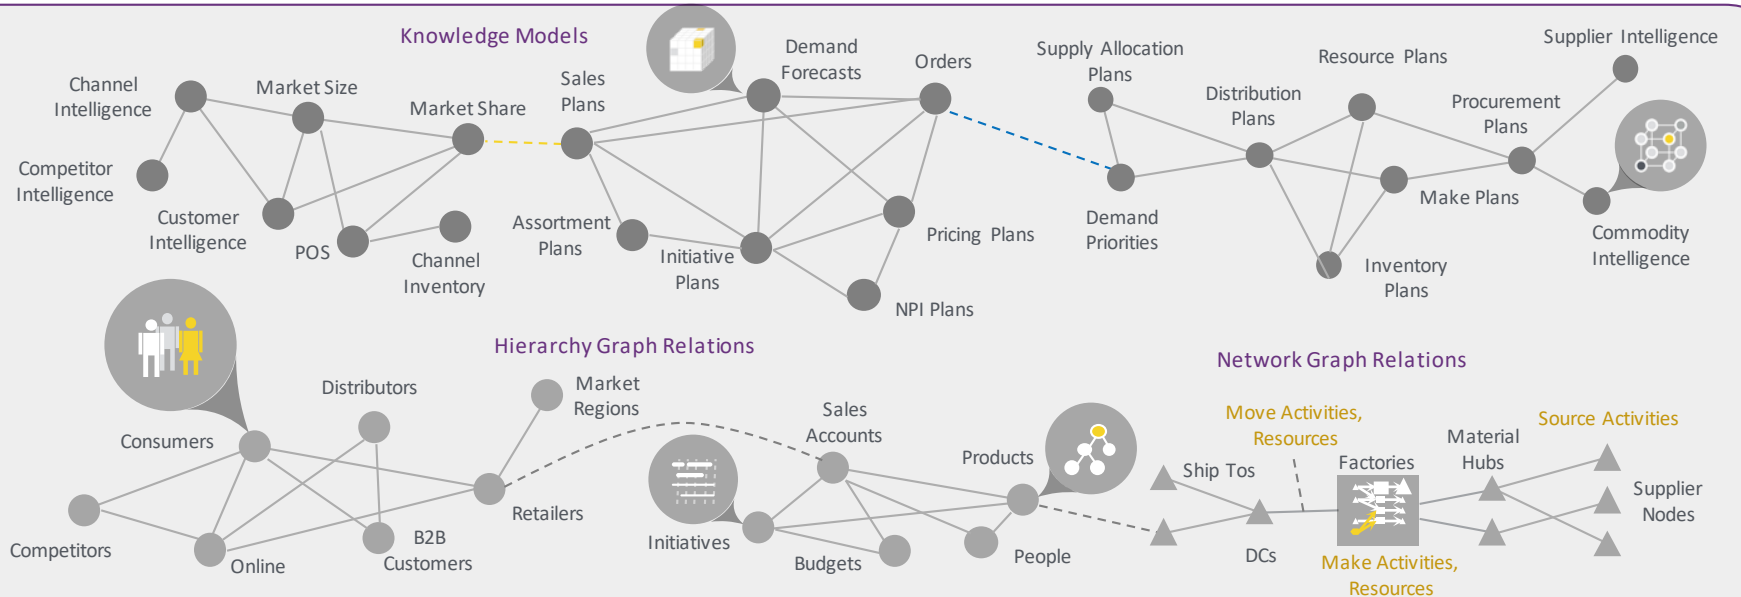

Digital Integrated Planning Solutions

10x Agility,
Autonomous Planning

AI powered Enterprise Knowledge Graph

1. Big Data Store
2. Graph Data Model
3. Intelligent Algorithms
 - M/L Analytics
 - D/S Match Algorithms
 - Aggregation & Disaggregation
 - Bi-Directional Propagation
 - Scenario Planning
 - Post Game Analytics

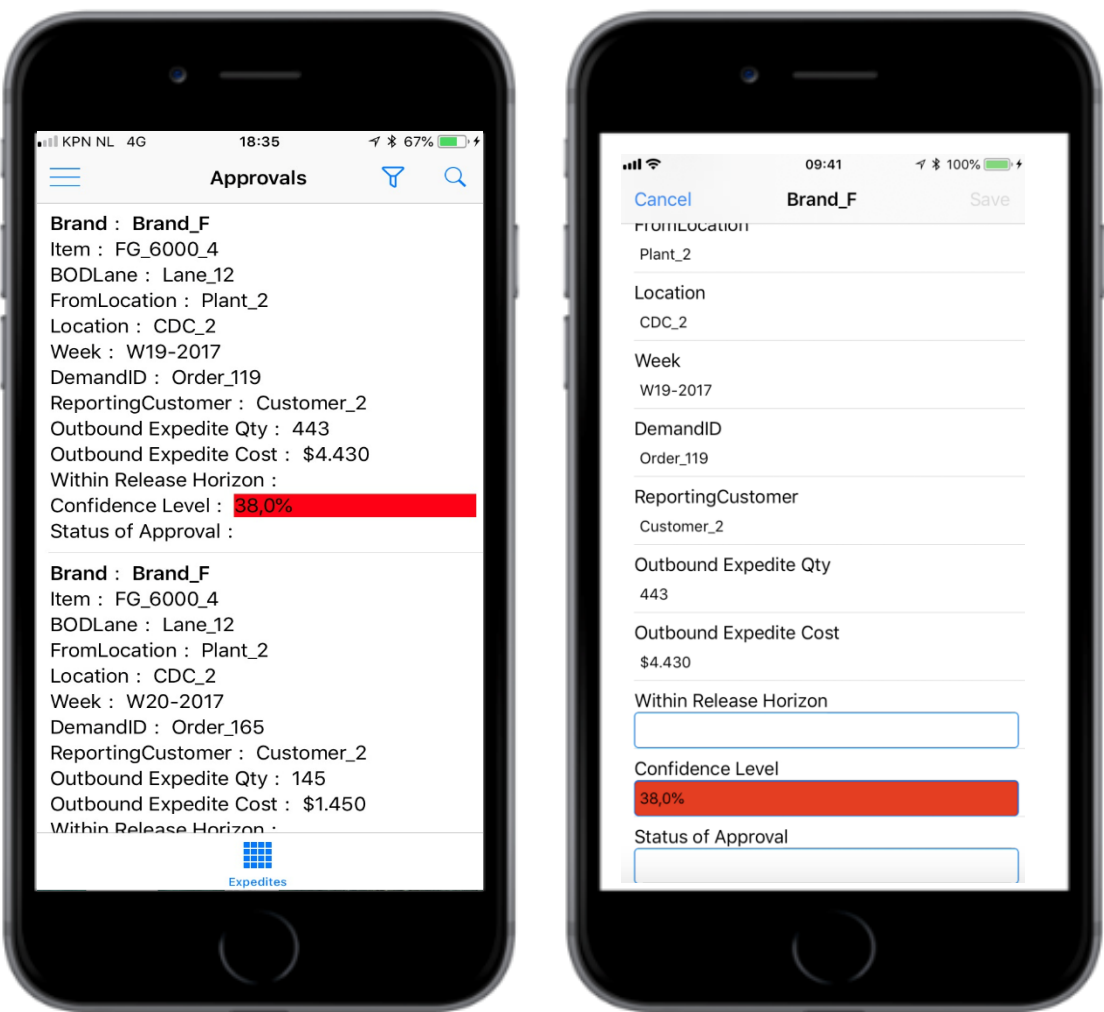

Data Sensors

Enterprise & Market Data
Structured & Unstructured Data
Real Time & Batch Data

Executive involvement in S&OP decisions made easy, driving engagement and value

Mobile Interface

Executives respond to demand/supply scenarios
in real time –
Mobile Approval Workflow

Approve

Reject

“Live On-System” S&OP meetings enabling true trade-off decisions

[illegible]

1 LIVE S&OP MEETINGS

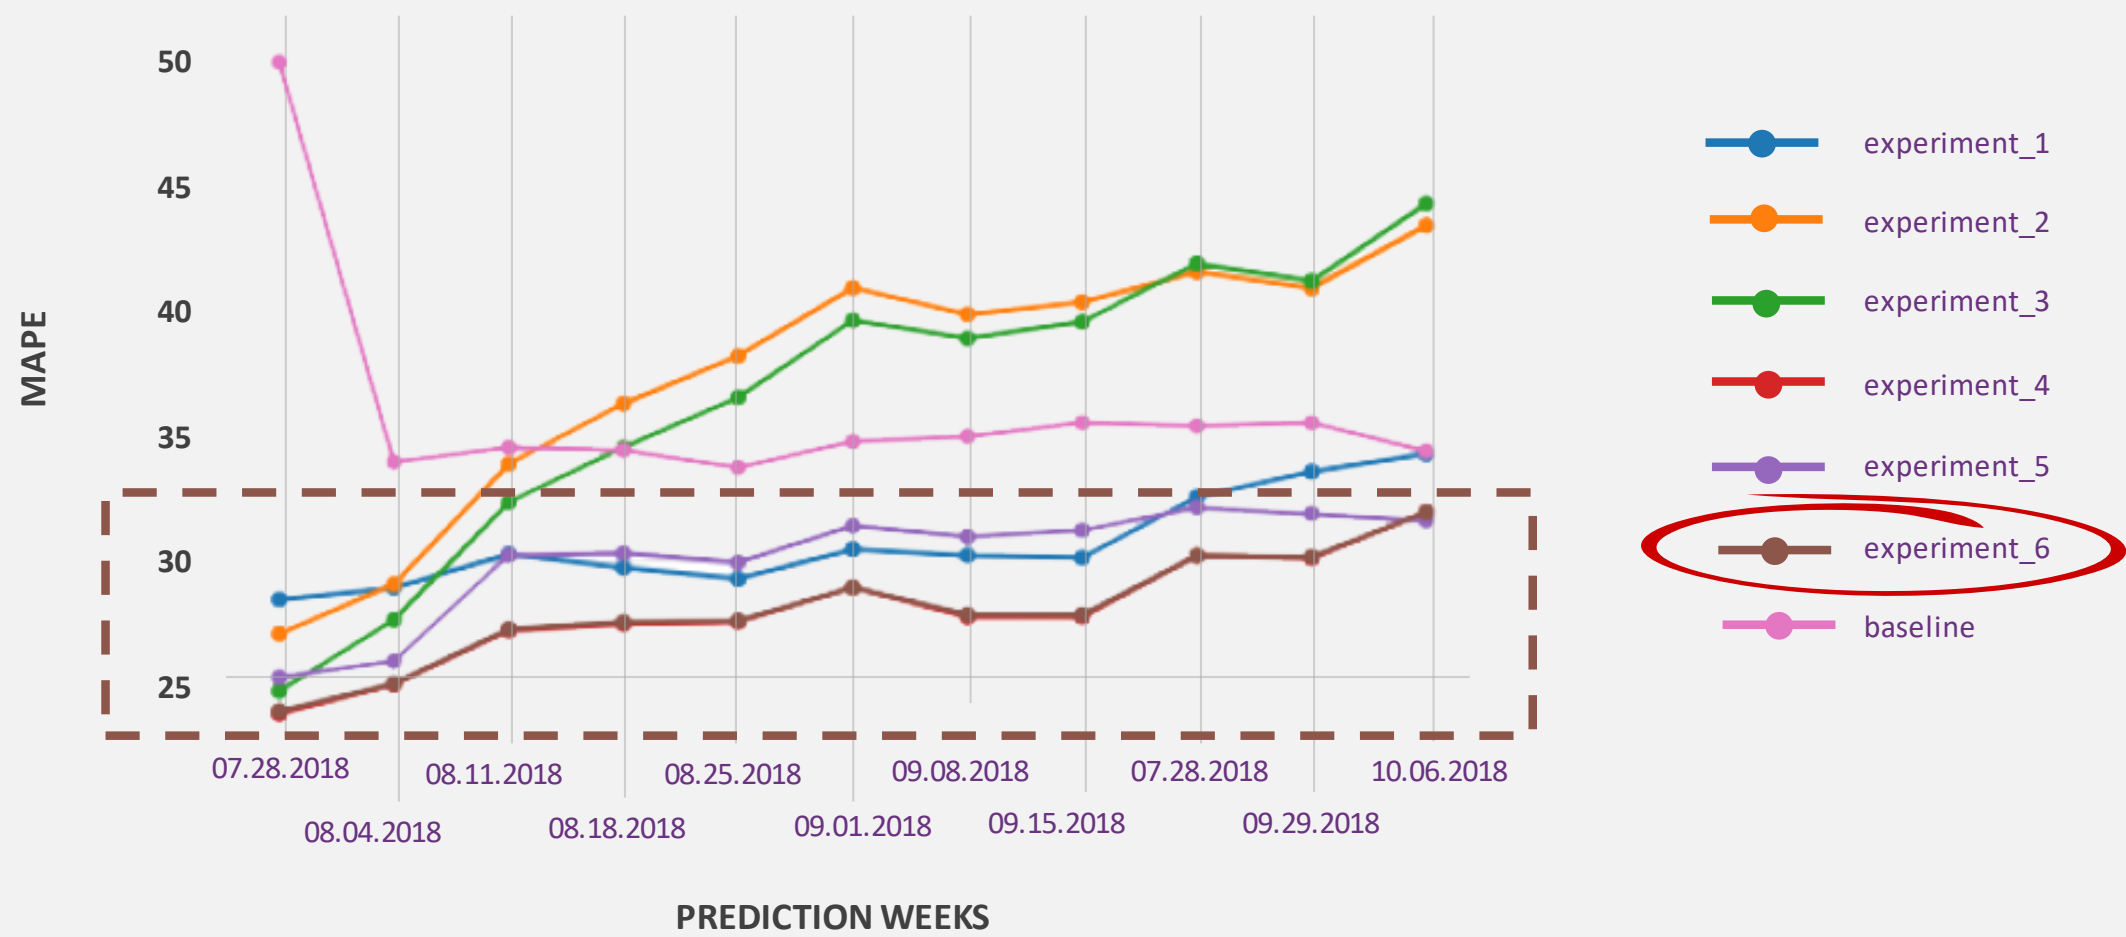

No more PowerPoint. Live Interactive S&OP meetings on the system

2 3W INSIGHTS

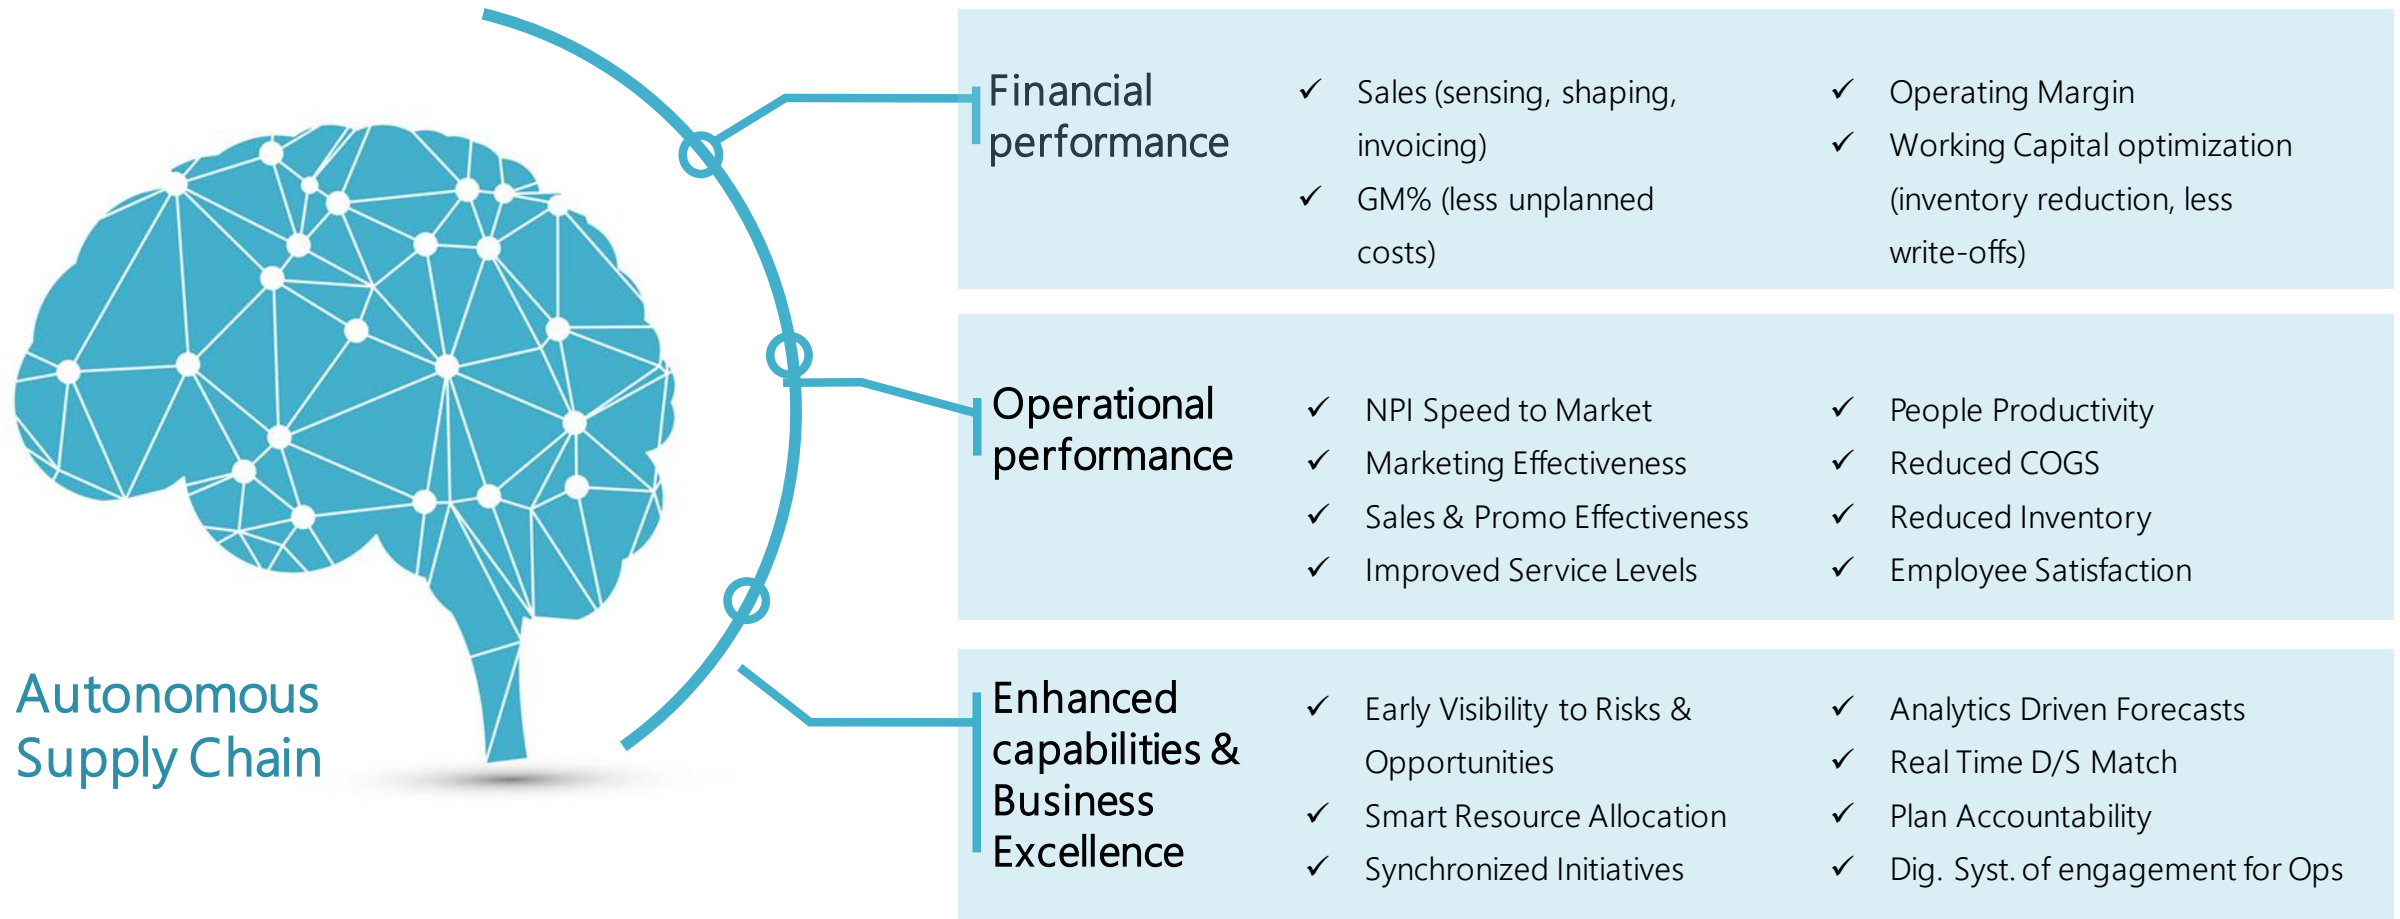

Contextual insights to help answer 3Ws - What happened?, What is likely to happen? What actions to take?

AI-powered demand forecasting more accurate than traditional stat models

Below is the plot of MAPE across 11 weeks for all the algorithms that we tested on a real-world (Retail) dataset. **Final model (Experiment_6)** beats the baseline (Statistical Forecast) by 7%. Additional model tuning holds promise for even larger gains in forecast accuracy.

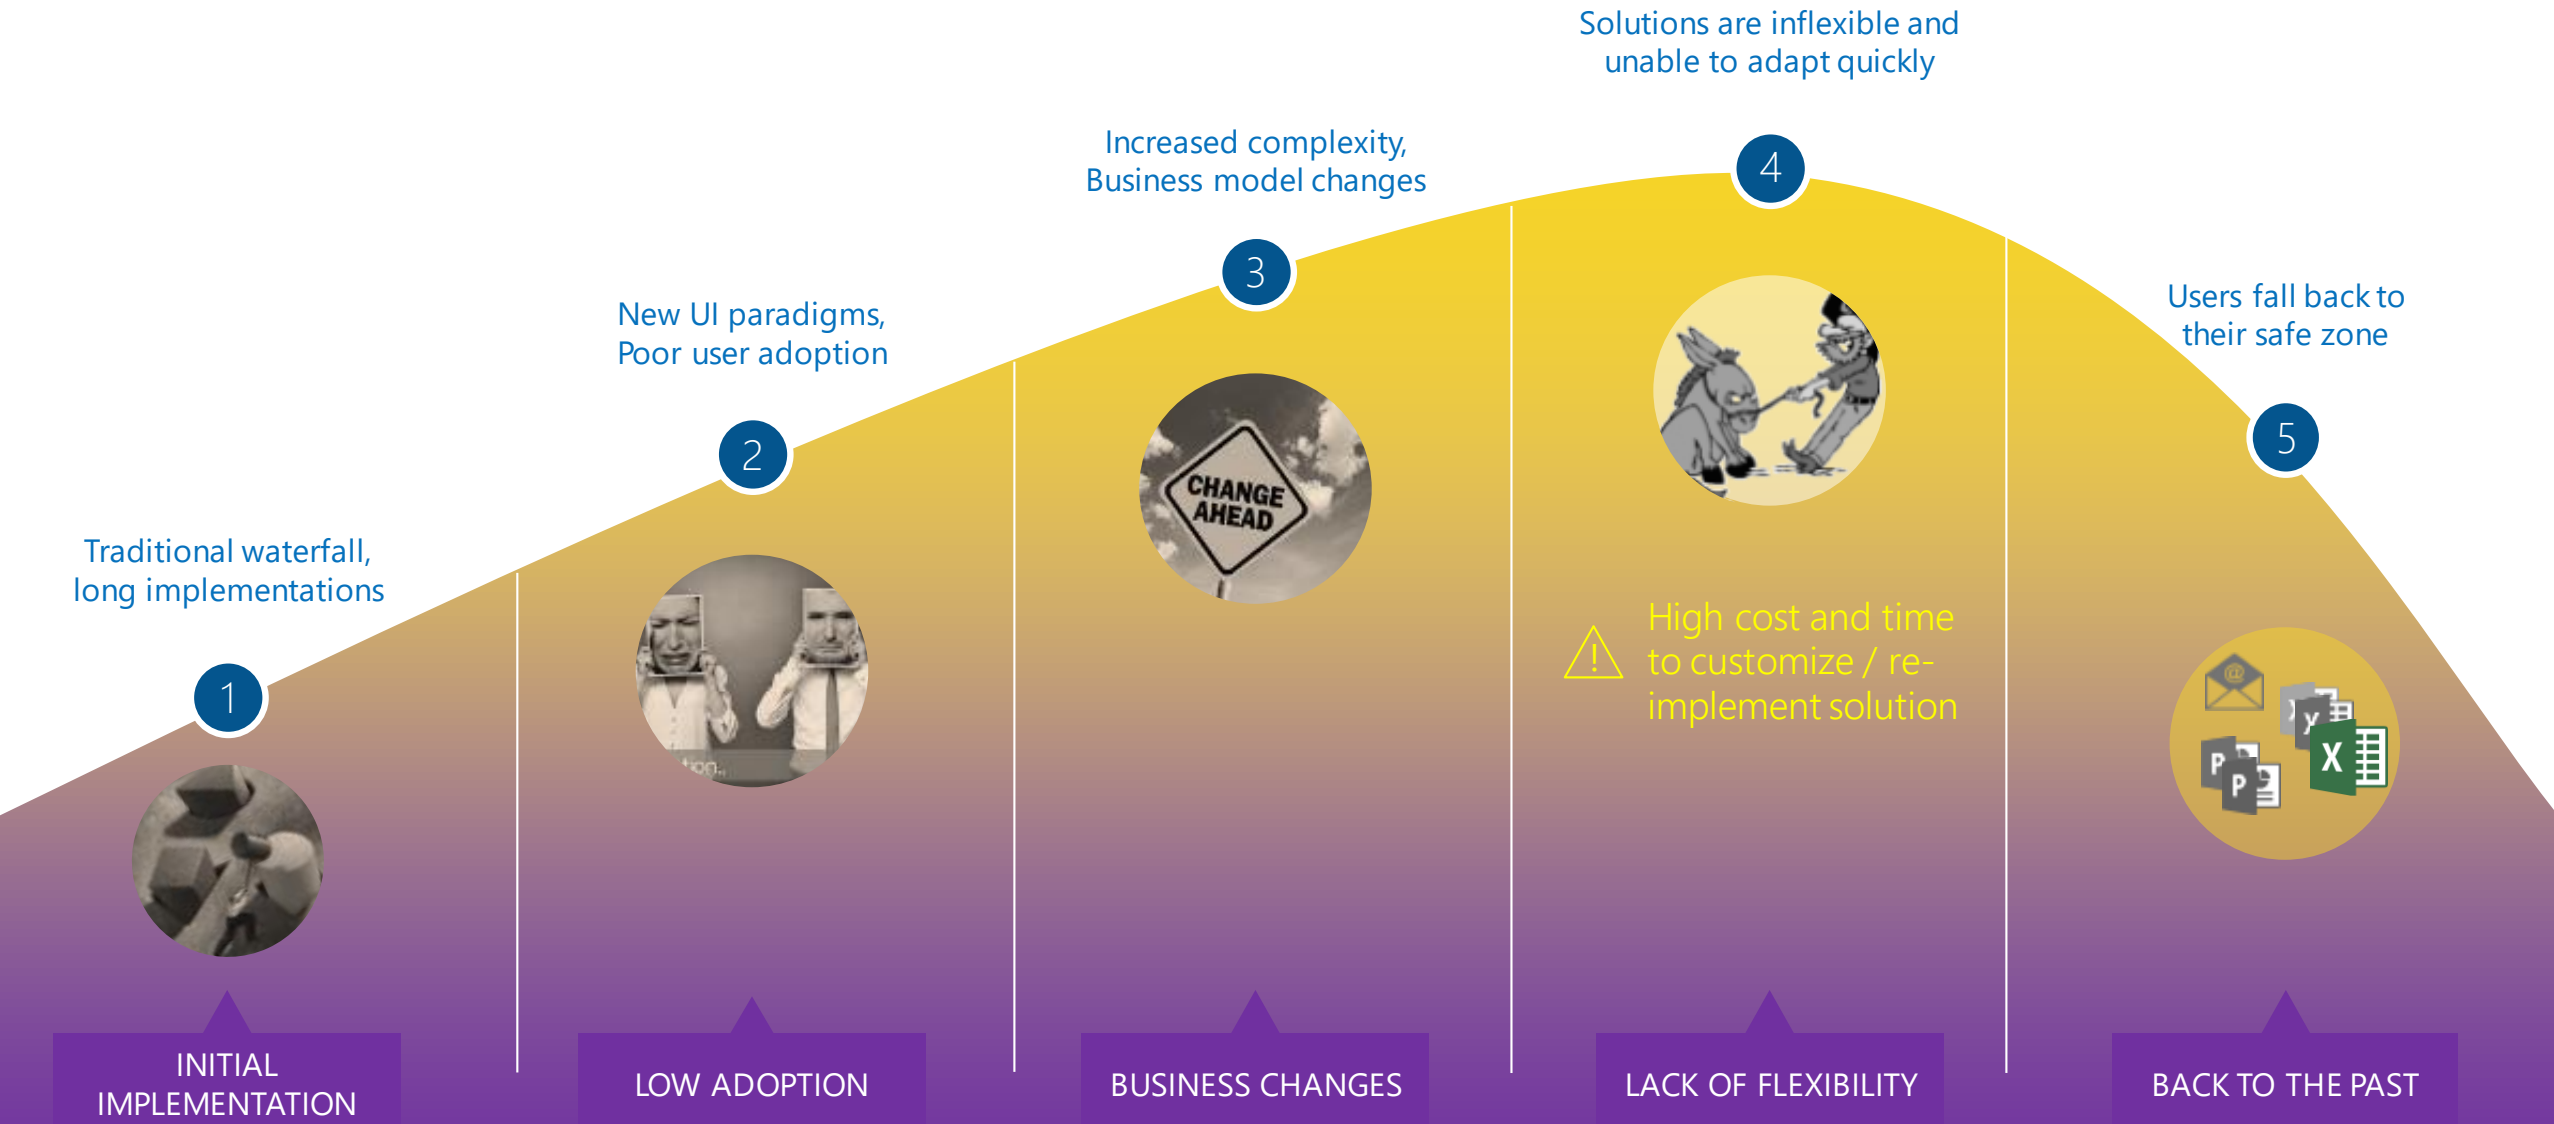

Automating S&OP yields substantial value

A Billion \$ CPG Co is driving >20 Million \$ of incremental operating profit + substantial NWC reduction through digital transformation of planning and operations capabilities

The story of many a planning system implementations

SAP, JDA, Oracle, etc.

Imagine Systems that

Spot Risks and Opportunities Earlier

Predict, Prescribe, and Learn

Connect Planning & Operations in Real Time

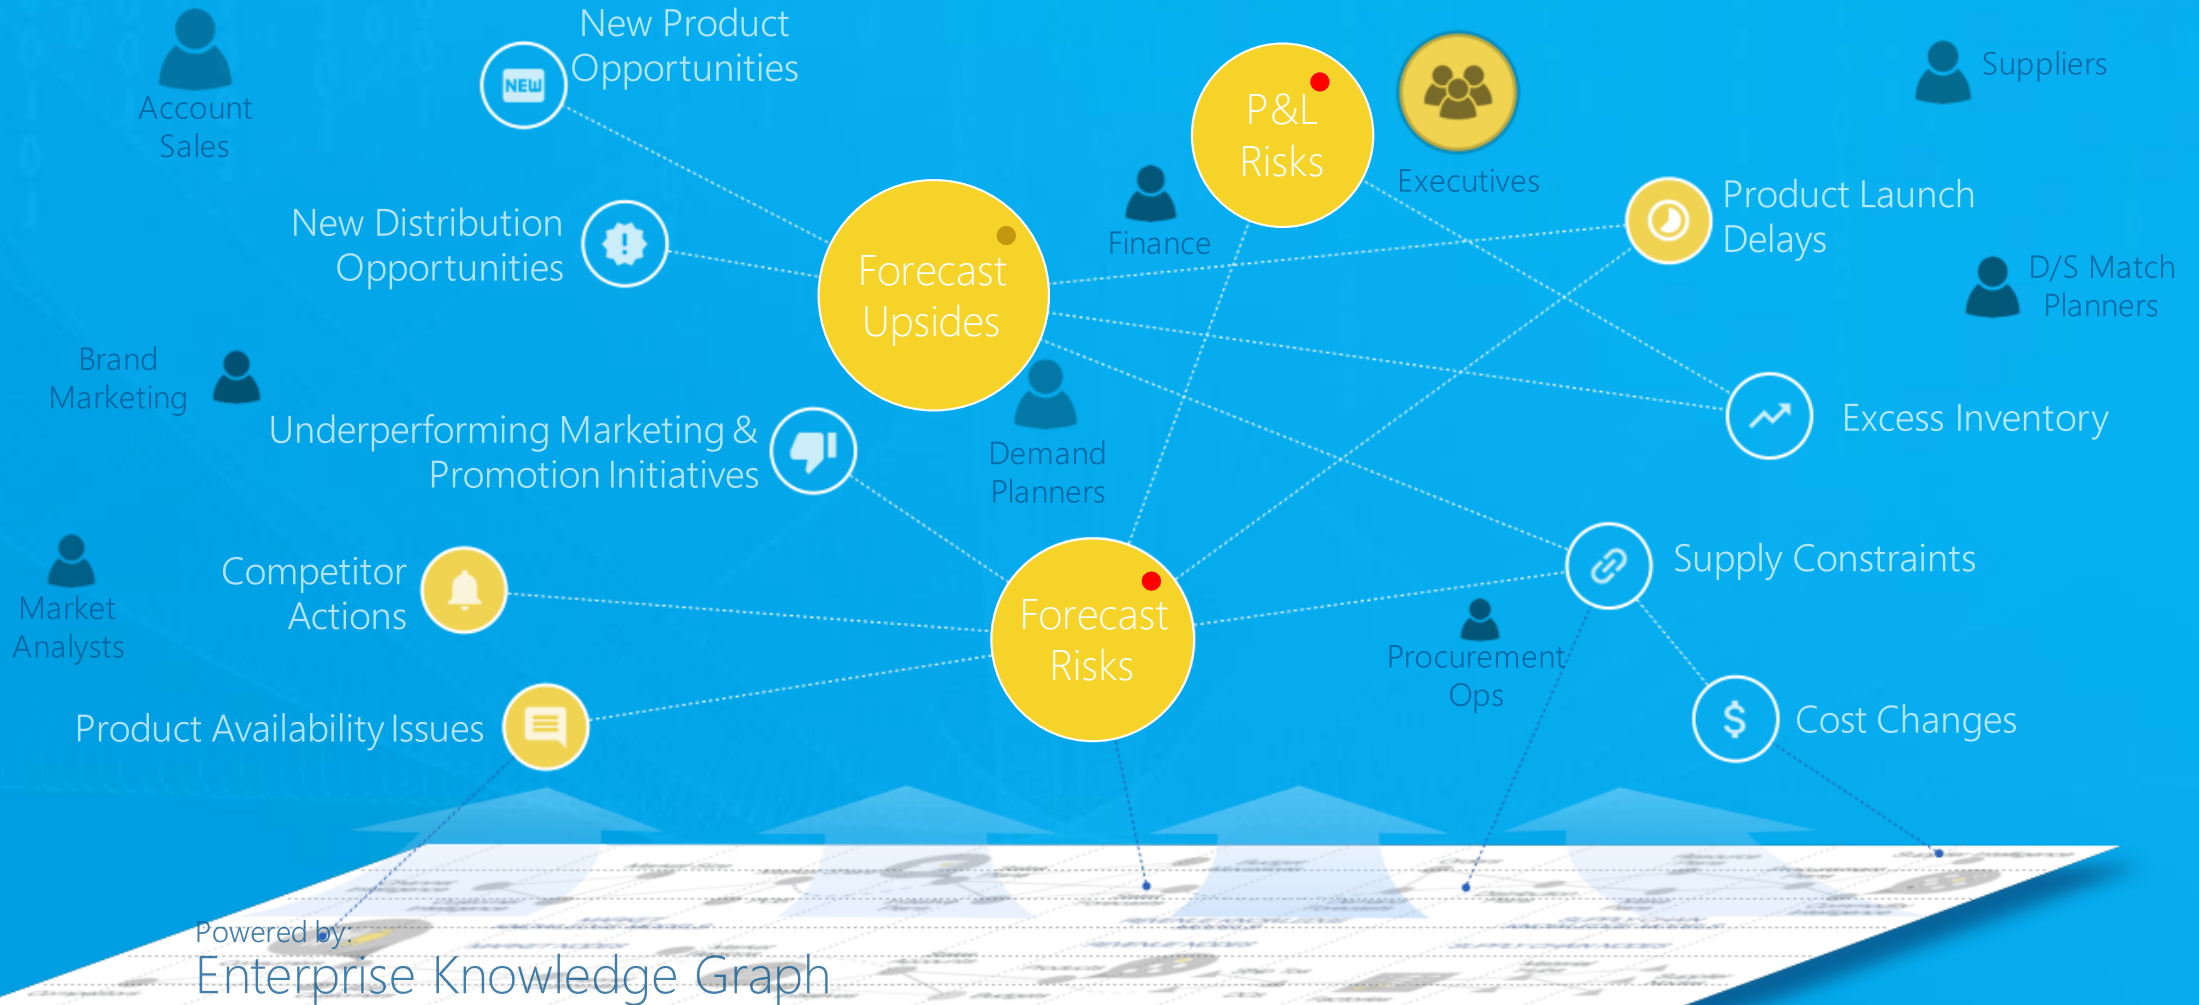

Are Amazingly Simple to Use

Elevate Expertise

Spot Risks & Opportunities Earlier

Combining structured and unstructured data from within and beyond the enterprise, the EKG helps spot demand and supply risks and opportunities much earlier than before

Predict, Prescribe & Learn

Intelligent answers to 3 common management questions

HISTORY

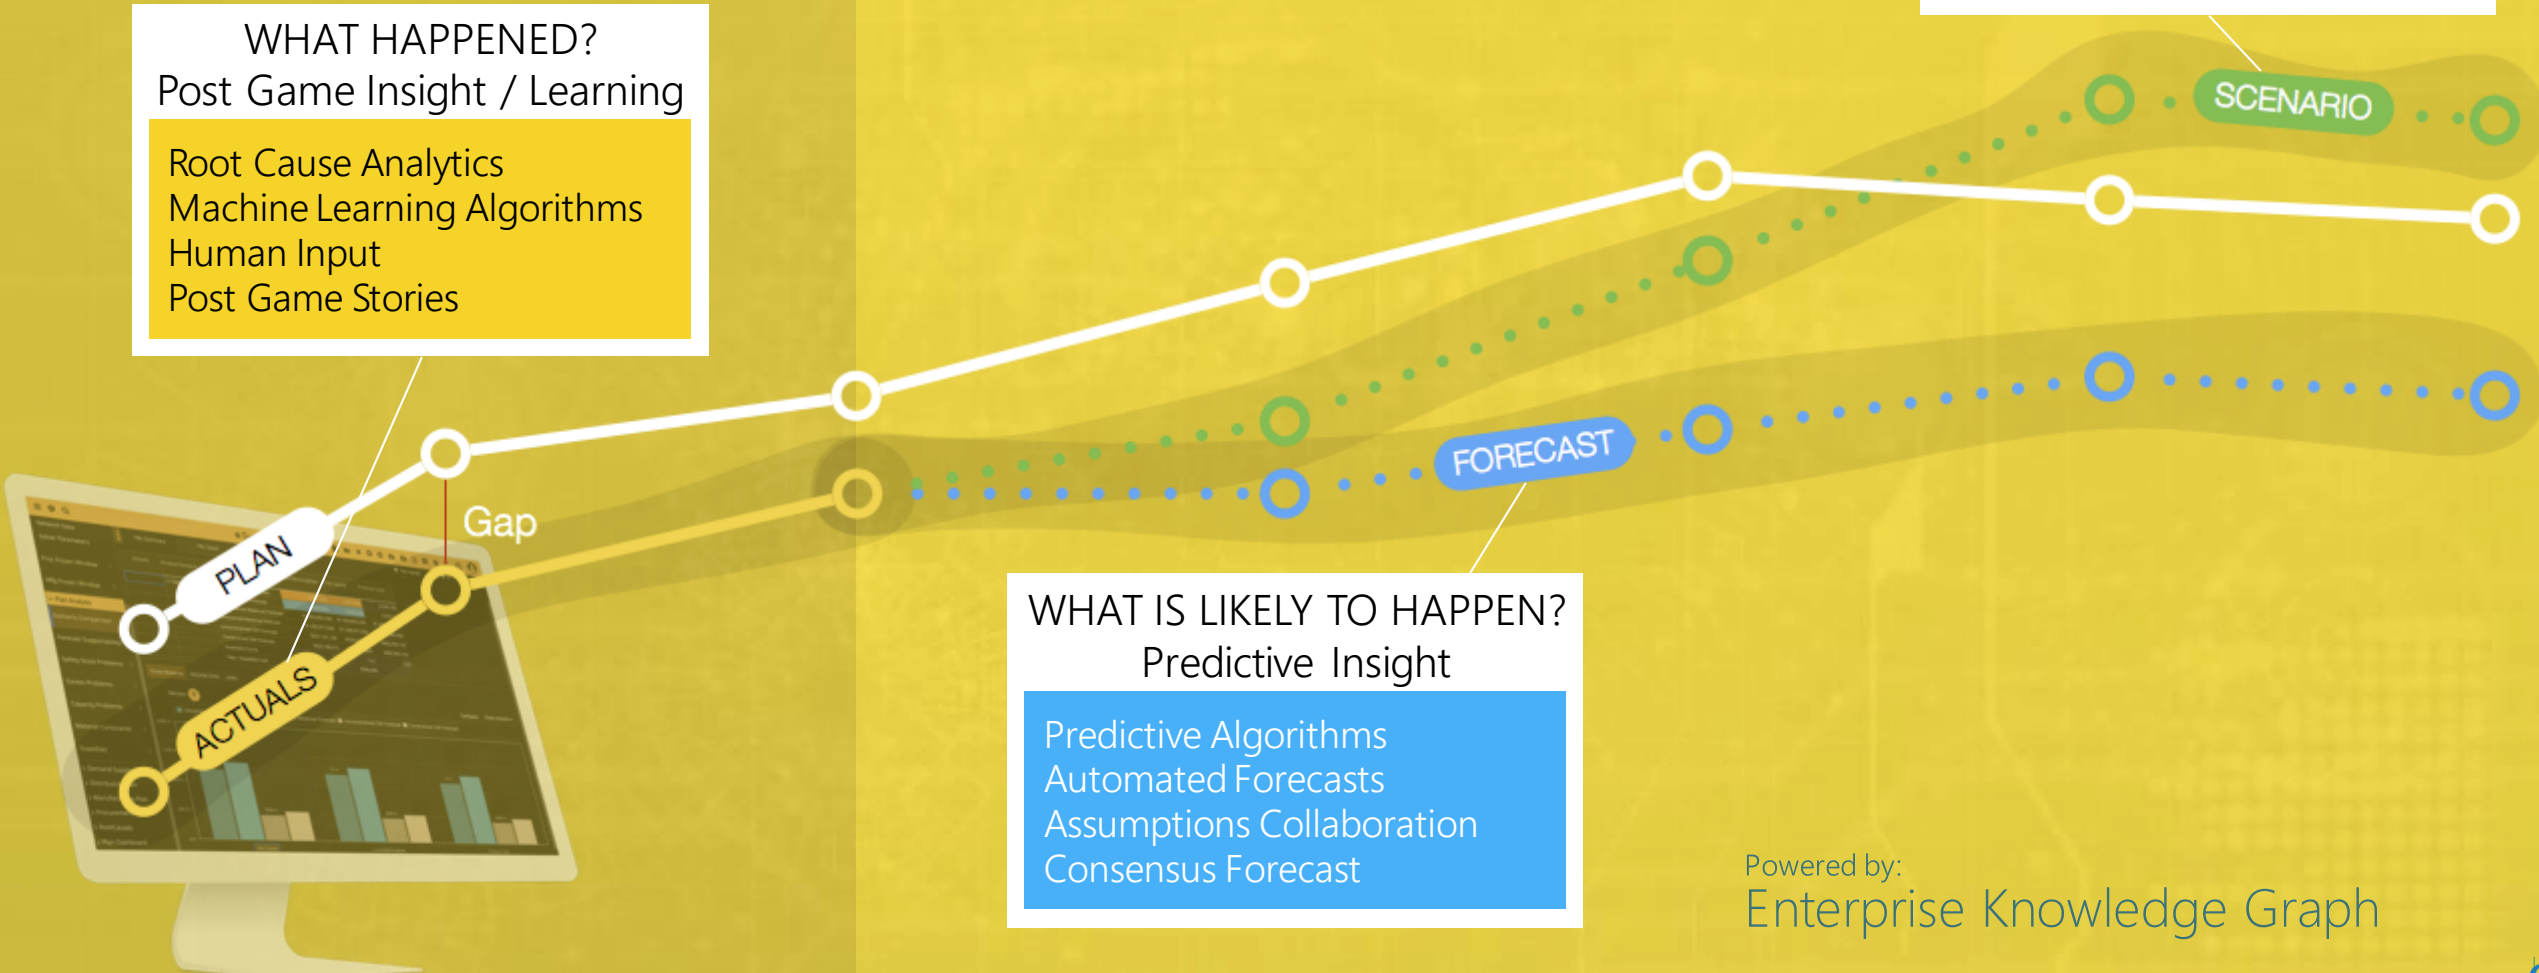

FUTURE

WHAT HAPPENED? Post Game Insight / Learning

- Root Cause Analytics
- Machine Learning Algorithms
- Human Input
- Post Game Stories

WHAT ACTIONS TO TAKE? Prescriptive Insight

- Initiative Playbook
- System Recommended Plays
- Scenario Planning
- Initiative & Resource Allocation Decisions

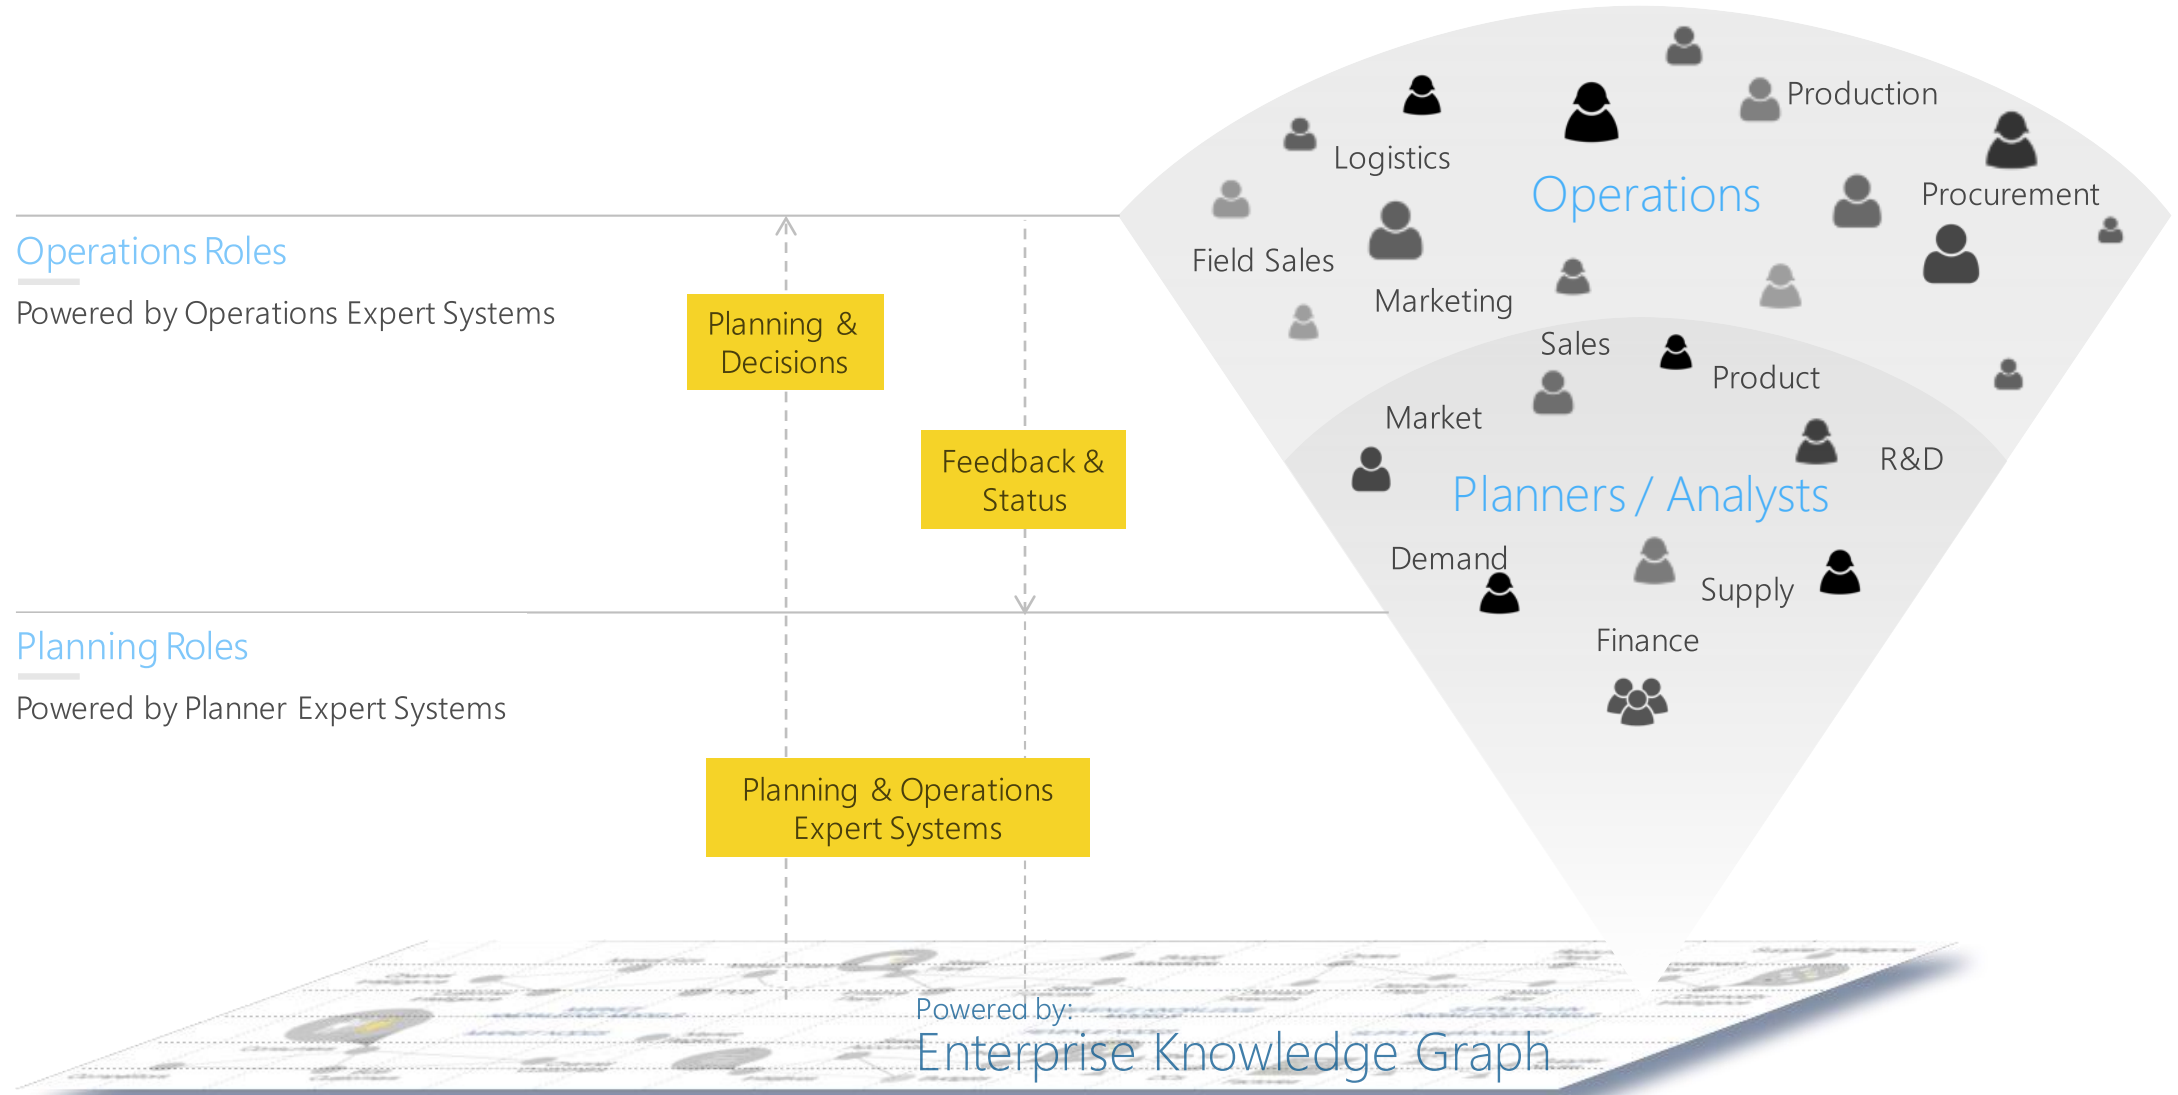

WHAT IS LIKELY TO HAPPEN? Predictive Insight

- Predictive Algorithms
- Automated Forecasts
- Assumptions Collaboration
- Consensus Forecast

Powered by:
Enterprise Knowledge Graph

Connect Planning & Operations in Real Time

Amazingly Simple To Use

Adapts to the way enterprise users work

Excel

Where Planners love to analyze plans daily

Email

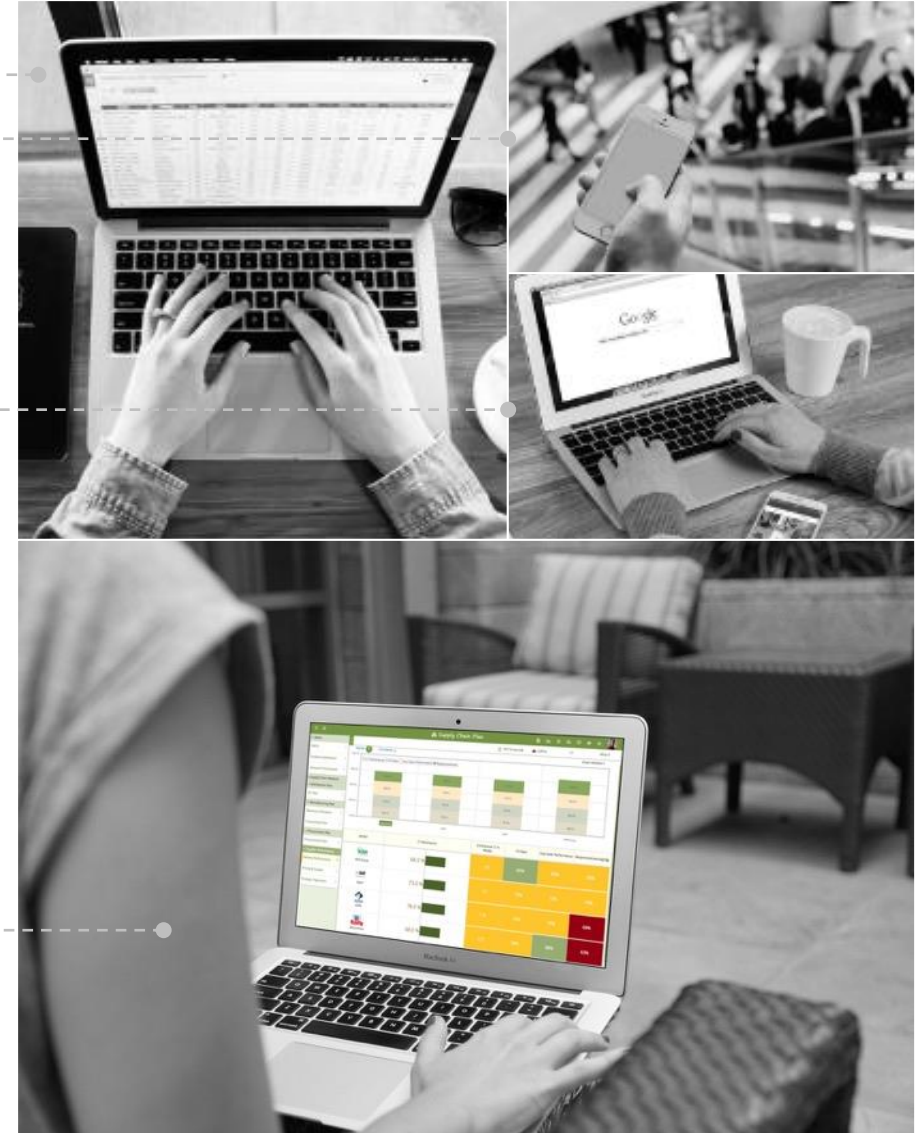

Where we consume and dissipate unstructured data every day

Intuitive Applications

Where we use powerful, yet simple Google-like applications every day

o9 is Designed for All Enterprise Users

Our EKG is designed to empower enterprise users to continue using existing systems of engagement, thereby driving higher adoption

Successful SC digital transformations create value:

Value Creation Levers	Operational Drivers	Value Creation Range*	VC for YOU?
SALES INCREASE	DEMAND SHAPING INITIATIVE EFFECTIVENESS - Marketing & Promo Effectiveness - NPI Hit Rates - Sales Effectiveness	1-3% of Sales	...
	DELIVERY SERVICE LEVELS - Improved OTIF Service - Improved Order Visibility - Faster Response to Demand Change Requests - Better allocation of constrained supply to high priority demand	.25-1% of Sales	...
COGS REDUCTION	MATERIAL COST - Improved visibility, reliable signals to suppliers and CMs, better negotiation ; - Improved flex buys based on forward visibility into supplier constraints - Consolidation across products into supply/CM base	.25-1% of Material cost	...
	FLEX MANUFACTURING COST Reduction in flex/non-standard manufacturing cost	25-50% of Flex/Overtime cost	...
	EXPEDITE/FLEX LOGISTICS COST - Reduction in expediting - Improved flex buys of logistics capacity based on forward visibility	25-50% of Expedite cost	...
	OBSOLESCENCE Reduction in inventory write downs due to better planning of NPIs/Engineering change transitions	20-50% of Inventory write off	...
INVENTORY REDUCTION	INVENTORY Reduction in excess inventory through better planning, demand shaping, Inventory optimization	20-40% of excess inventory	...
PRODUCTIVITY & RESOURCE ALLOCATION	- Scale business with same or reduced number of staff - Focus high value-add tasks with automation and AI	25%-50% in planning org	...

*Based on i2/o9 experience and market research evidence

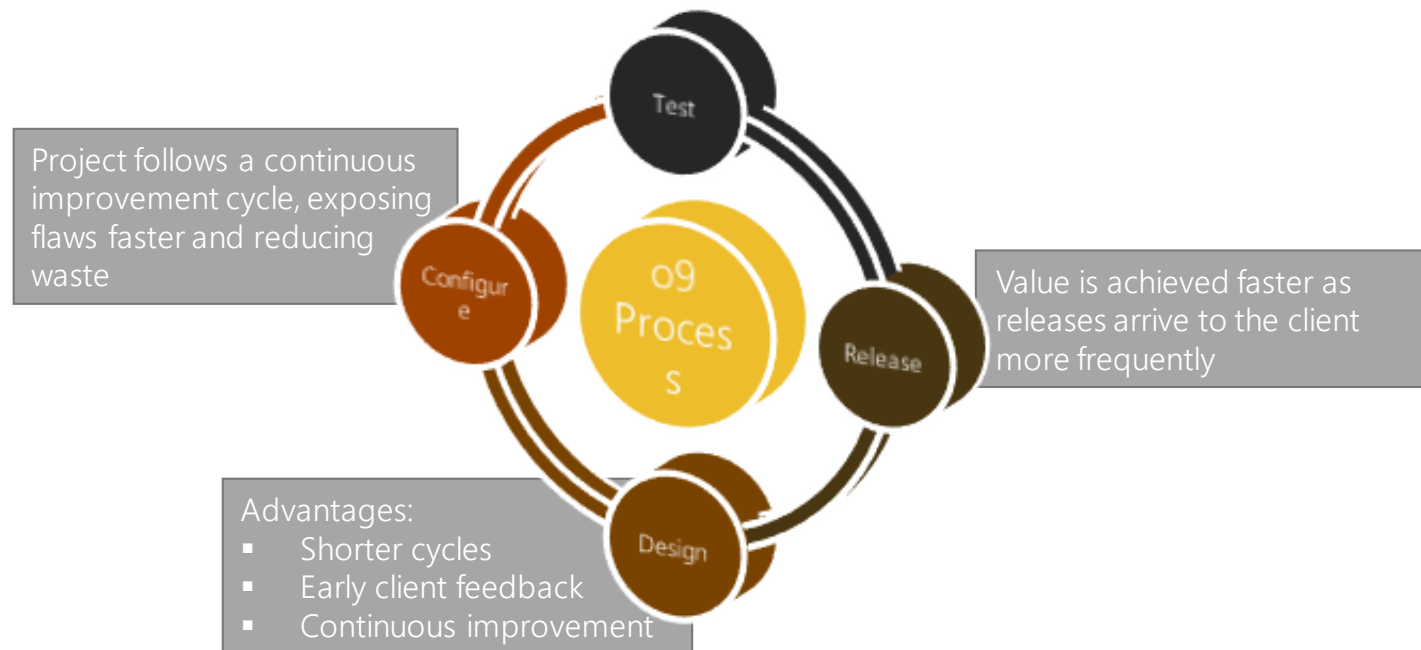

Why o9's Engagement Model delivers accelerated time to value

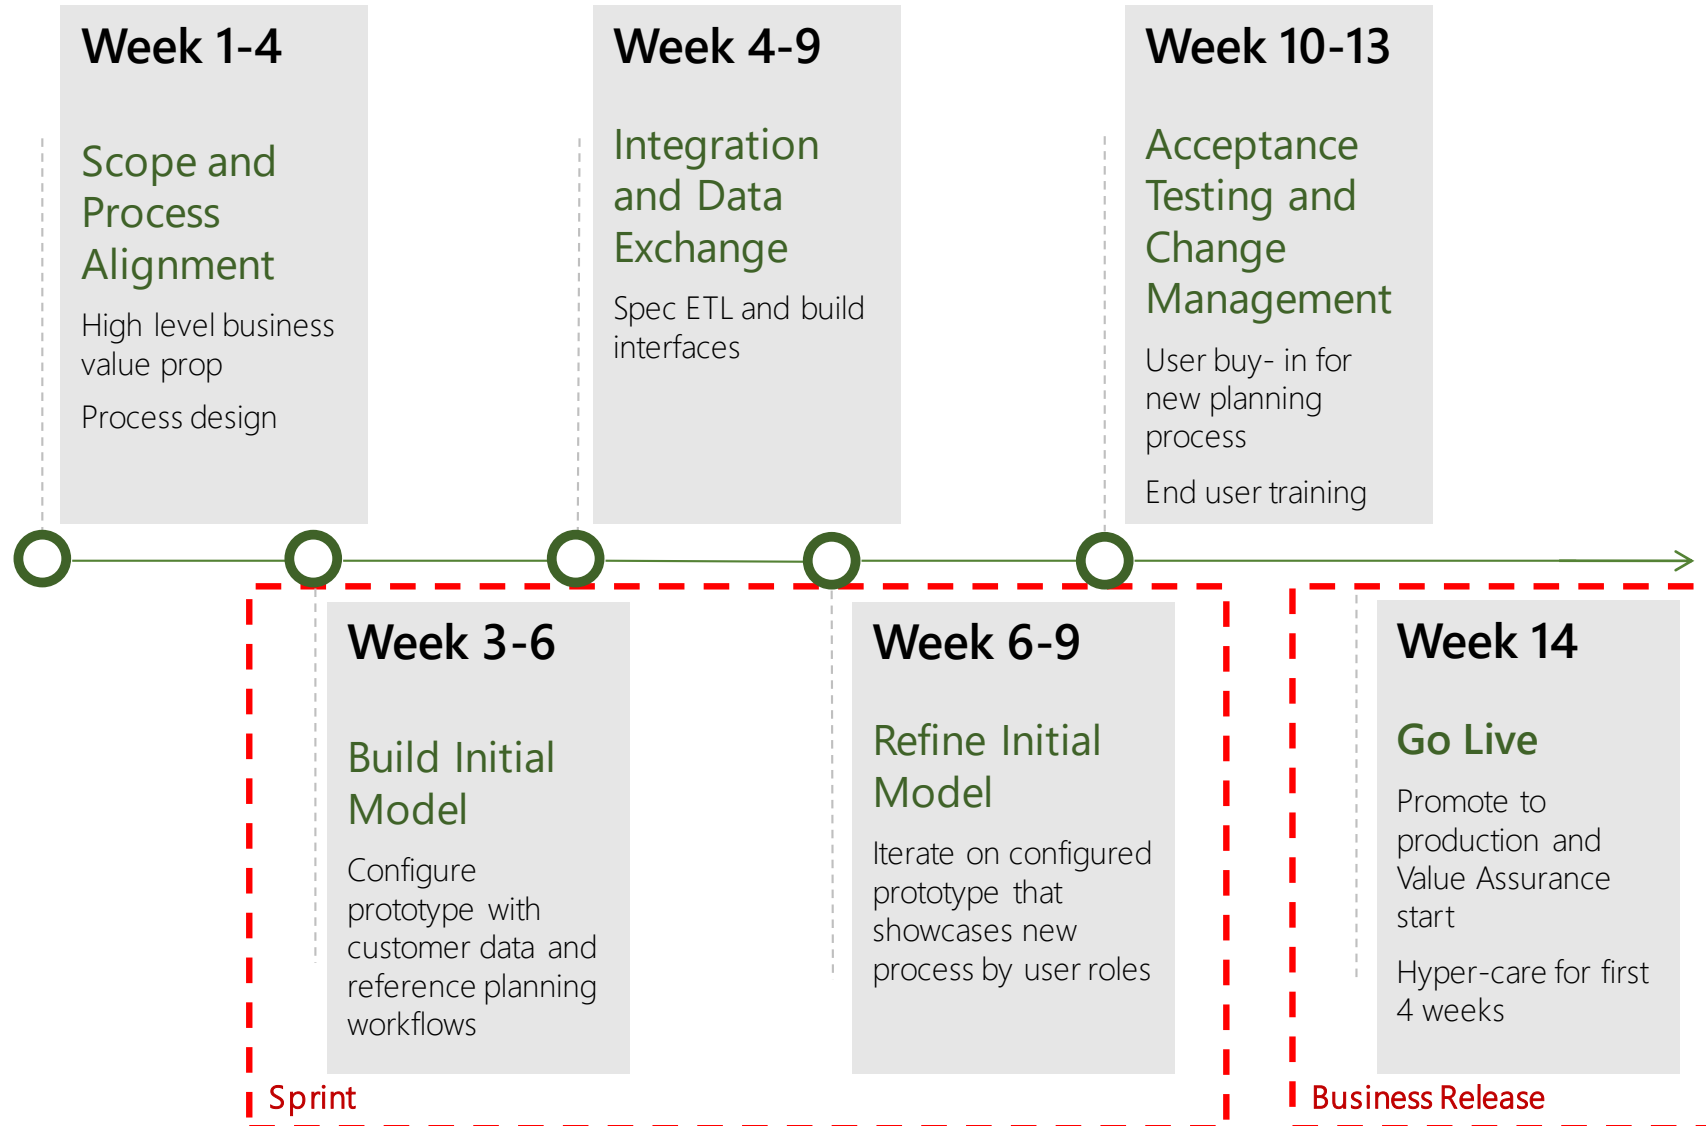

Implementation Methodology

Agile and Business Releases

- The full initiative is broken down into 12-14 weeks long Business Releases
- Each Business Release comprises interactive iterations with business teams
- Each Business Release targets and delivers quantifiable business value

High Level Business Release Schedule

Innovation Culture

Innovation Hub

World Class People, World Class Facilities
