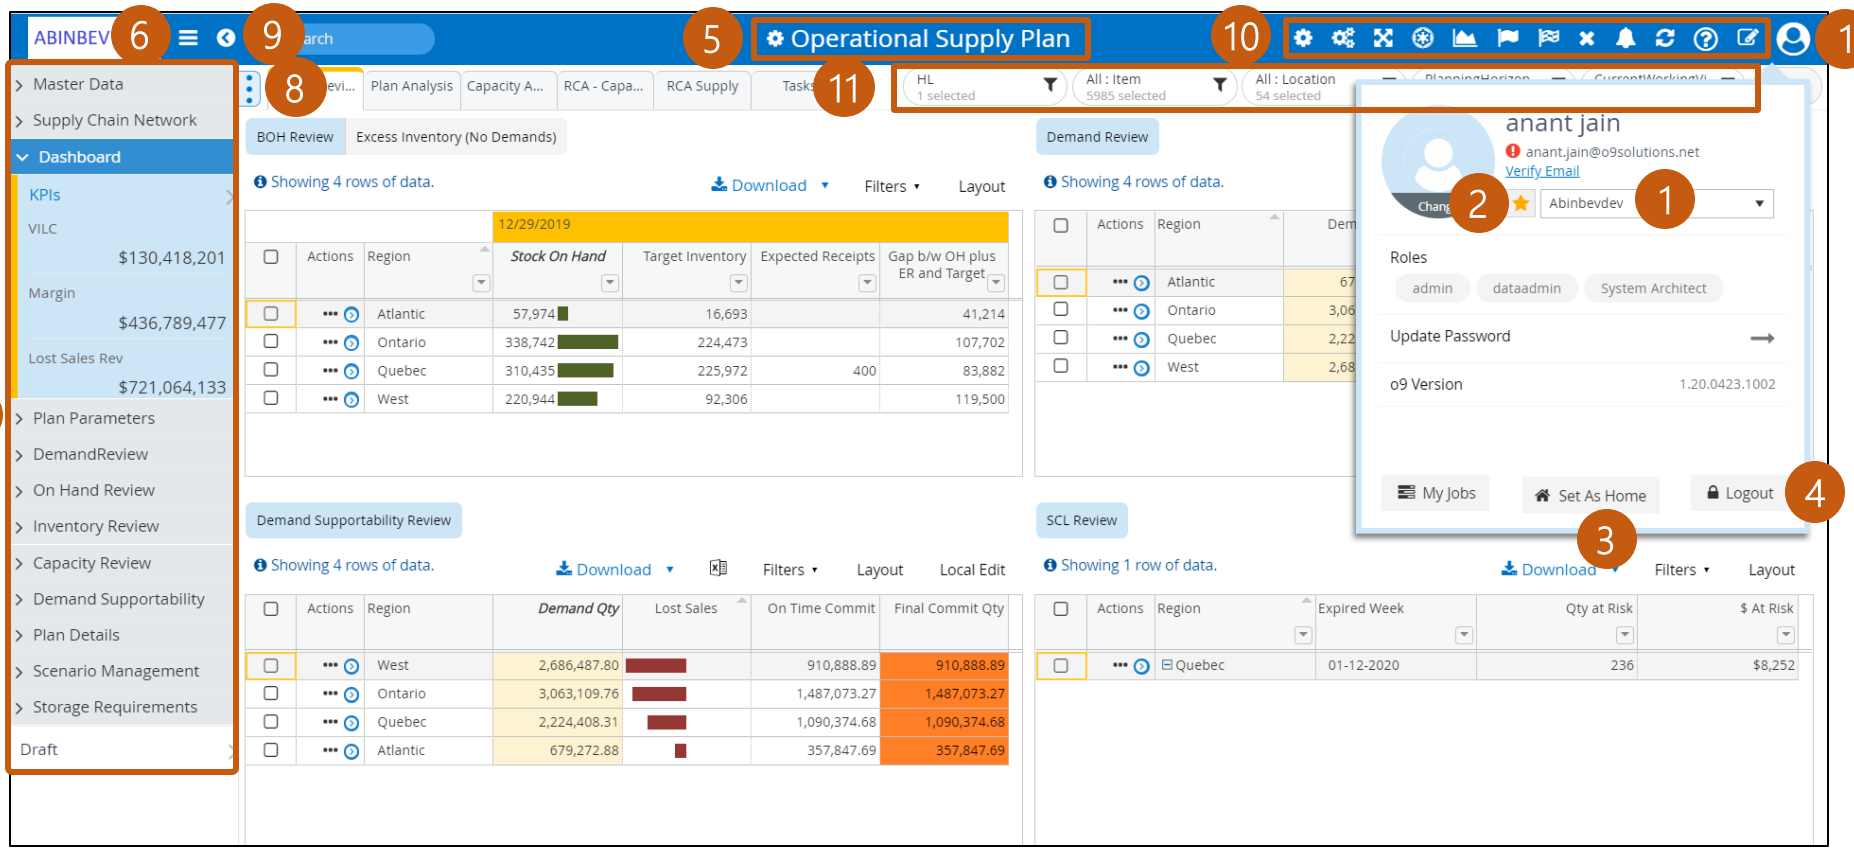
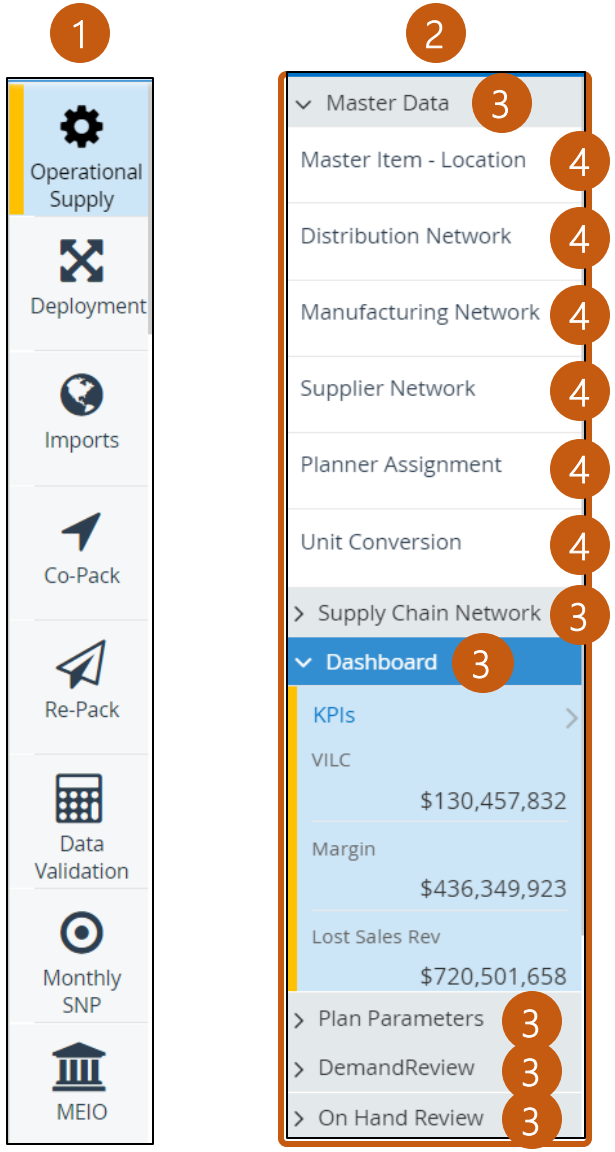
# Landing Page, Tenant Selection and General Navigation

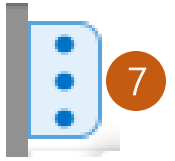


The first page that comes up is known as the Landing Page or home
Step 1: Click on the person icon (My Profile) and select the required tenant
Step 2: Select the star icon if this is the tenant that should come up by default
Step 3: Ability to select the page as the Landing Page or home screen
4: UI logout button
5. Workspace Name
6: Workspace icon
7: Navigation Panel
8: Navigation Panel expand or contract
9: Go back to the previous page
10: Global Action Buttons
11. Global Page Filters

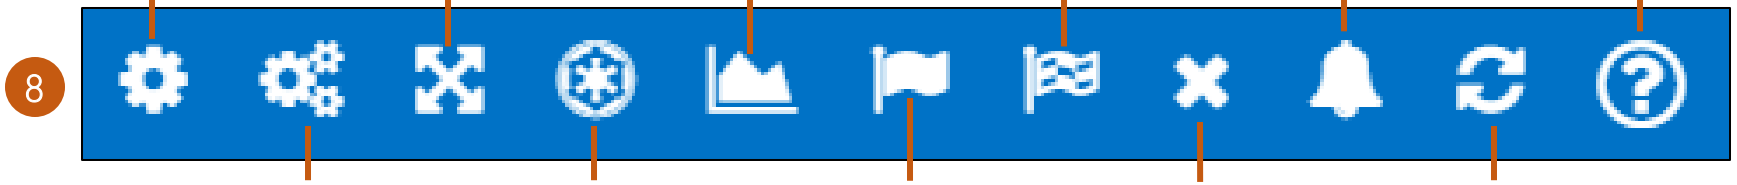
o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# General Navigation Icon Details





1: Workspaces
2: Navigation Panel
3: Page Group
4: Page
5: Workspace icon
6: Go back to the previous page
7: Navigation Panel expand or contract
8: Global Action Buttons



**Weekly Userdefined Bands**
Enables the user to run the weekly plan with capacity bands defined by the planner

**Daily Plan Run**
Enables the user to run the daily plan

**Create Working Scenario**
Enables the user to create a scenario

**Publish Final Weekly Plan**
Enables a user to publish a scenario as the final weekly plan

**Notifications**
Highlights to users any notifications, updates, changes in the platform

**Help**
includes documents and user guides that provides information on the user interface and solution

**Weekly Auto Bands**
Enables the user to run the weekly plan with capacity bands defined by the solver

**Weekly Network Creation**
Enables the user to recreate the network based on any changes in lanes

**Publish Final Daily Plan**
Enables a user to publish a scenario as the final daily plan

**Delete Working Scenario**
Enables the user to delete a scenario

**Refresh data**
Enables the user to refresh the data that is displayed on the screen

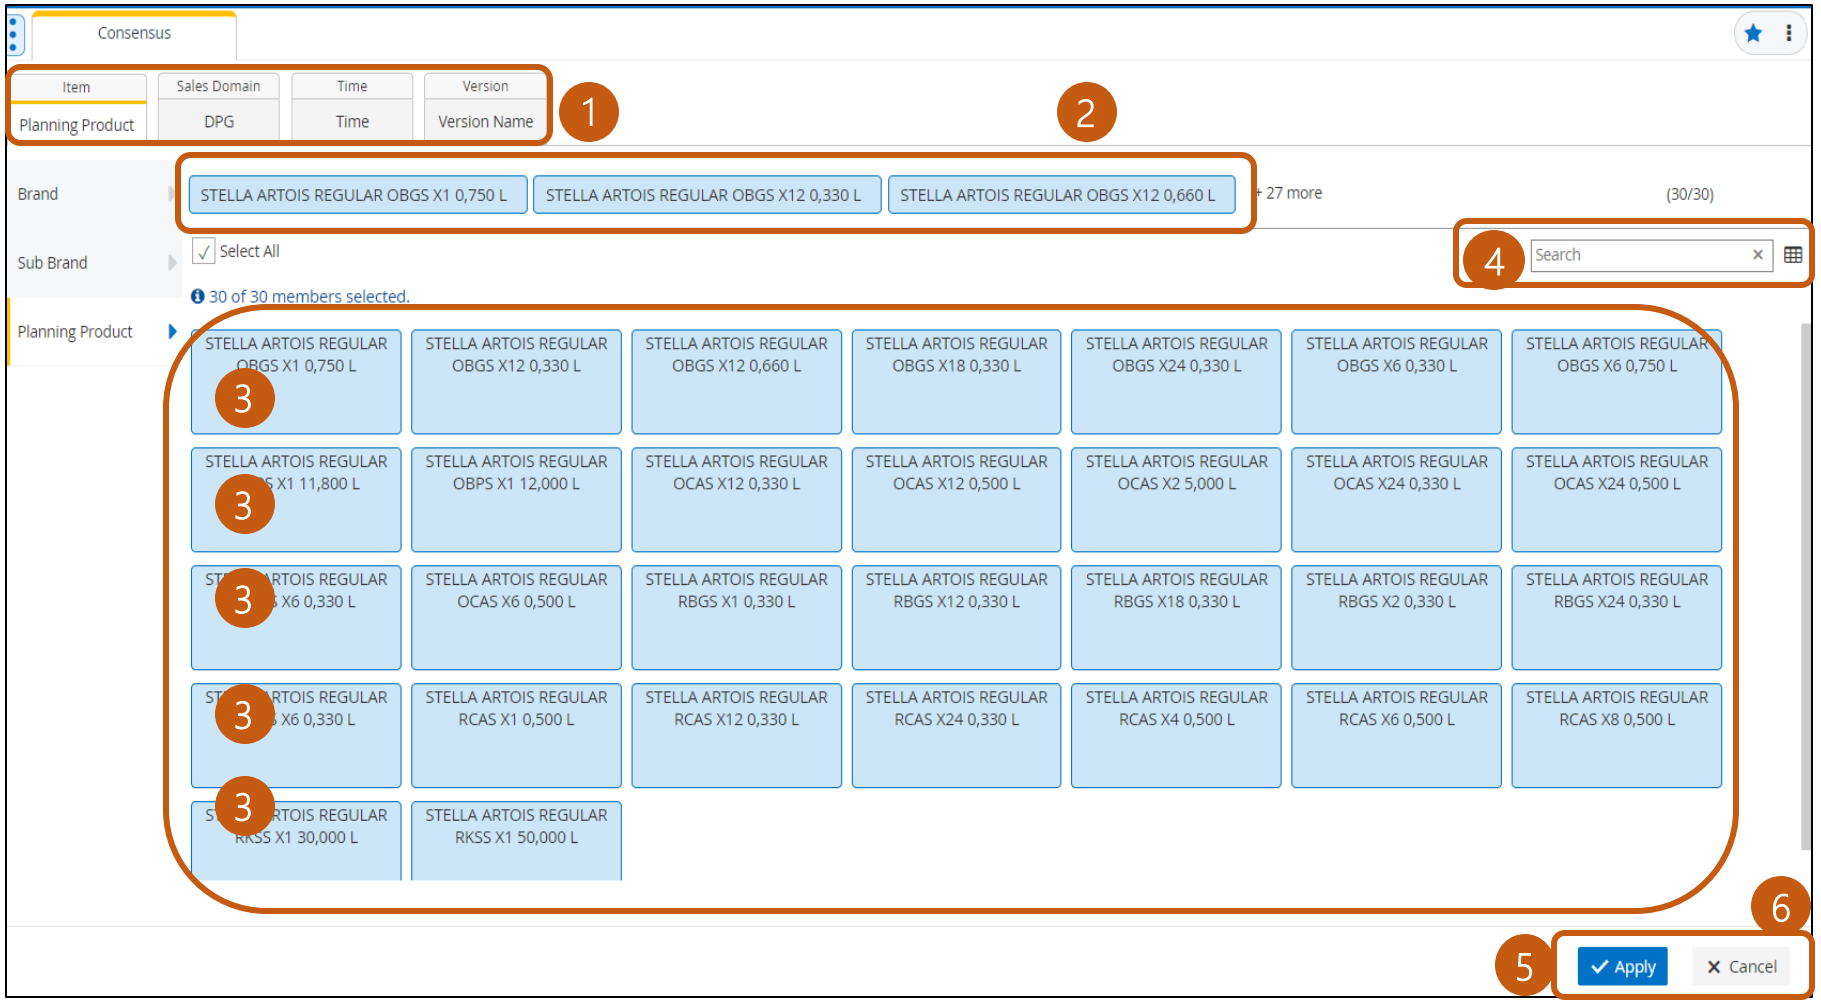
# Page Views and Filters

1: Main Page View
2: Navigation Tabs to select the desired UI/View for the user
3: Linked UI, ability to change the time dimension to see different trends
4: Filters to set Item, Location and Time
5: Download button to download the data in Excel format
6: Bulk Edit
7: Filters to add or remove
8: Layout button to show/hide more data

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

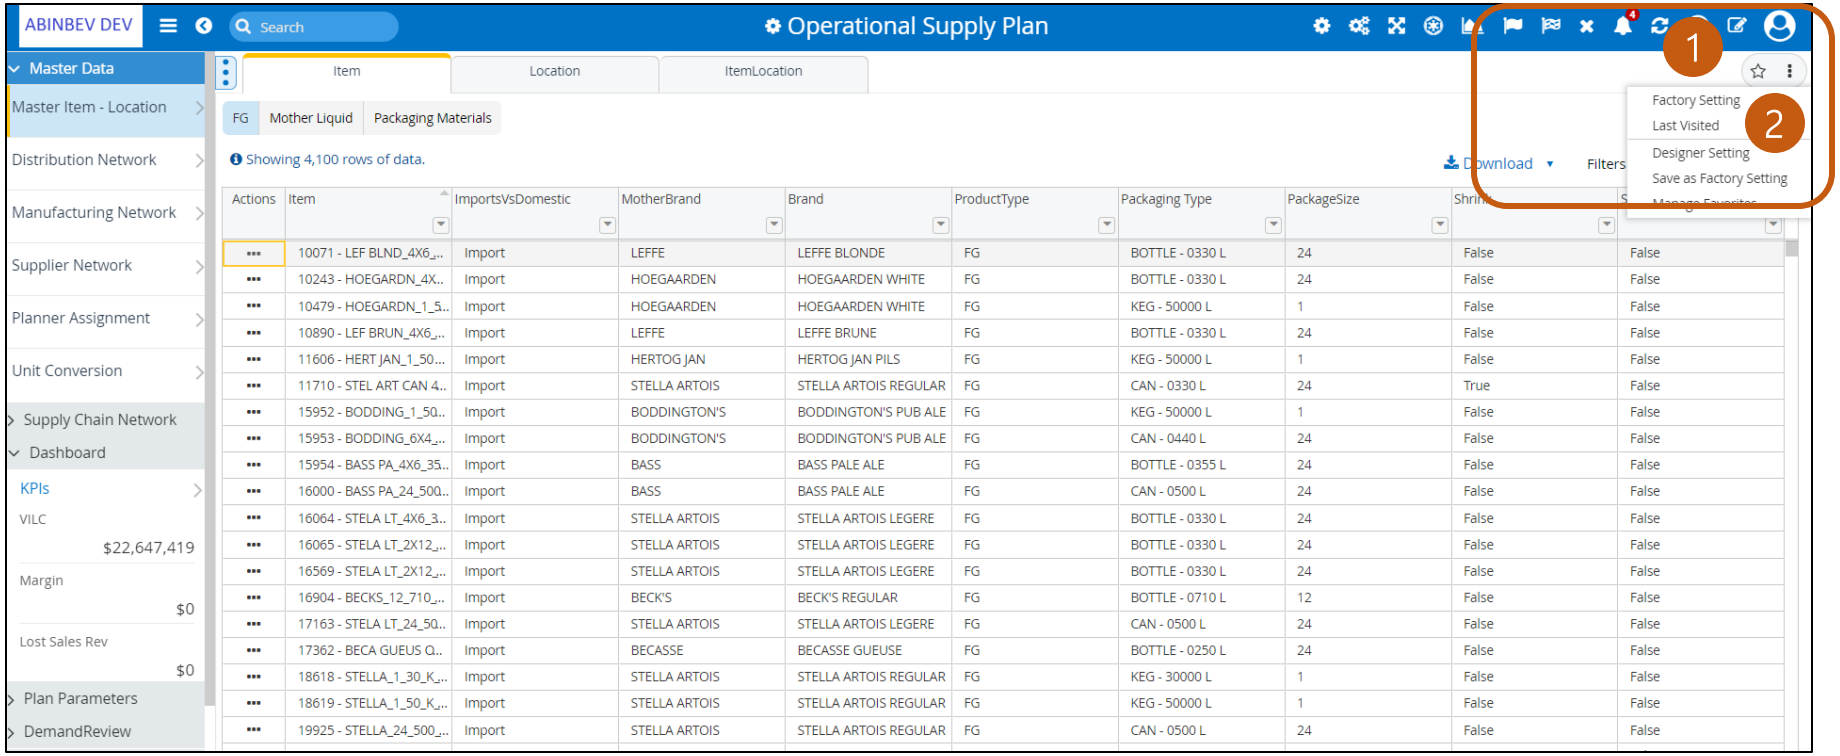
# Filter Change



1: Filter View associated with the page
2: Filter selection Criteria
3: Filter items by selecting/ de-selecting
4: Search Items
5: Apply the changes
6: Cancel, reverts changes and goes back to the default view

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

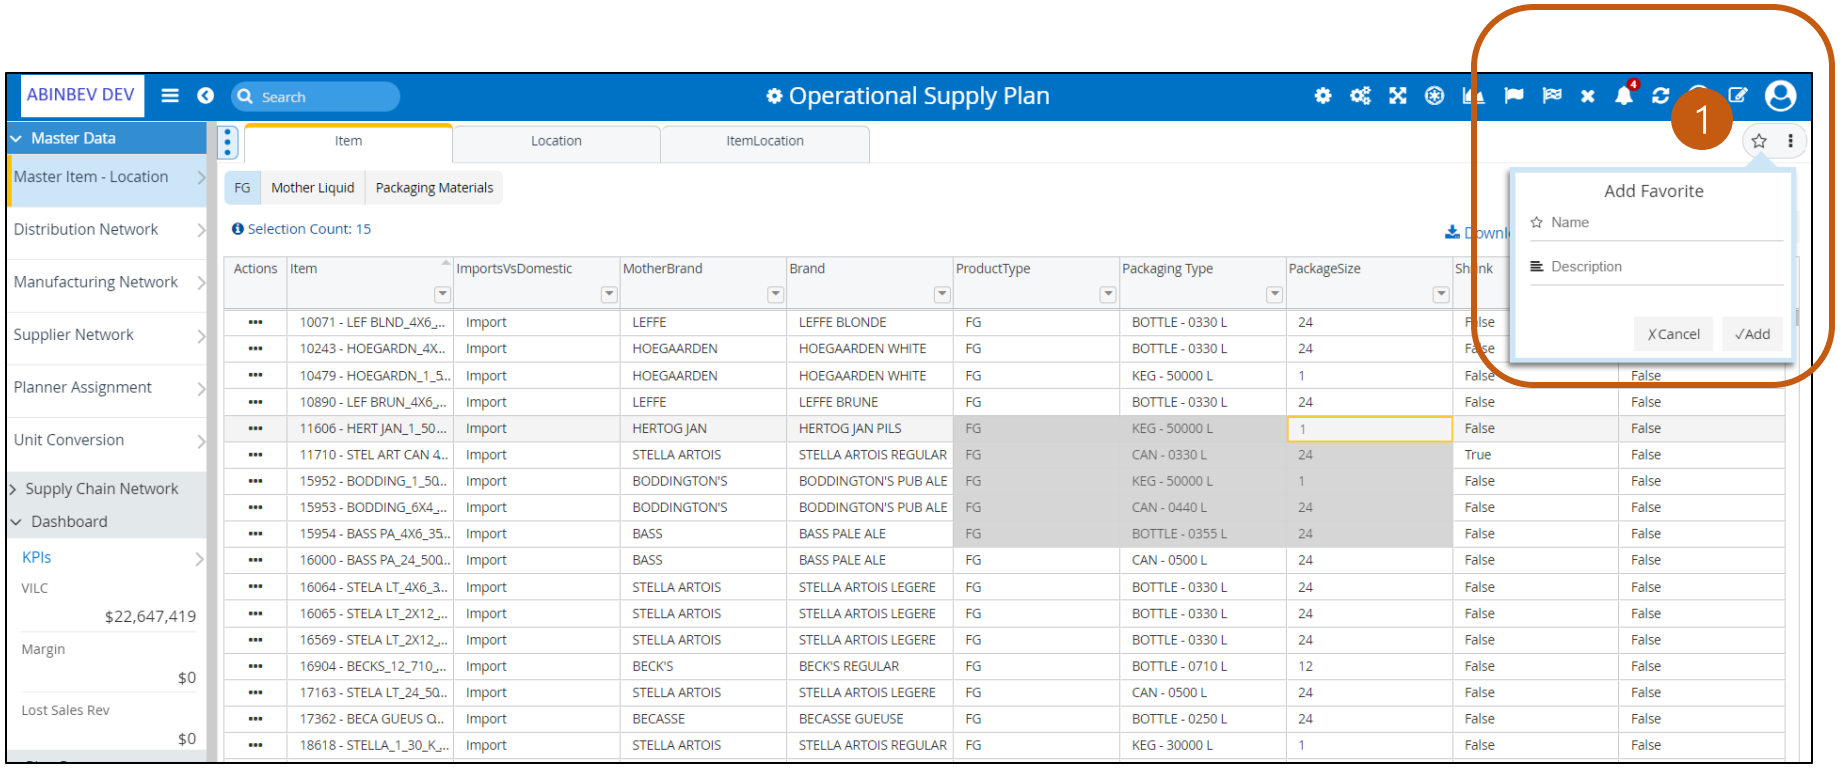
# Last Visited Setting



1: Click on the 3 dots next to the star in any view
2: Select Last Visited
This brings up the last visited UI with all the same filters

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

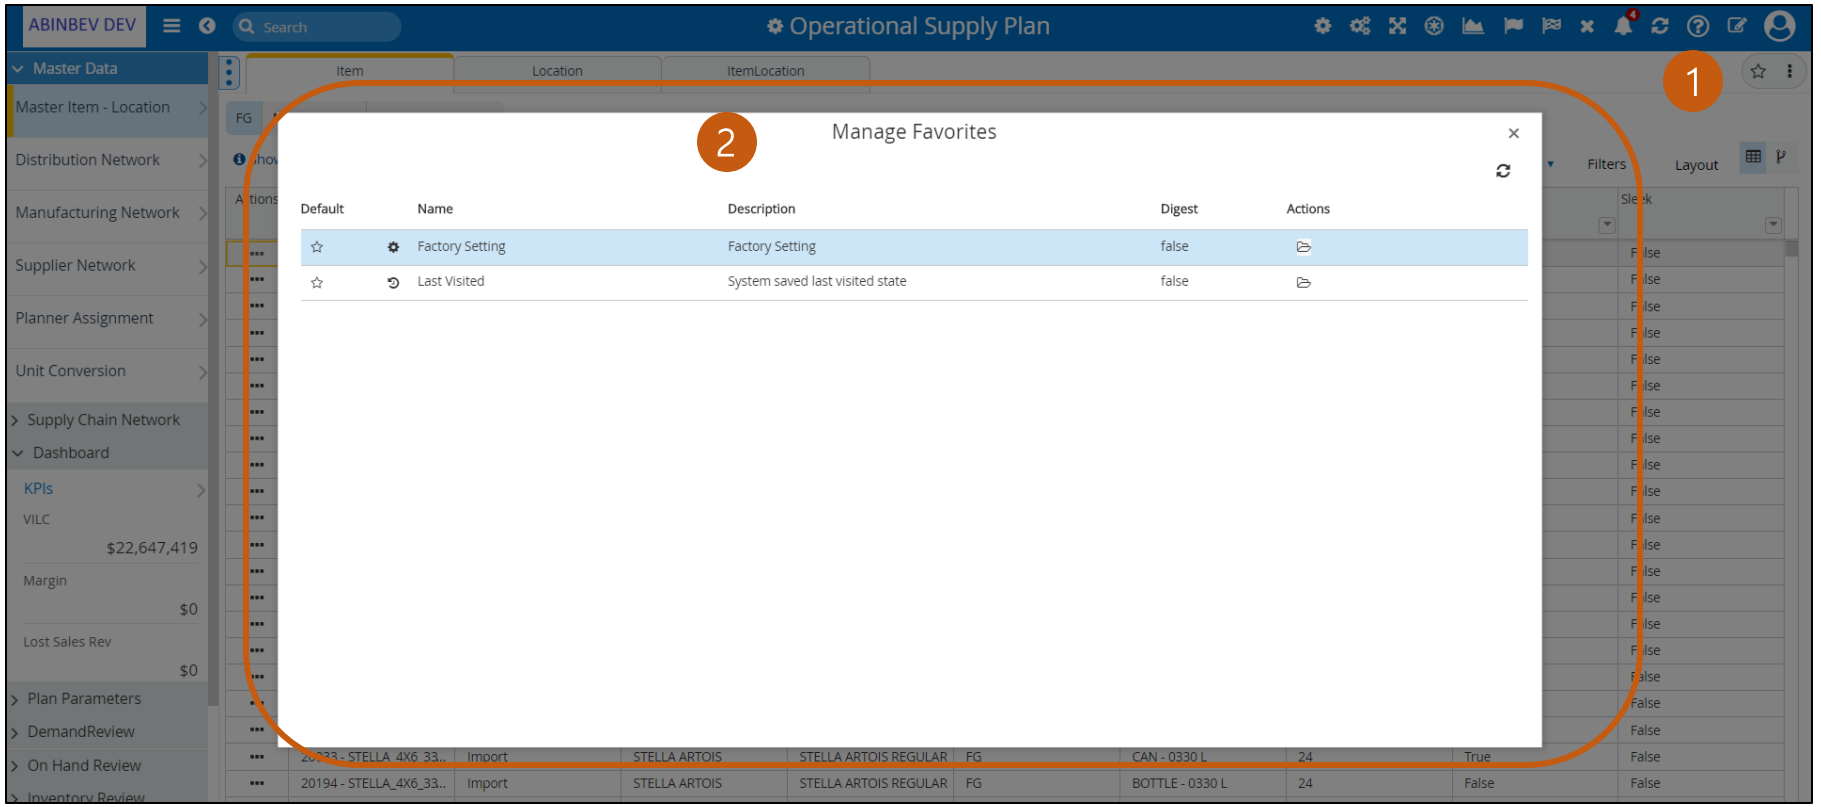
# Adding a Favorite



1: Click on the star in the top-right corner
Add name and description to the favorite view
Add this view to the saved favorites
Cancel the view

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Managing and Deleting Favorites



1: Click on the 3 dots next to the star in any view
-Select Manage Favorites
2: This brings up the pop-up box which shows all the saved favorites
- Hover around the Actions bar to open , edit, share or delete the favorite.

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Management - Working Scenarios

1: Navigation Panel, Scenario management
2: UI's of present scenarios
3: Action Button to create a working scenario (refer to slide 14 for icon legend)
4: Dialog box appears
5: Give a working scenario name
6: Select the Seed version
7: Action button to submit request
8: Find created and other scenarios in the top right filter button

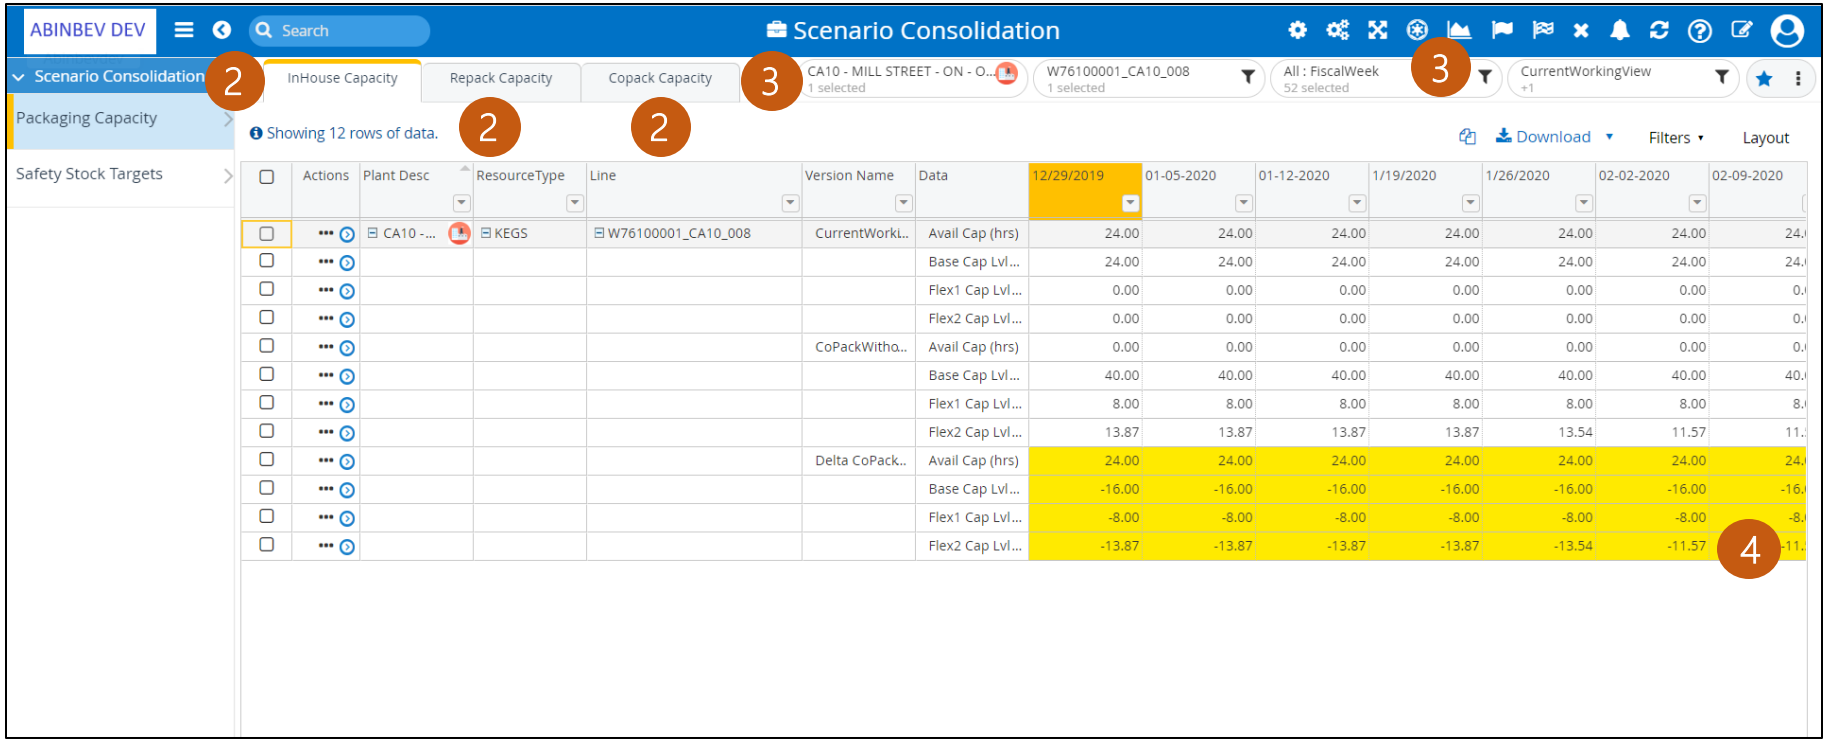
o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Management - Deleting Scenario

1: Navigation Panel, Scenario management
2: UI's of present scenarios
3: Action Button to delete working scenario (refer to slide 14 for icon legend)
4: Dialog box appears
5: Select the scenario to be deleted
6: Action button to submit request
7: Check on the scenarios

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

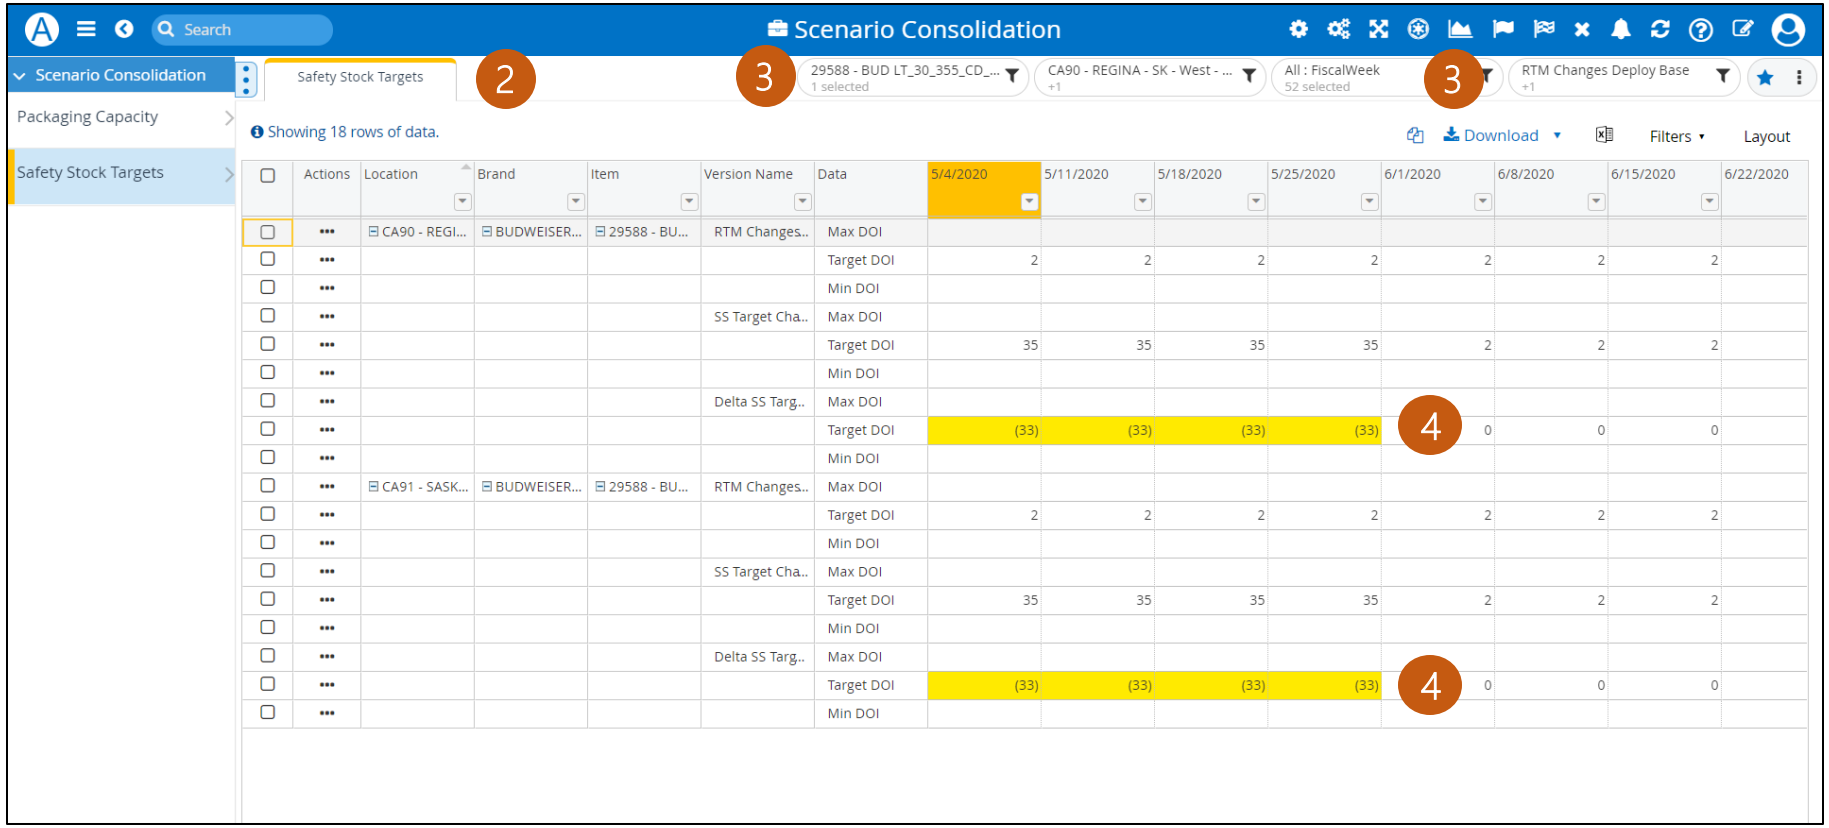
# Scenario Consolidation – Packaging Capacity



1: Scenario Consolidation, Packaging Capacity
2: Navigation tabs for Inhouse, co-pack and repack
3: Filters to filter on items, location and scenarios
4: Parameter values which are different between the scenarios are highlighted in yellow

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Consolidation – Safety Stock Targets



1: Scenario Consolidation, Safety stock targets
2: UI's of safety stock targets
3: Filters to filter on items, location and scenarios
4: Parameter values which are different between the scenarios are highlighted in yellow

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Work Instructions for Weekly Supply Planner

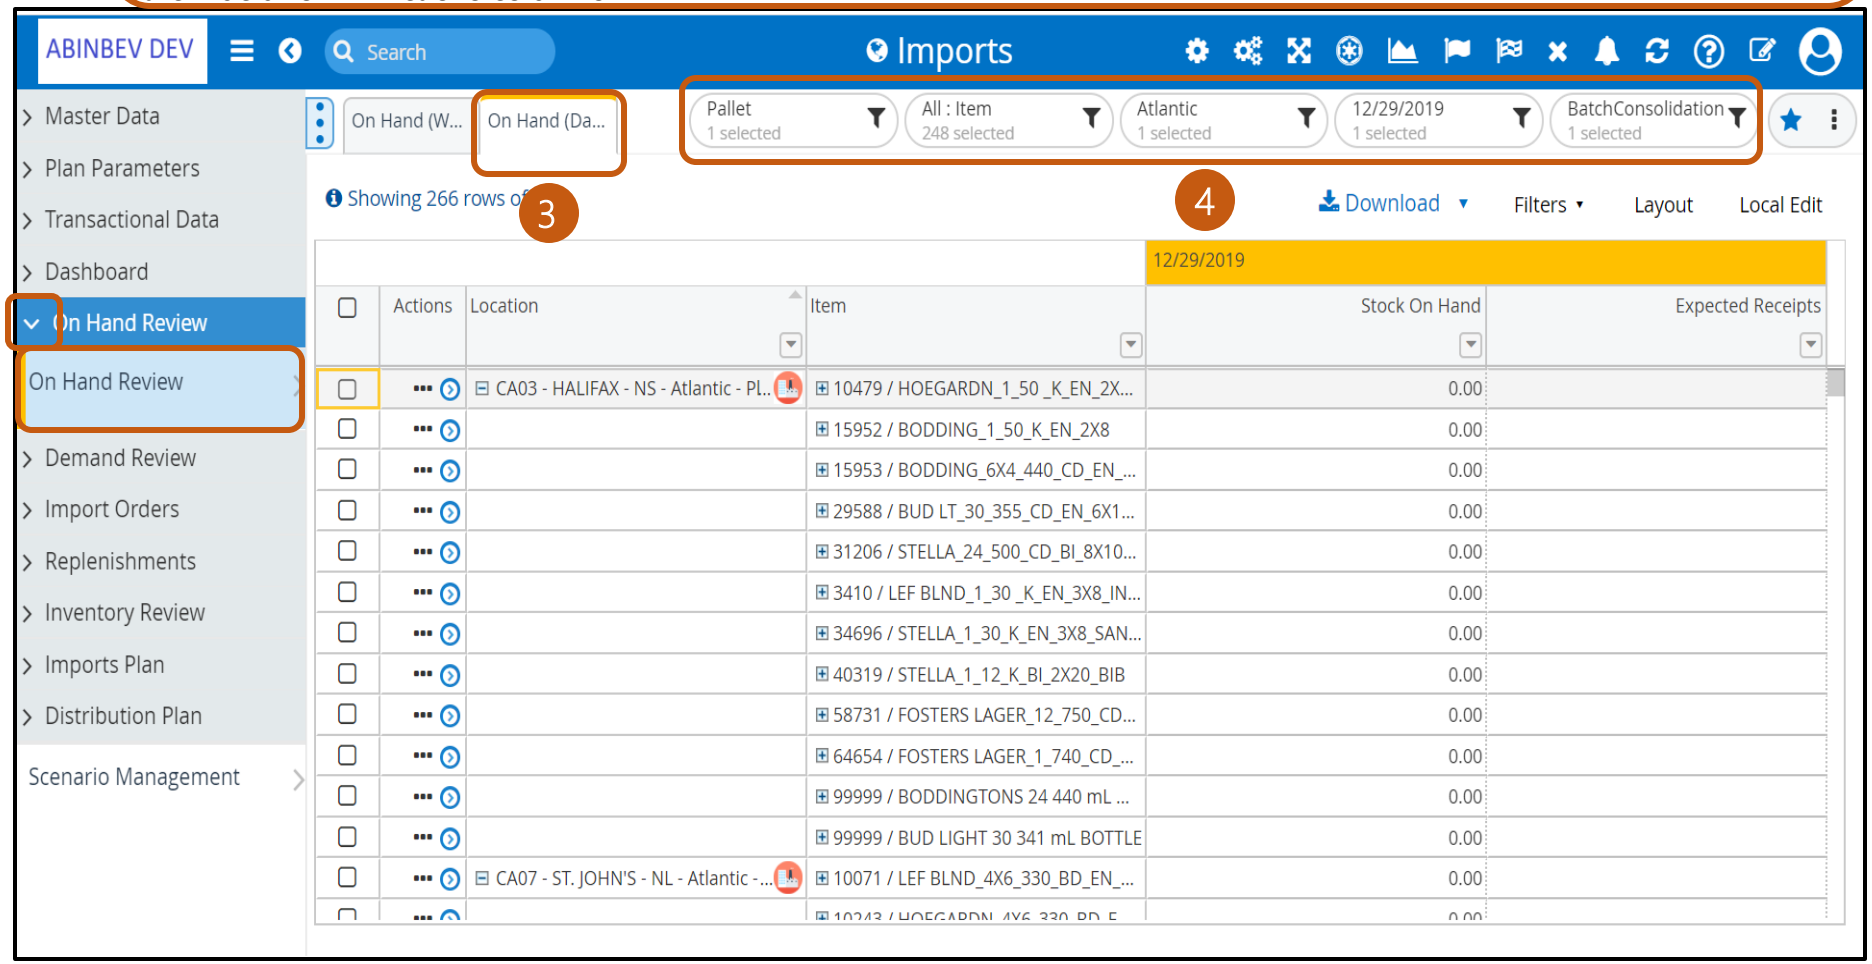
# On Hand Review – On Hand Review: On Hand (Daily)

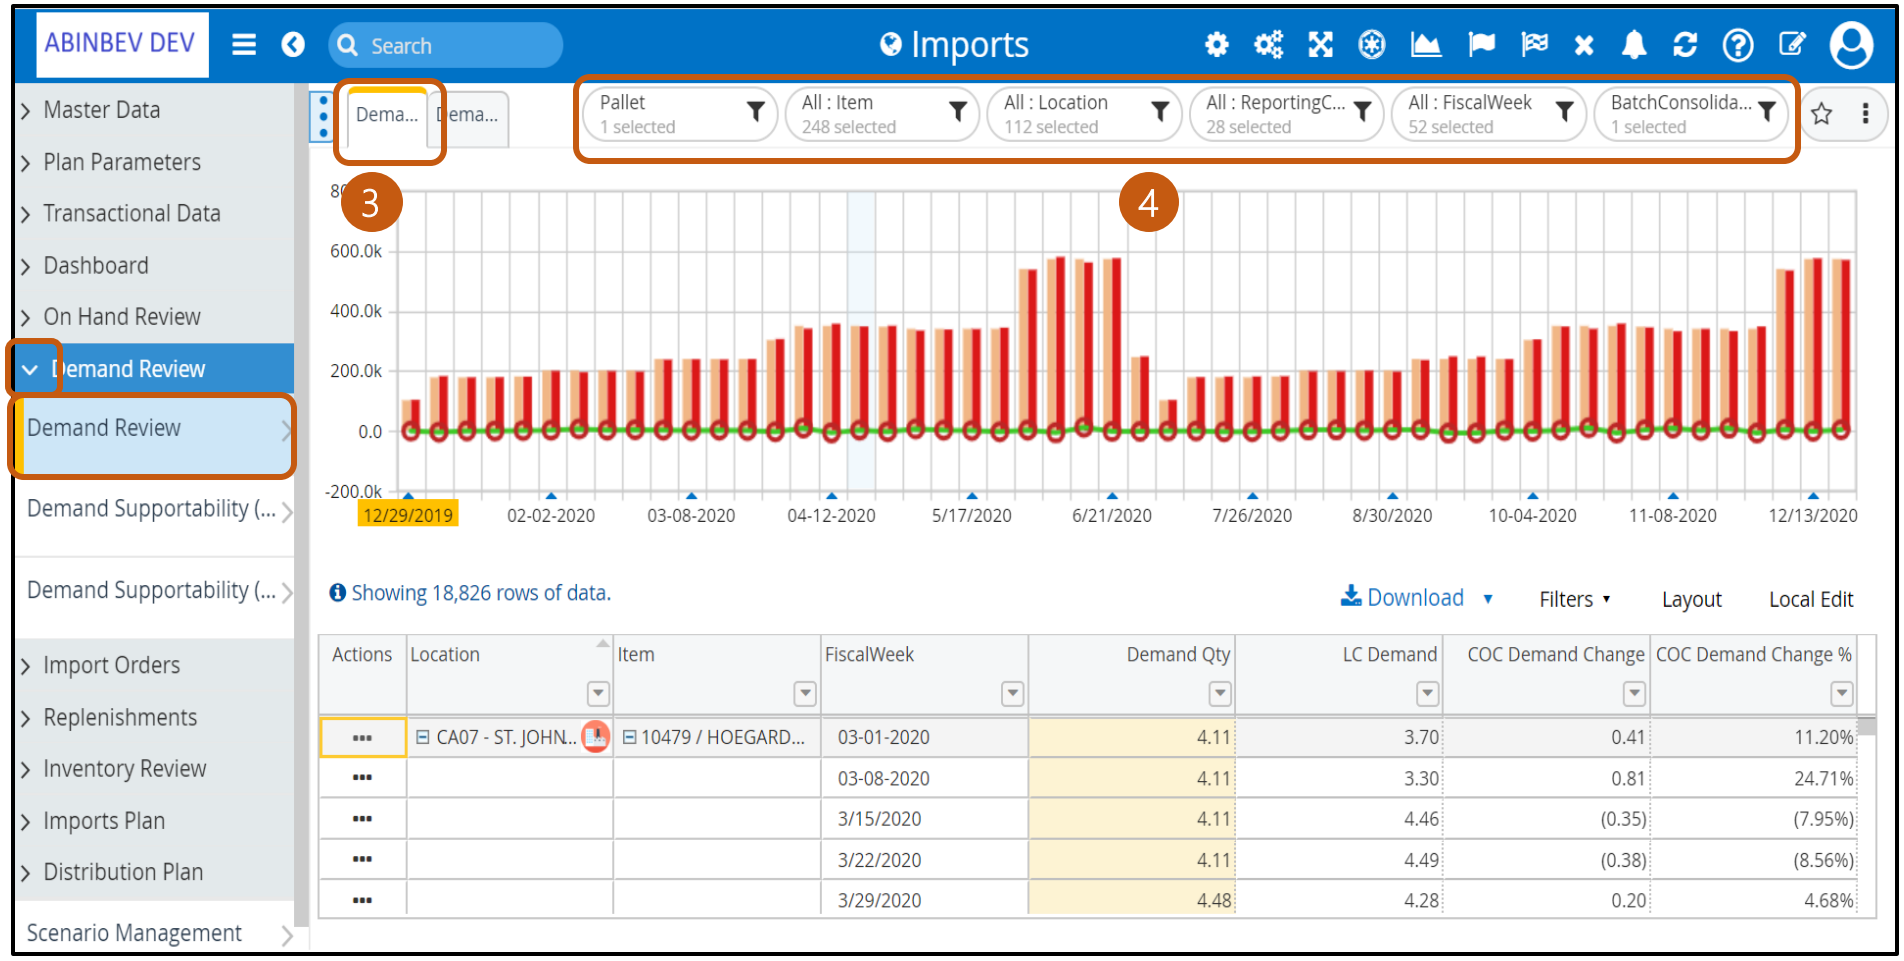
Step 1 : Click on the arrow corresponding to On Hand Review
Step 2: Select "On Hand Review" from the dropdown
Step 3: Click on On Hand Review (Daily) tab
Step 4: Filter on Unit, Item, Location, Time and Scenario
5: Review the table for OnHand Stock and Expected Receipts; User can go into details of any row in the table by clicking on the Blue arrow in Actions columns



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Review: Demand Review (Weekly)

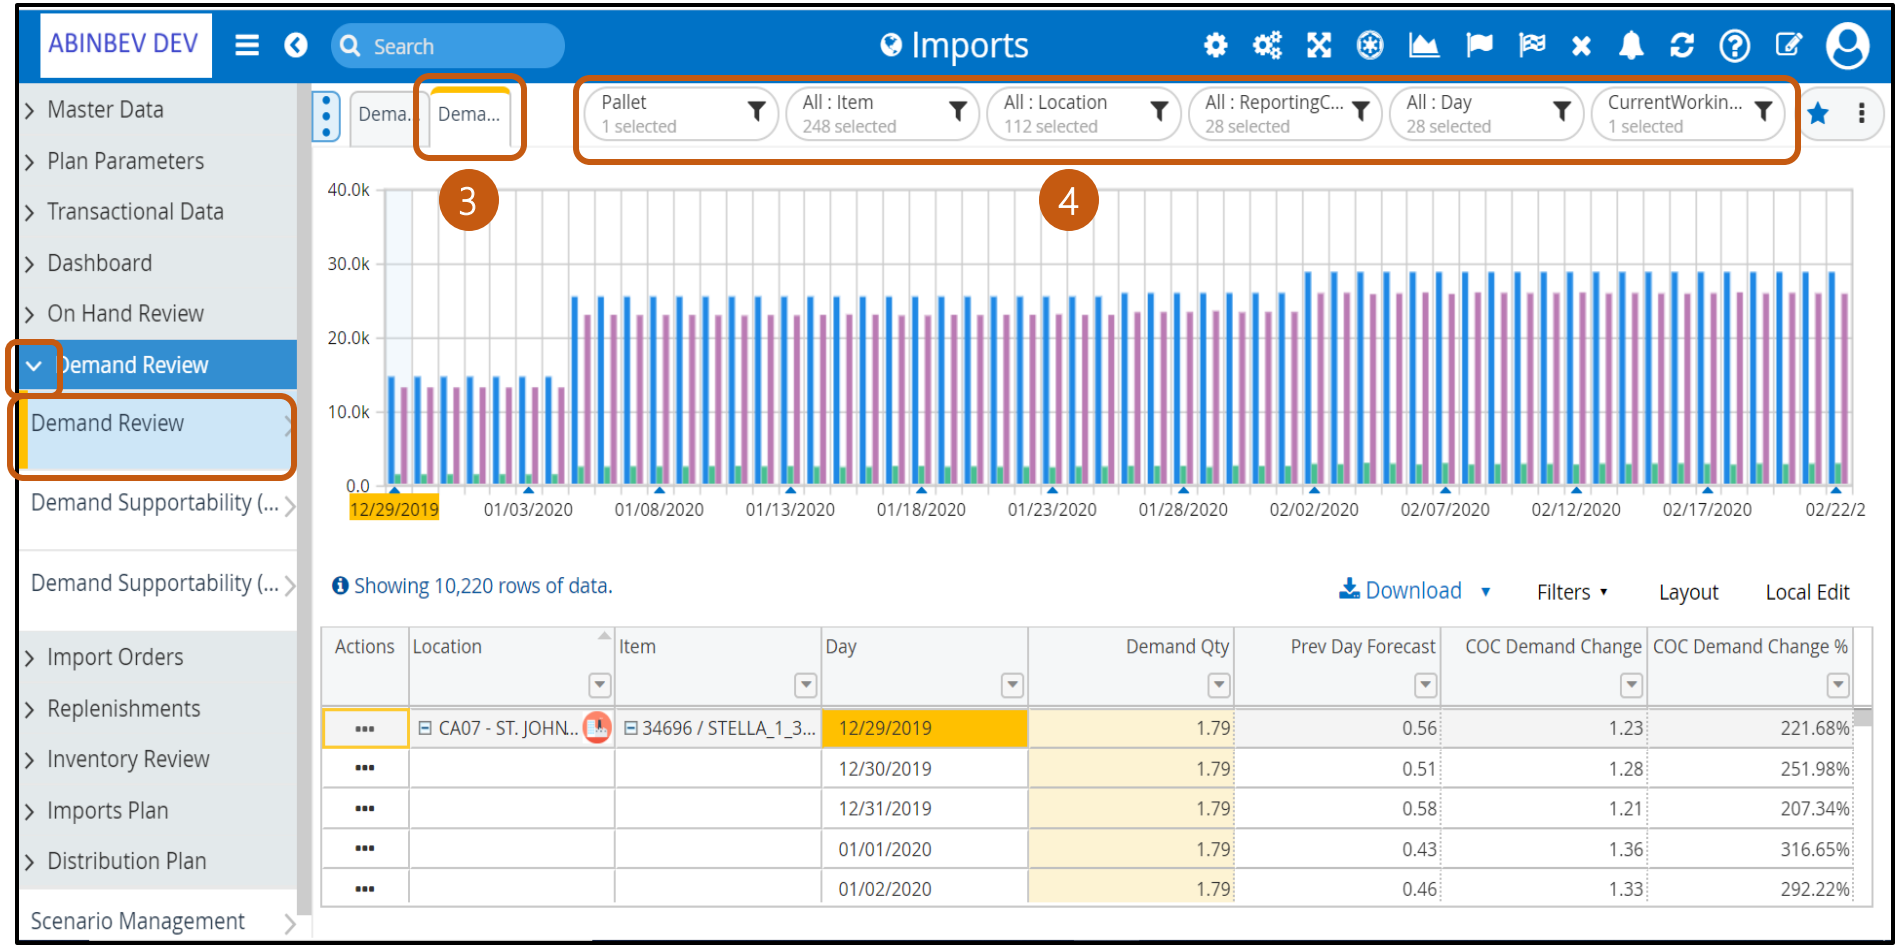
Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Review" from the dropdown
Step 3: Click on Demand Review (Weekly) tab
Step 4: Filter on Unit, Item, Location, Reporting Customer, Time and Scenario
5: Review the Graph and table for Demand Quantity and Last cycle demand Quantity , User can edit Demand Quantity



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Review: Demand Review (Daily)

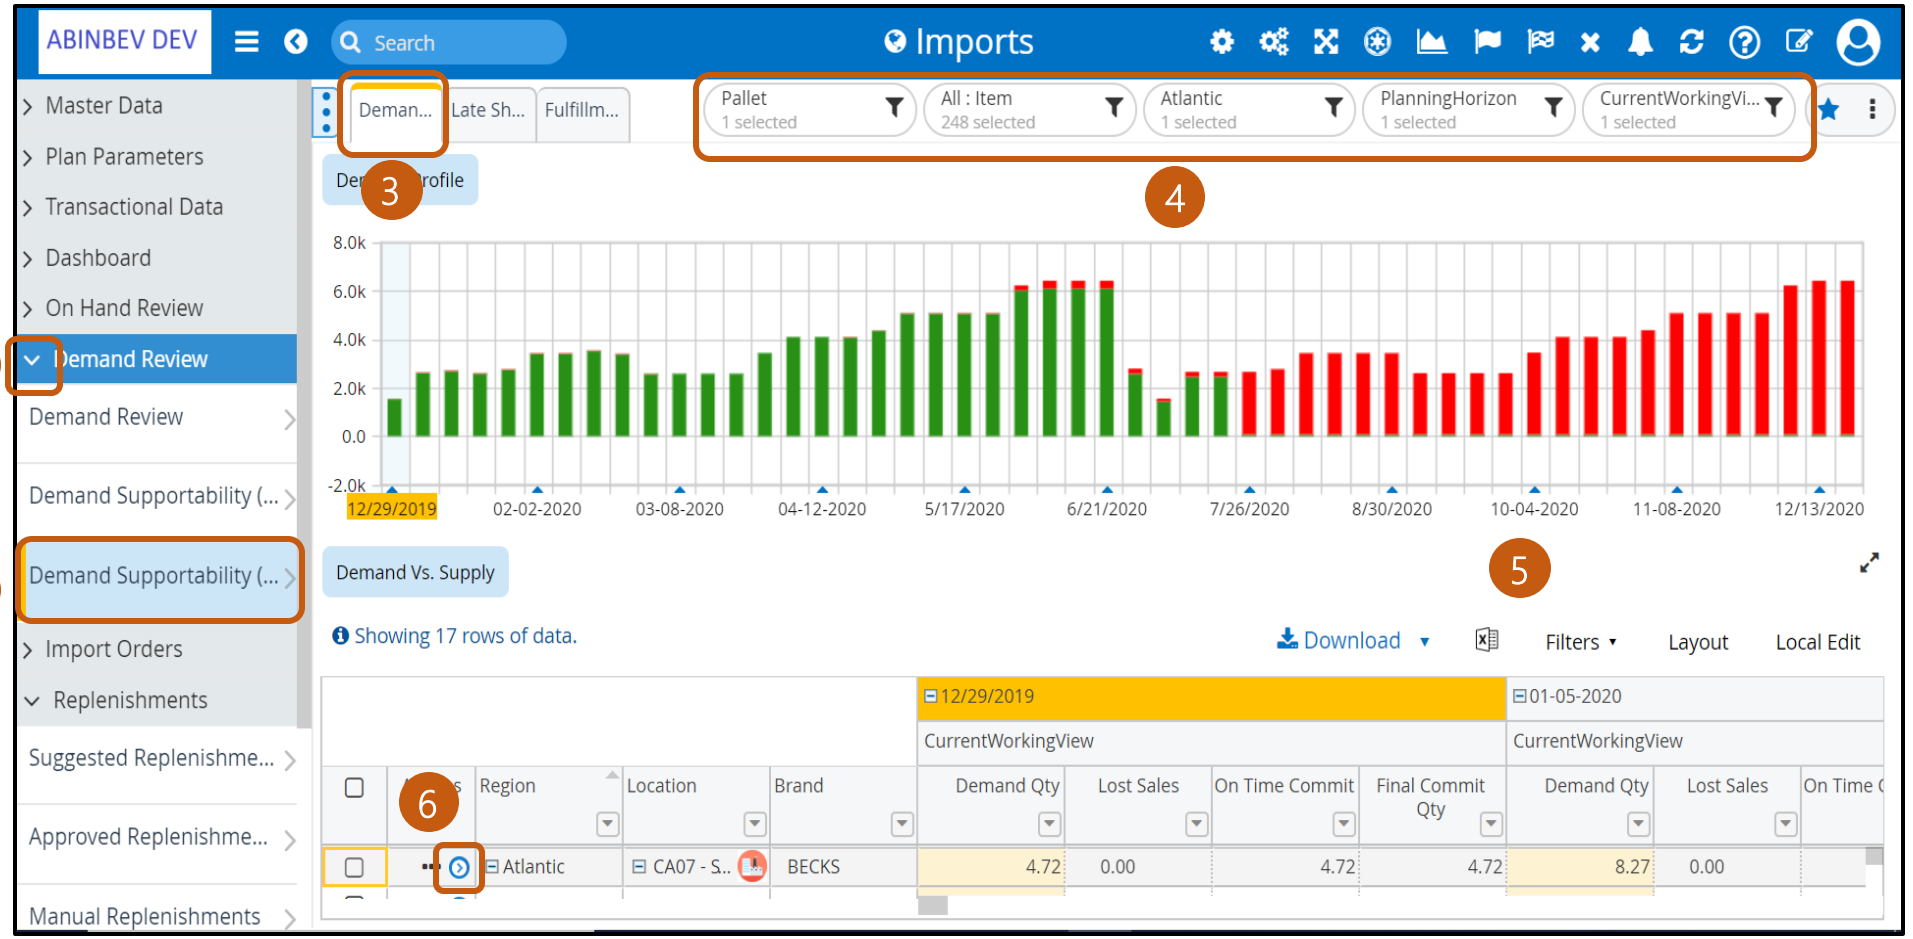
Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Review" from the dropdown
Step 3: Click on Demand Review (Daily) tab
Step 4: Filter on Unit, Item, Location, Reporting Customer, Time and Scenario
5: Review the Graph and table for Demand Quantity and Last cycle demand Quantity, User can edit Demand Quantity



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Weekly):Demand Review

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Weekly)" from the dropdown
Step 3: Demand Review tab opens
Step 4: Filter on Unit, Item, Location, Time and Scenario



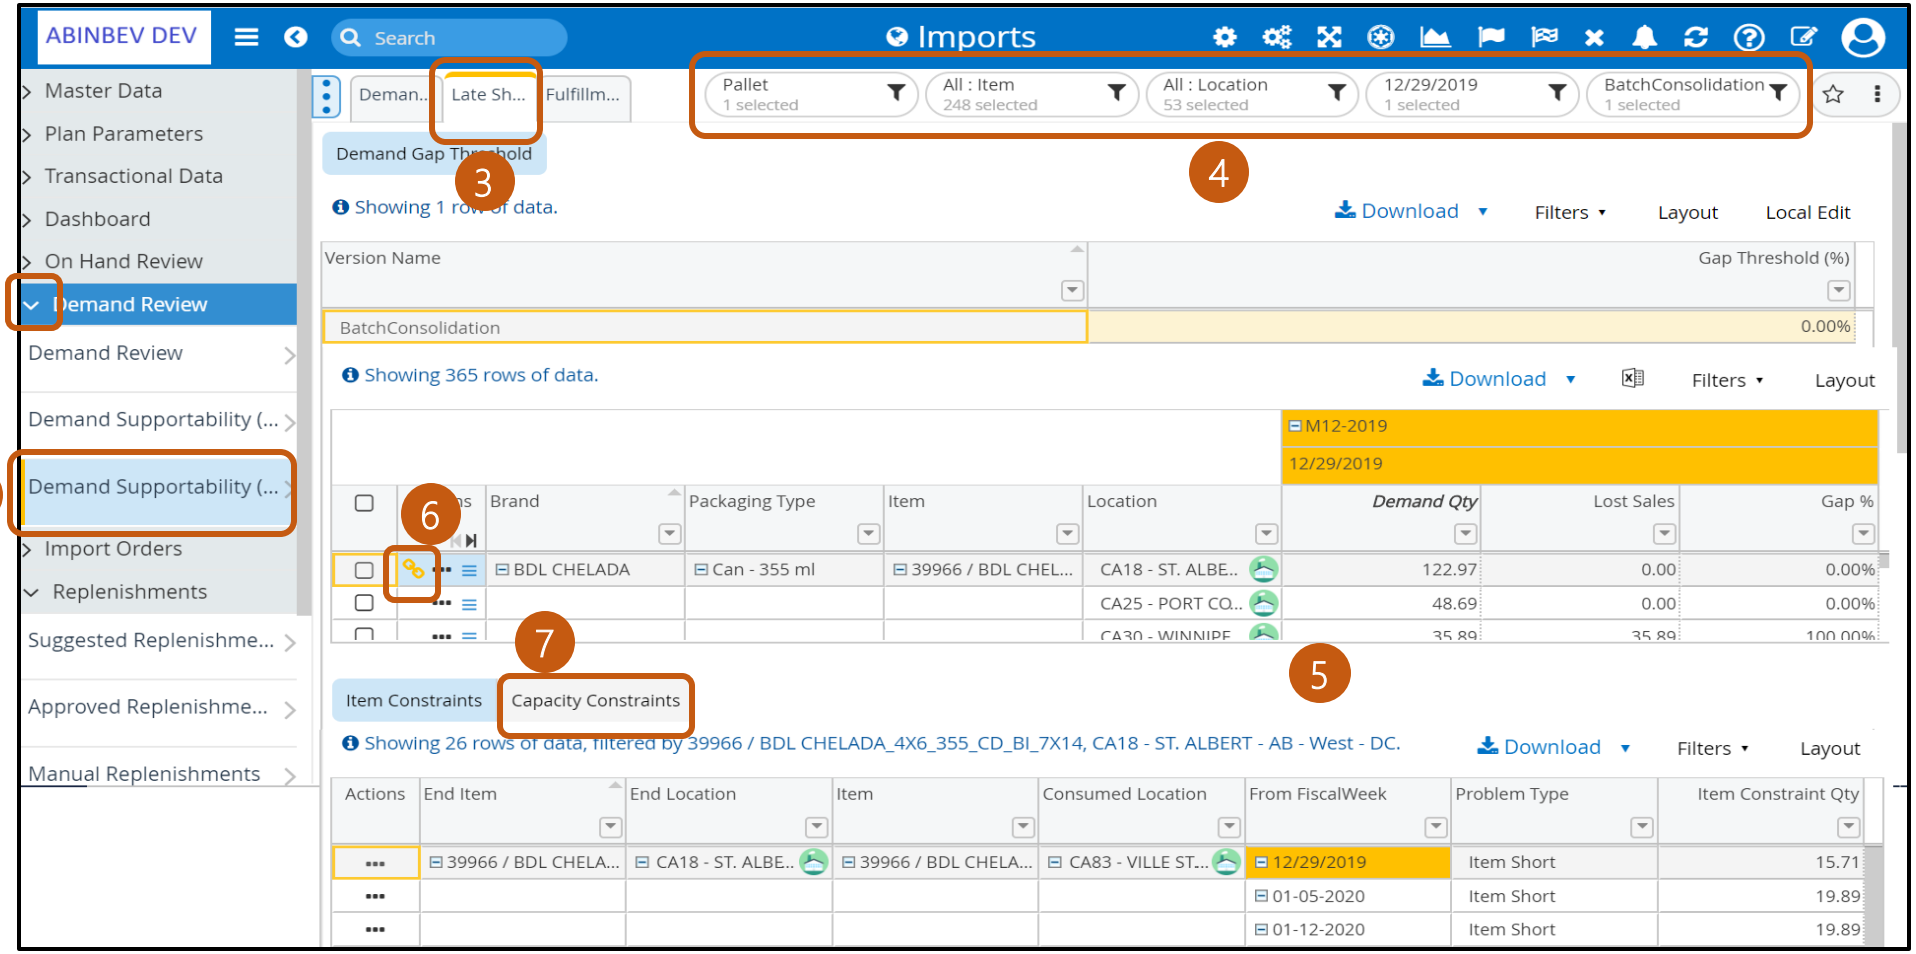
5: Review the Graph and table for Demand Quantity, Lost Sales and On time commit, User can edit Demand Quantity

6: Click on the Blue arrow in Actions column to go into details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Weekly):Late Short Summary

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Weekly)" from the dropdown
Step 3: Click on Late Short Summary tab; Item Constraint tab in the 3rd table
Step 4: Filter on Unit, Item, Location, Time and Scenario



Step 5: Review the tables for Demand Quantity
`

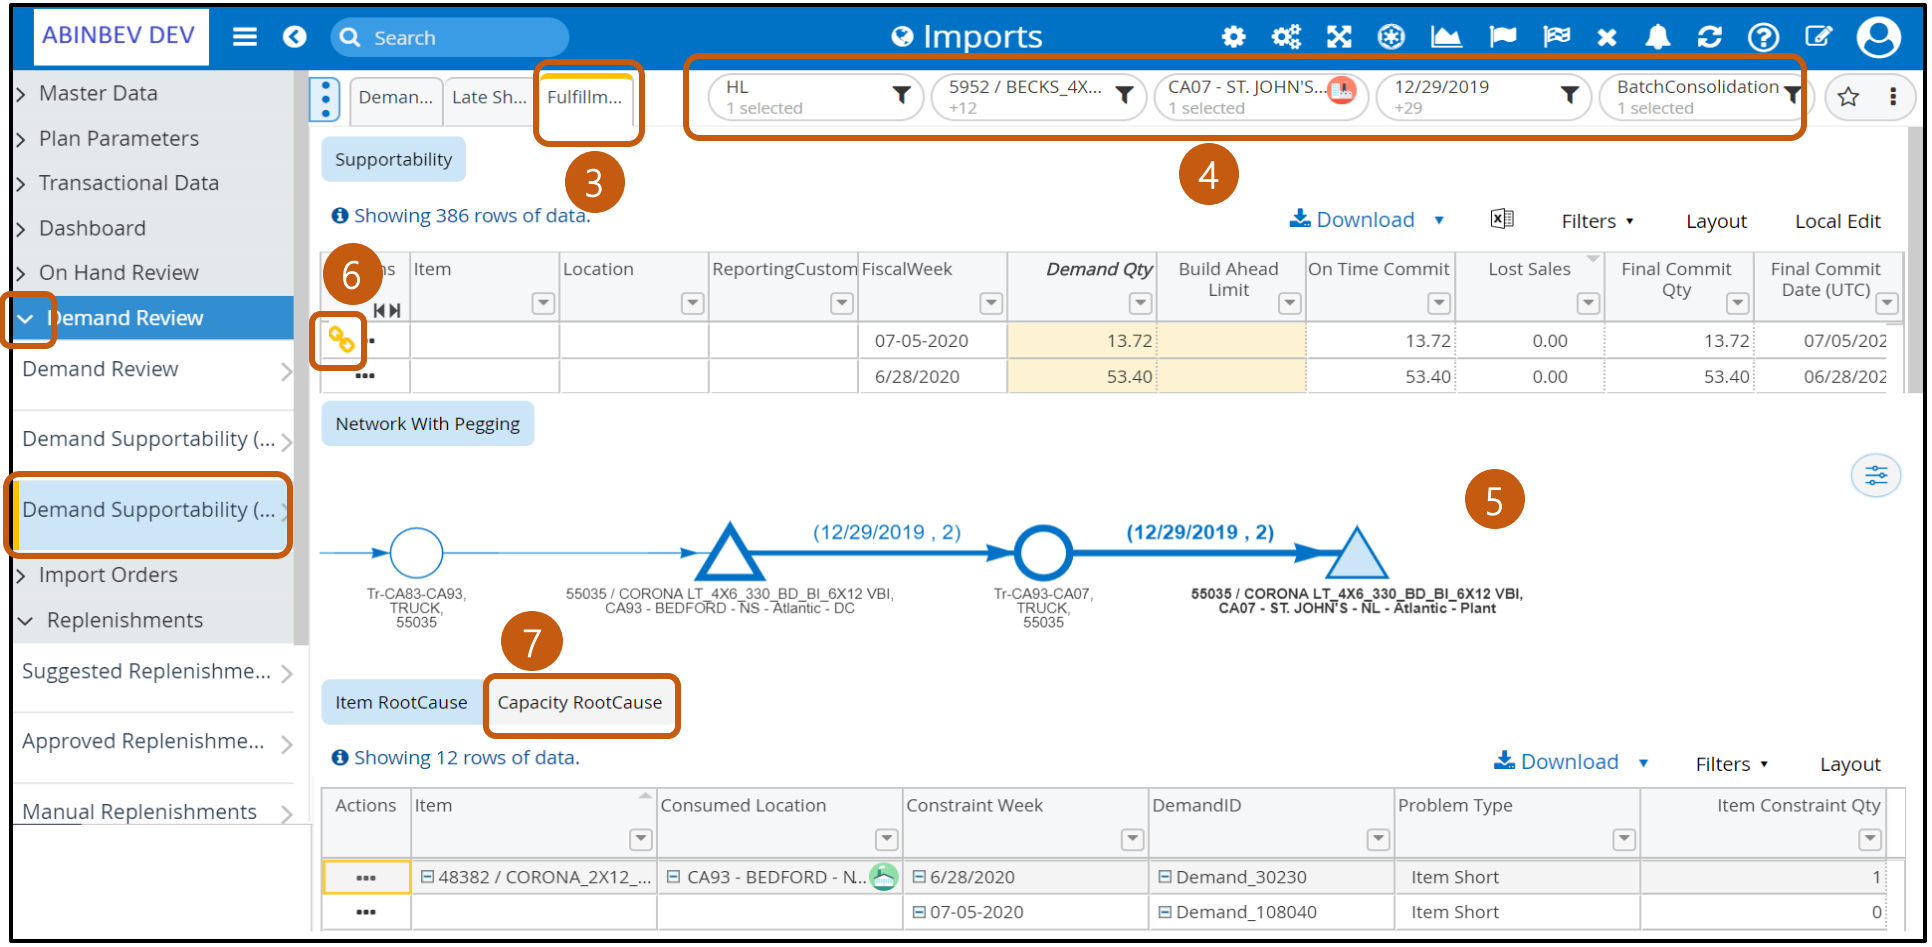
Step 6: Click on the Yellow Chain to see the details of the Item Short and Item Constraint Quantity of a particular Item-Location combination

Step 7: Click on Capacity Constraint sub tab for details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Weekly):Fulfilment by DemandID

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Weekly)" from the dropdown
Step 3: Click on Fulfilment by DemandID tab; Item RootCause tab opens in the 3rd table
Step 4: Filter on Unit, Item, Location, Time and Scenario

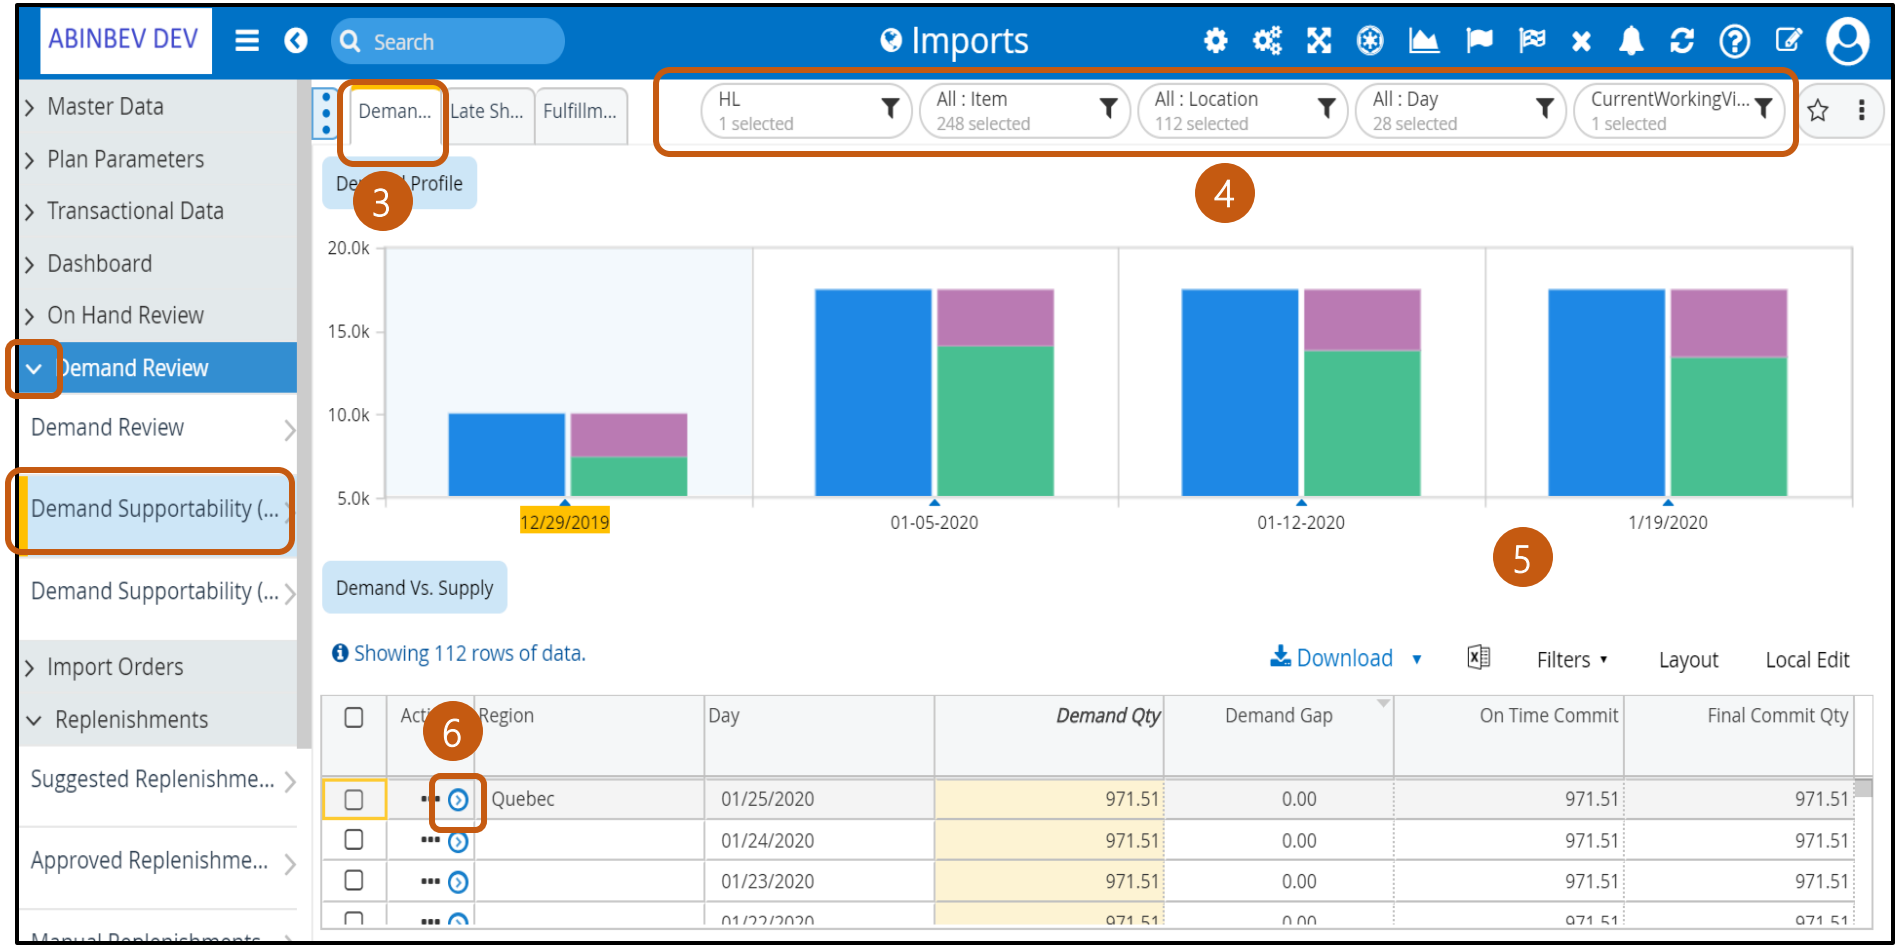


5: Review the tables for Demand Quantity, Build Ahead Limit and other attributes
6: Click on the Yellow Chain to see the details of the Item Short and Item Constraint Quantity of a particular Item-Location combination
Step 7: Click on Capacity Root Cause sub tab for details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Daily):Demand Review

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Daily)" from the dropdown
Step 3: Demand Review tab opens
Step 4: Filter on Unit, Item, Location, Time(Day) and Scenario



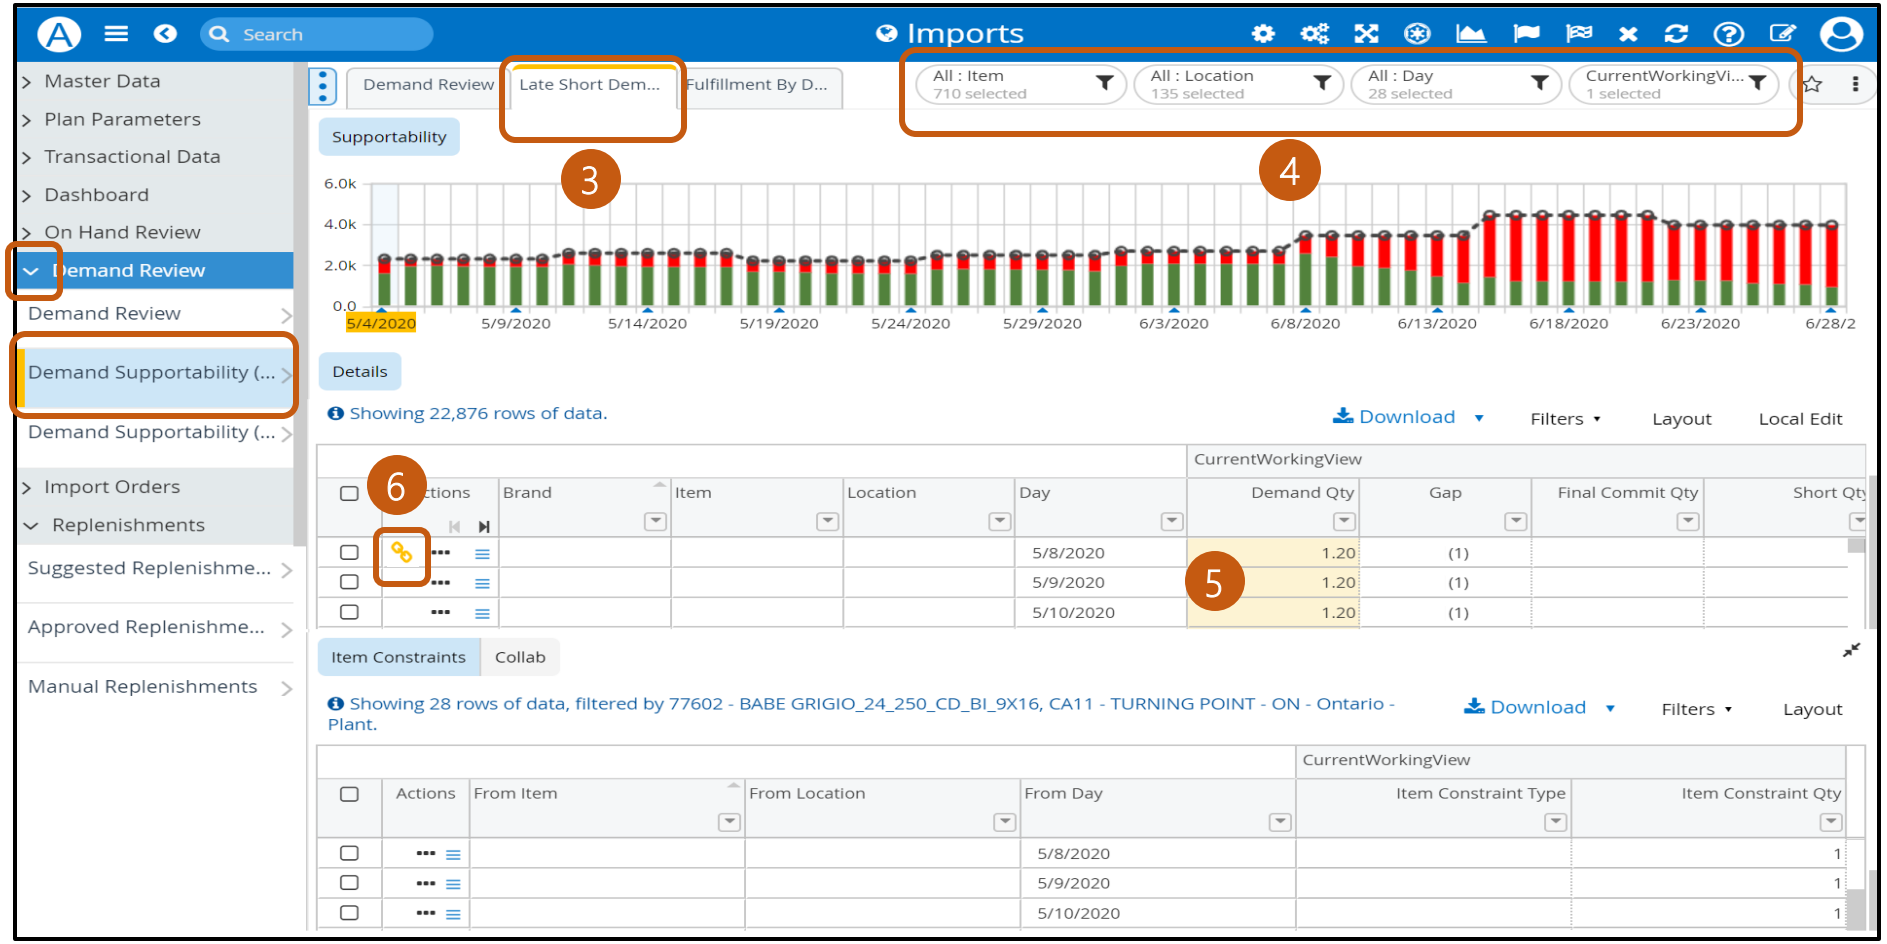
Step 5: Review the Graph and table for Demand Quantity, Demand Gap and On time commit, User can edit Demand Quantity

Step 6: Click on the Blue arrow in Actions column to go into details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Daily): Late Short Summary

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Daily)" from the dropdown
Step 3: Click on Late Short Summary tab; Item Constraint tab in the 3rd table
Step 4: Filter on Unit, Item, Location, Time and Scenario



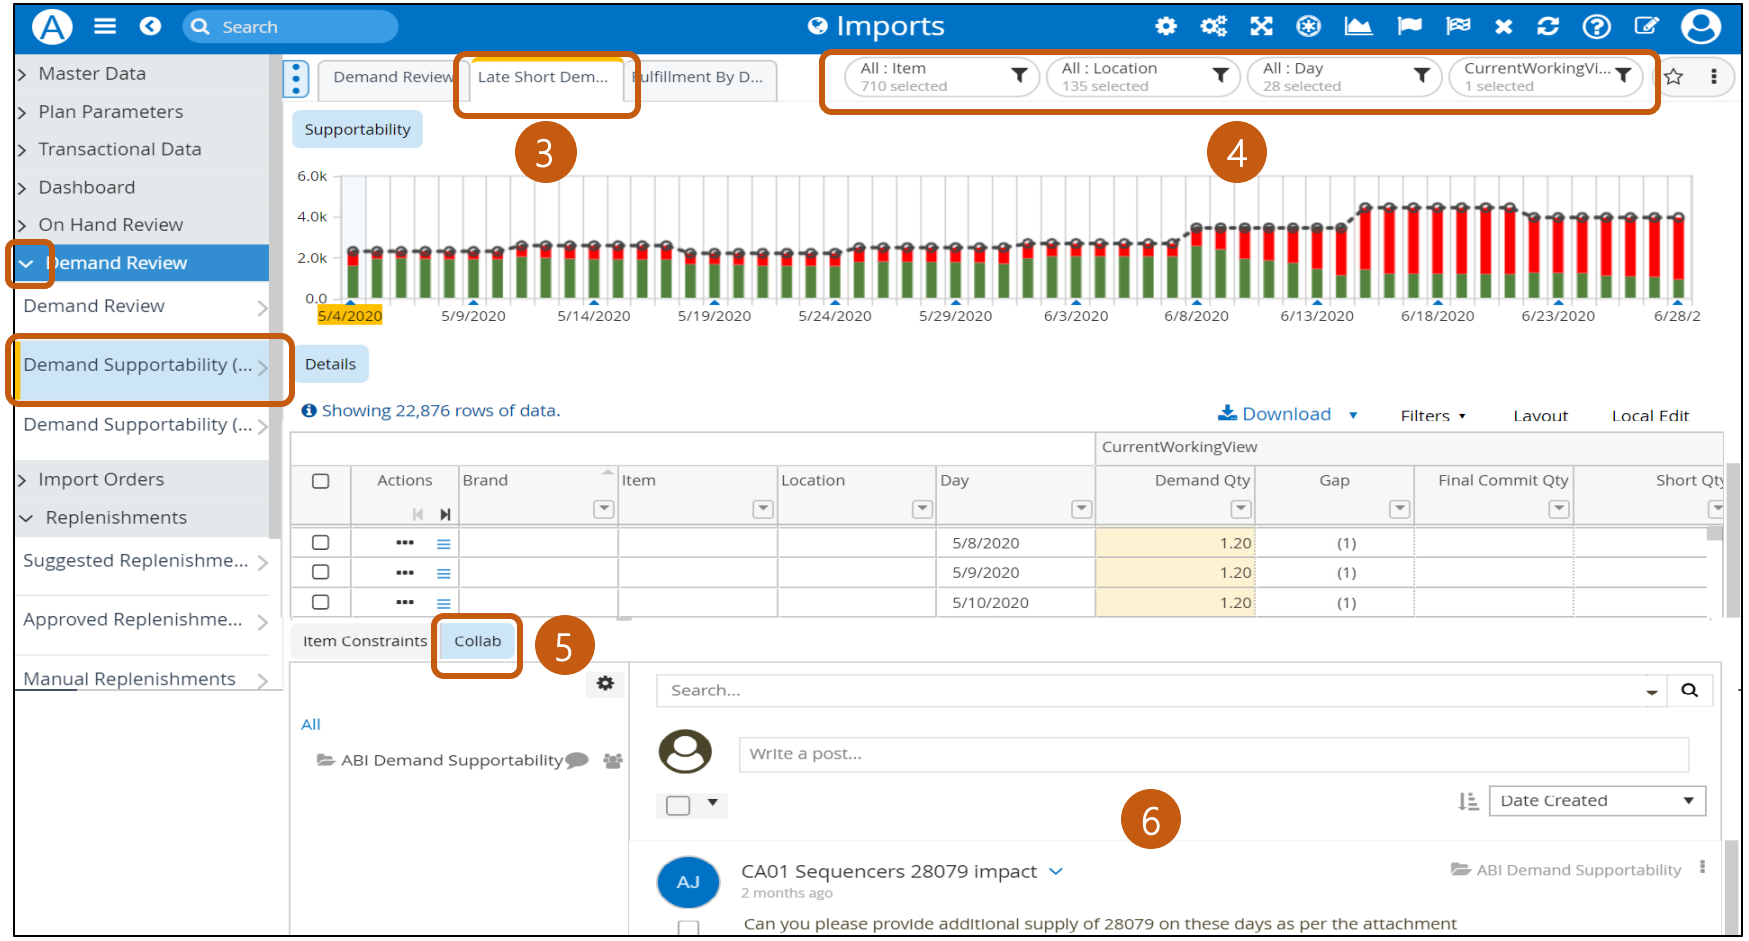
5: Review the tables for Demand Quantity

Step 6: Click on the Yellow Chain to see the details of the Item Short and Item Constraint Quantity of a particular Item-Location combination

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Daily): Late Short Summary

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Daily)" from the dropdown
Step 3: Click on Late Short Summary tab
Step 4: Filter on Unit, Item, Location, Time and Scenario



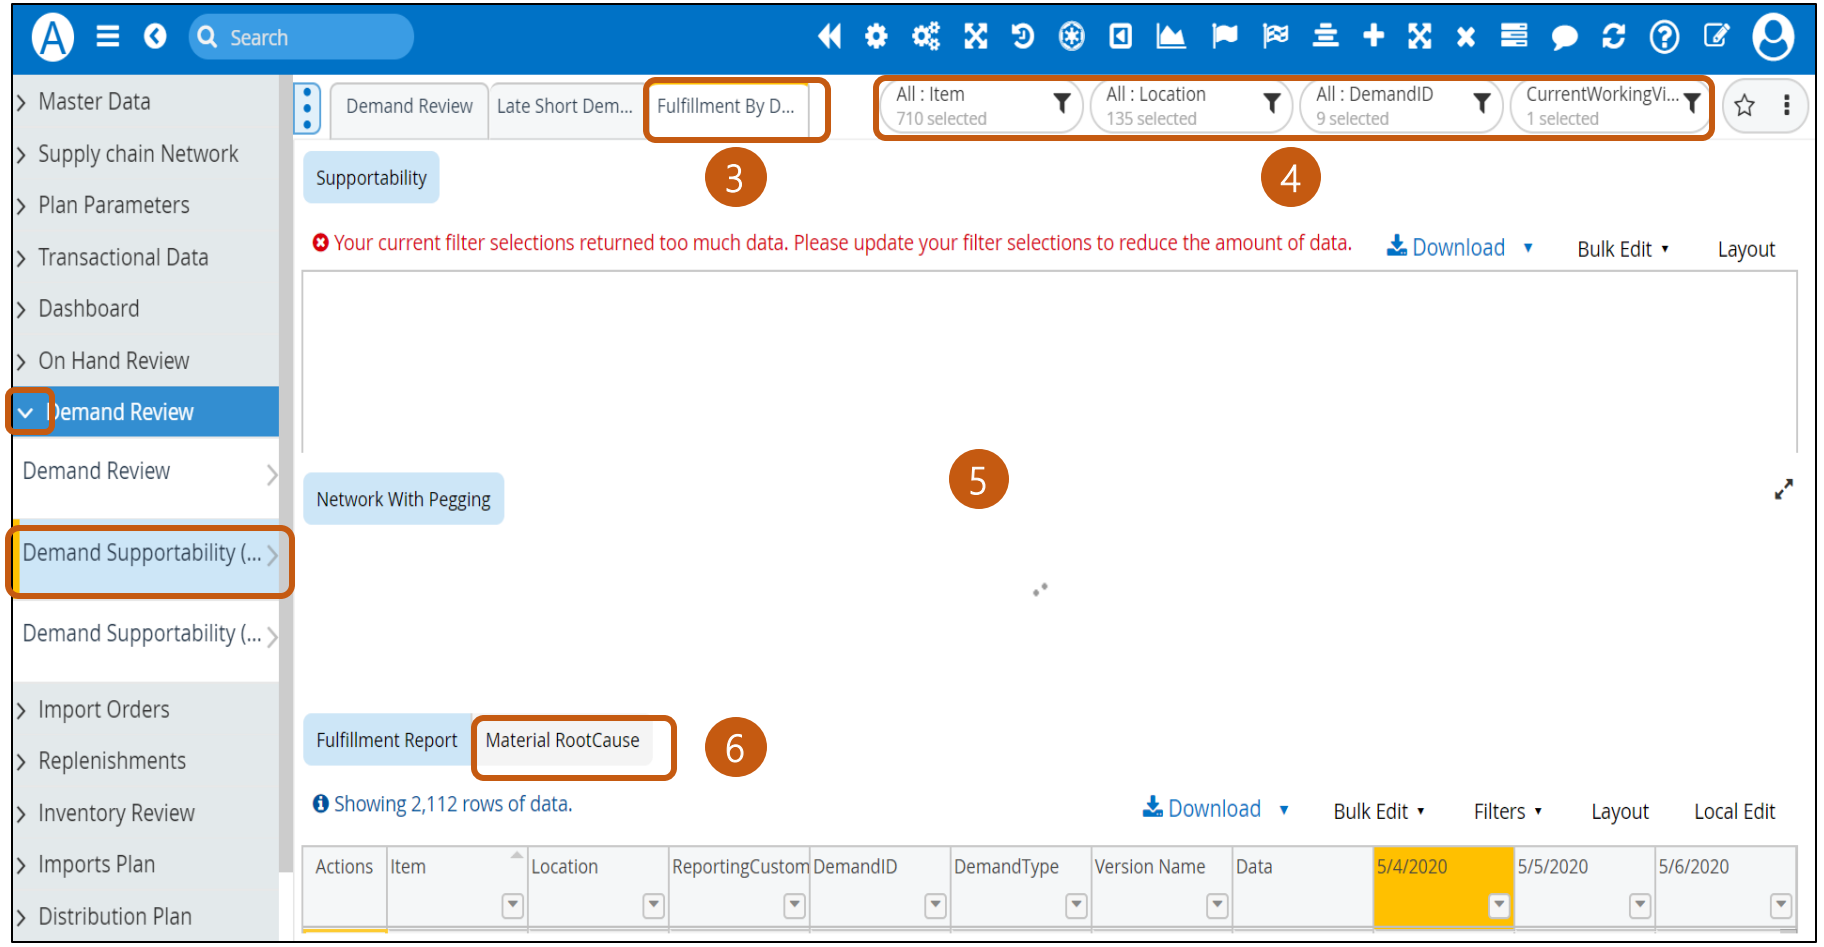
5: Collab tab in the 3rd table

Step 6:User can add tasks, follower or comments here if required

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Supportability (Daily): Fulfilment by DemandID

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Supportability (Daily)" from the dropdown
Step 3: Click on Fulfilment by DemandID tab
Step 4: Filter on Unit, Item, Location, DemandID and Scenario



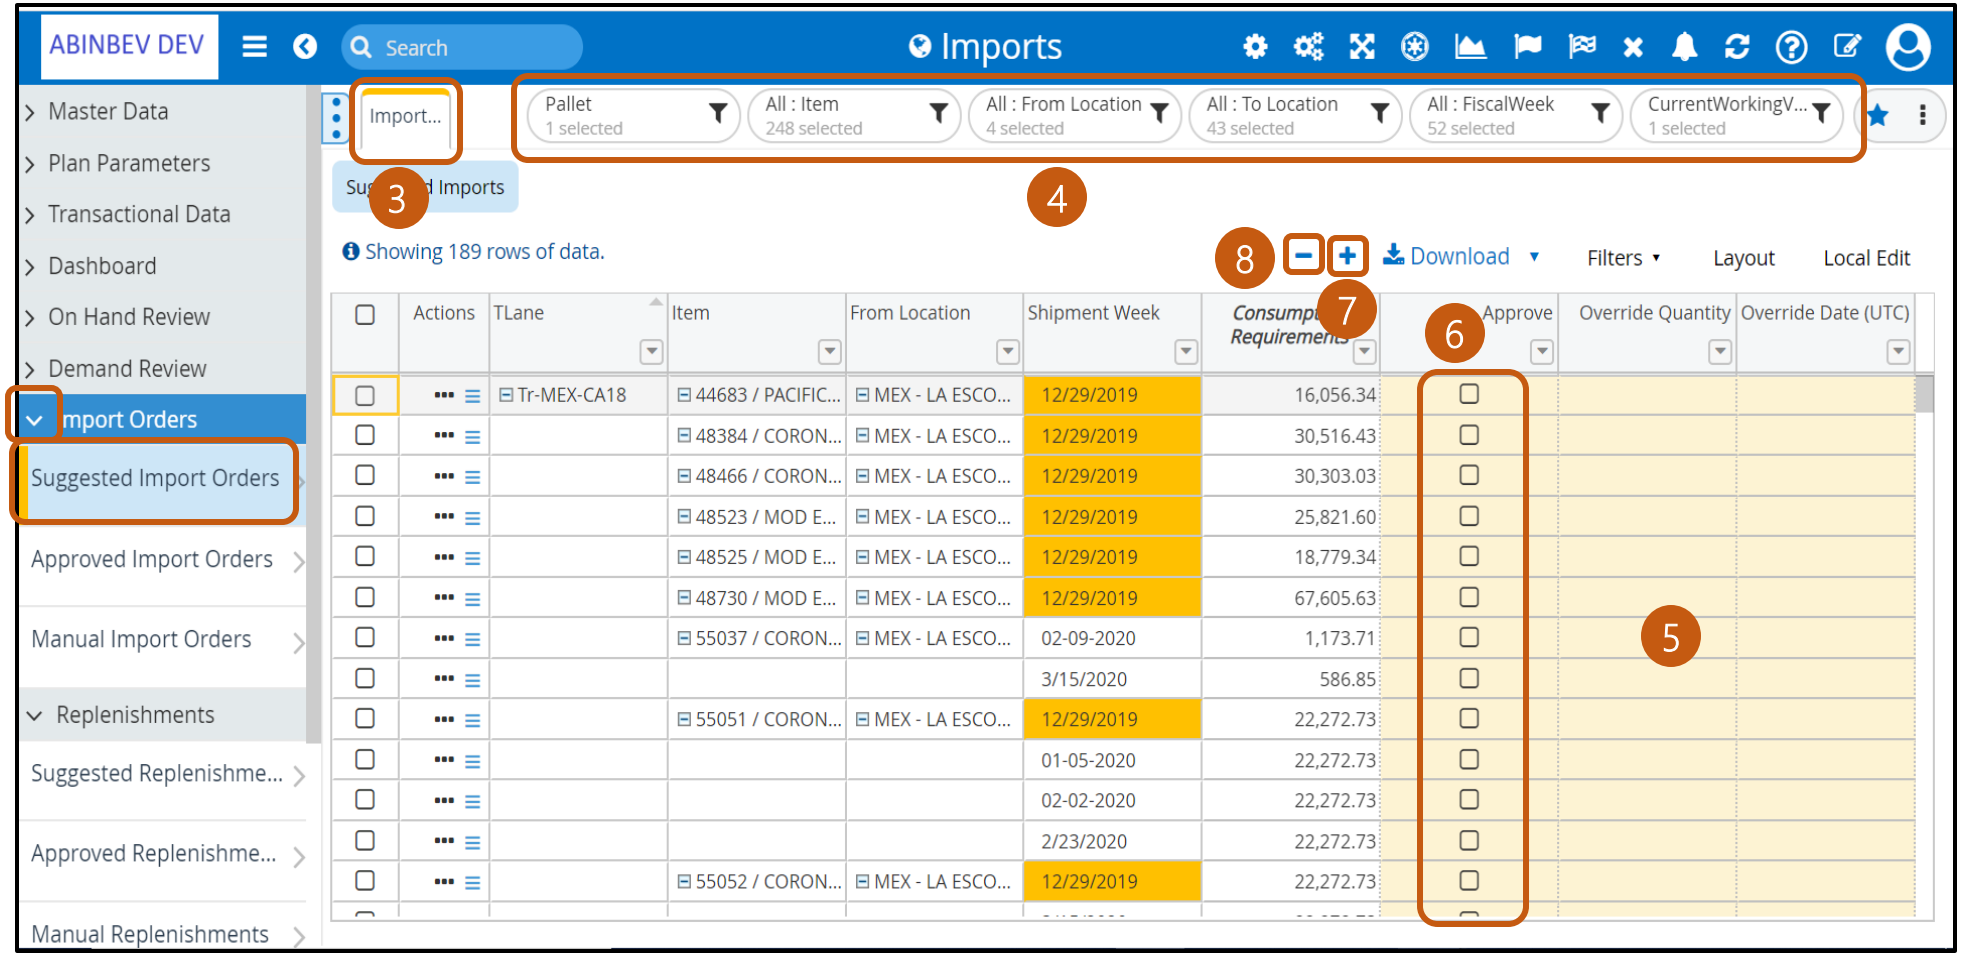
5: Review the table and graph

Step 6:Click on Material Root Cause sub tab to fetch details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Import Orders – Suggested Import Orders: Import Orders

Step 1 : Click on the arrow corresponding to Import Orders
Step 2: Select "Suggested Import Orders" from the dropdown
Step 3: Import Orders tab opens
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
5: Review the table for Consumption Requirements.



Step 6: User can Check/Uncheck Approve checkbox to Approve/Disapprove a Order. User can override Import Order quantity and date by adding values in "Quantity Override" and "Override Date(UTC)" column

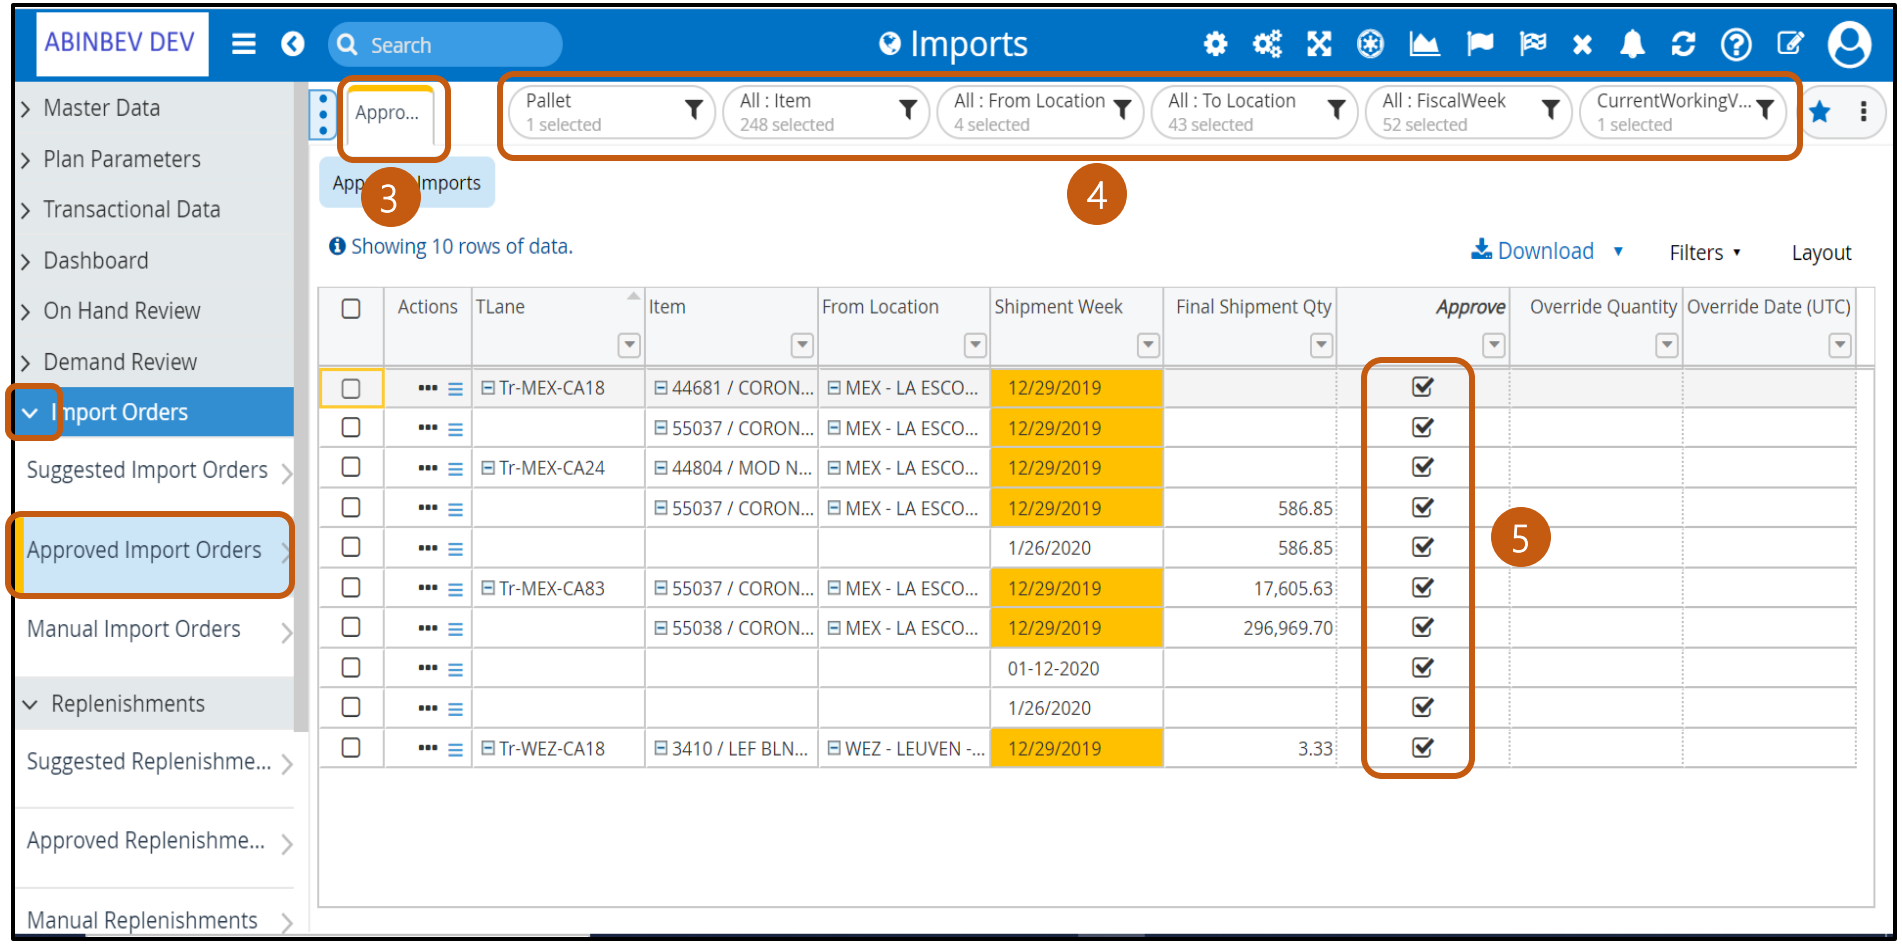
Step 7: Click on "+" icon to approve multiple Orders (Select multiple rows and click on + sign)

Step 8: Click on "-" icon to disapprove multiple Orders (Select multiple rows and click on - sign)

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Import Orders – Approved Import Orders: Approved Import Orders

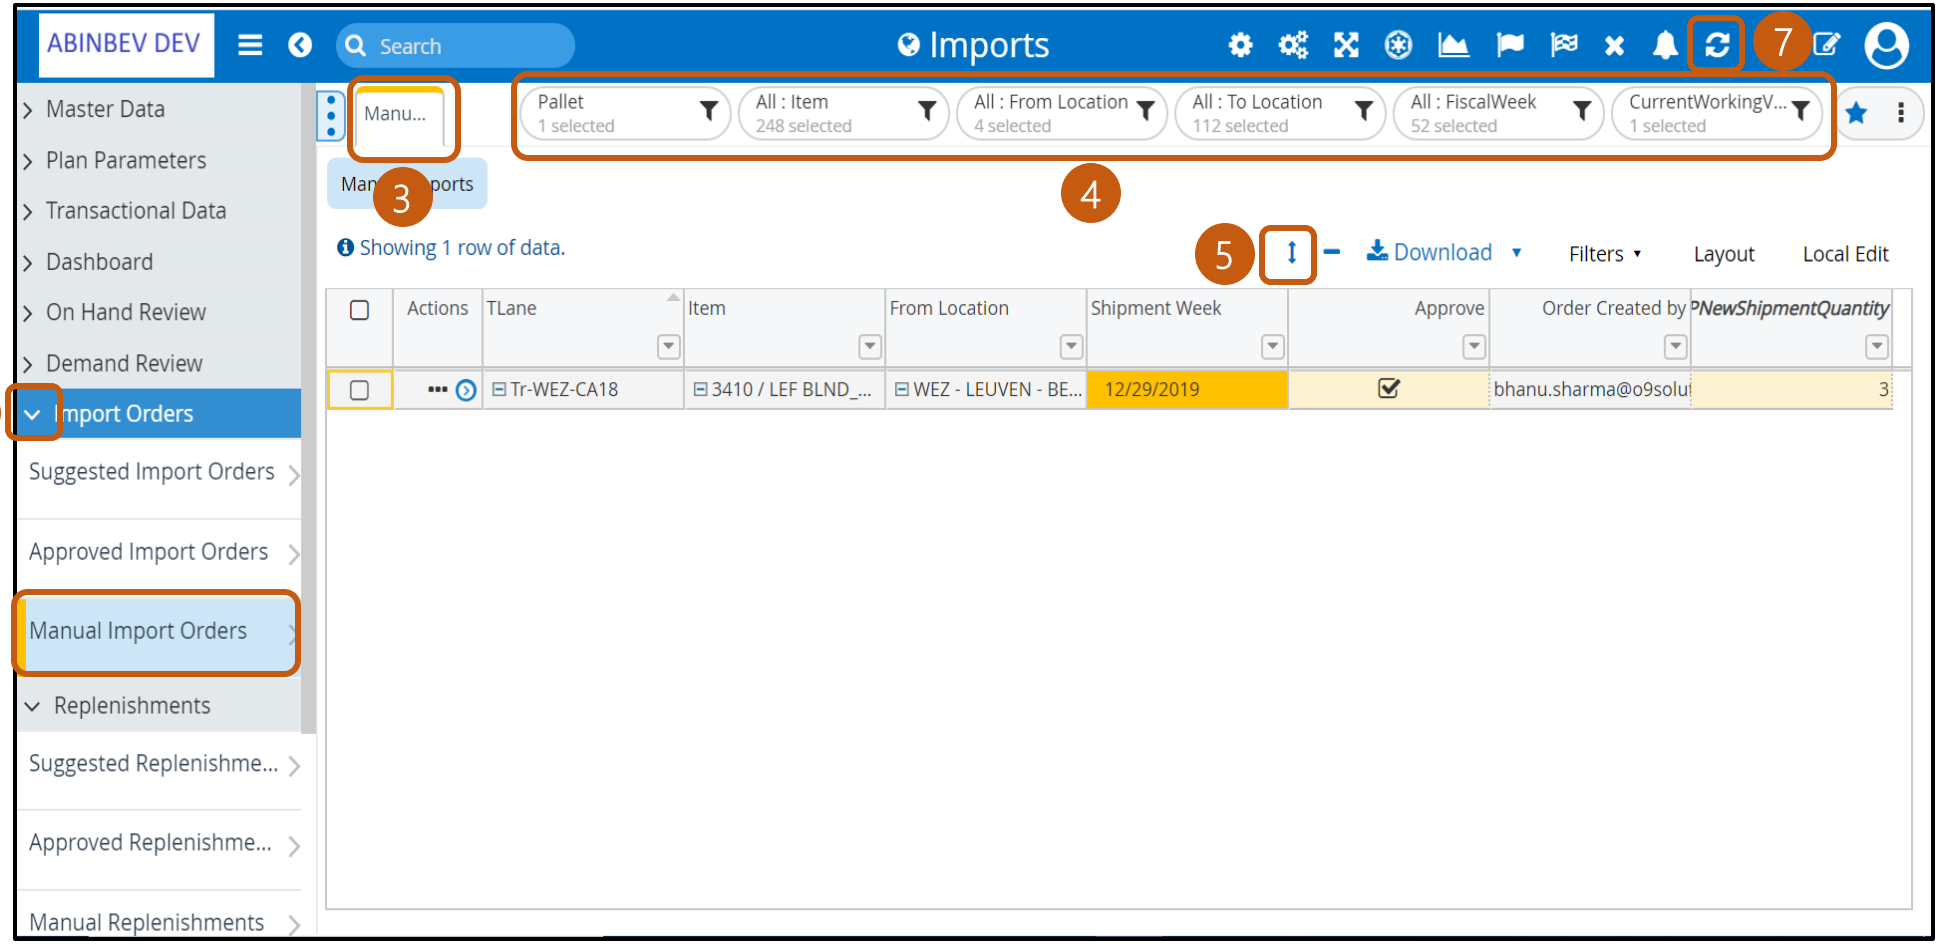
Step 1 : Click on the arrow corresponding to Import Orders
Step 2: Select "Approved Import Orders" from the dropdown
Step 3: Approved Import Orders tab opens
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
5: Review the table for Approved Orders



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Import Orders – Manual Import Orders: Manual Import Orders

Step 1 : Click on the arrow corresponding to Import Orders
Step 2: Select "Manual Import Orders" from the dropdown
Step 3: Manual Import Orders tab opens
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
Step 5: Click on "Create Manual Import" button, Create New Procurement Order page opens



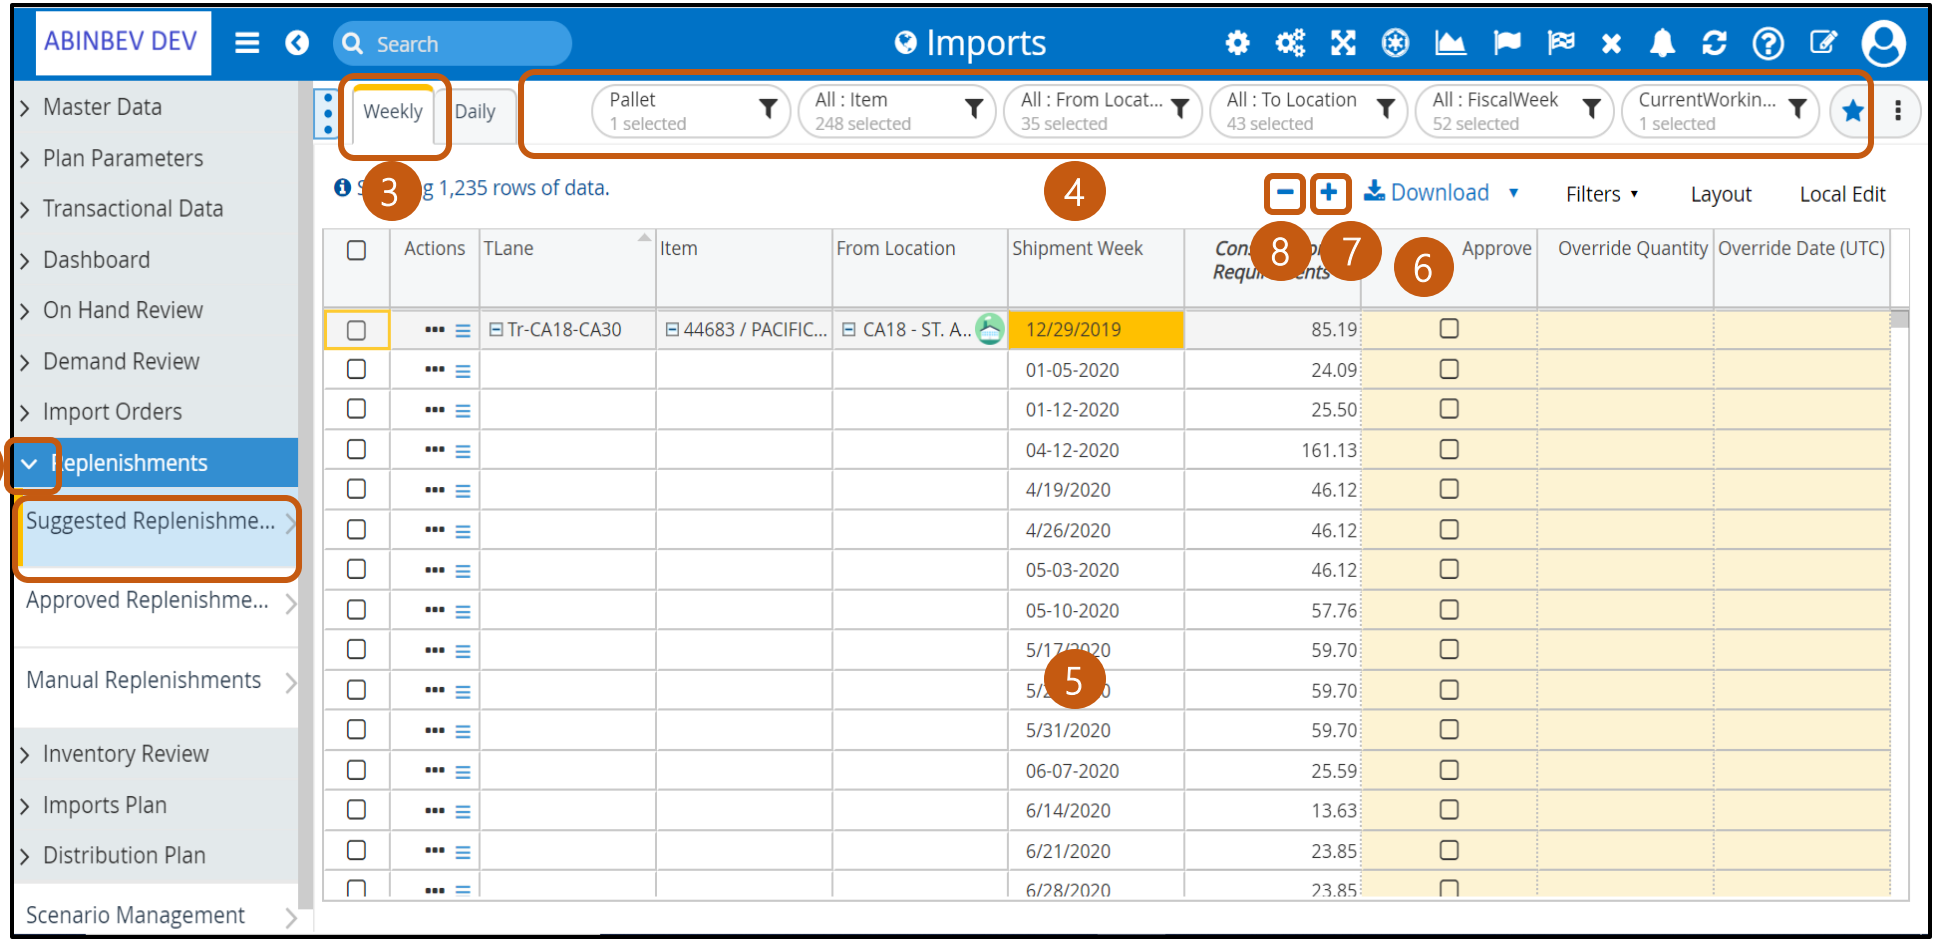
Step 6: Add Version, From Location, To Location, Item, Shipping Week, Unit, Shipment Quantity of the order to be created and click on Submit button

Step 7: Click on "Refresh Data" button. Newly created order will be seen in the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Replenishments – Suggested Replenishments: Weekly

Step 1 : Click on the arrow corresponding to Replenishments
Step 2: Select "Suggested Replenishments" from the dropdown
Step 3: Weekly tab opens
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
5: Review the table for Consumption Requirements.



Step 6: User can Check/Uncheck Approve checkbox to Approve/Disapprove a Replenishment. User can Override Replenishment quantity and date by adding values in "Quantity Override" and "Override Date(UTC)" column

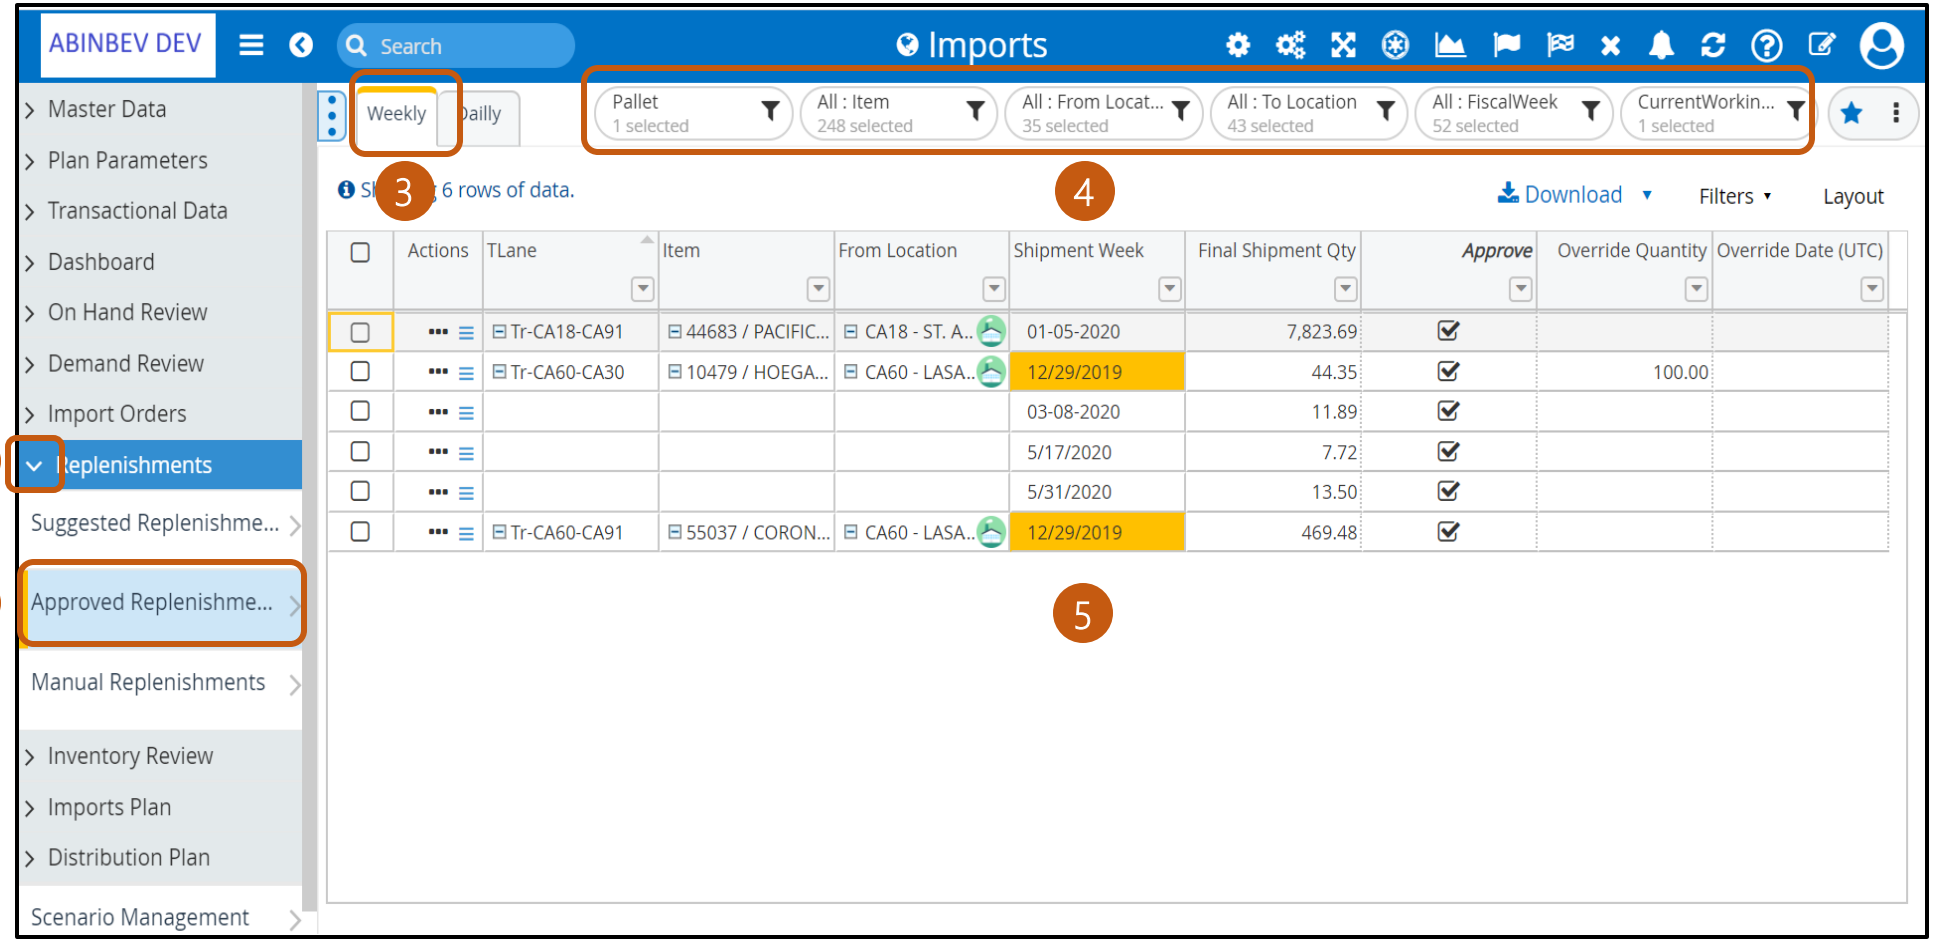
Step 7: Click on "+" icon to approve multiple Replenishment (Select multiple rows and click on + sign)

Step 8: Click on "-" icon to disapprove multiple Replenishment (Select multiple rows and click on - sign)

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Replenishments – Approved Replenishments: Weekly

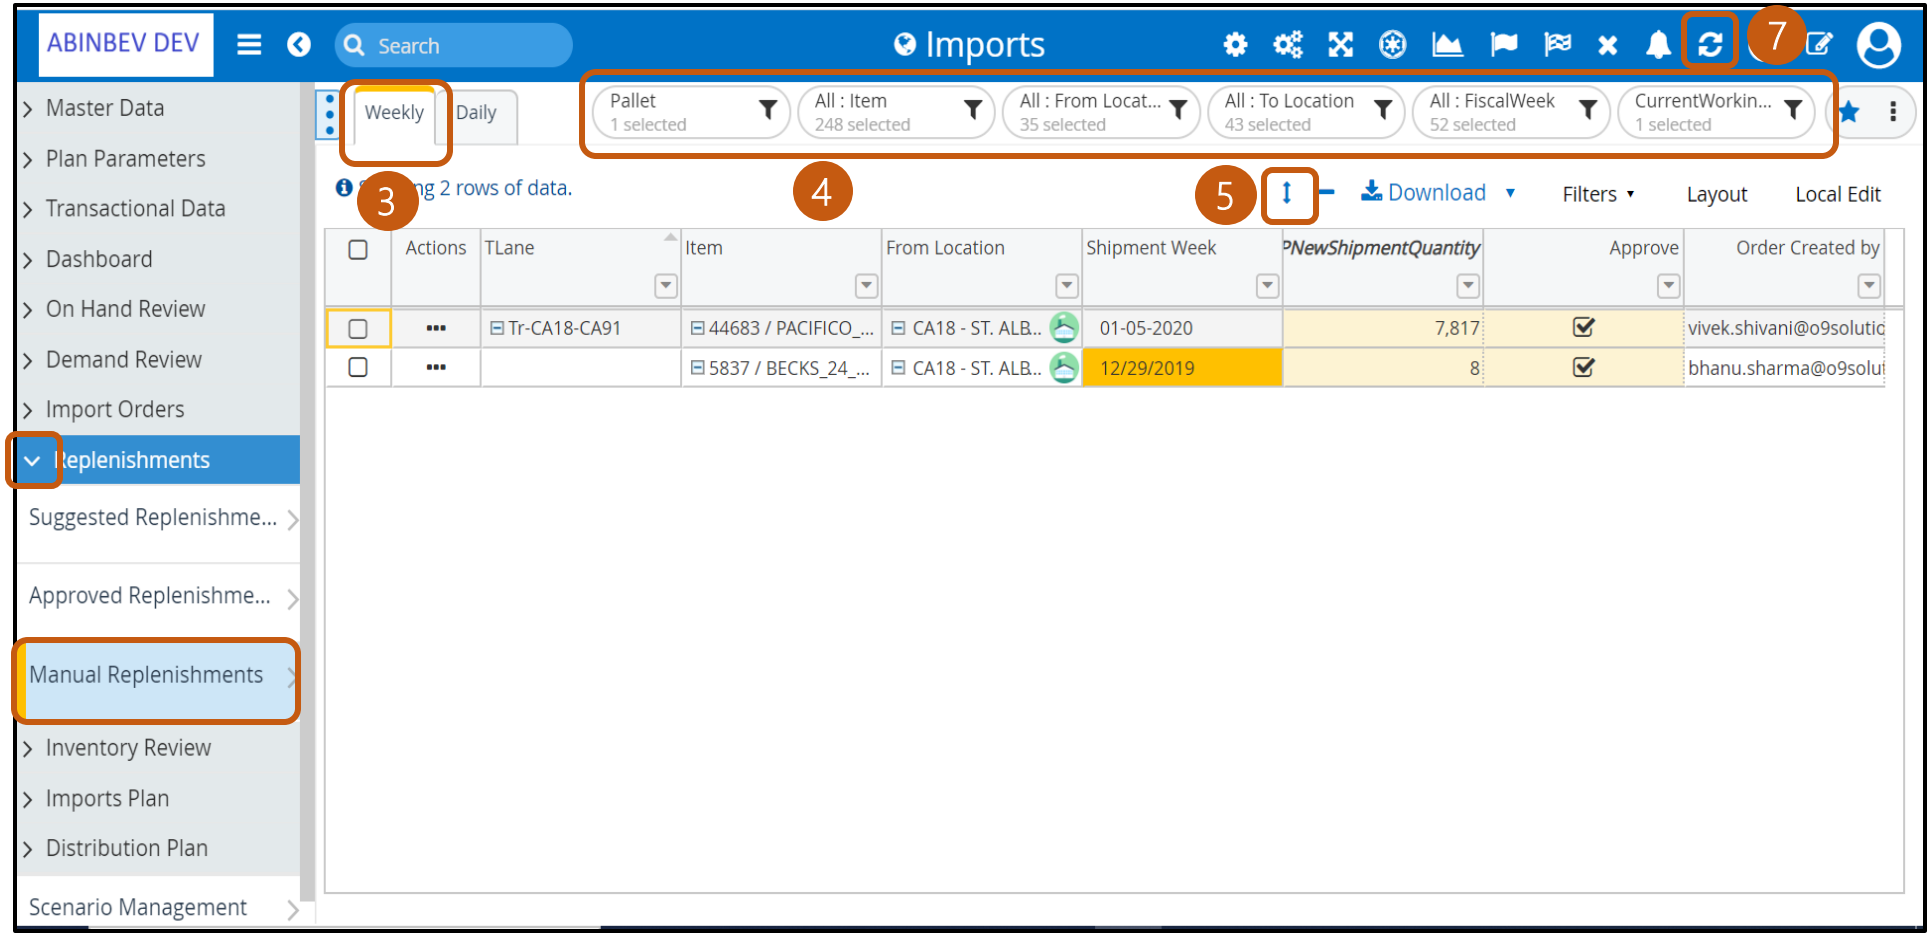
Step 1 : Click on the arrow corresponding to Replenishments
Step 2: Select "Approved Replenishments" from the dropdown
Step 3: Weekly tab opens
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
5: Review the table for Approved Replenishments



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Replenishments – Manual Replenishments: Weekly

Step 1 : Click on the arrow corresponding to Replenishments
Step 2: Select "Manual Replenishments" from the dropdown
Step 3: Weekly tab opens
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
Step 5: Click on "Create Manual Replenishments" button, Create New Replenishments page opens



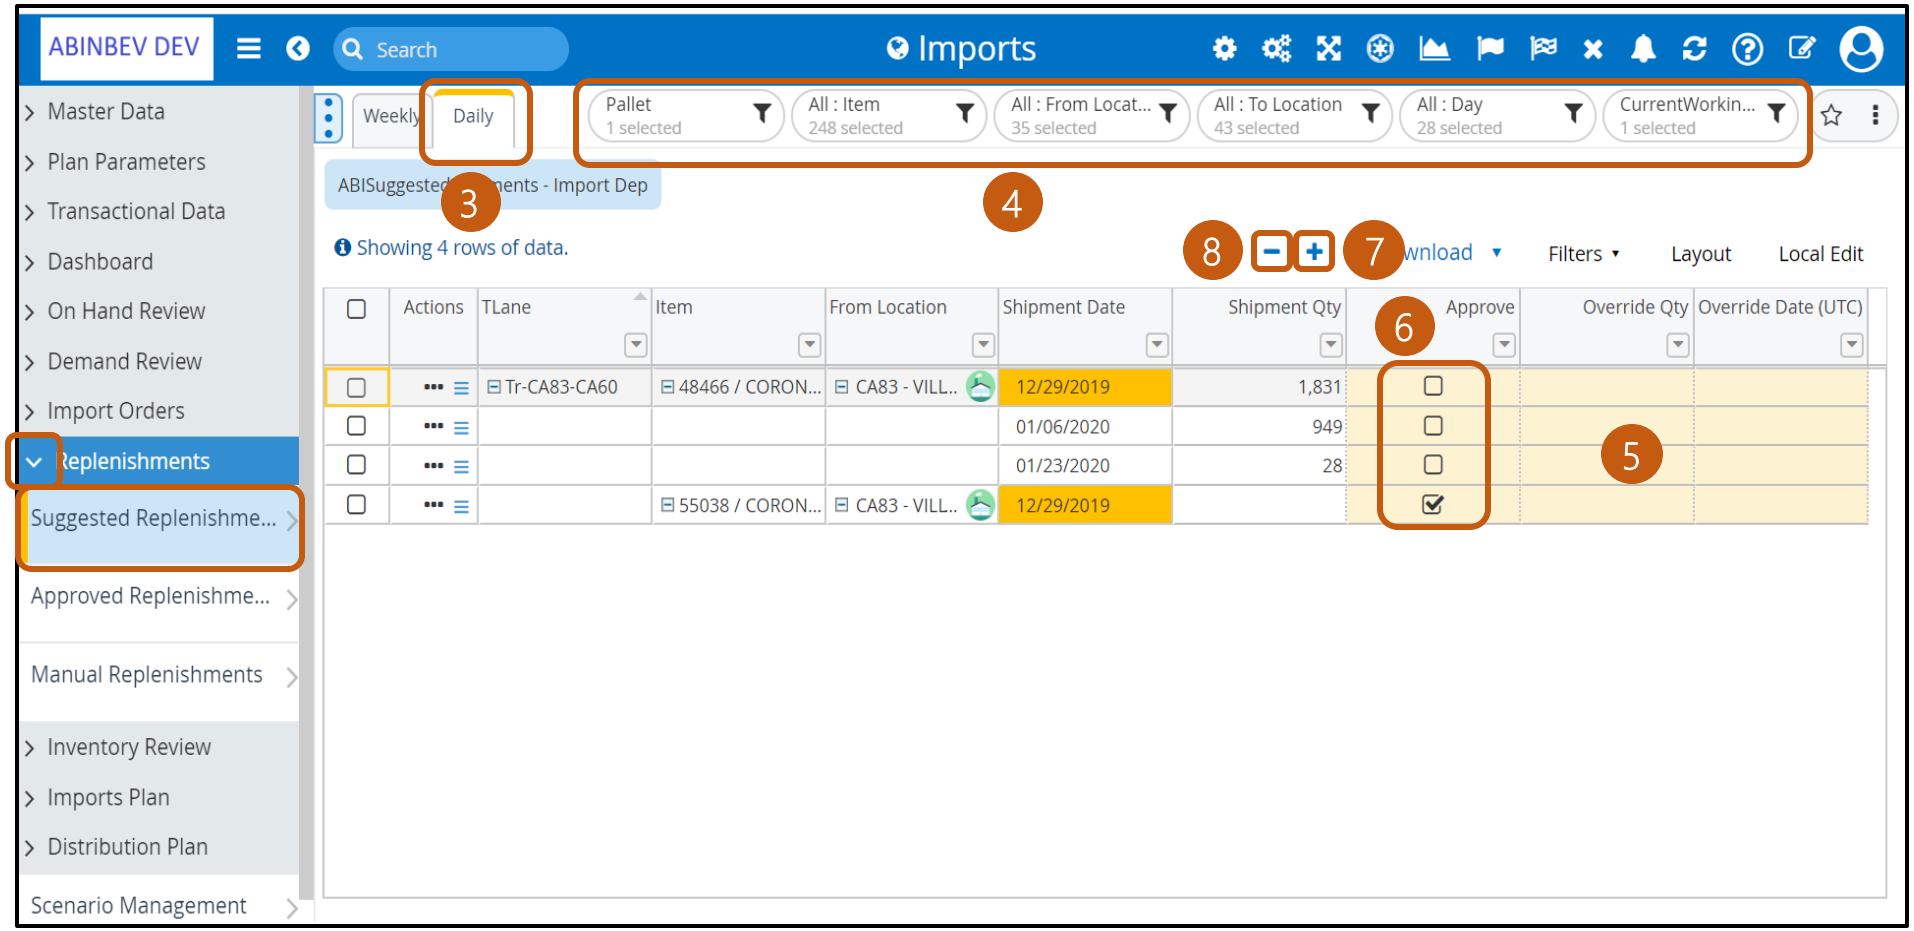
Step 6: Add Version, From Location, To Location, Item, Shipping Week, Unit, Planning Responsibility, Order Creation Frequency, Ship Date, Unit, Shipment Quantity of the Replenishment order to be created and click on Submit button

Step 7: Click on "Refresh Data" button. Newly created Replenishment will be seen in the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Replenishments – Suggested Replenishments: Daily

Step 1 : Click on the arrow corresponding to Replenishments
Step 2: Select "Suggested Replenishments" from the dropdown
Step 3: Click on Daily tab
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
5: Review the table for Consumption Requirements.



Step 6: User can Check/Uncheck Approve checkbox to Approve/Disapprove a Replenishment. User can Override Replenishment quantity and date by adding values in "Quantity Override" and "Override Date(UTC)" column

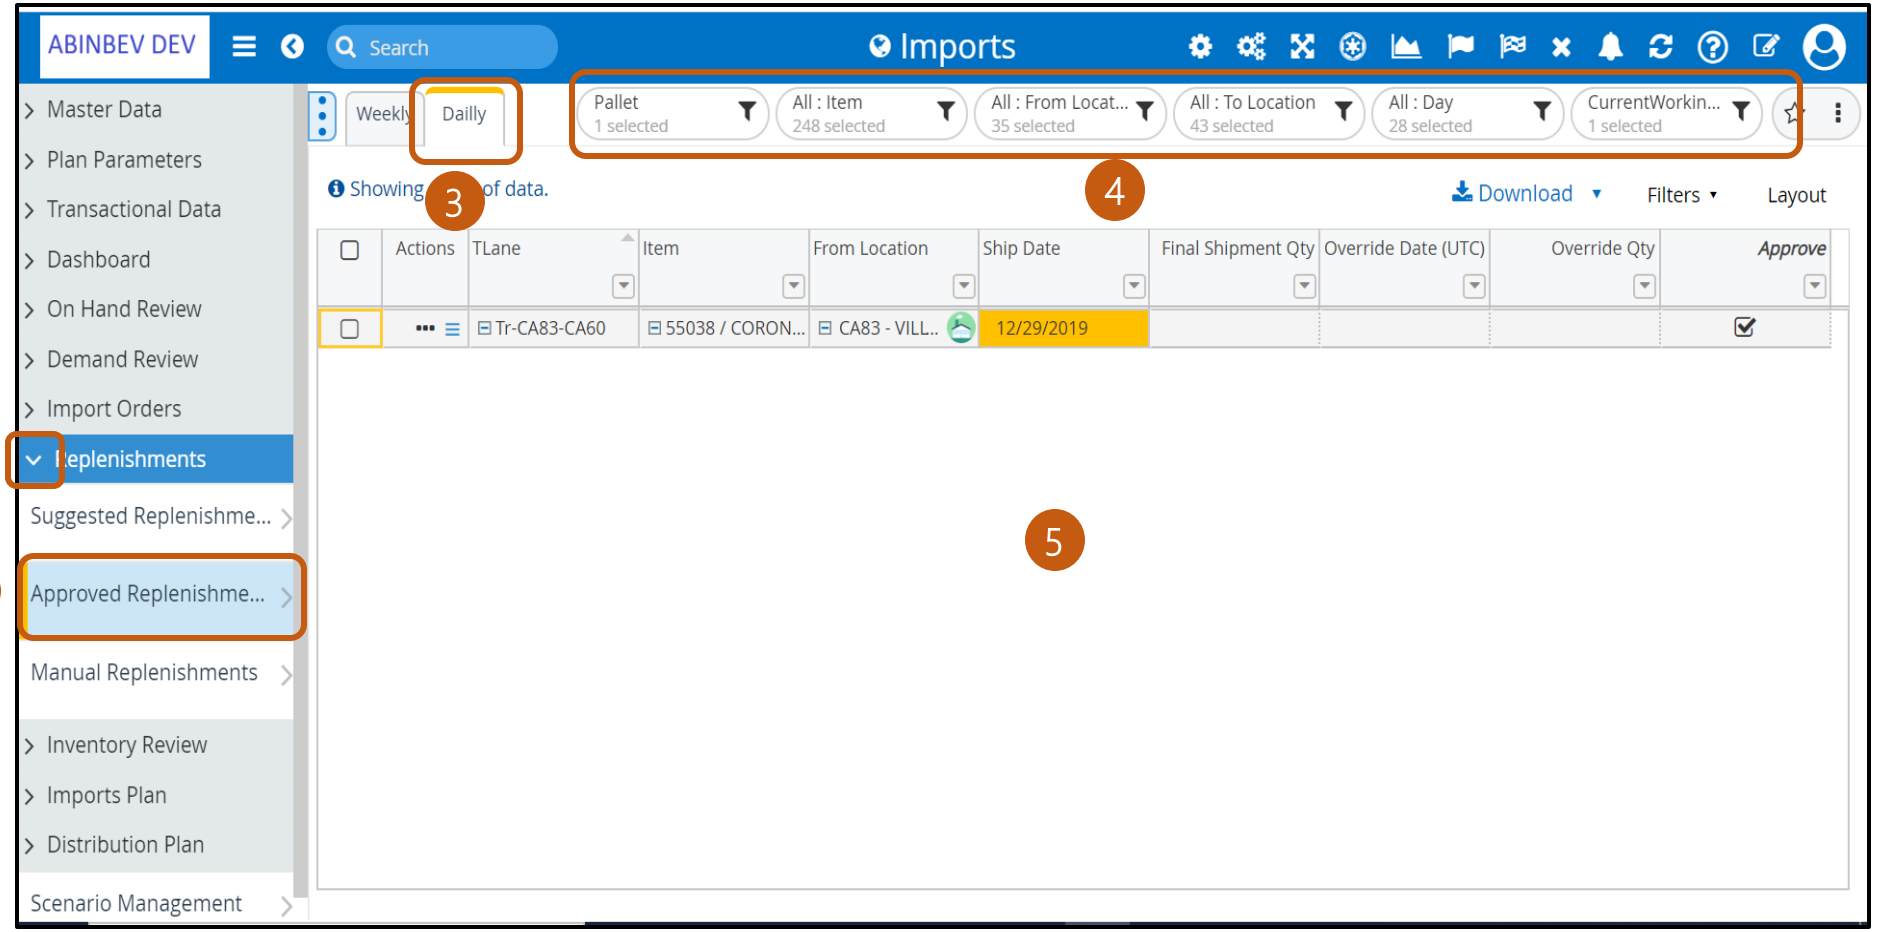
Step 7: Click on "+" icon to approve multiple Replenishment (Select multiple rows and click on + sign)

Step 8: Click on "-" icon to disapprove multiple Replenishment (Select multiple rows and click on - sign)

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Replenishments – Approved Replenishments: Daily

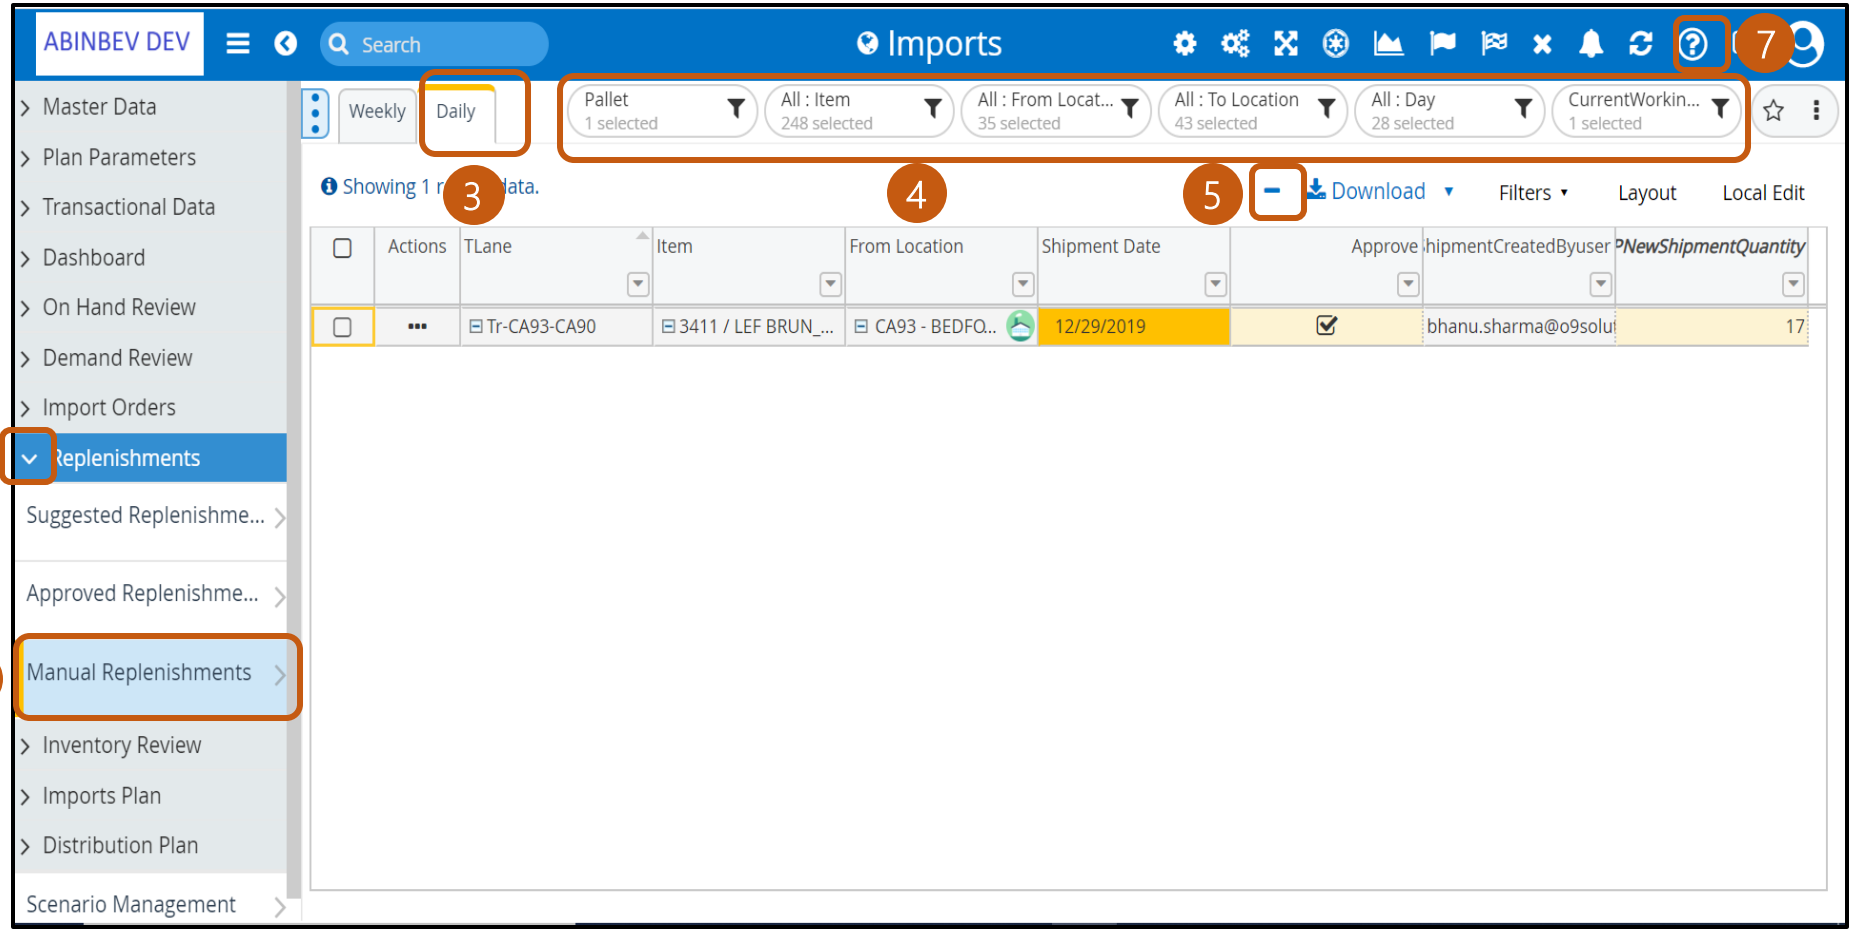
Step 1 : Click on the arrow corresponding to Replenishments
Step 2: Select "Approved Replenishments" from the dropdown
Step 3: Click on Daily tab
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
Step 5: Review the table for Approved Replenishments



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Replenishments – Manual Replenishments: Daily

Step 1 : Click on the arrow corresponding to Replenishments
Step 2: Select "Manual Replenishments" from the dropdown
Step 3: Click on Daily tab
Step 4: Filter on Unit, Item, From Location, To Location, Time and Scenario
Step 5: Click on "Create Manual Replenishments" button, Create New Replenishments page opens



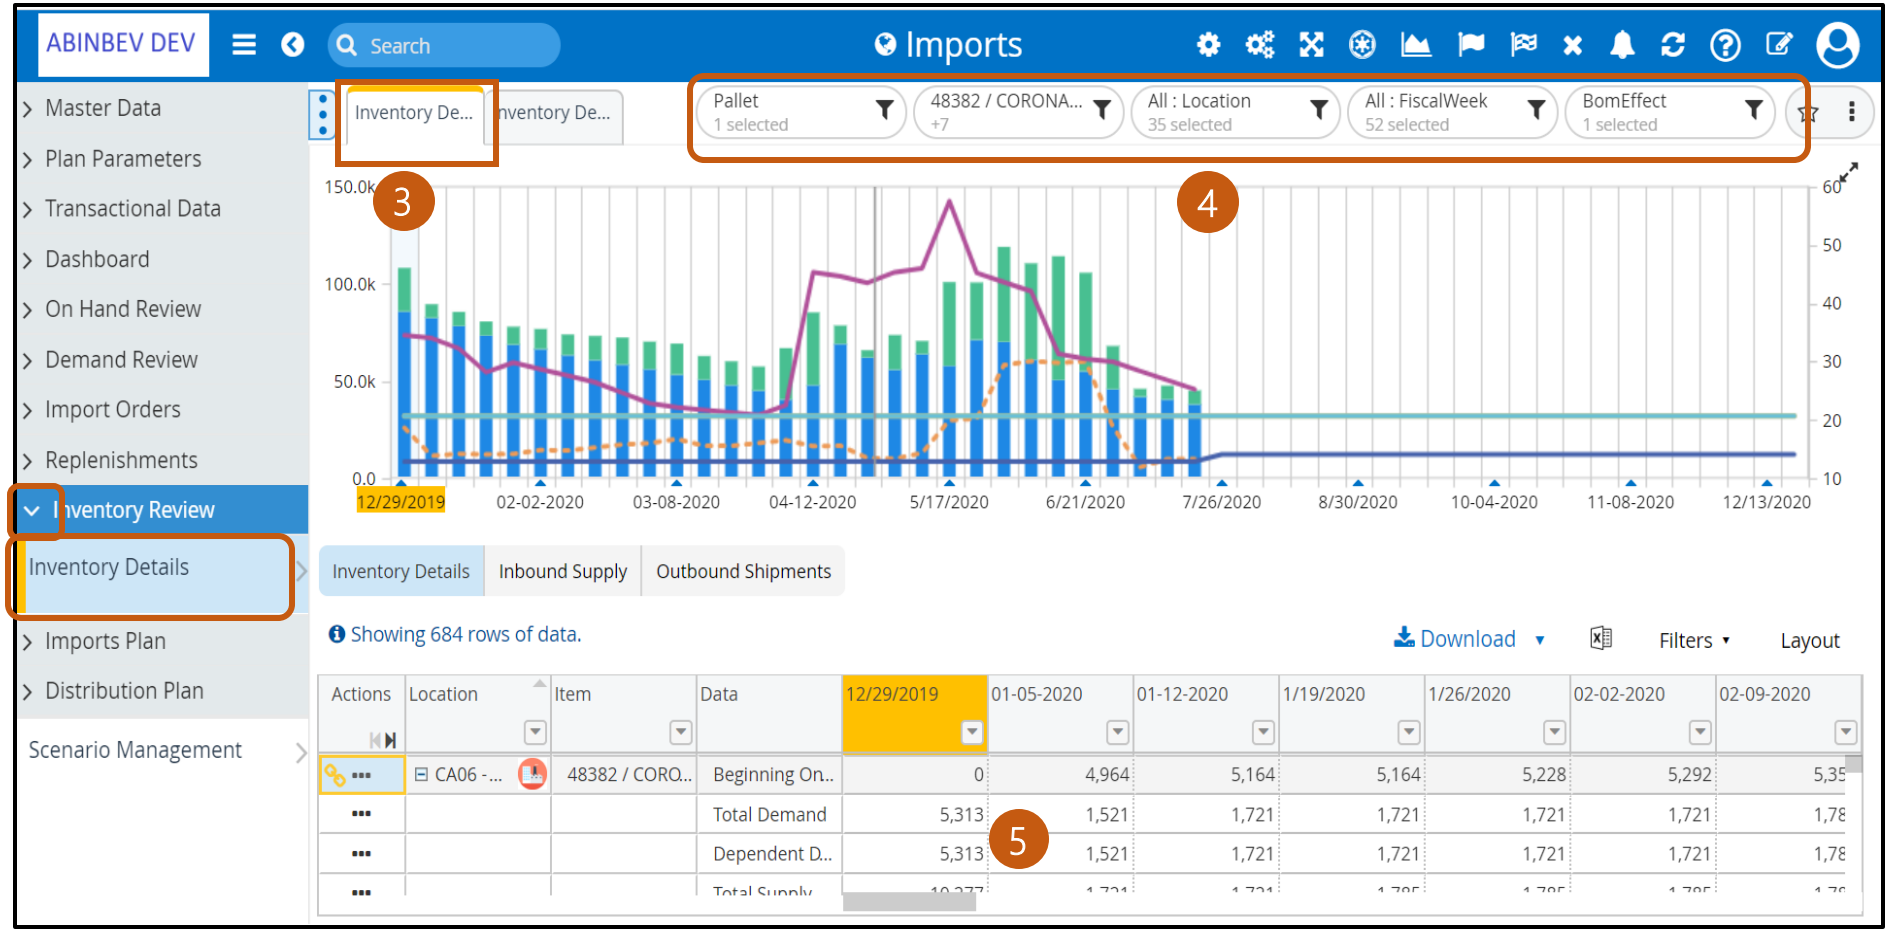
Step 6: Add Version, From Location, To Location, Item, Shipping Week, Unit, Planning Responsibility, Order Creation Frequency, Ship Date, Unit, Shipment Quantity of the Replenishment order to be created and click on Submit button

Step 7: Click on "Refresh Data" button. Newly created Replenishment will be seen in the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Inventory Review – Inventory Details: Inventory Details (Weekly)

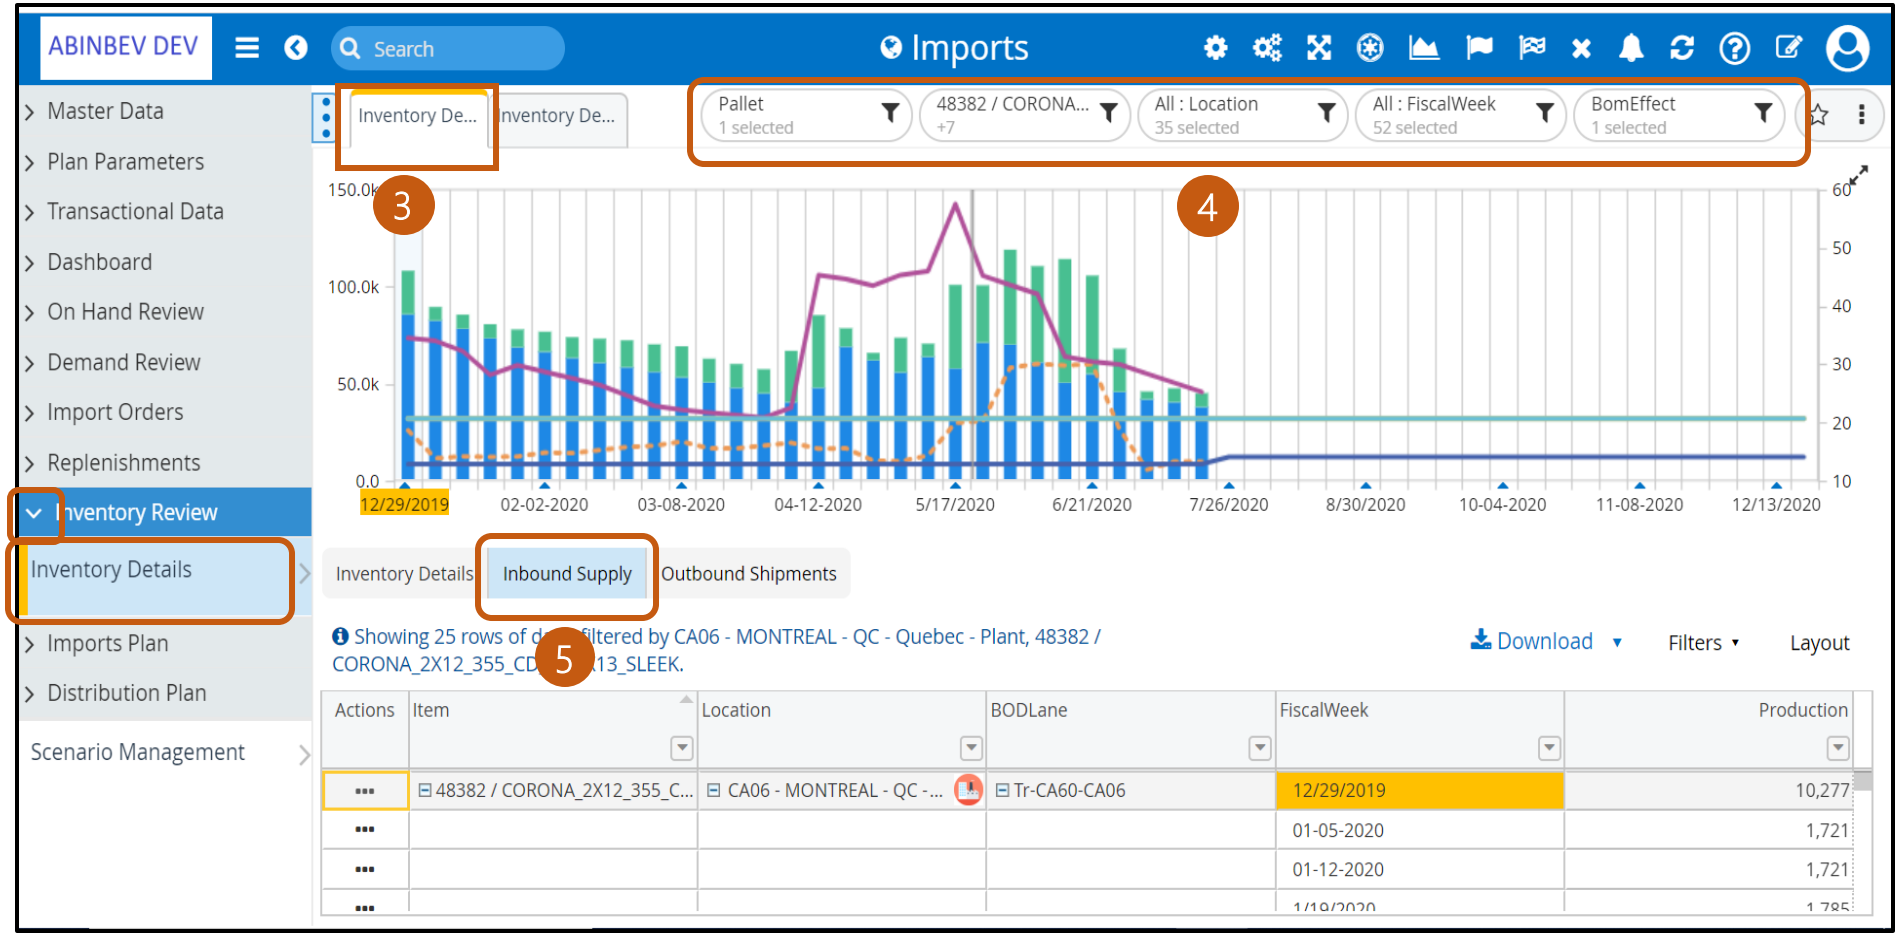
Step 1 : Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Details" from the dropdown
Step 3: Click on Inventory Details - Weekly tab
Step 4: Filter on Unit, Item, Location, Time(Week) and Scenario
5: Review the Graph and Table for BOH, Total Demand, Total Supply etc.



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Inventory Review – Inventory Details :Inbound Supply - Weekly

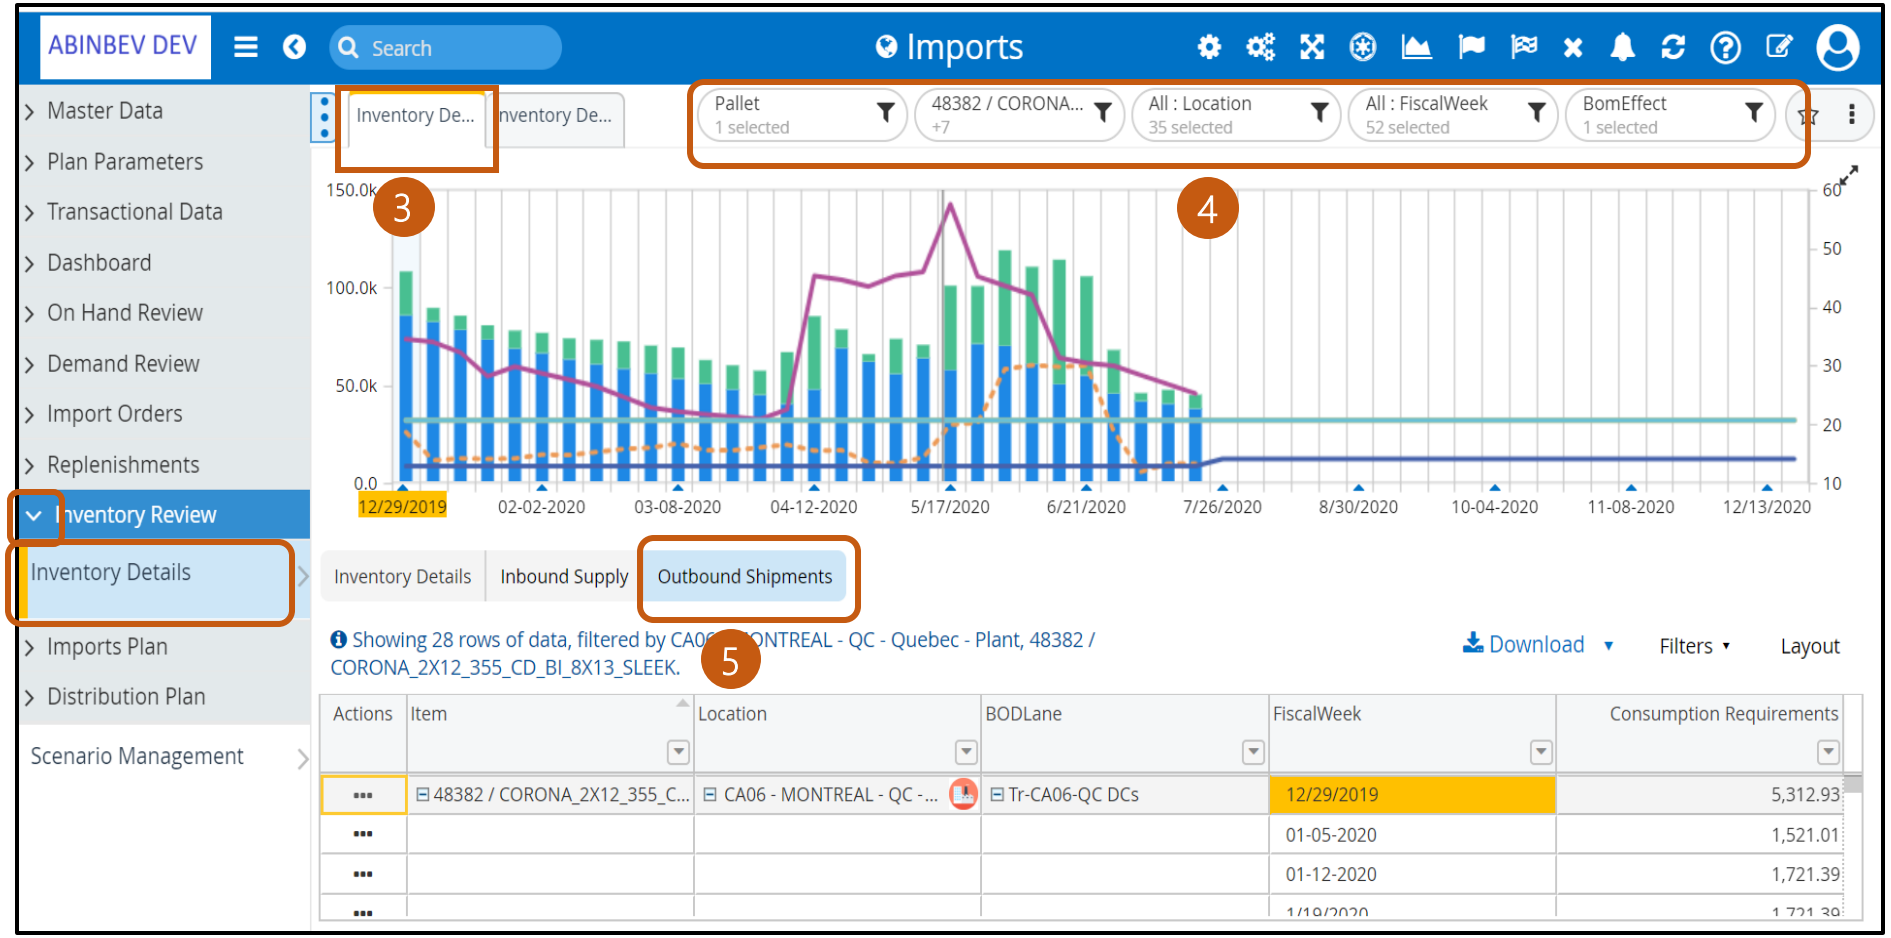
Step 1 : Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Details" from the dropdown
Step 3: Click on Inventory Details - Weekly tab
Step 4: Filter on Unit, Item, Location, Time(Week) and Scenario
Step 5: Click on Inbound Supply tab and review Production details



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Inventory Review – Inventory Details-Weekly: Outbound Shipments

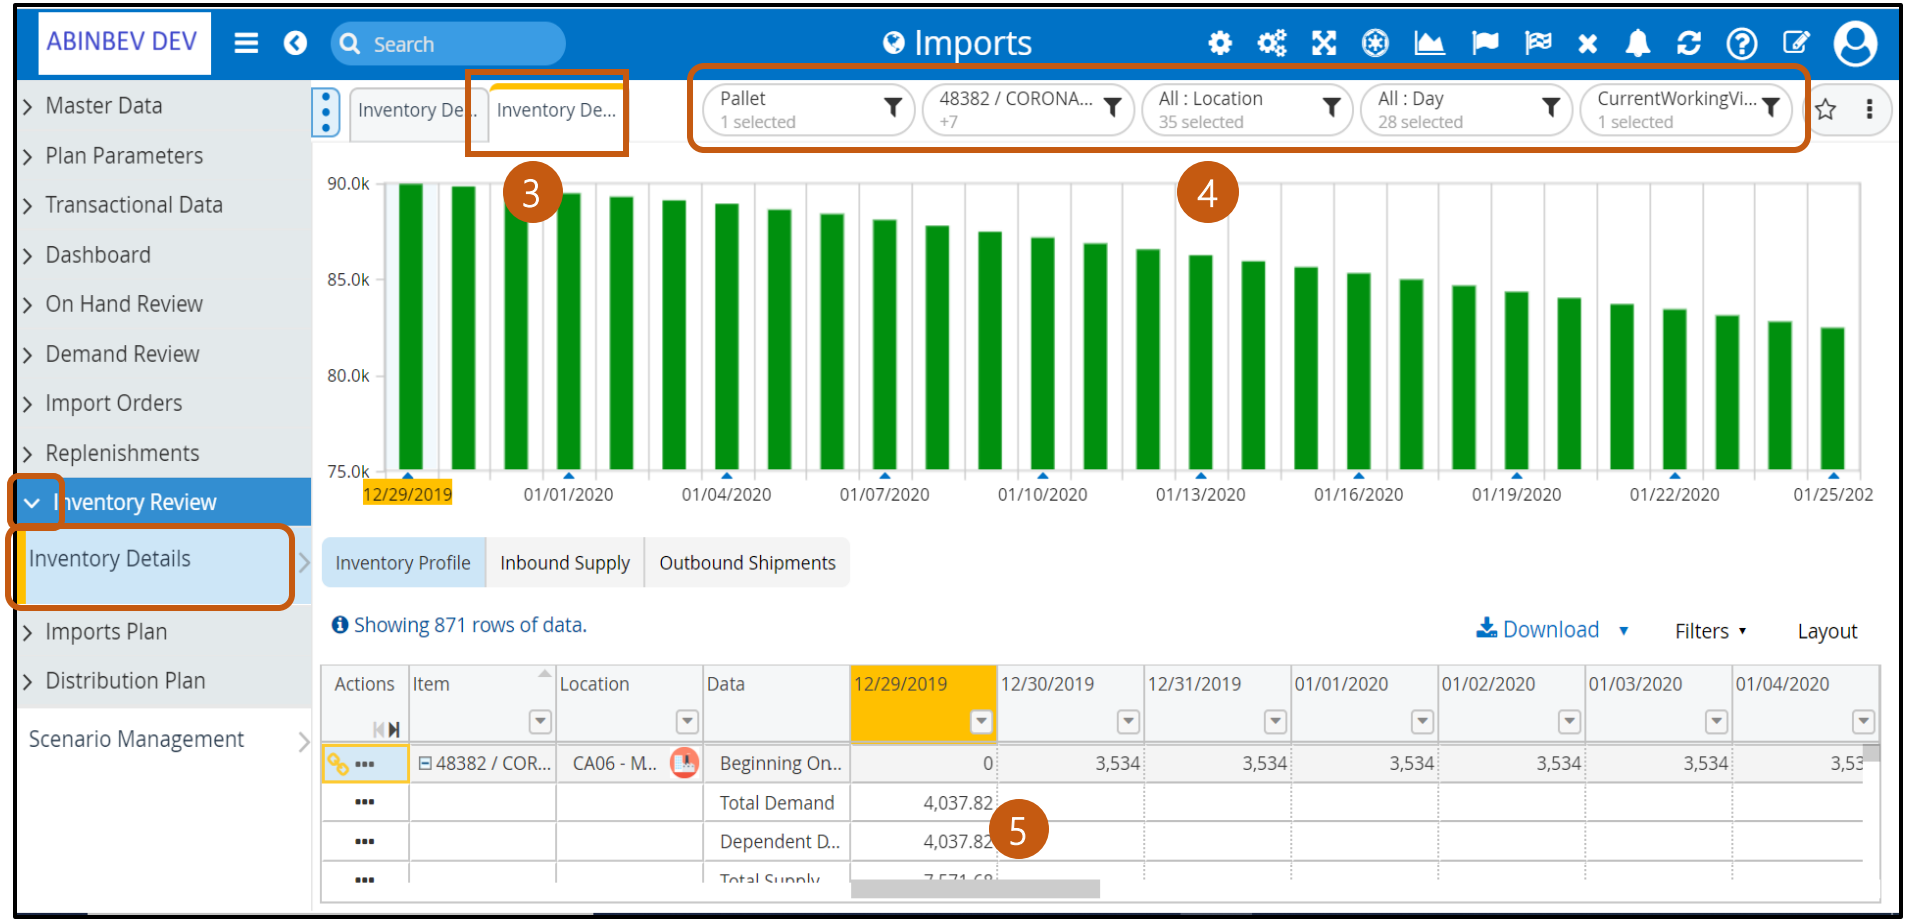
Step 1 : Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Details" from the dropdown
Step 3: Click on Inventory Details - Weekly tab
Step 4: Filter on Unit, Item, Location, Time(Week) and Scenario
Step 5: Click on Outbound Shipments tab and review Consumption Requirement details



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Inventory Review – Inventory Details: Inventory Details - Daily

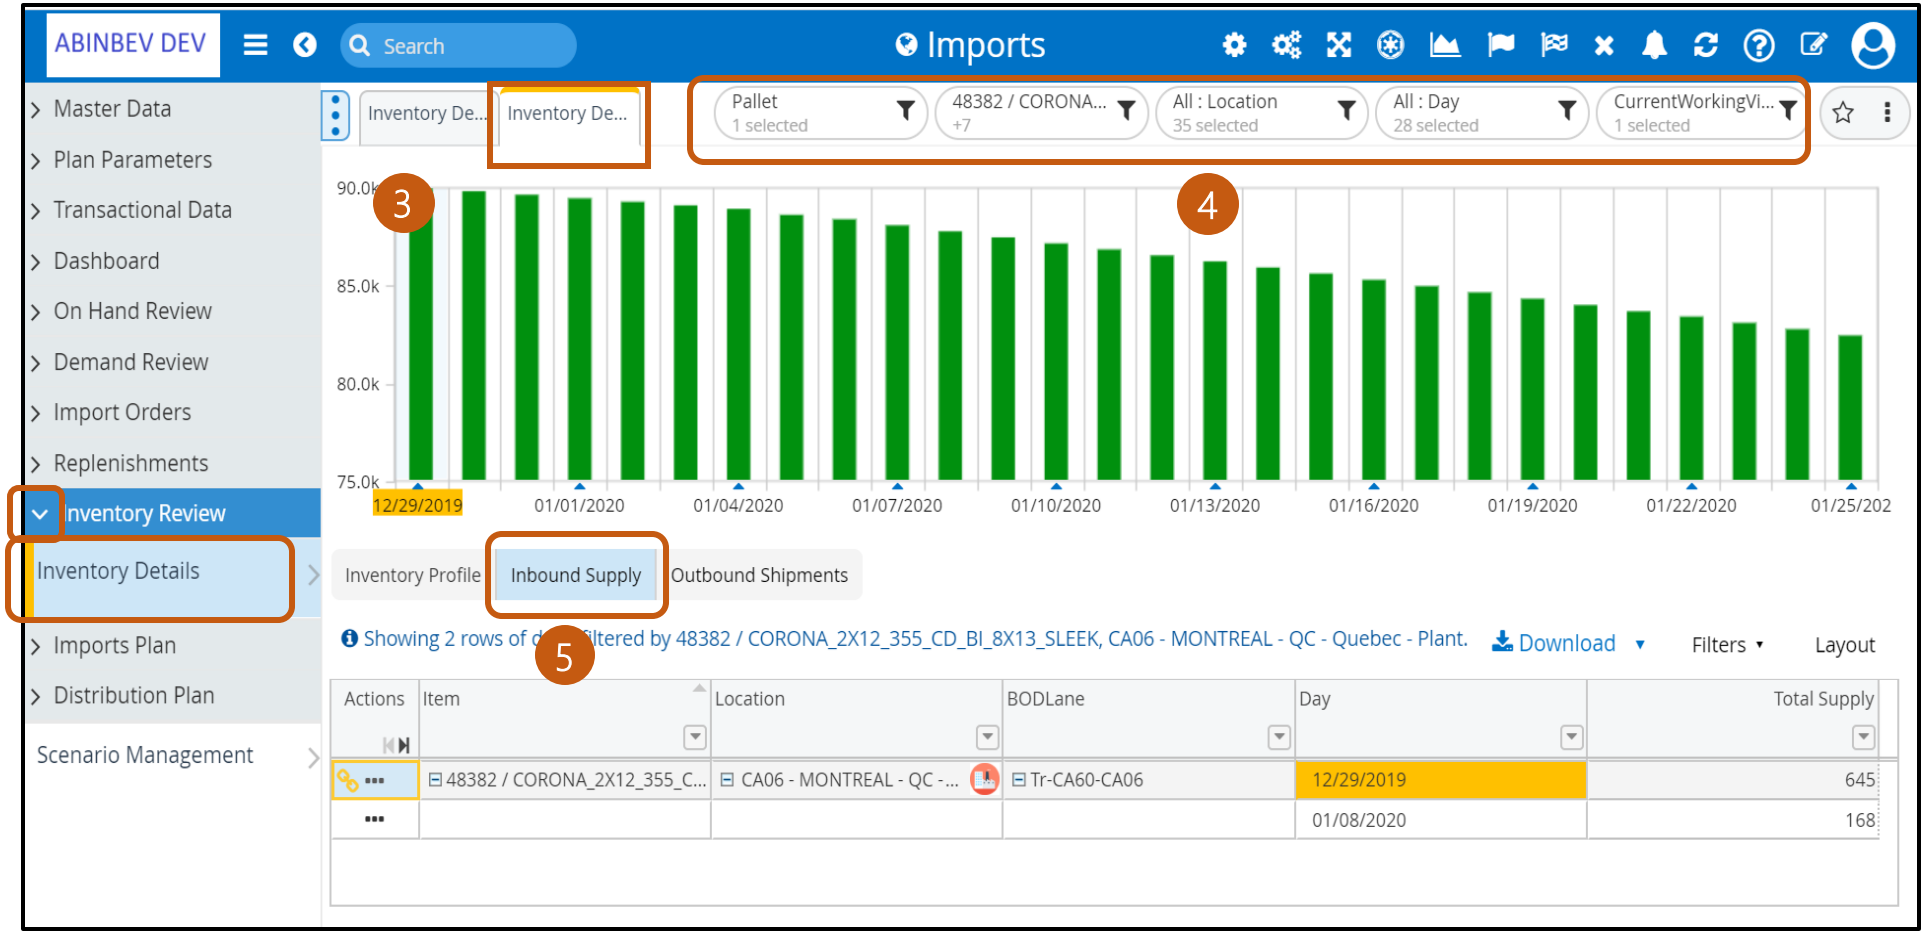
Step 1 : Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Details" from the dropdown
Step 3: Click on Inventory Details - Daily tab
Step 4: Filter on Unit, Item, Location, Time(Day) and Scenario
5: Review the Graph and Table for BOH, Total Demand, Total Supply etc.



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Inventory Review – Inventory Details - Daily: Inbound Supply

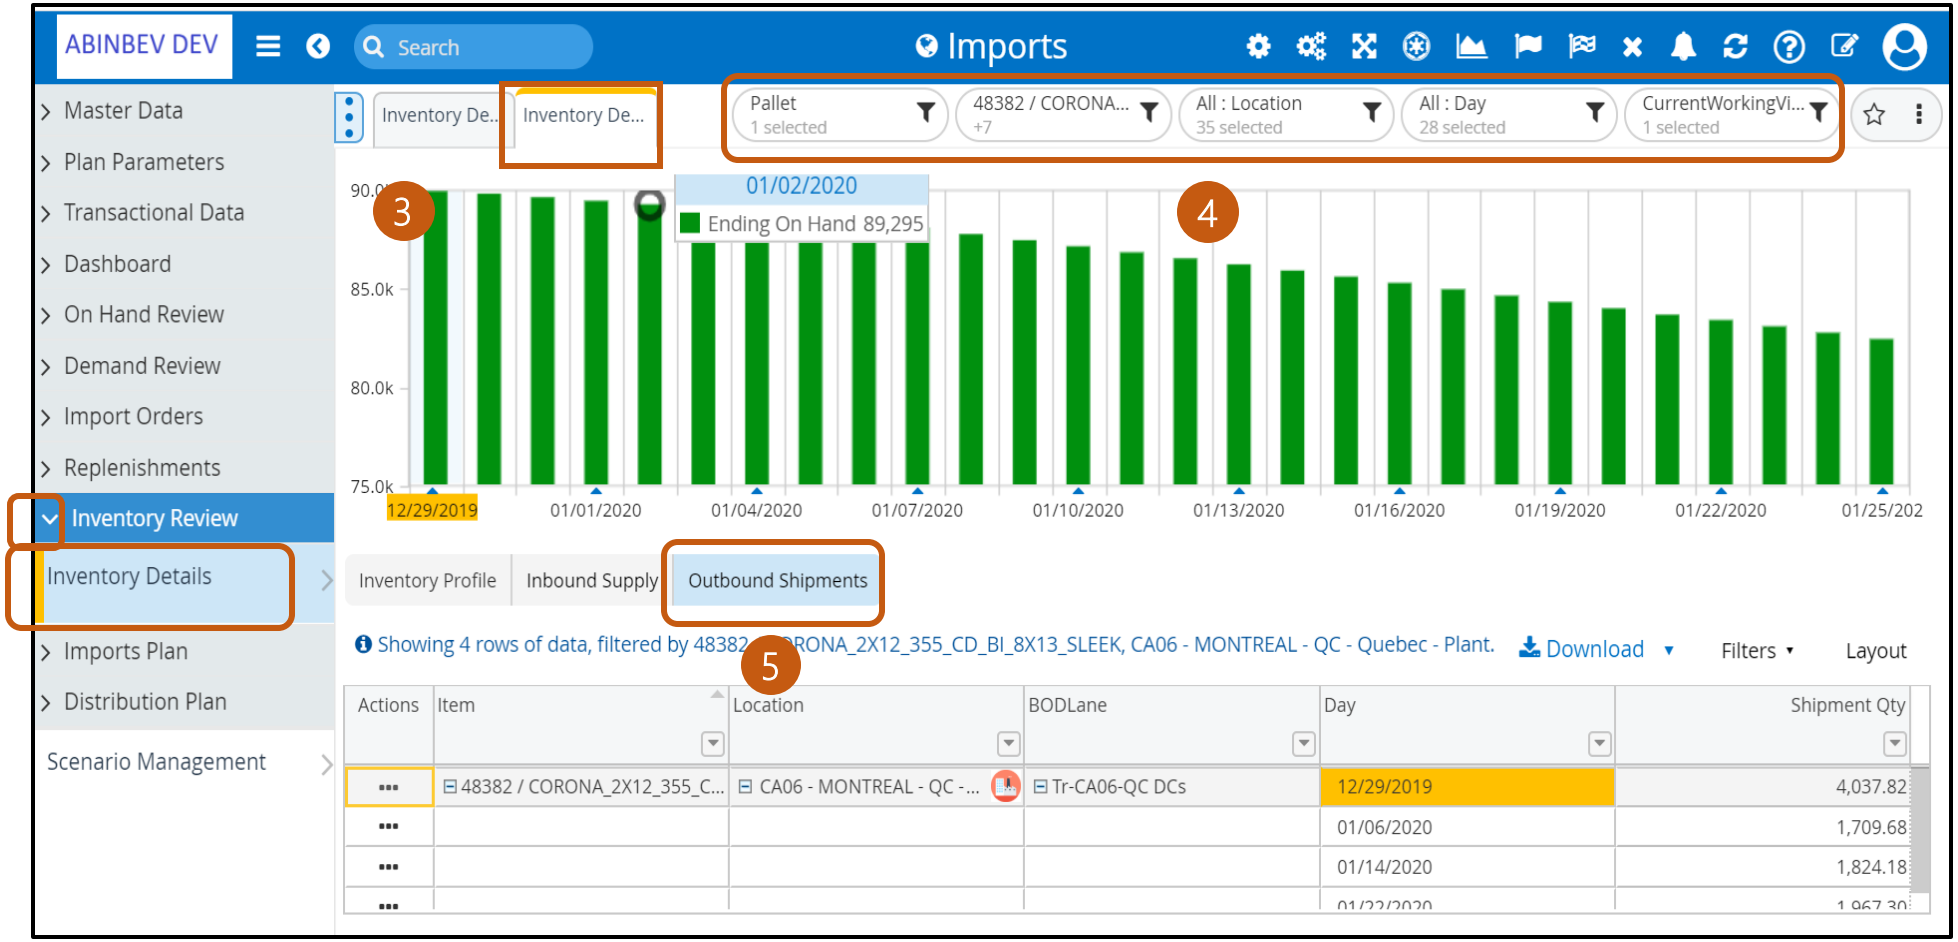
Step 1 : Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Details" from the dropdown
Step 3: Click on Inventory Details - Daily tab
Step 4: Filter on Unit, Item, Location, Time(Day) and Scenario
Step 5: Click on Inbound Supply tab and review Total Supply



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Inventory Review – Inventory Details - Daily: Outbound Shipments

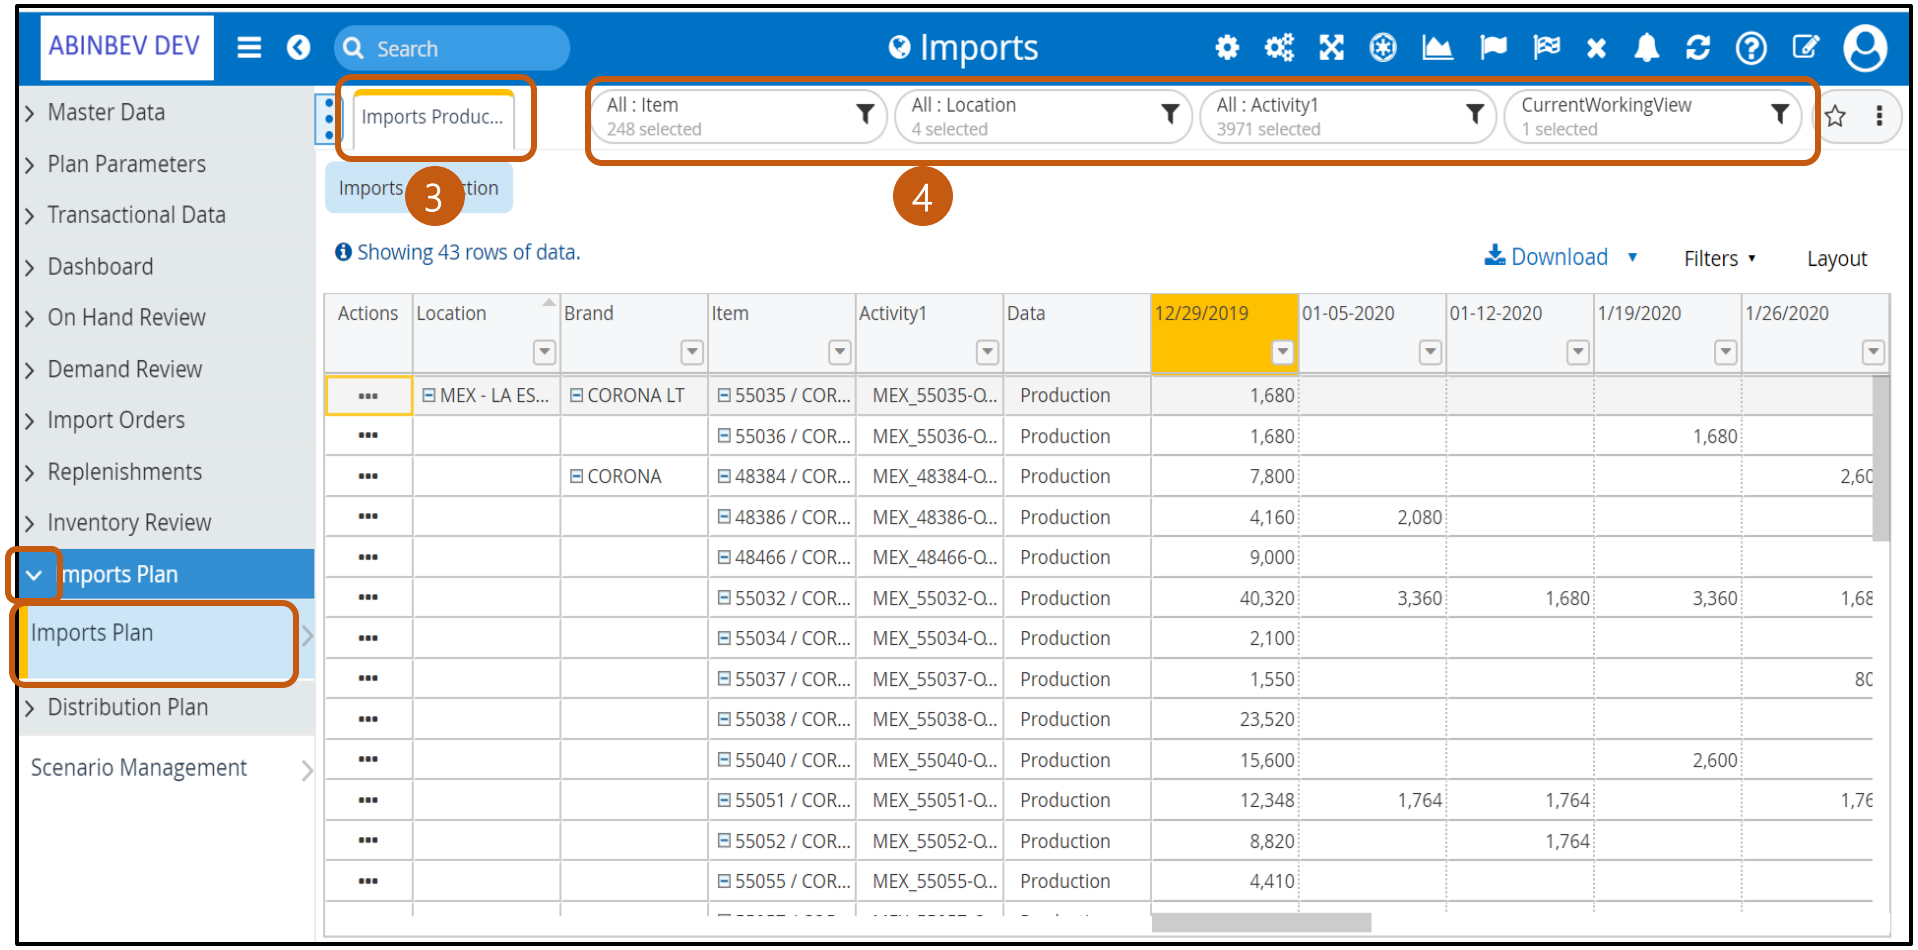
Step 1 : Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Details" from the dropdown
Step 3: Click on Inventory Details - Daily tab
Step 4: Filter on Unit, Item, Location, Time(Day) and Scenario
Step 5: Click on Outbound Shipments tab and review Consumption Requirement details



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Imports Plan – Imports Plan: Imports Production

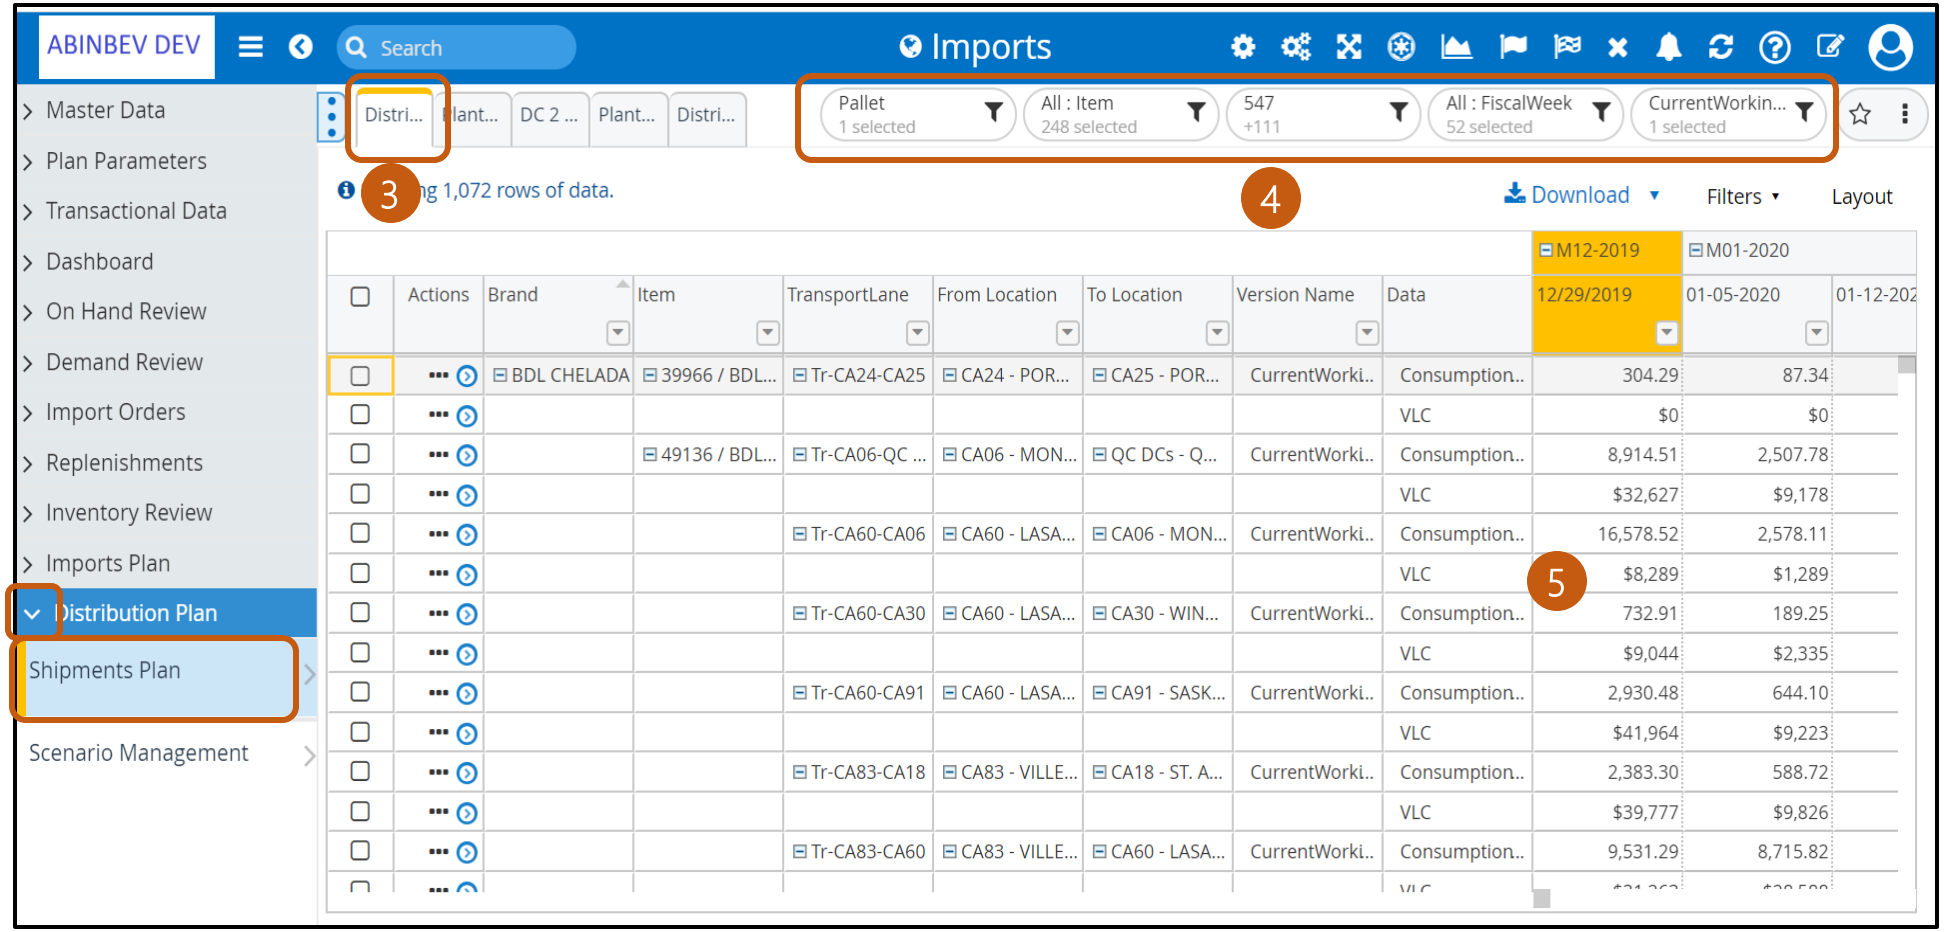
Step 1 : Click on the arrow corresponding to Imports Plan
Step 2: Select "Imports Plan" from the dropdown
Step 3: Imports Production tab opens
Step 4: Filter on Item, Location, Activity and Scenario
5: Revie data for Production details for a particular Item Location combination



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Distribution Plan – Shipments Plan: Distribution Plan

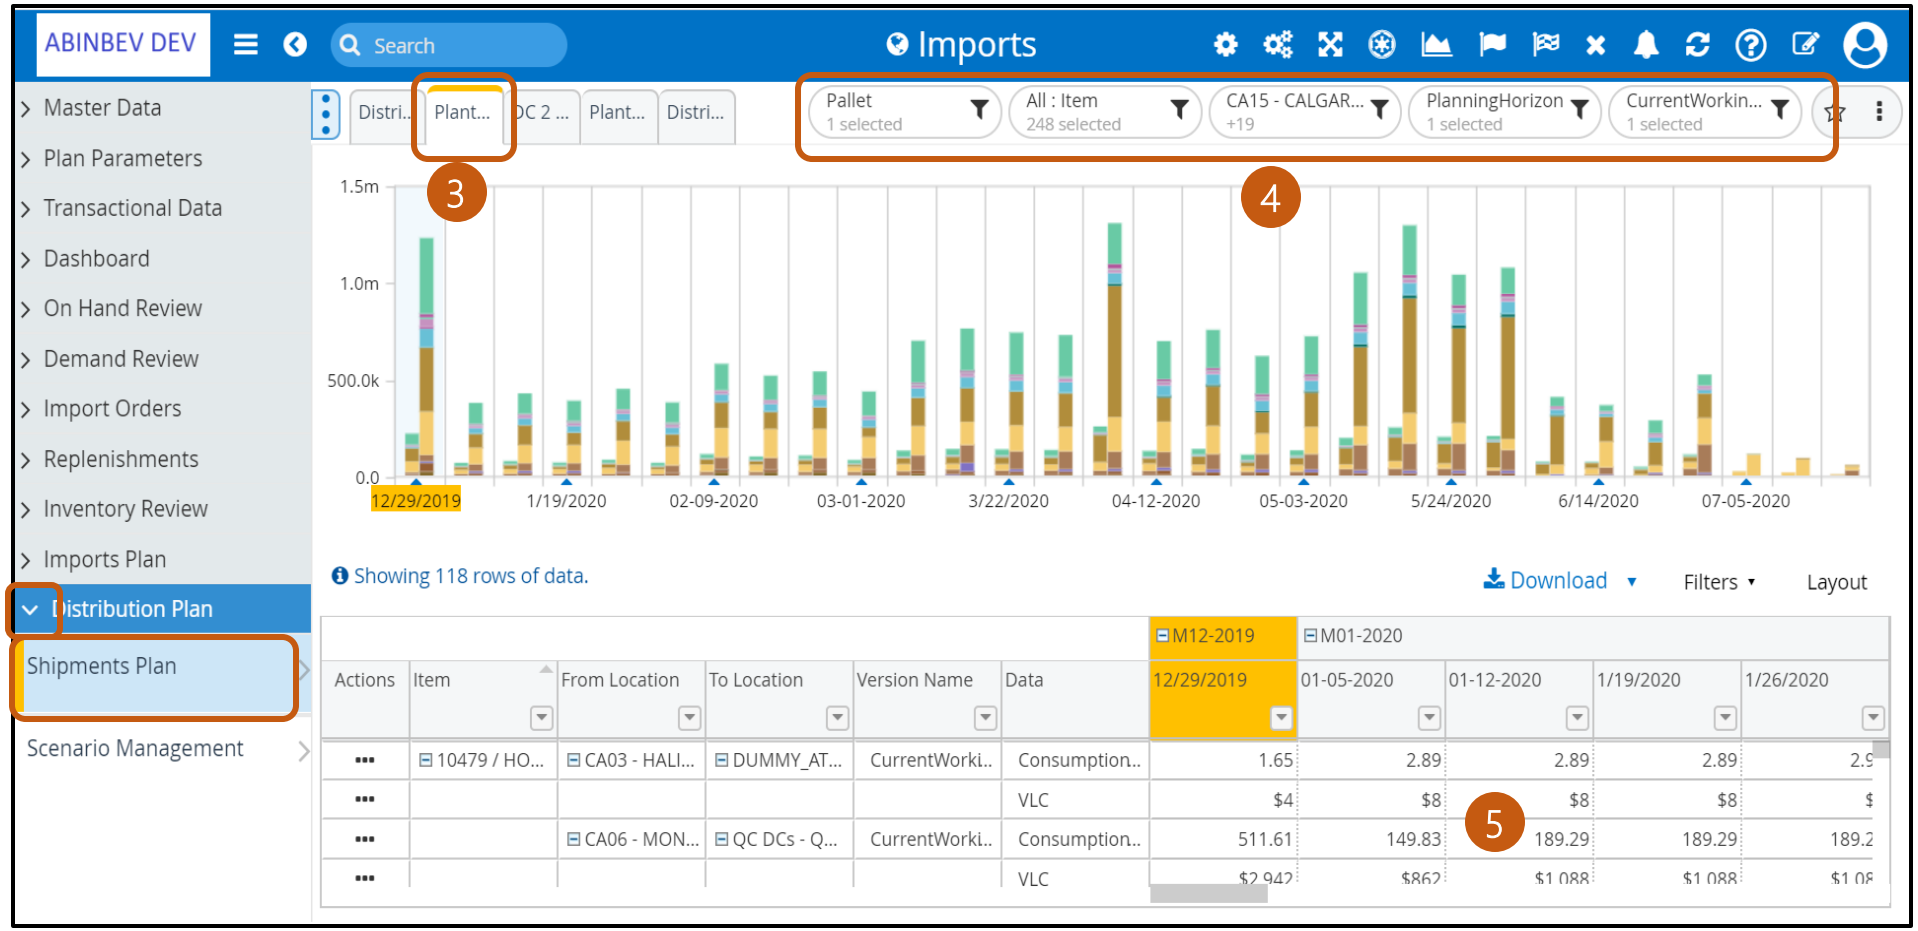
Step 1 : Click on the arrow corresponding to Distribution Plan
Step 2: Select "Shipments Plan" from the dropdown
Step 3: Click on Distribution Plan tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review data for Production details for distribution related attributes



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Distribution Plan – Shipments Plan: Plant 2 DC

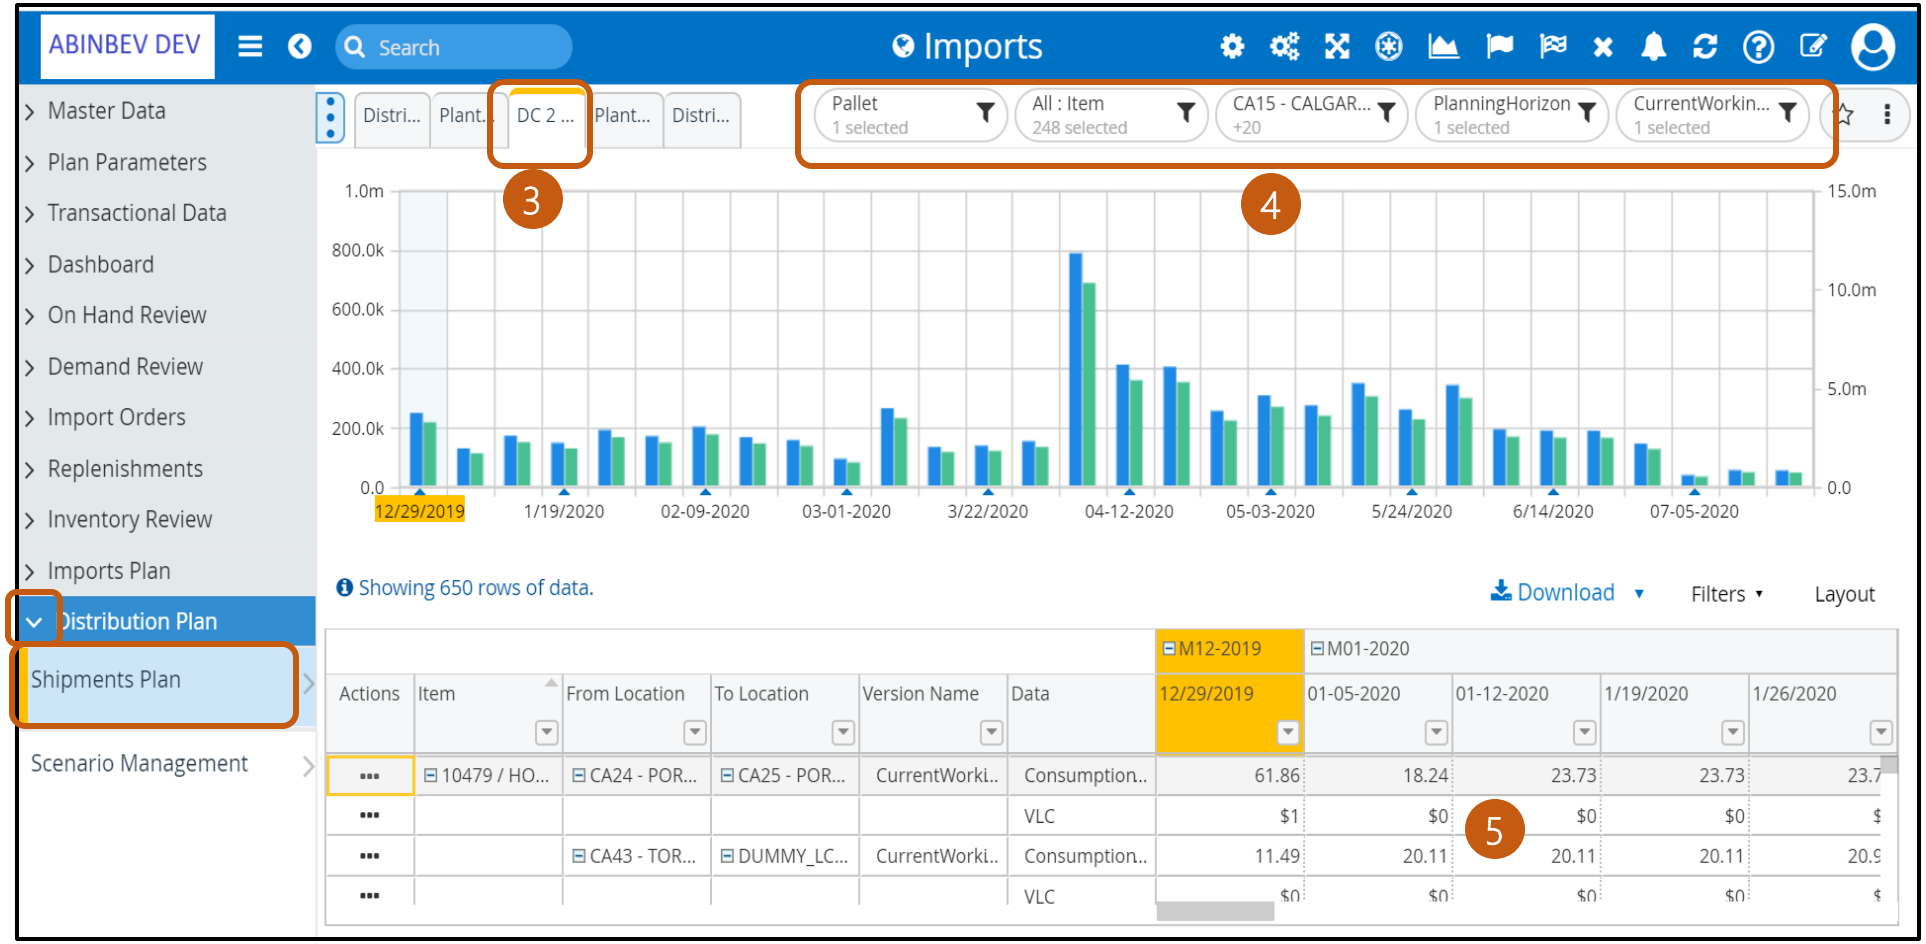
Step 1 : Click on the arrow corresponding to Distribution Plan
Step 2: Select "Shipments Plan" from the dropdown
Step 3: Click on Plant 2 DC tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review data



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Distribution Plan – Shipments Plan: DC 2 DC

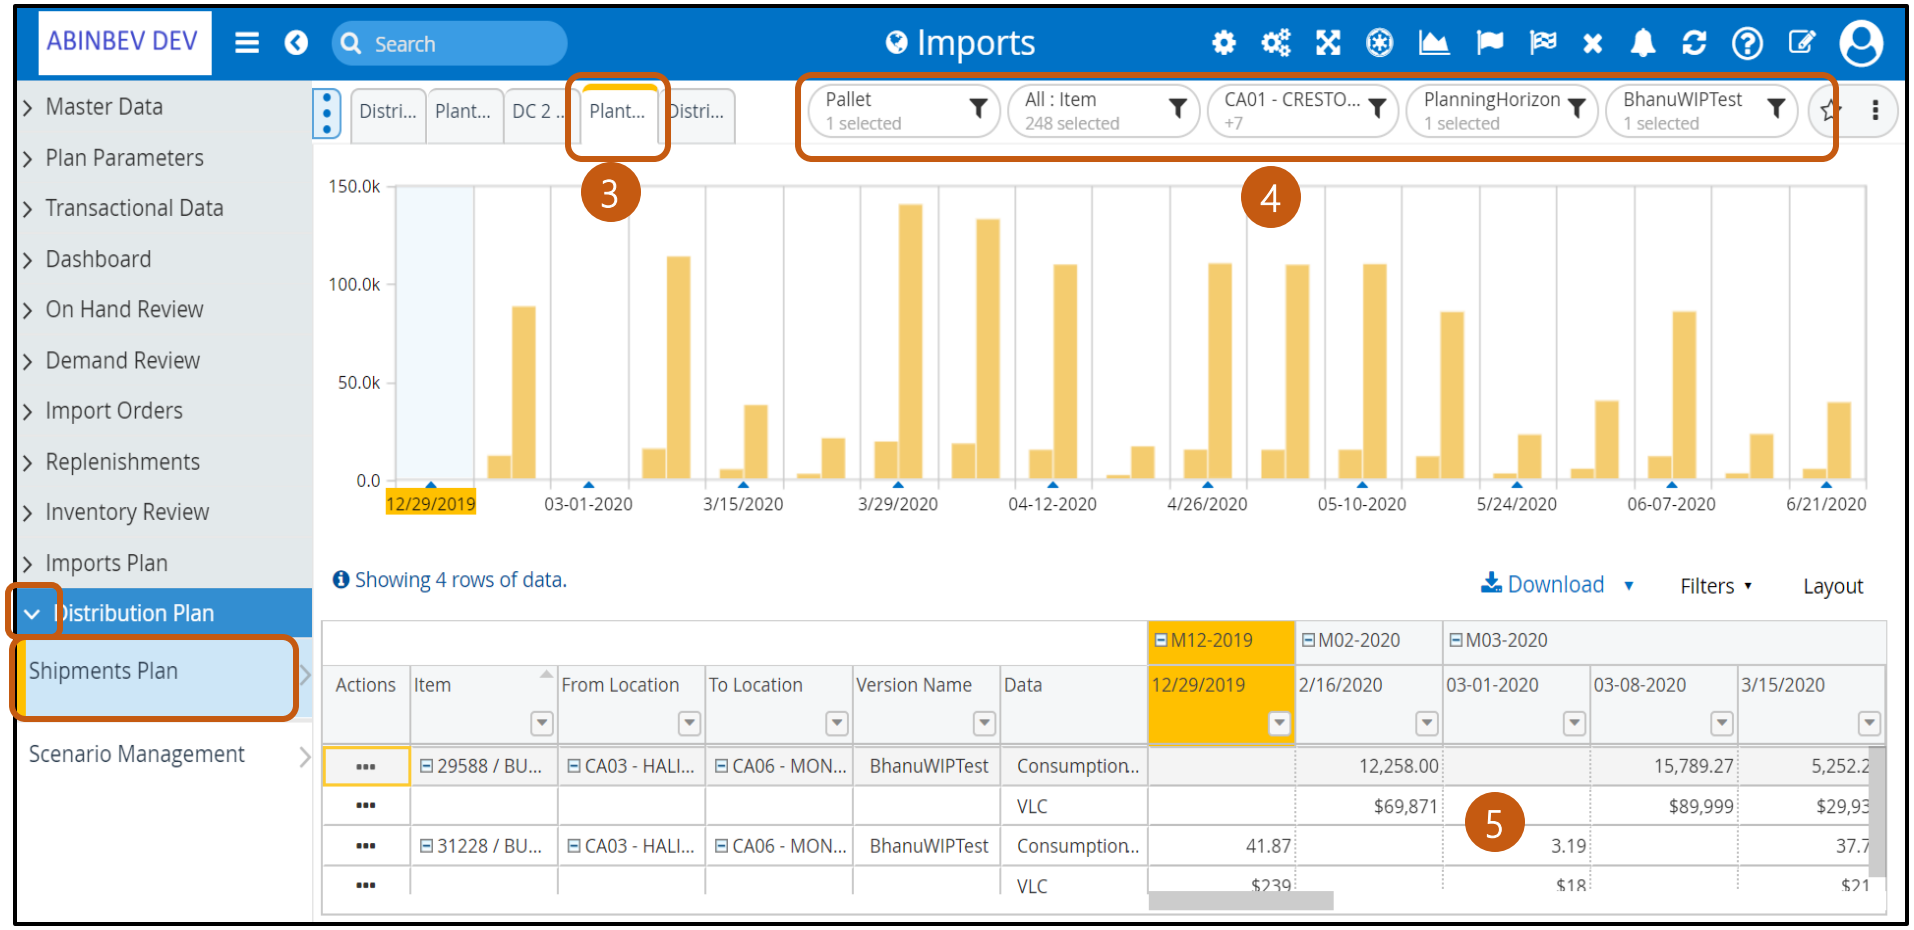
Step 1 : Click on the arrow corresponding to Distribution Plan
Step 2: Select "Shipments Plan" from the dropdown
Step 3: Click on DC 2 DC tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review data



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Distribution Plan – Shipments Plan: Plant 2 Plant

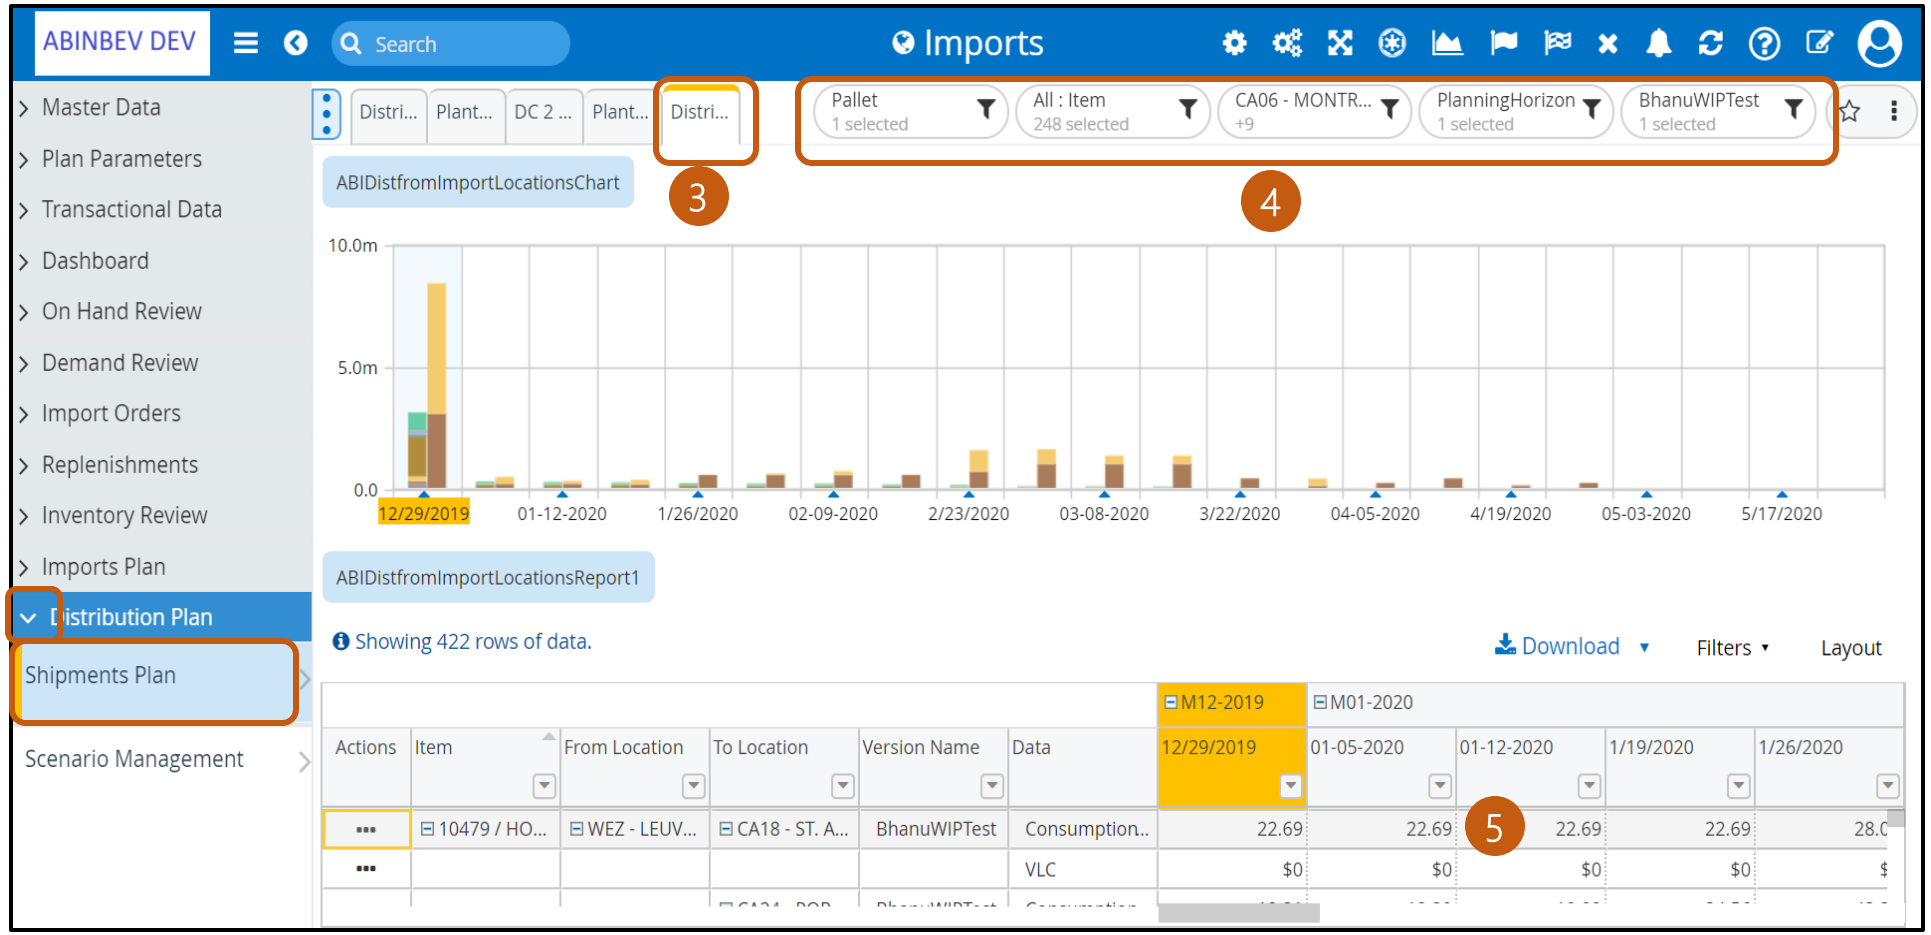
Step 1 : Click on the arrow corresponding to Distribution Plan
Step 2: Select "Shipments Plan" from the dropdown
Step 3: Click on Plant 2 Plant tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review data



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Distribution Plan – Shipments Plan: Distribution Plan from Import Location

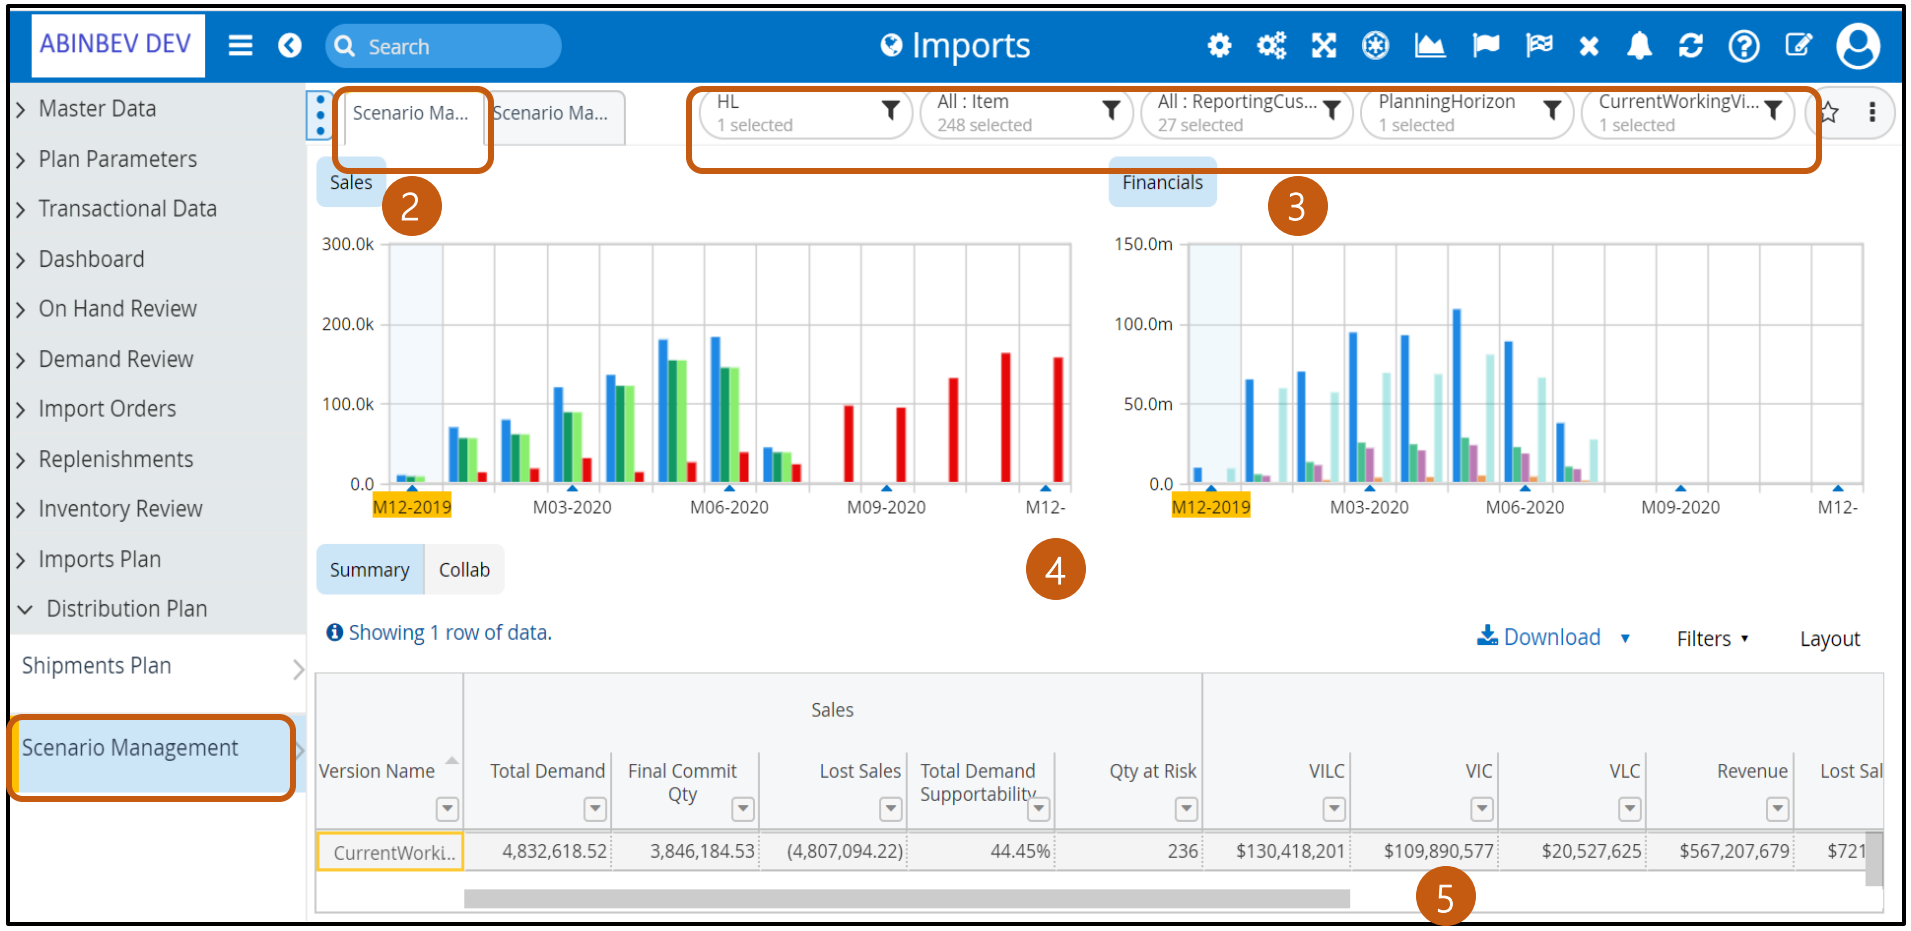
Step 1 : Click on the arrow corresponding to Distribution Plan
Step 2: Select "Shipments Plan" from the dropdown
Step 3: Click on Distribution Plan from Import Location tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review data



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Management – Scenario Management(Weekly)

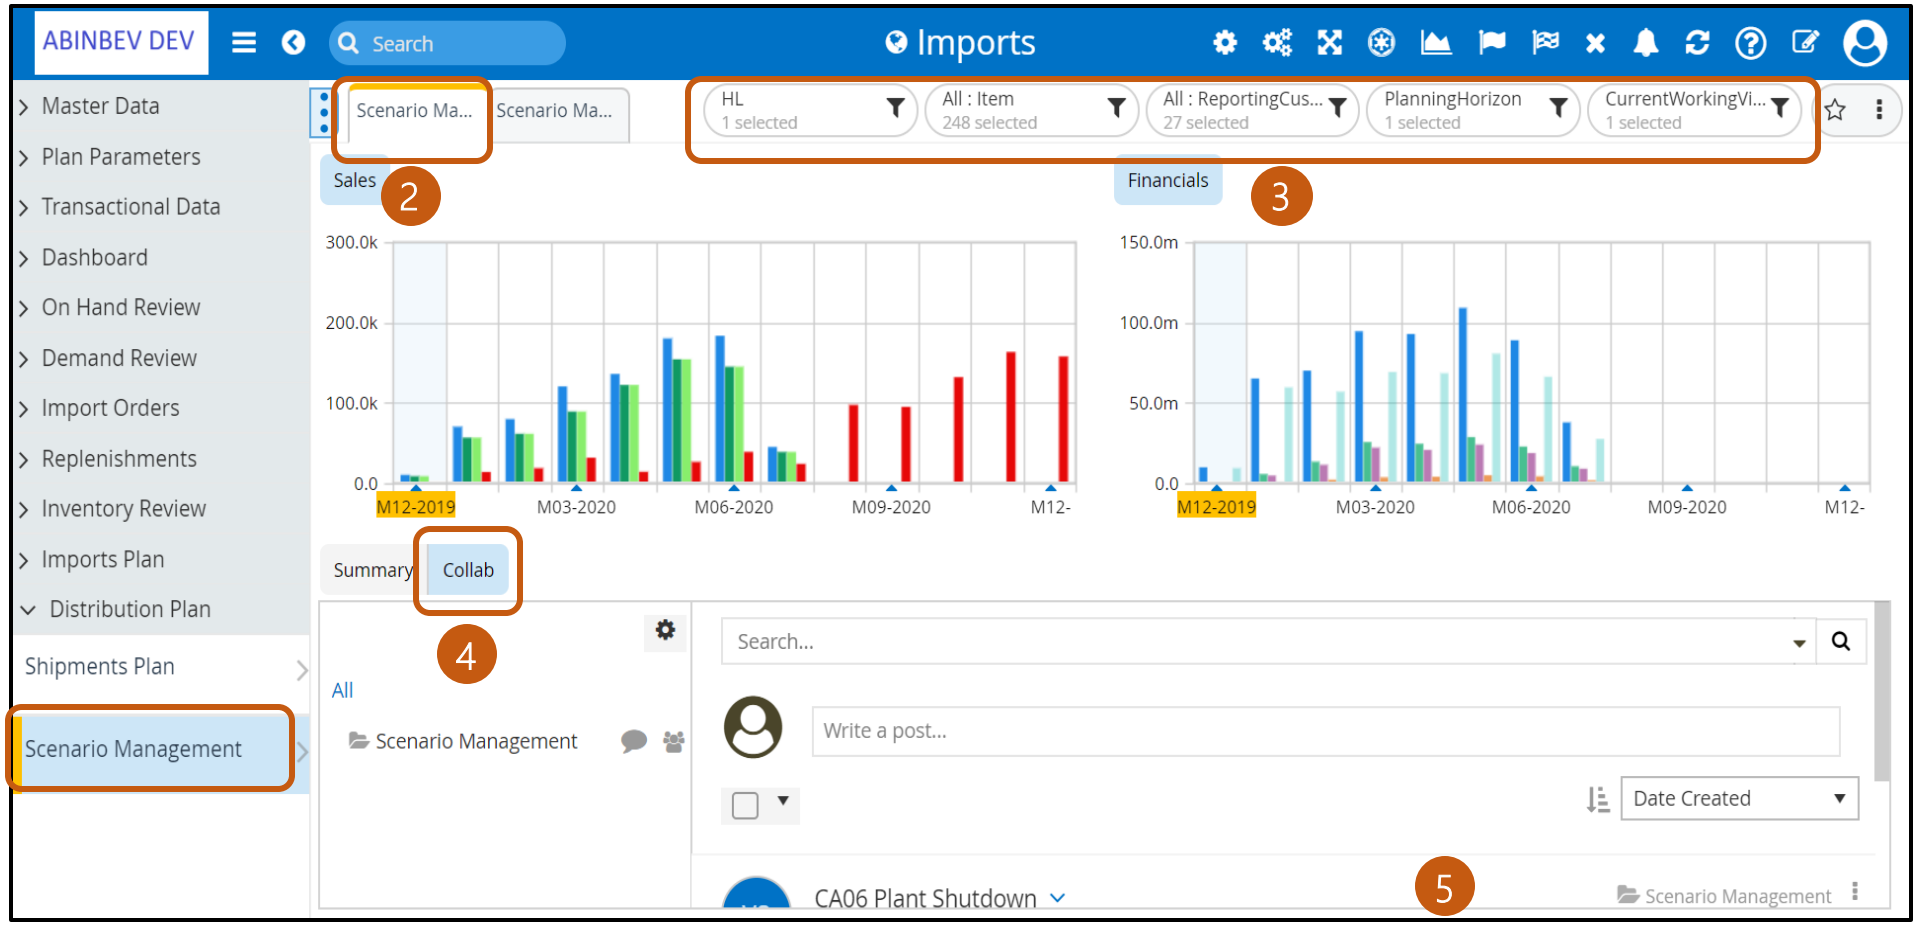
Step 1 : Click on Scenario Management
Step 2: Scenario Management (Weekly) page opens
Step 3: Filter on Unit, Item, Reporting Customer, Week and Scenario
4: Review graph for Sales and Financials
5. Review the table for Total demand, Lost sales, Qty at Risk etc.



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Management – Scenario Management(Weekly)

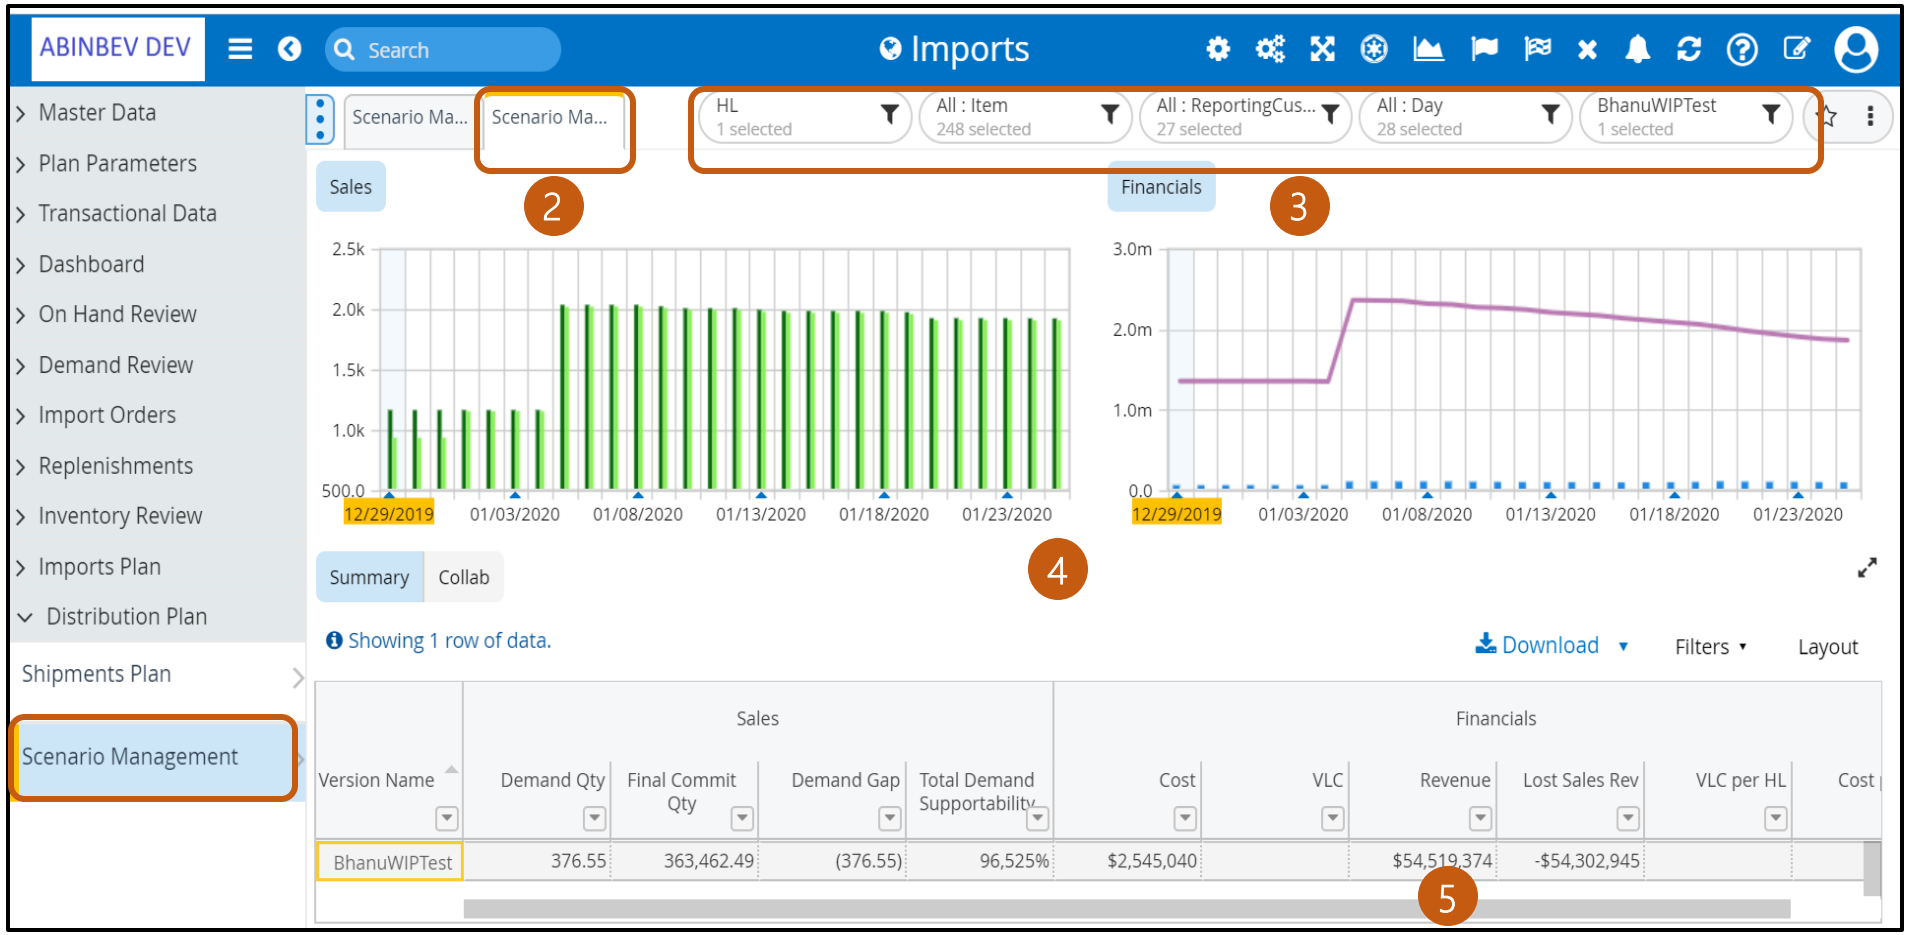
Step 1 : Click on Scenario Management
Step 2: Scenario Management (Weekly) page opens
Step 3: Filter on Unit, Item, Reporting Customer, Week and Scenario
4: Click on Collab tab
Step 5. User can Create Task, Followers, Tags, add comments etc.



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Management – Scenario Management(Daily)

Step 1 : Click on Scenario Management
Step 2: Click on Scenario Management (Daily) page
Step 3: Filter on Unit, Item, Reporting Customer, Week and Scenario
4: Review graph for Sales and Financials
5. Review the table for Total demand, Demand Gap etc.



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Management – Scenario Management(Daily)

Step 1 : Click on Scenario Management
Step 2: Click on Scenario Management (Daily) page
Step 3: Filter on Unit, Item, Reporting Customer, Week and Scenario
4: Click on Collab tab
Step 5. User can Create Task, Followers, Tags, add comments etc.

# Work Instructions for Co-Pack Planner

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Table of Contents for Co-Pack Planner

- Co-Pack Workspace – Landing Page
- Master Data – Master Data: Item, Location and ItemLocation
- Master Data – BOD Lane Item Details: BOD Lane and BOD Lane Item Details
- Master Data – BOM Data: BOM (In-Out)
- Master Data – BOM Data: Process
- Master Data – BOM Data: Resource Consumption
- KnowledgeGraph – Supply Chain Network
- KnowledgeGraph – Broken Network
- Dashboard – KPIs: Dashboard
- Dashboard – KPIs: Plan Analysis
- Dashboard – KPIs: Capacity Analysis
- Dashboard – KPIs: RCA Capacity
- Dashboard – KPIs: RCA Supply
- Dashboard – KPIs: Tasks
- Plan Parameters – PreBuild
- Plan Parameters – Frozen Window
- Plan Parameters – MOQ/LotSize: Packaging MOQ & Liquid MOQ
- Plan Parameters – Cycle Plan
- Plan Parameters – Packaging Capacity Definition
- Plan Parameters – Safety Stock Targets: Inventory Policy & Target Inventory
- Demand Review – Demand Review: Demand Change Summary
- Demand Review – Demand Review: Details
- On Hand Review – On Hand Review: On Hand Review & EOH Review
- Inventory Review – Inventory Review: Inventory Summary
- Inventory Review – Inventory Review: Inventory Plan
- Capacity Review – Capacity Review
- Demand Supportability – Demand Supportability Updated: Demand Review
- Demand Supportability – Demand Supportability Updated: Late Short Summary
- Demand Supportability – Demand Supportability Updated: Fulfillment By DemandID
- Plan Details – Distribution Plan: Out of Province, Plant 2 DC, DC 2 DC and Plant 2 Plant
- Plan Details – Packaging Plan: Packaging Plan Details
- Plan Details – Packaging Plan: FG Production Plan
- Plan Details – Packaging Plan: Plant Production Plan
- Scenario Management – Summary
- Scenario Details – Scenario Details

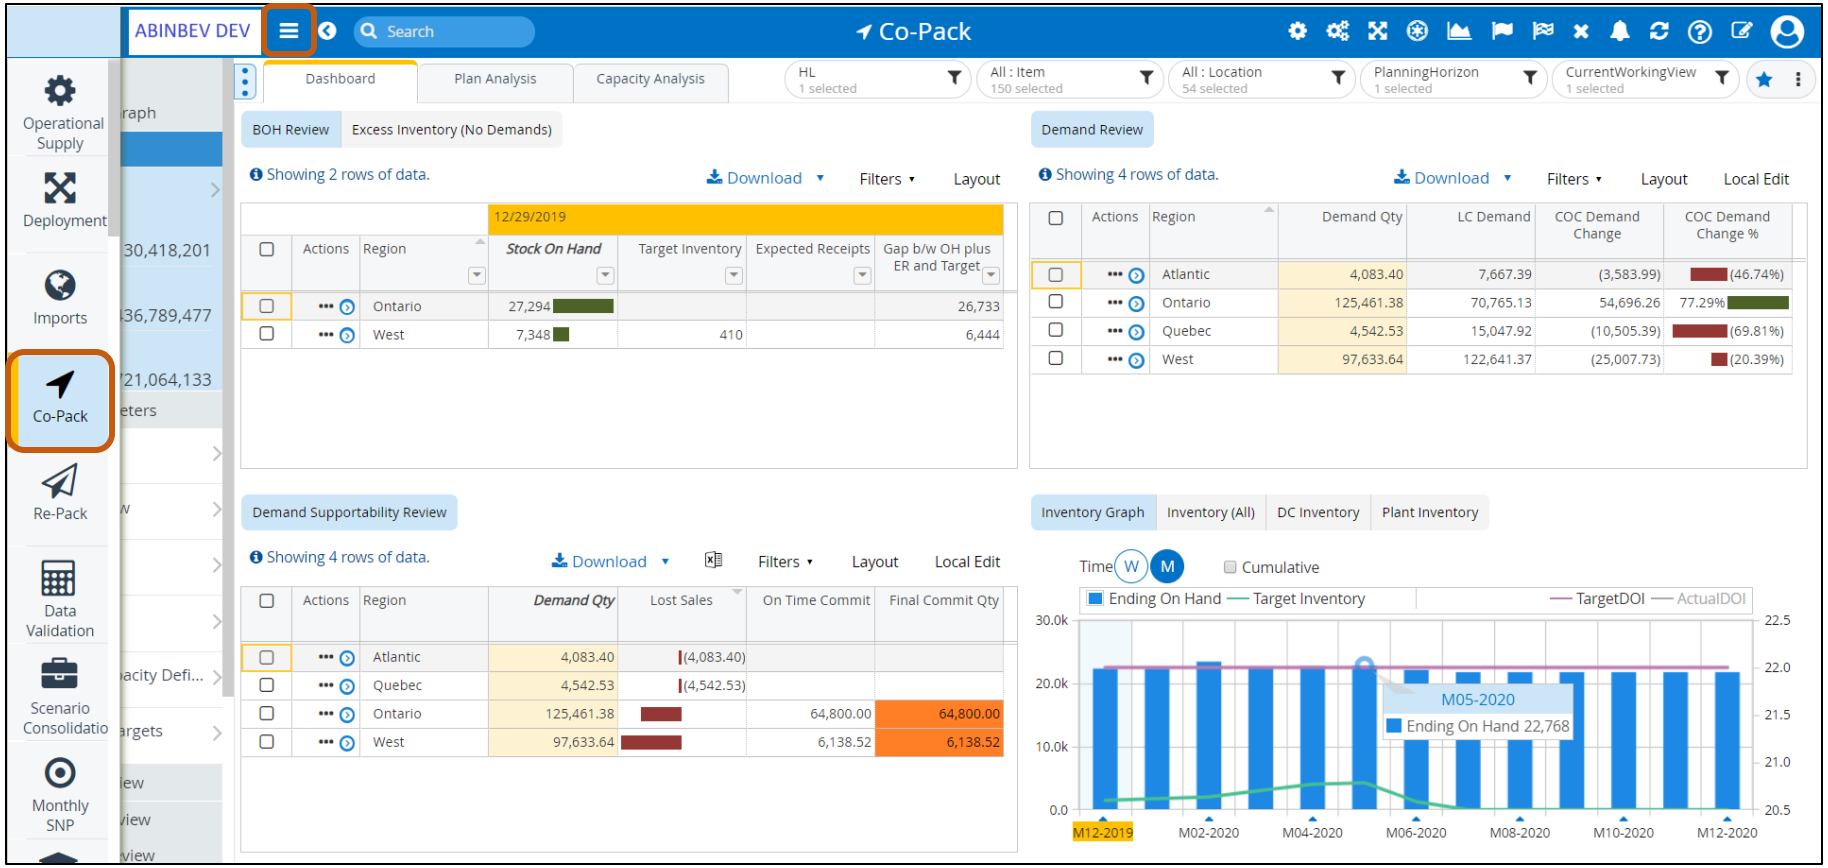
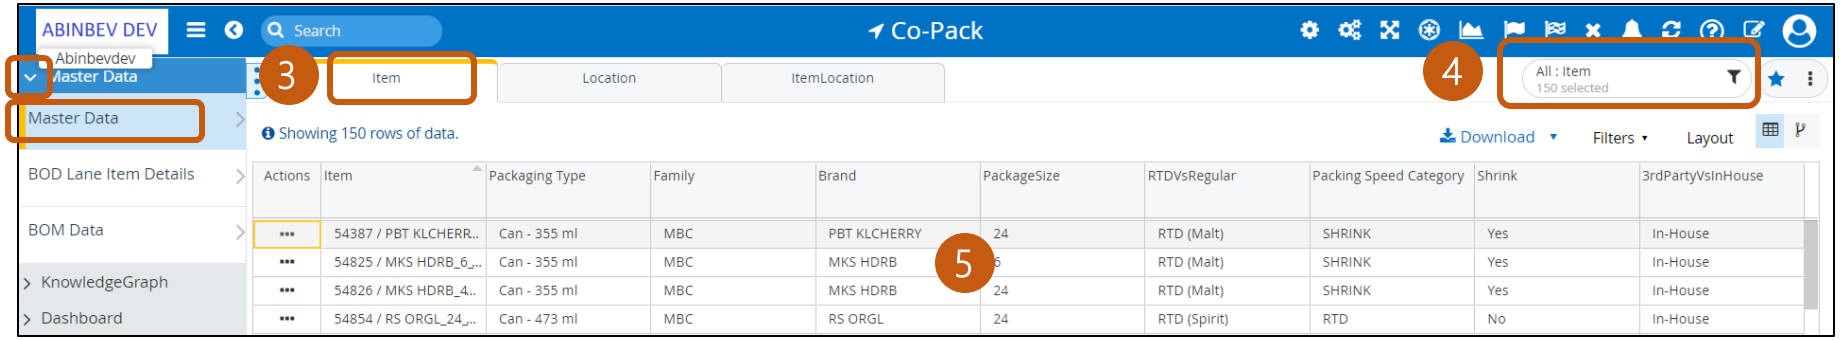
# Co-Pack Workspace – Landing Page

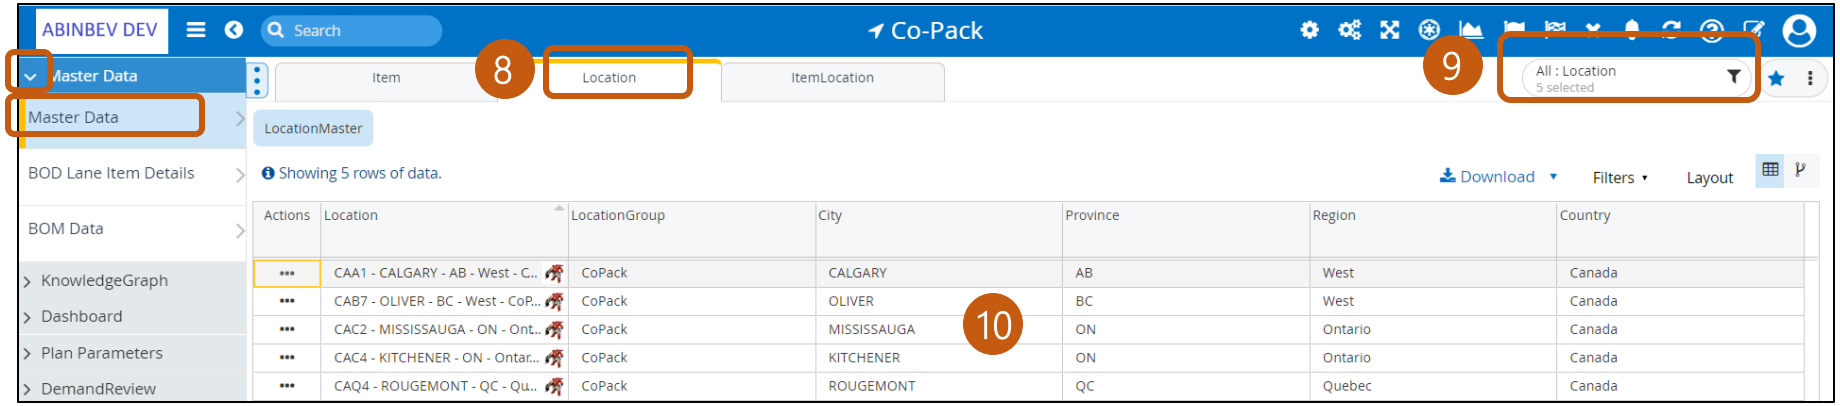
Step 1: Click on the Three Line Icon
Step 2: Select the Co-Pack workspace

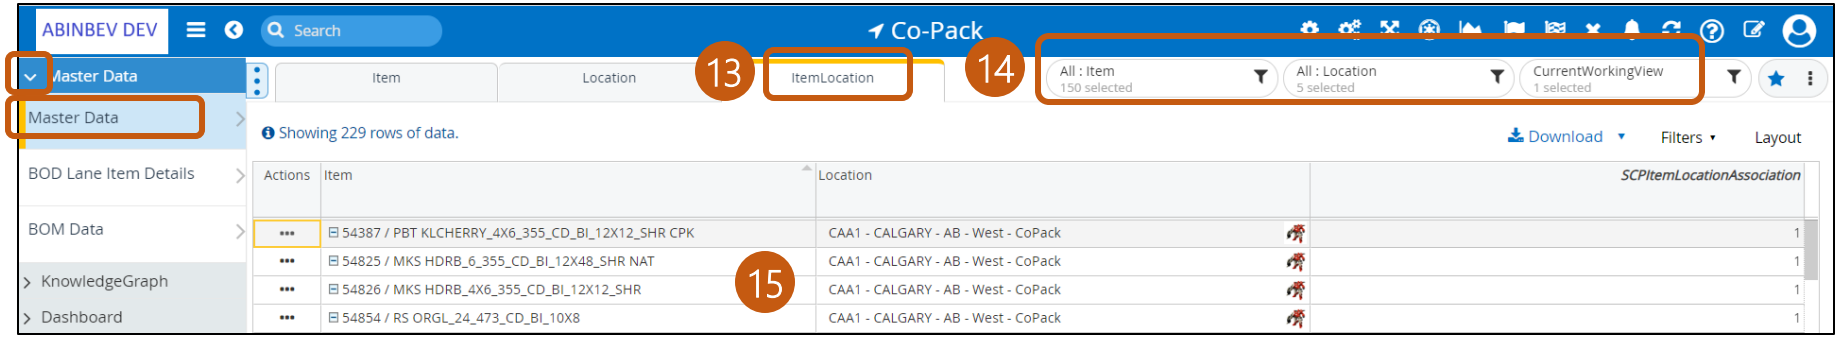


o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Master Data: Item, Location and ItemLocation







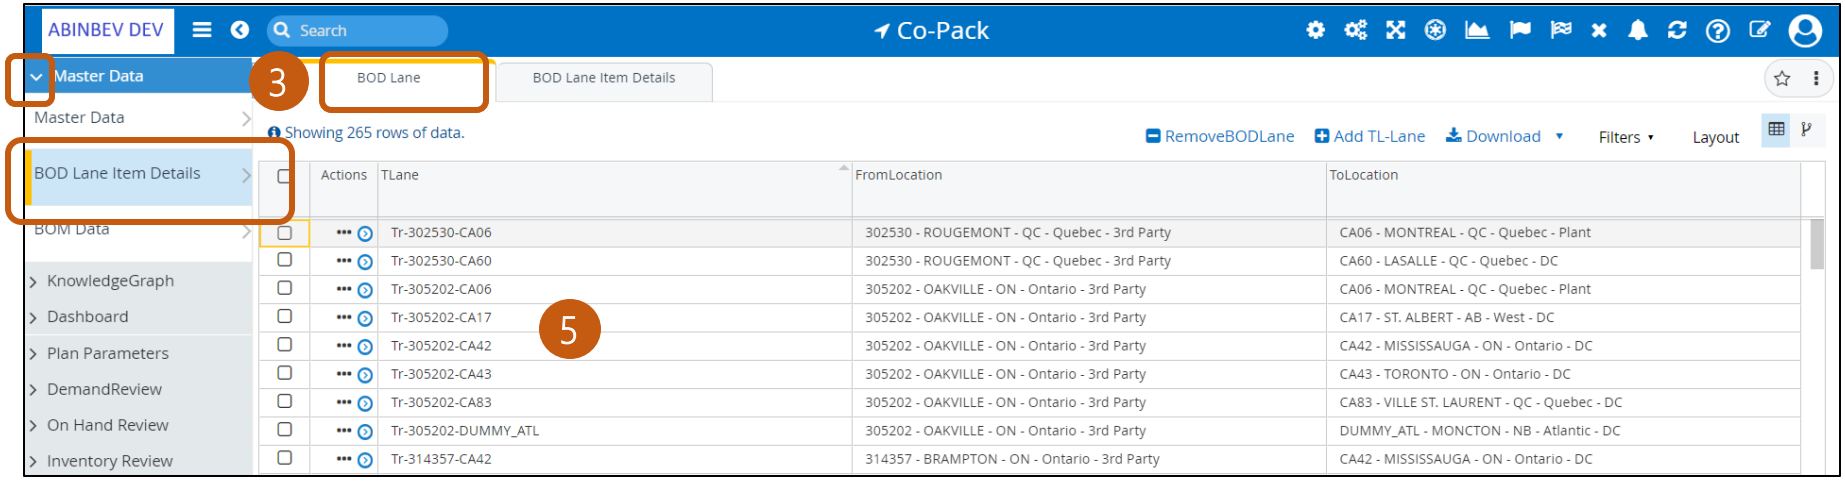
Step 1: Click on the arrow corresponding to Master data
Step 2: Select "Master Data" from the dropdown
Step 3: Item page opens
Step 4: Filter on Item
5: Review Item, Packaging Type, Brand, PackageSize etc.

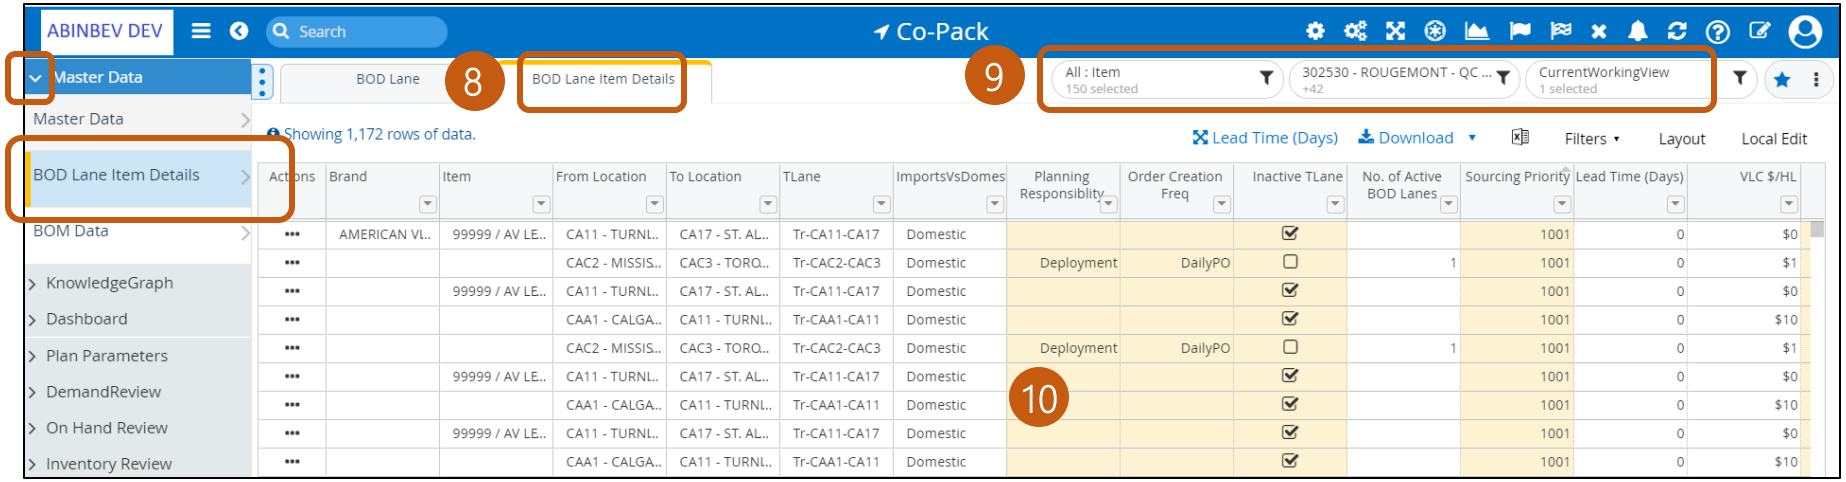
Step 6 : Click on the arrow corresponding to Master data
Step 7: Select "Master Data" from the dropdown
Step 8: Select the Location tab
Step 9: Filter on Location
10: Review Location, LocationGroup, City, etc.

Step 11 : Click on the arrow corresponding to Master data
Step 12: Select "Master Data" from the dropdown
Step 13: Select the Location tab
Step 14: Filter on Item, Location and Scenario
15: Review Items in a Location

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – BOD Lane Item Details: BOD Lane and BOD Lane Item Details



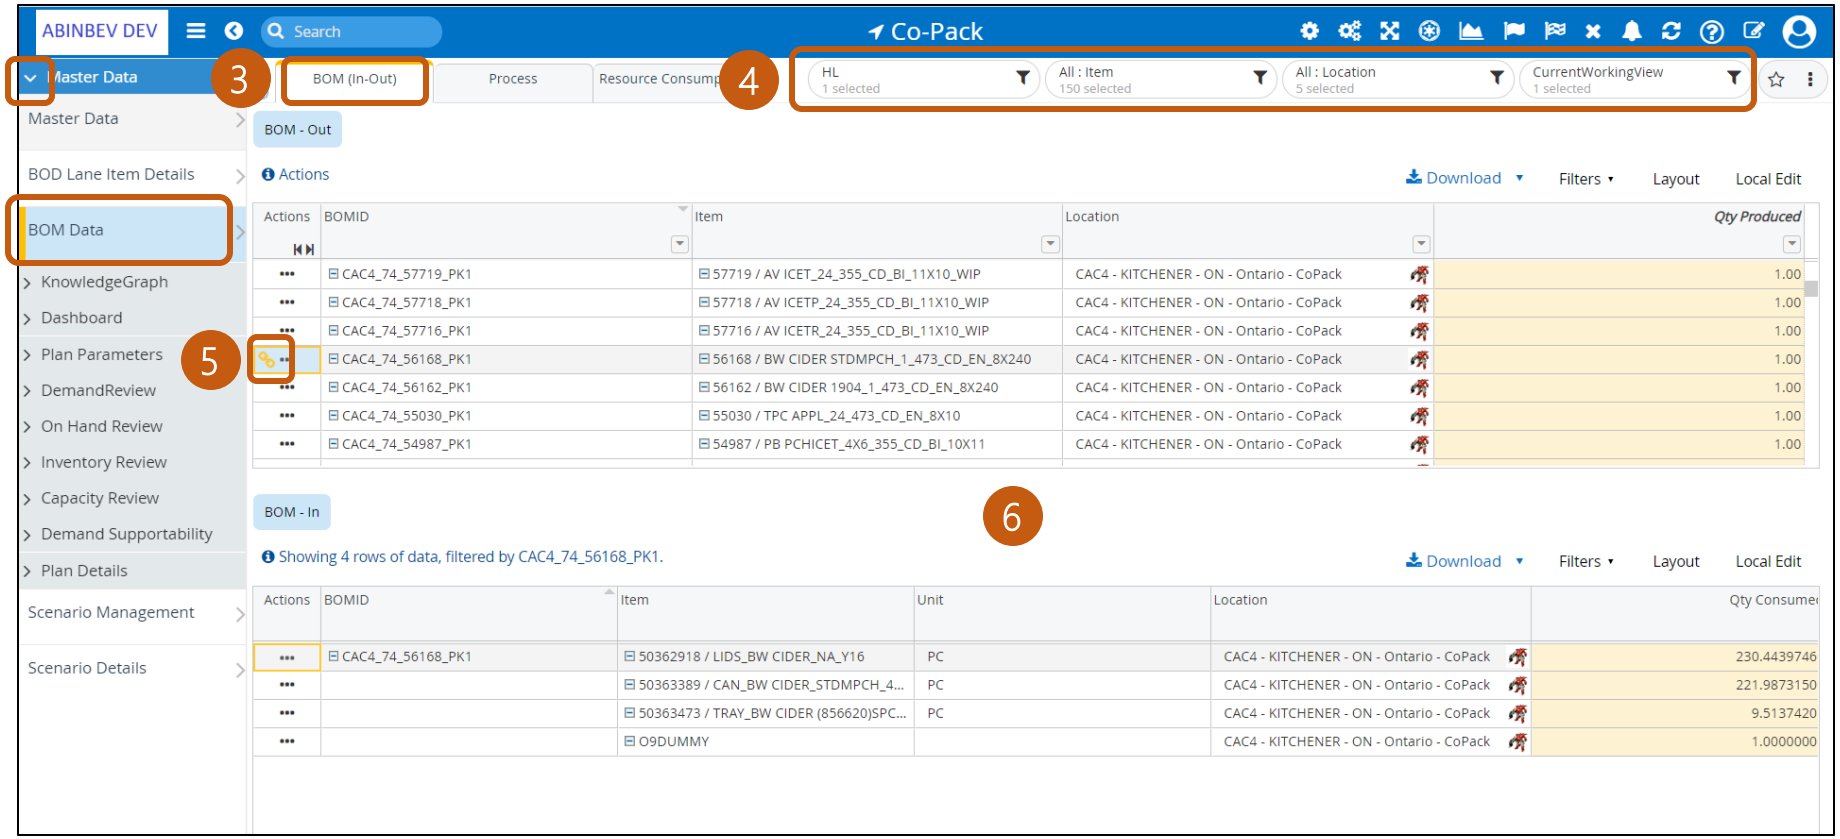


Step 1: Click on the arrow corresponding to Master data
Step 2: Select "BOD Lane Item Details" from the dropdown
Step 3: Click on the "BOD Lane" tab
4: There are no filters
5: Review all the available T-Lanes

Step 6 : Click on the arrow corresponding to Master data
Step 7: Select "BOD Lane Item Details" from the dropdown
Step 8: Click on the "BOD Lane Item Details" tab
Step 9: Filter on Item, Location and Scenario
10: Review the Items on a given T-Lane and their related attributes. Update data as needed in the columns highlighted in pink

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

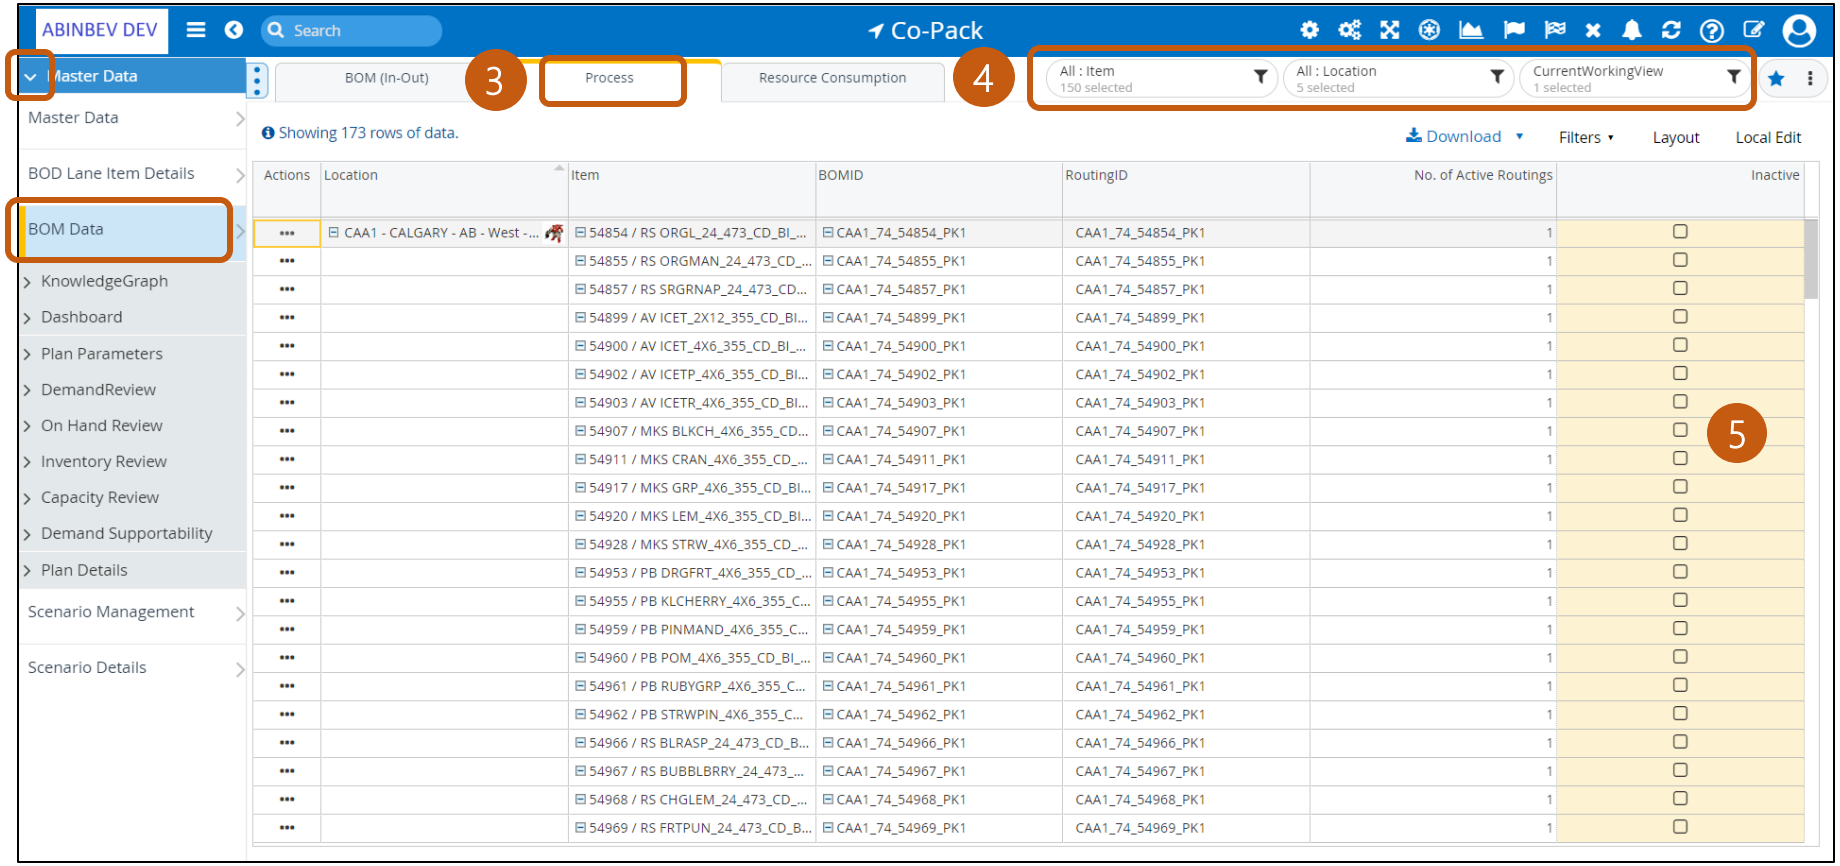
# Master Data – BOM Data: BOM (In-Out)



Step 1: Click on the arrow corresponding to Master data
Step 2: Select "BOM Data" from the dropdown
Step 3: Click on the "BOM (In-Out)" tab
Step 4: Filter on UOM, Item, Location and Scenario
Step 5: Click on the two yellow circles in the BOM-Out table to see the components required to make that item in the BOM-In table below
6: Review the different boms by item, location and quantity consumed. Update data as needed in the columns highlighted in pink

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

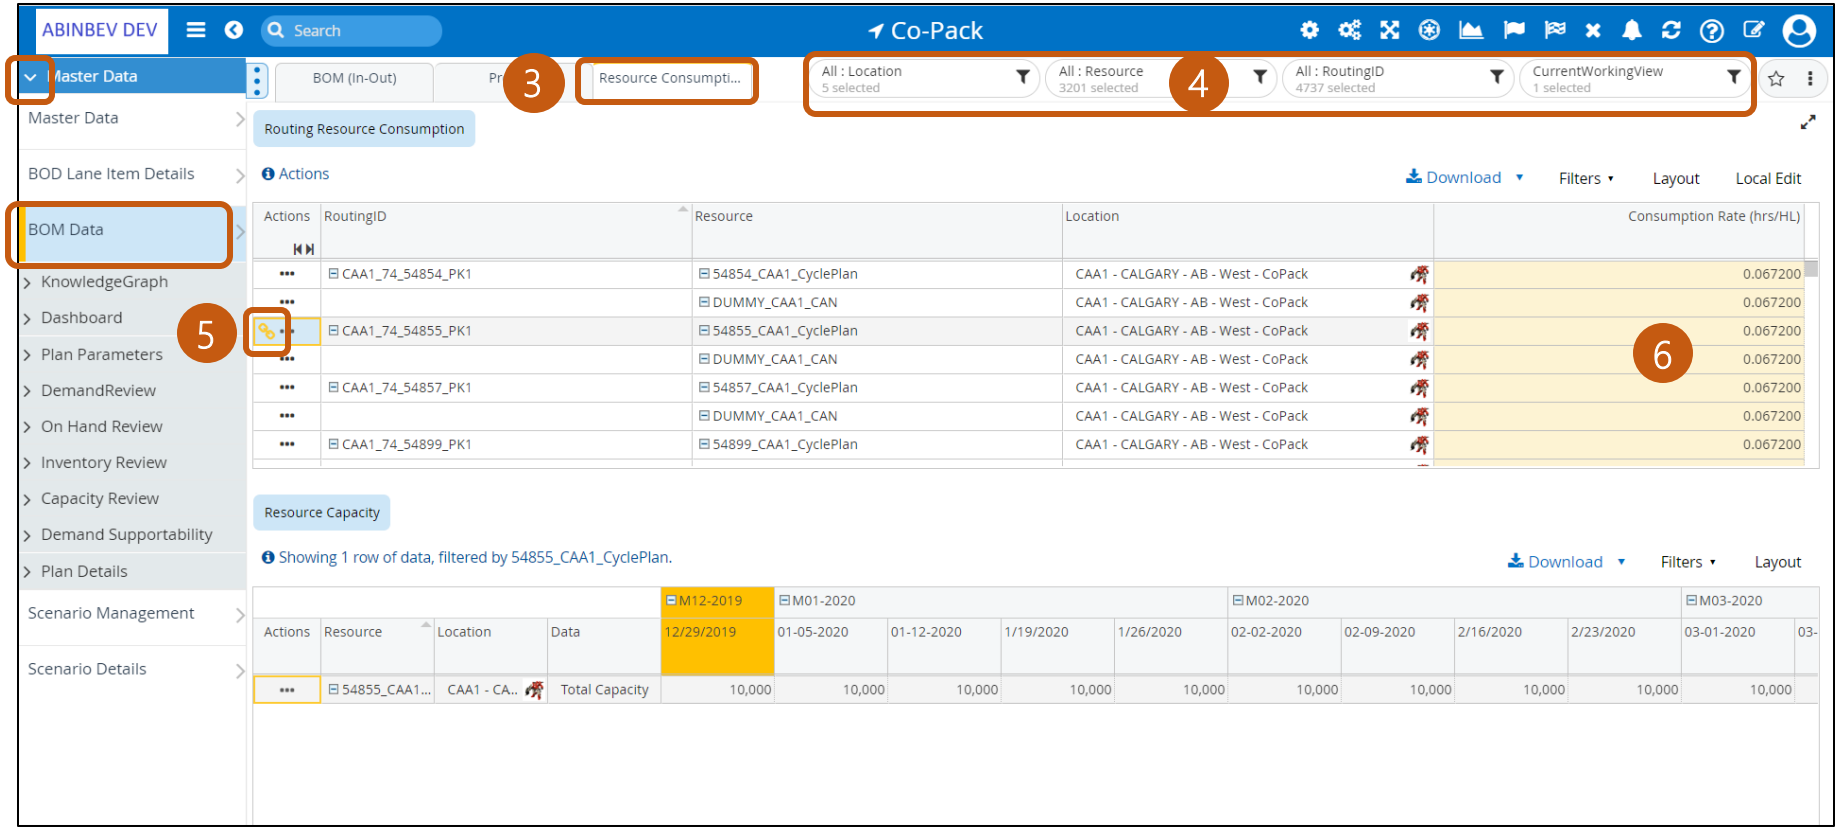
# Master Data – BOM Data: Process



Step 1: Click on the arrow corresponding to Master data
Step 2: Select "BOM Data" from the dropdown
Step 3: Click on the "Process" tab
Step 4: Filter on Item, Location and Scenario
5: For a given manufacturing location review the boms and routings required to make the given item. Make the corresponding bom and routing for the given item active or inactive by selecting the check box

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

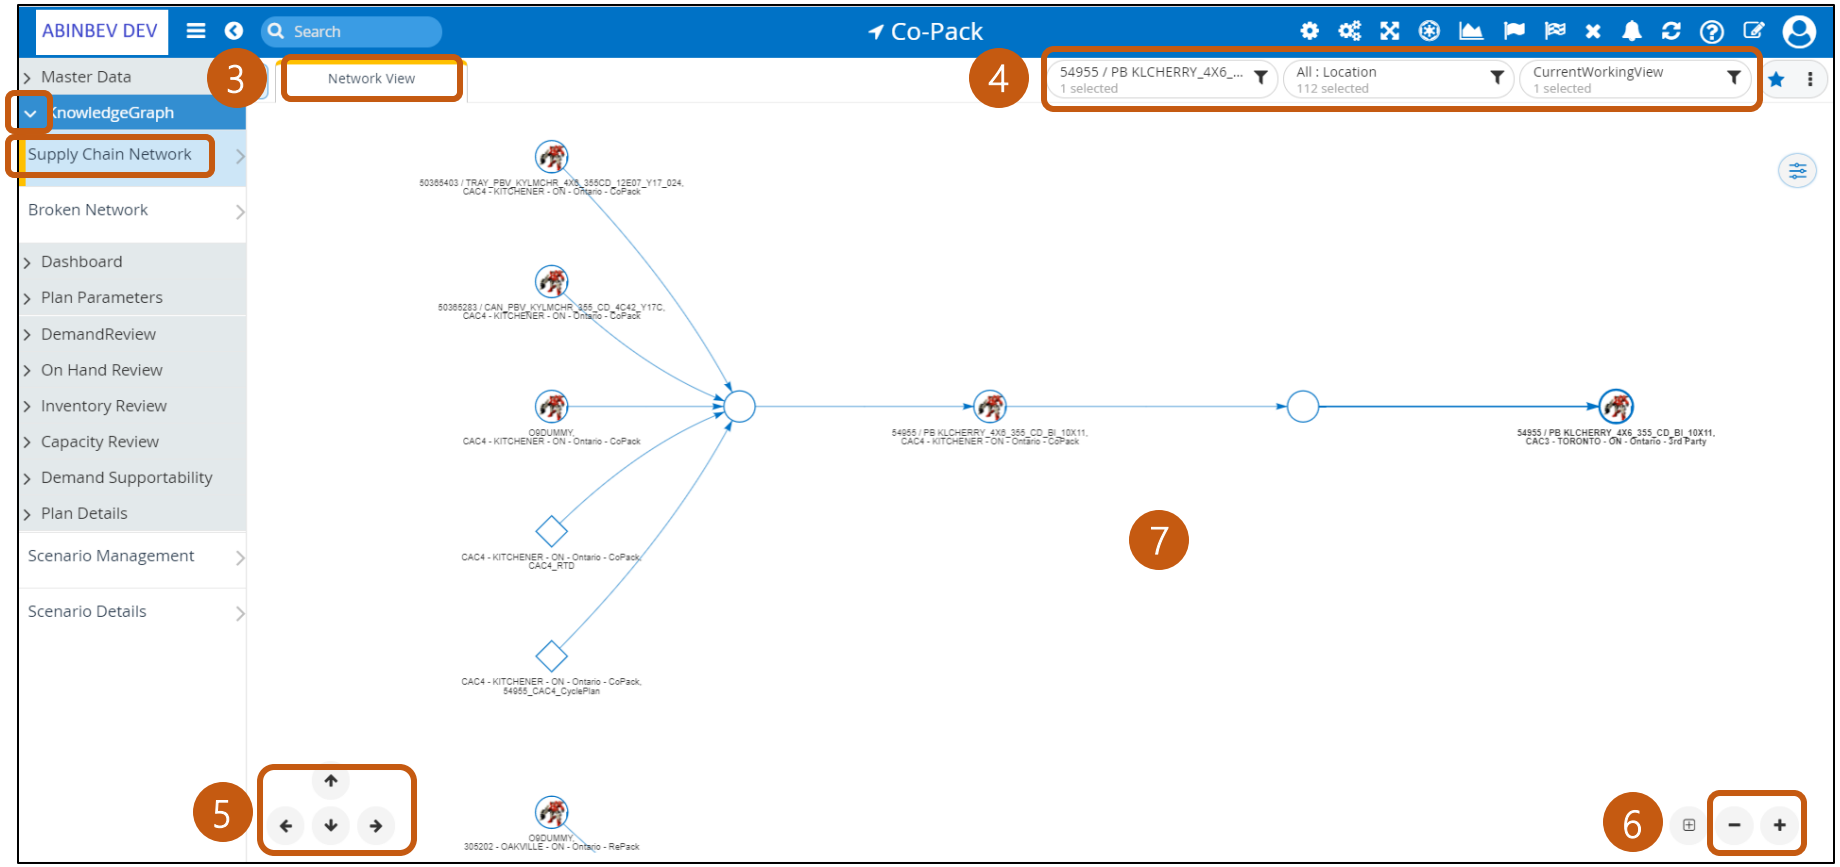
# Master Data – BOM Data: Resource Consumption



Step 1: Click on the arrow corresponding to Master data
Step 2: Select "BOM Data" from the dropdown
Step 3: Click on the "Resource Consumption" tab
Step 4: Filter on Location, Resource, Routing ID and Scenario
Step 5: Click on the two yellow circles in the Routing Resource Consumption table to see the capacity for that given resource in the table below
6: Review the different consumption rates and update them as needed

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

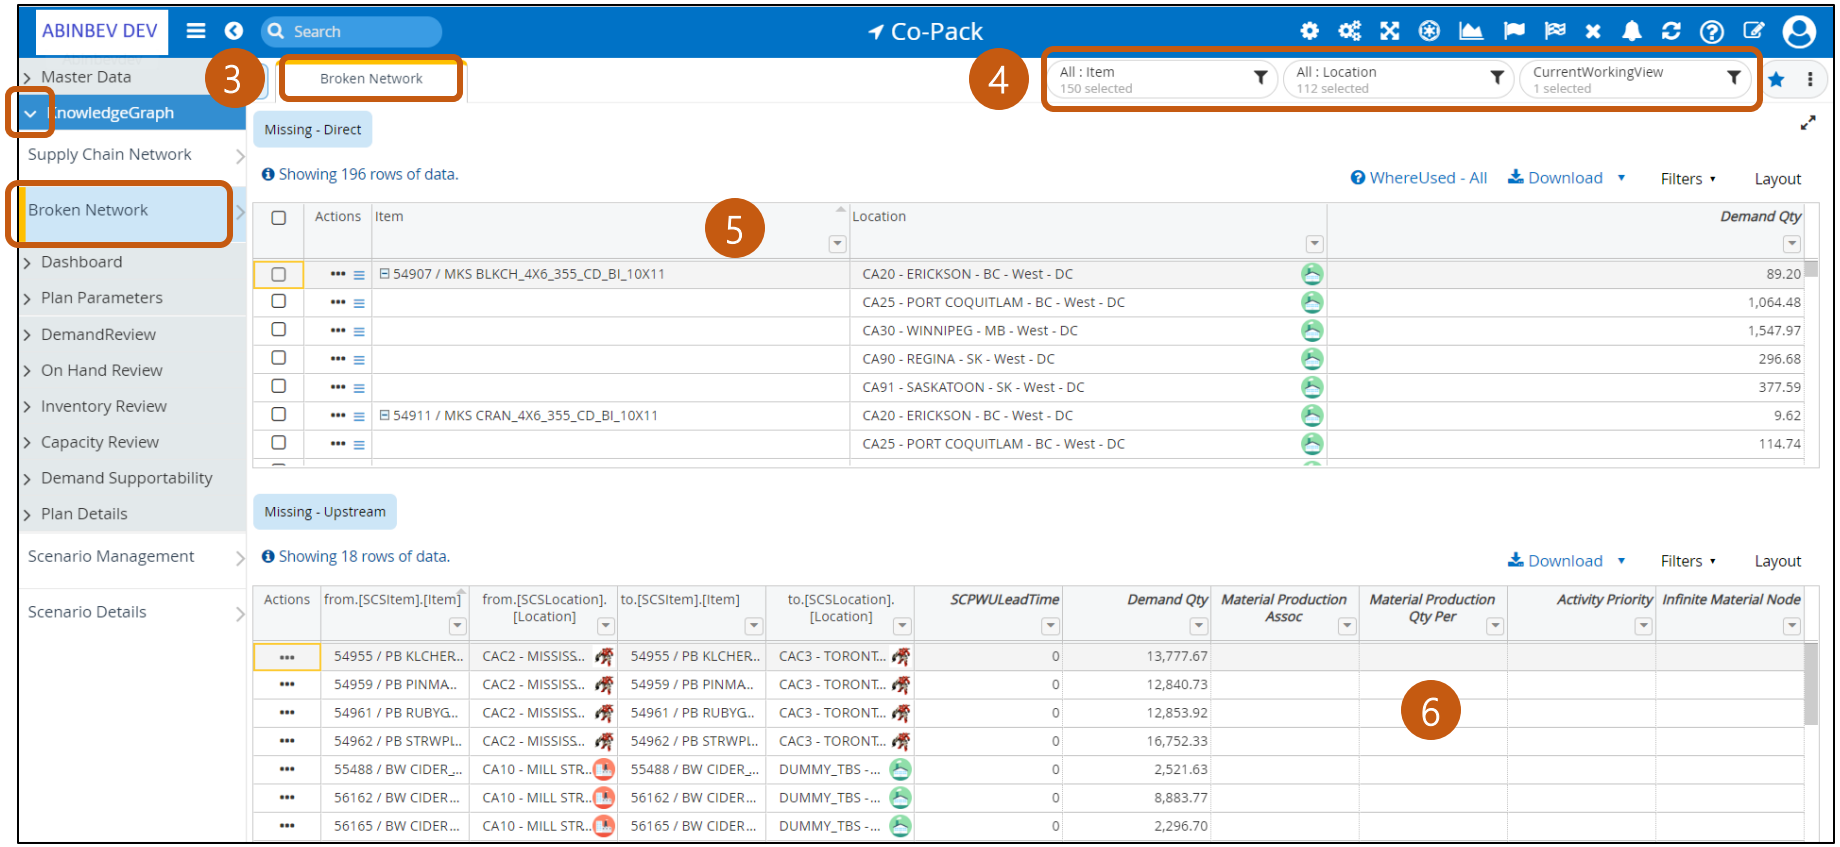
# KnowledgeGraph – Supply Chain Network



Step 1: Click on the arrow corresponding to KnowledgeGraph
Step 2: Select "Supply Chain Network" from the dropdown
Step 3: Click on the "Network View" tab
Step 4: Filter on Item, Location and Scenario
Step 5: Click on the arrows to navigate in the screen
Step 6: Click on the "-" or "+" buttons to decrease or increase the magnification of the network
7: Review the network and supply links for the items and locations chosen

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

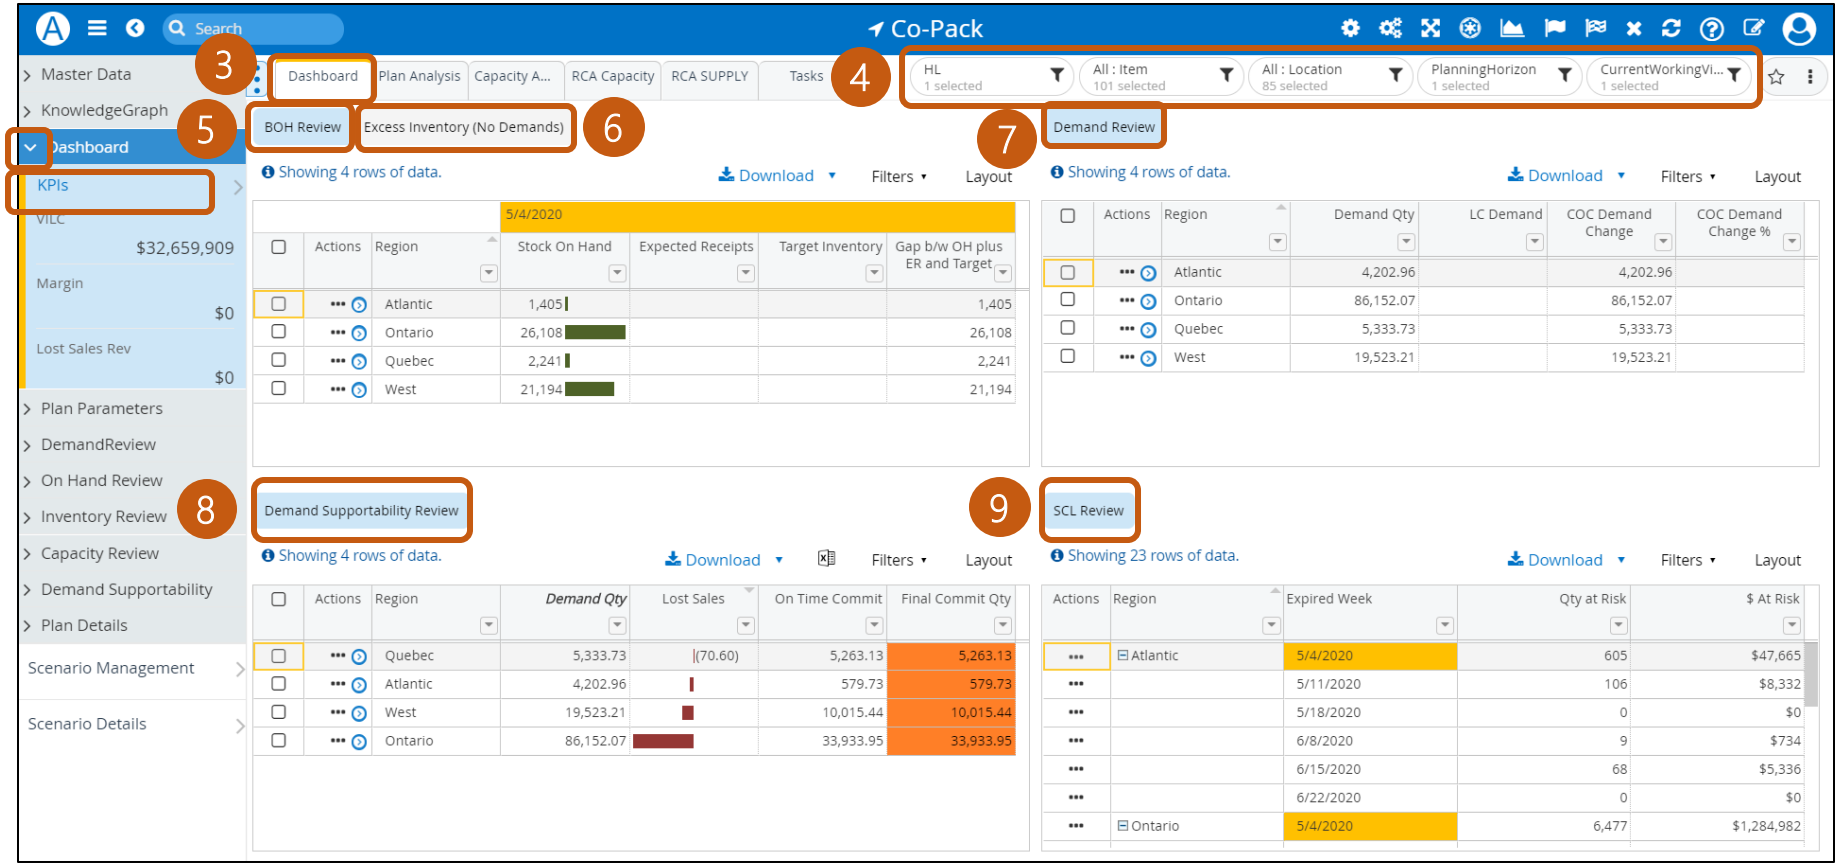
# KnowledgeGraph – Broken Network



Step 1: Click on the arrow corresponding to KnowledgeGraph
Step 2: Select "Broken Network" from the dropdown
Step 3: Click on the "Broken Network" tab
Step 4: Filter on Item, Location and Scenario
Step 5: Review the Missing – Direct table to see the items in a given location that do not have a complete link and the impacted demand quantity
Step 6: Review the Missing – Upstream table to see the items in a given location that do not have an upstream link, the impacted demand quantity and the corresponding item that is missing

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

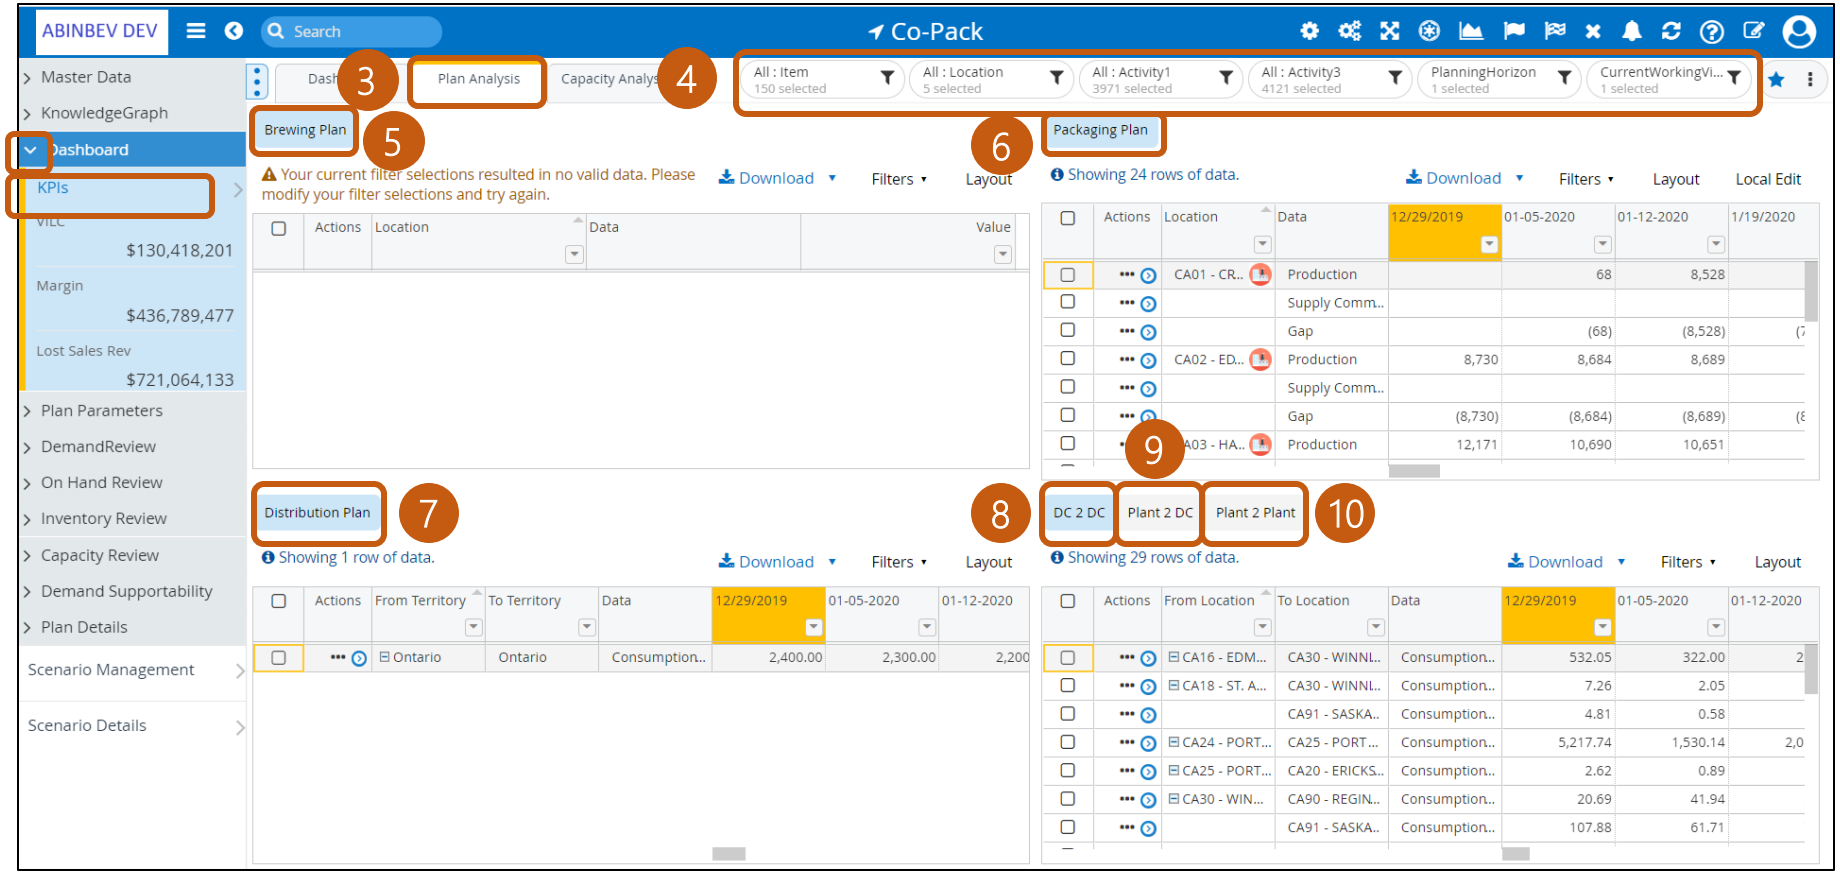
# Dashboard – KPIs: Dashboard



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "Dashboard" tab
Step 4: Filter on UOM, Item, Location, Date and Scenario
5: The BOH Review tab details the total on hand by region and gap with the target inventory
6: Although not shown the Excess Inventory (No Demands) tab details the inventory in a region which is available at the end of the horizon with no demand
7: The Demand Review tab details the difference in demand with the last cycle by region
8: The Demand Supportability Review tab details the demands that are lost and the on time commit by region
9: The SCL Review tab details the quantity at risk by region and week

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

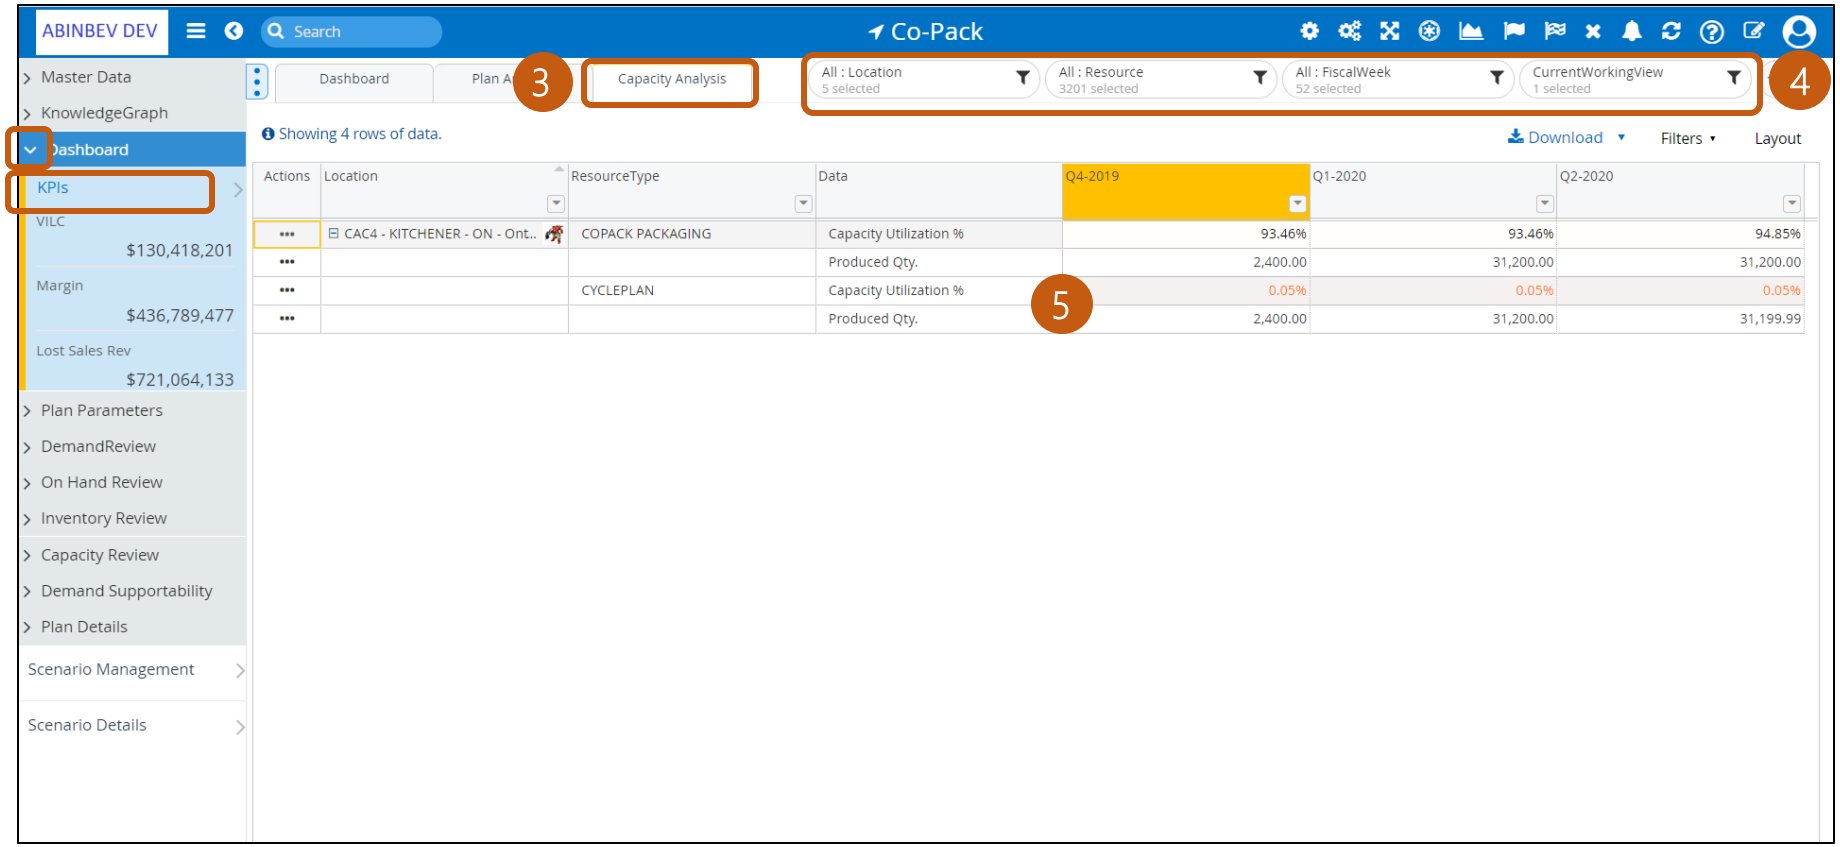
# Dashboard – KPIs: Plan Analysis



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "Plan Analysis" tab
Step 4: Filter on Item, Location, Transportation Activity, Manufacturing Activity, Date and Scenario
5: The Brewing Plan tab details any liquid production requirements by week
6: The Packaging Plan tab details the packaging requirements vs. commits by week
7: The Distribution Plan tab details the distribution from region to region by week
8: The DC 2 DC tab details the distribution from one DC to another by week
9: Although not shown the Plant 2 DC tab details the distribution from a plant to a DC by week
10: Although not shown the Plant 2 Plant tab details the distribution from one plant to another by week

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

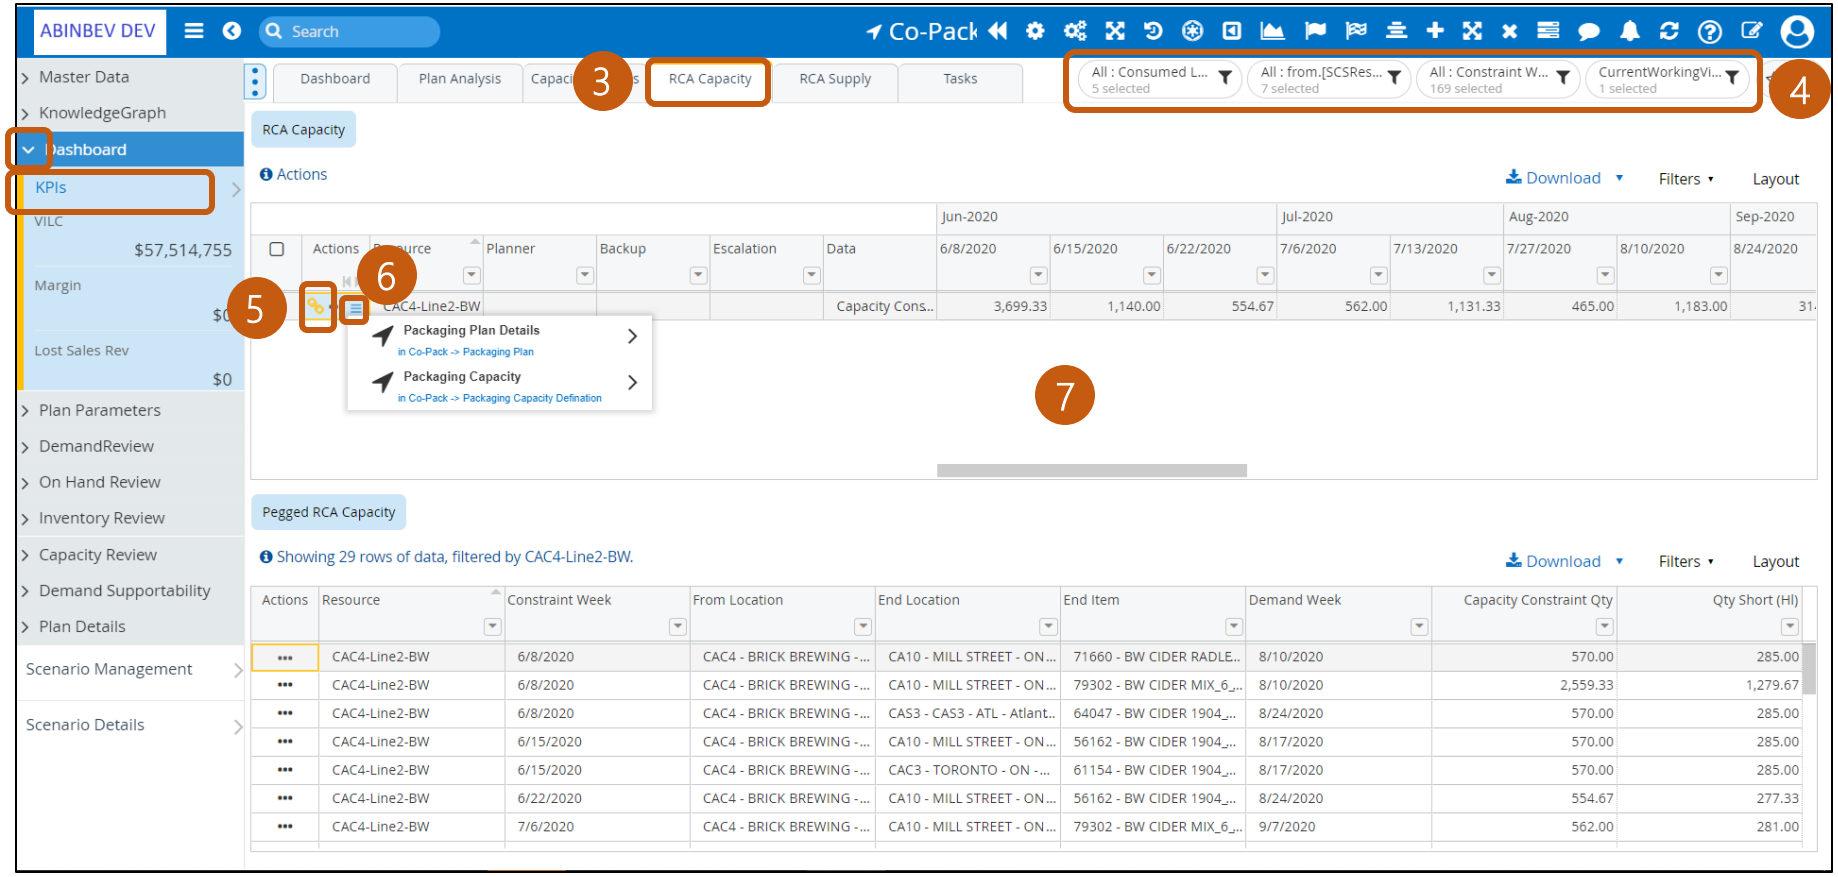
# Dashboard – KPIs: Capacity Analysis



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "Capacity Analysis" tab
Step 4: Filter on Location, Resource, Date and Scenario
5: For a given manufacturing location review the capacity utilization and produced quantity of the resources

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

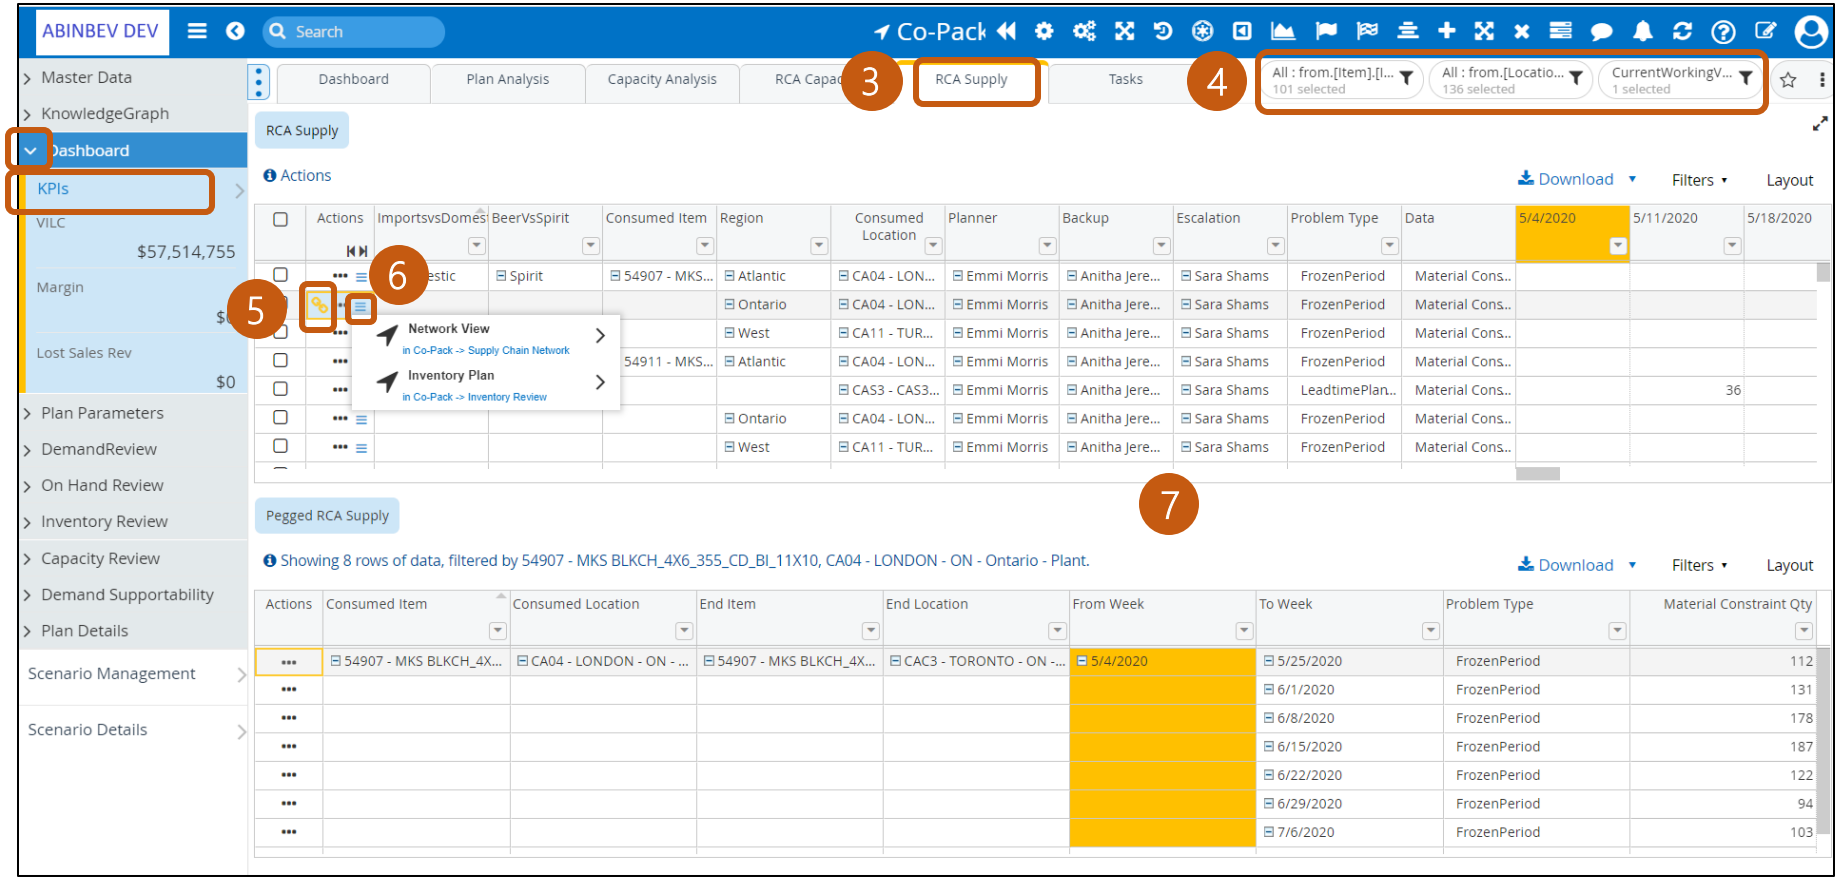
# Dashboard – KPIs: RCA Capacity



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "RCA Capacity" tab
Step 4: Filter on Location, Resource, Date and Scenario
Step 5: Click on the two yellow circles in the RCA Capacity table to see the given items which are short in the table below
Step 6: Click on the three blue lines in the RCA Capacity table to navigate to different reports, in order to drill down further into this root cause
7: For a given resource review all of the weeks it is overloaded and the corresponding items which are short. This is the starting point for the planner to then resolve these overloads by either increasing capacity or getting supply from another location.

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Dashboard – KPIs: RCA Supply



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "RCA Supply" tab
Step 4: Filter on Problem Type, Item, Location and Scenario
Step 5: Click on the two yellow circles in the RCA Supply table to see the given end item, end location, problem type and issue quantity each week in the table below
Step 6: Click on the three blue lines in the RCA Supply table to navigate to different reports, in order to drill down further into this root cause
7: For a given item and location review all of the weeks there is a supply problem and the corresponding end items and end locations which are short. This is the starting point for the planner to then resolve these problems by getting supply from another location.

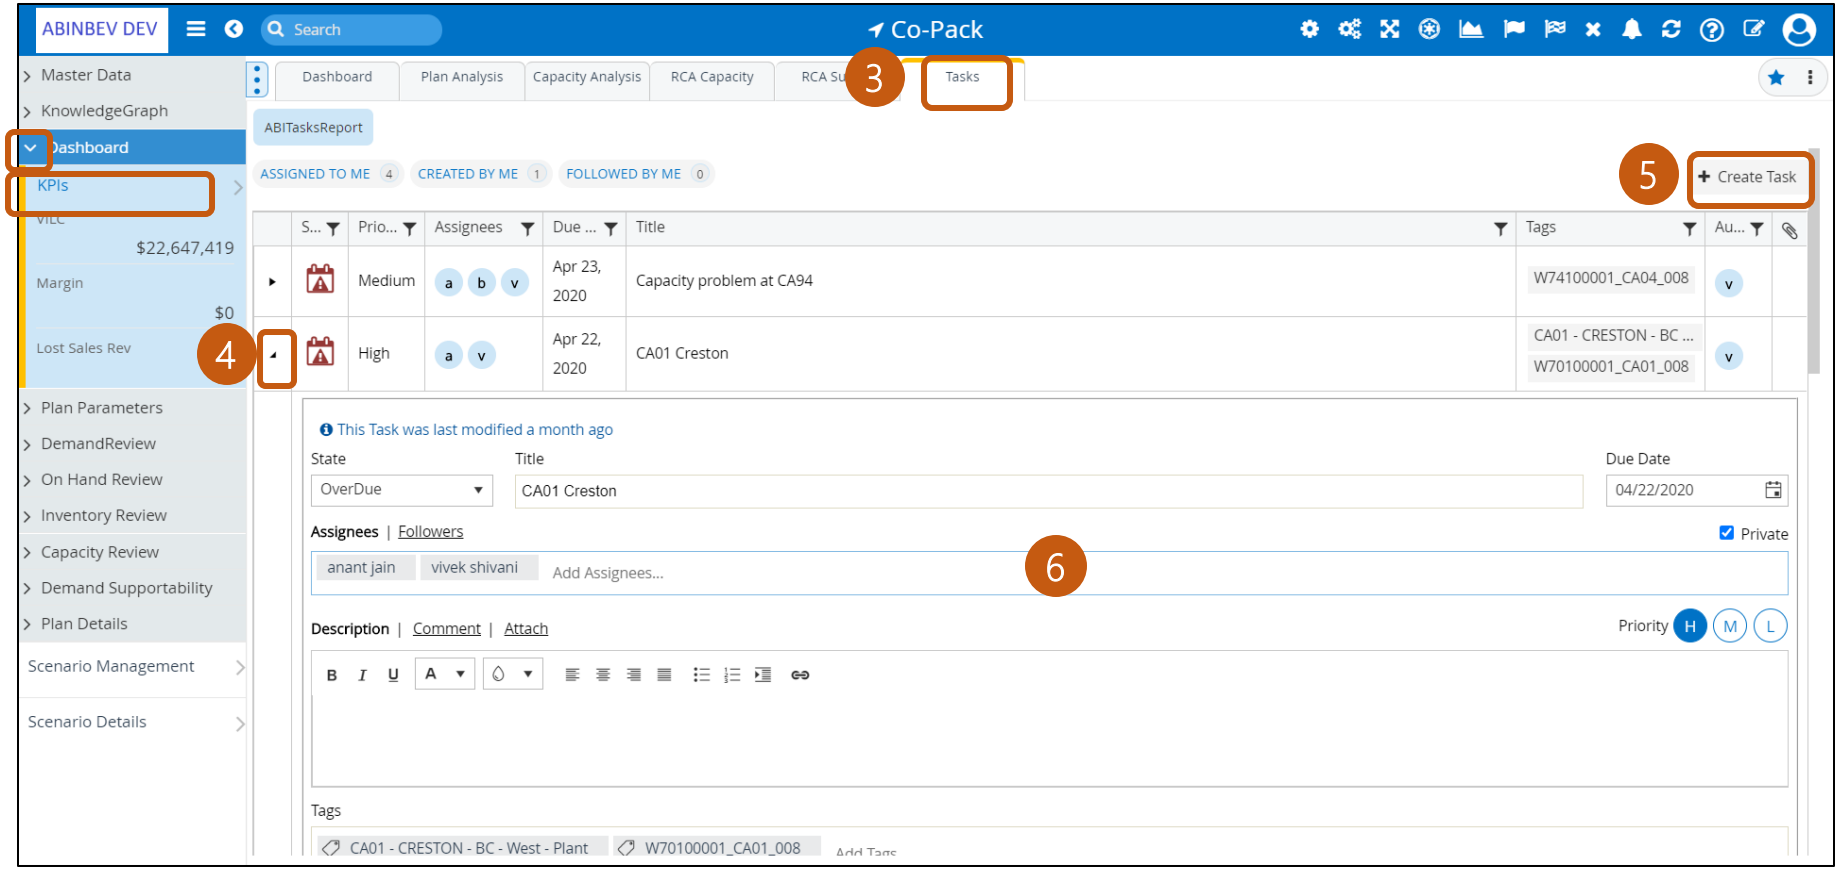
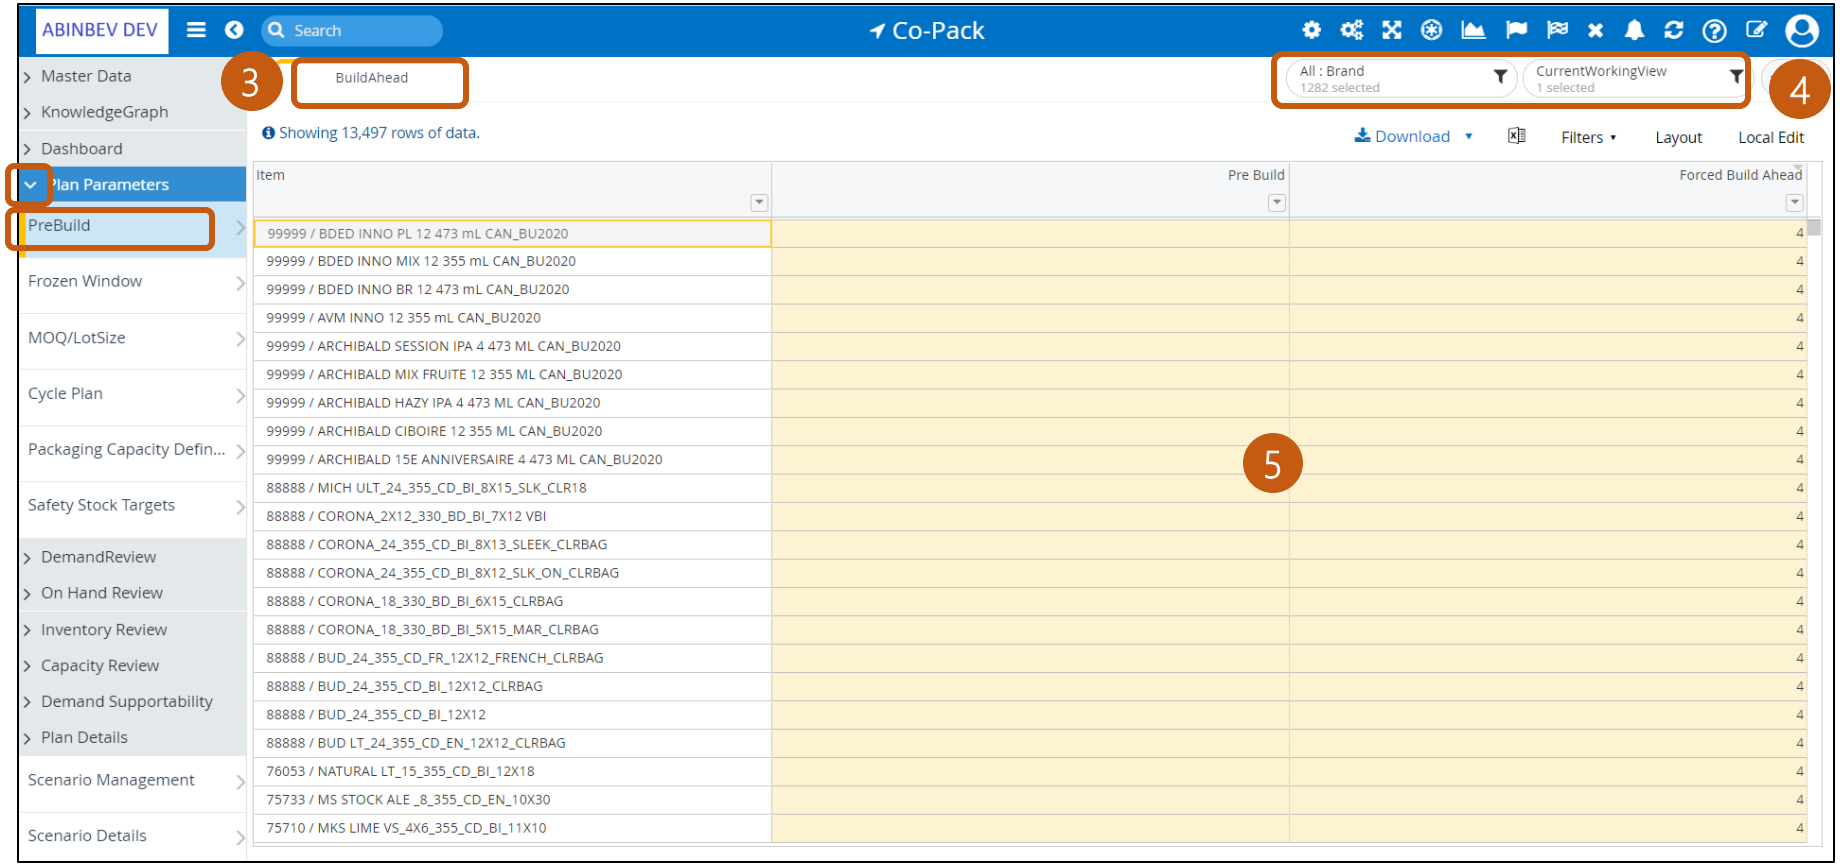
# Dashboard – KPIs: Tasks



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "Tasks" tab
Step 4: Review all of the Tasks. Click on the arrow to expand any of them and review their details.
Step 5: Click on the Create Task button to create a new task. Here the planner needs to specify the Title, Due Date, Assignees, Followers, If it is Private (recommended to uncheck this box), Description, Priority and Tags. It is recommended to provide as much details as possible
6: List of all tasks, which can be ordered and filtered. The tasks in previous plans can be reviewed and this provides a searchable repository

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

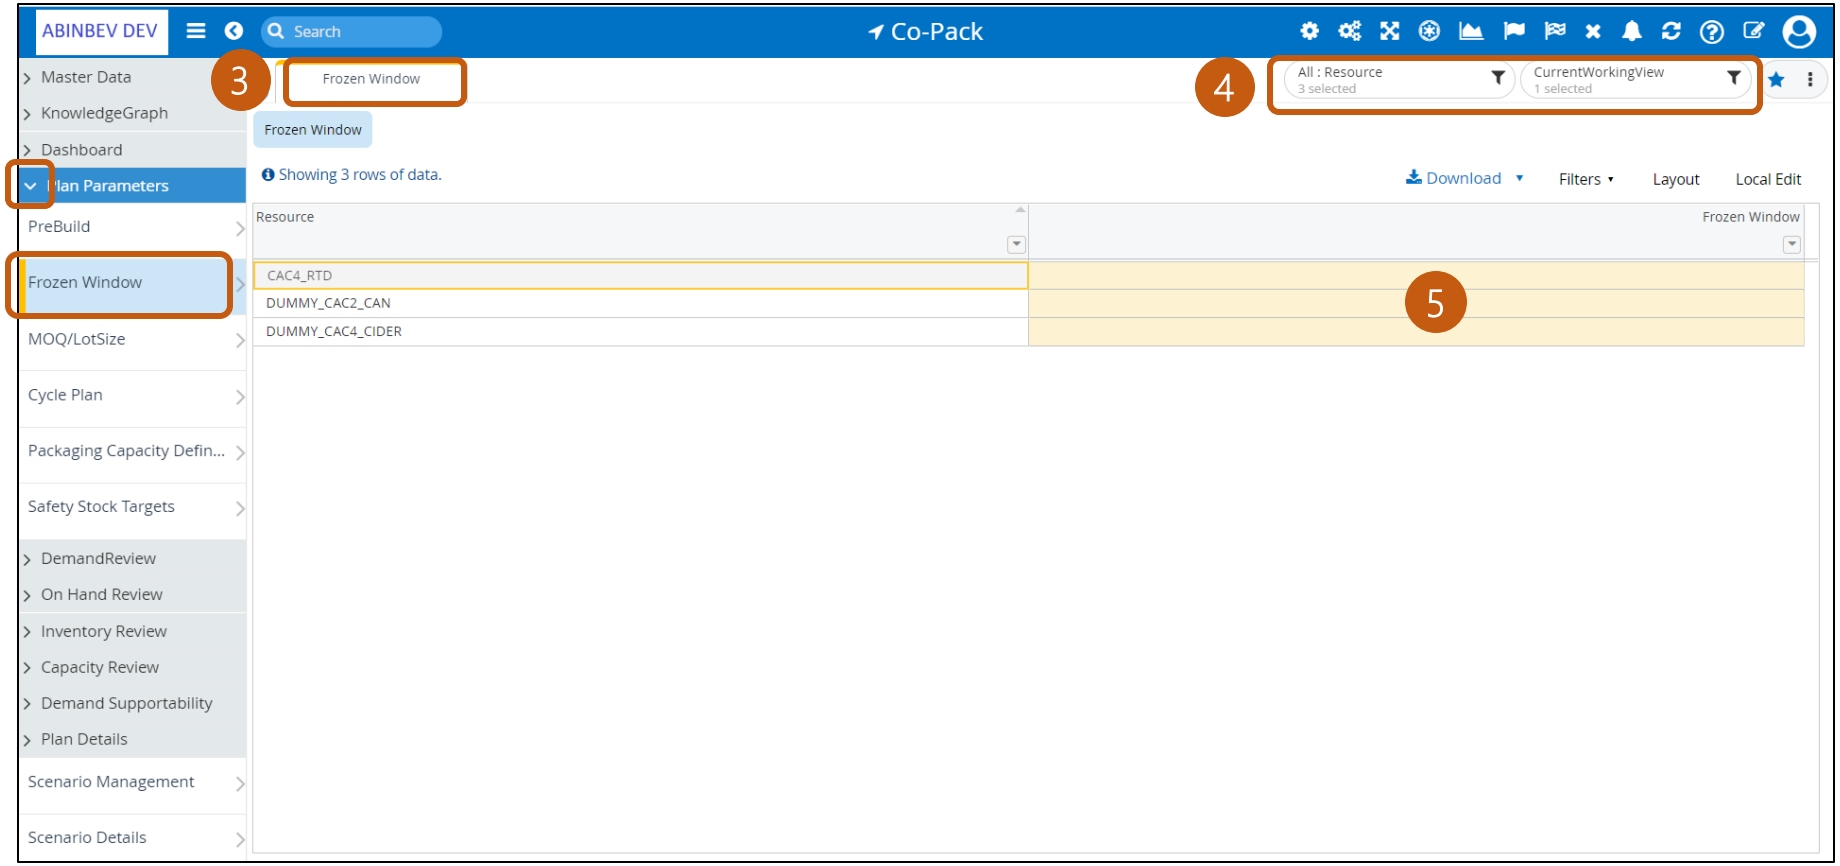
# Plan Parameters – PreBuild



Step 1: Click on the arrow corresponding to Plan Parameters
Step 2: Select "PreBuild" from the dropdown
Step 3: Click on the "BuildAhead" tab
Step 4: Filter on Item and Scenario
5: Review the Pre Build and Forced Build Ahead parameters (in weeks) by item. Update data as needed in the columns highlighted in pink

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

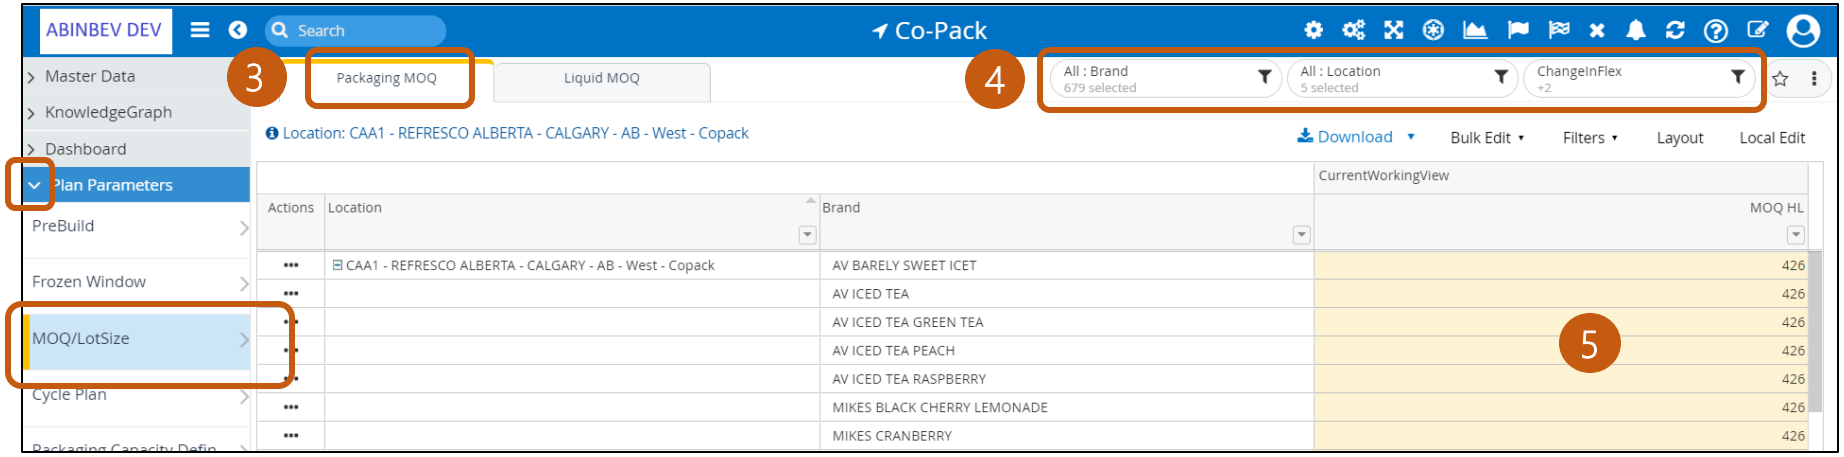
# Plan Parameters – Frozen Window

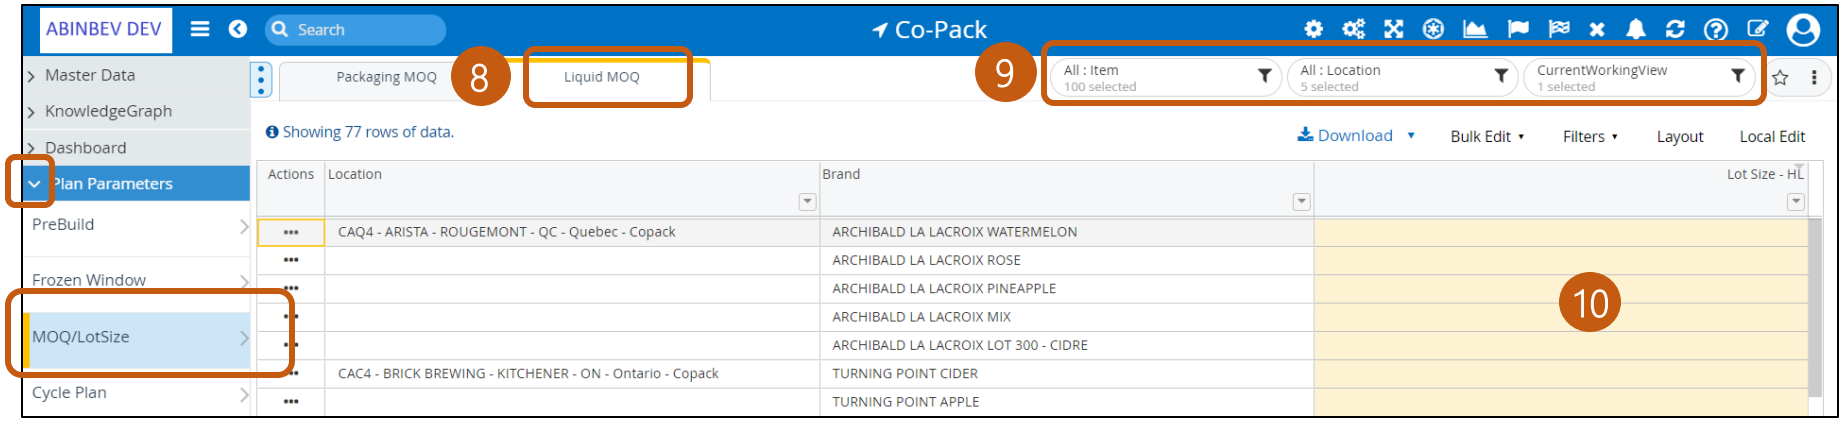


Step 1: Click on the arrow corresponding to Plan Parameters
Step 2: Select "Frozen Window" from the dropdown
Step 3: Click on the "Frozen Window" tab
Step 4: Filter on Resource and Scenario
5: Review the Frozen Window values (in weeks) by resource. Update data as needed in the columns highlighted in pink

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameters – MOQ/LotSize: Packaging MOQ & Liquid MOQ



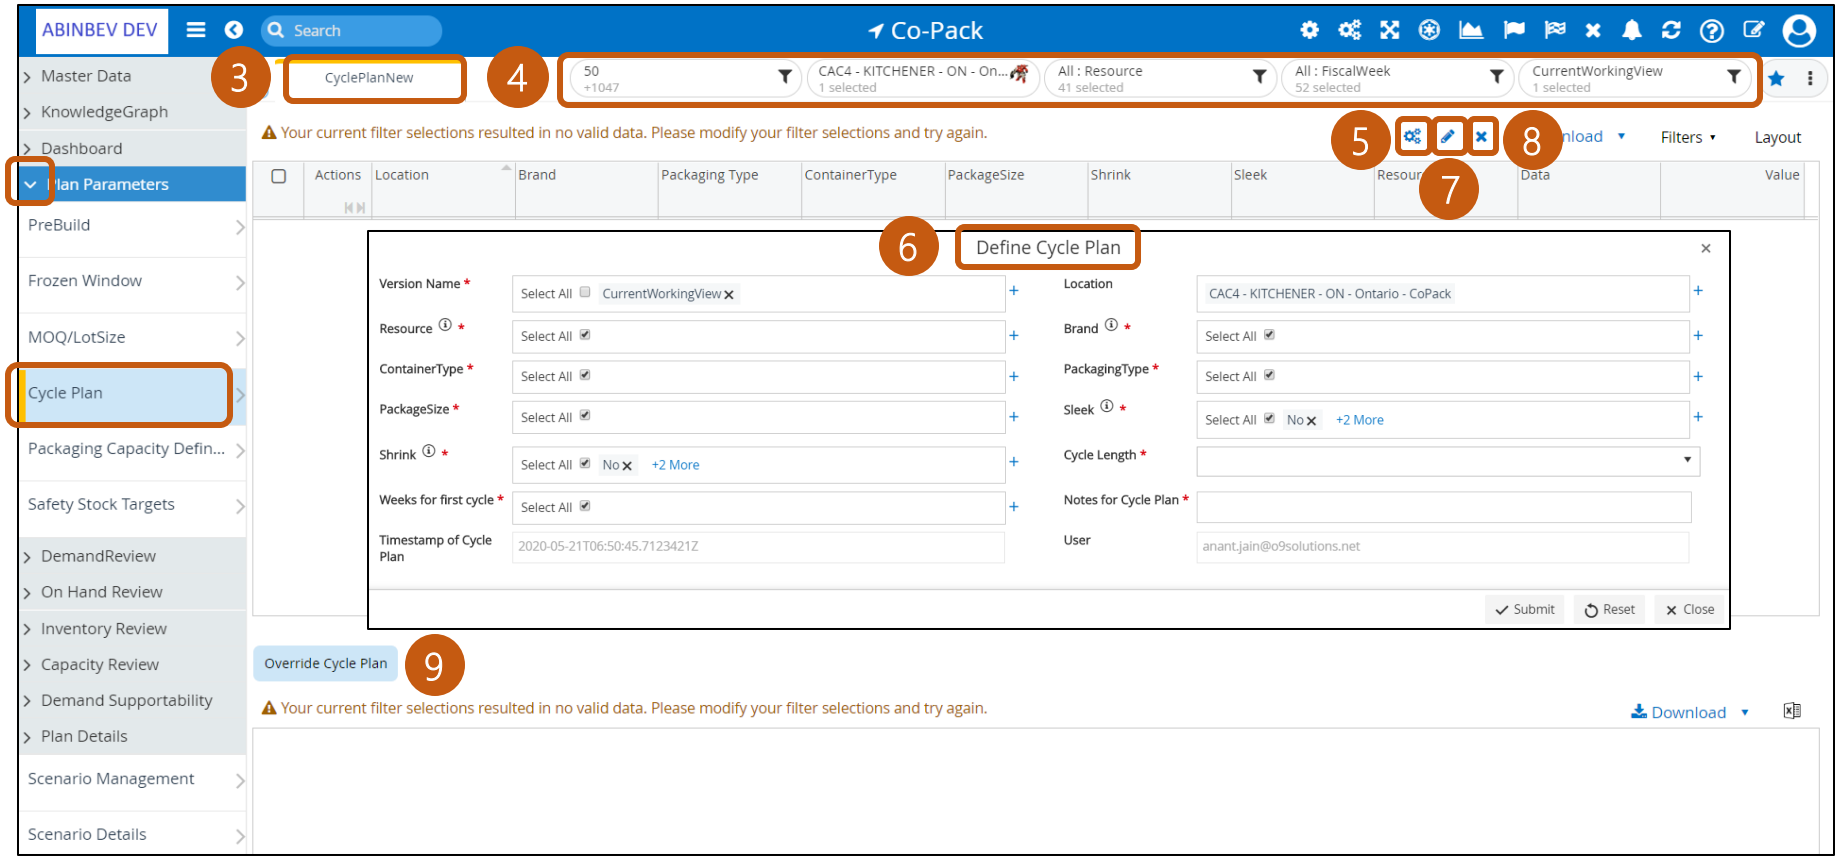


Step 1: Click on the arrow corresponding to Plan Parameters
Step 2: Select "MOQ/LotSize" from the dropdown
Step 3: Click on the "Packaging MOQ" tab
Step 4: Filter on Brand, Location and Scenario
5: There are only MOQ values for packaging. Review the MOQ values (in HL) by location and brand. Update data as needed in the columns highlighted in pink

Step 6: Click on the arrow corresponding to Plan Parameters
Step 7: Select "MOQ/LotSize" from the dropdown
Step 8: Click on the "Liquid MOQ" tab
Step 9: Filter on Item, Location and Scenario
10: There are MOQ and lot size values for liquid and both are the same and defined through the lot size. Review the lot size values (in HL) by location and brand. Update data as needed in the columns highlighted in pink

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

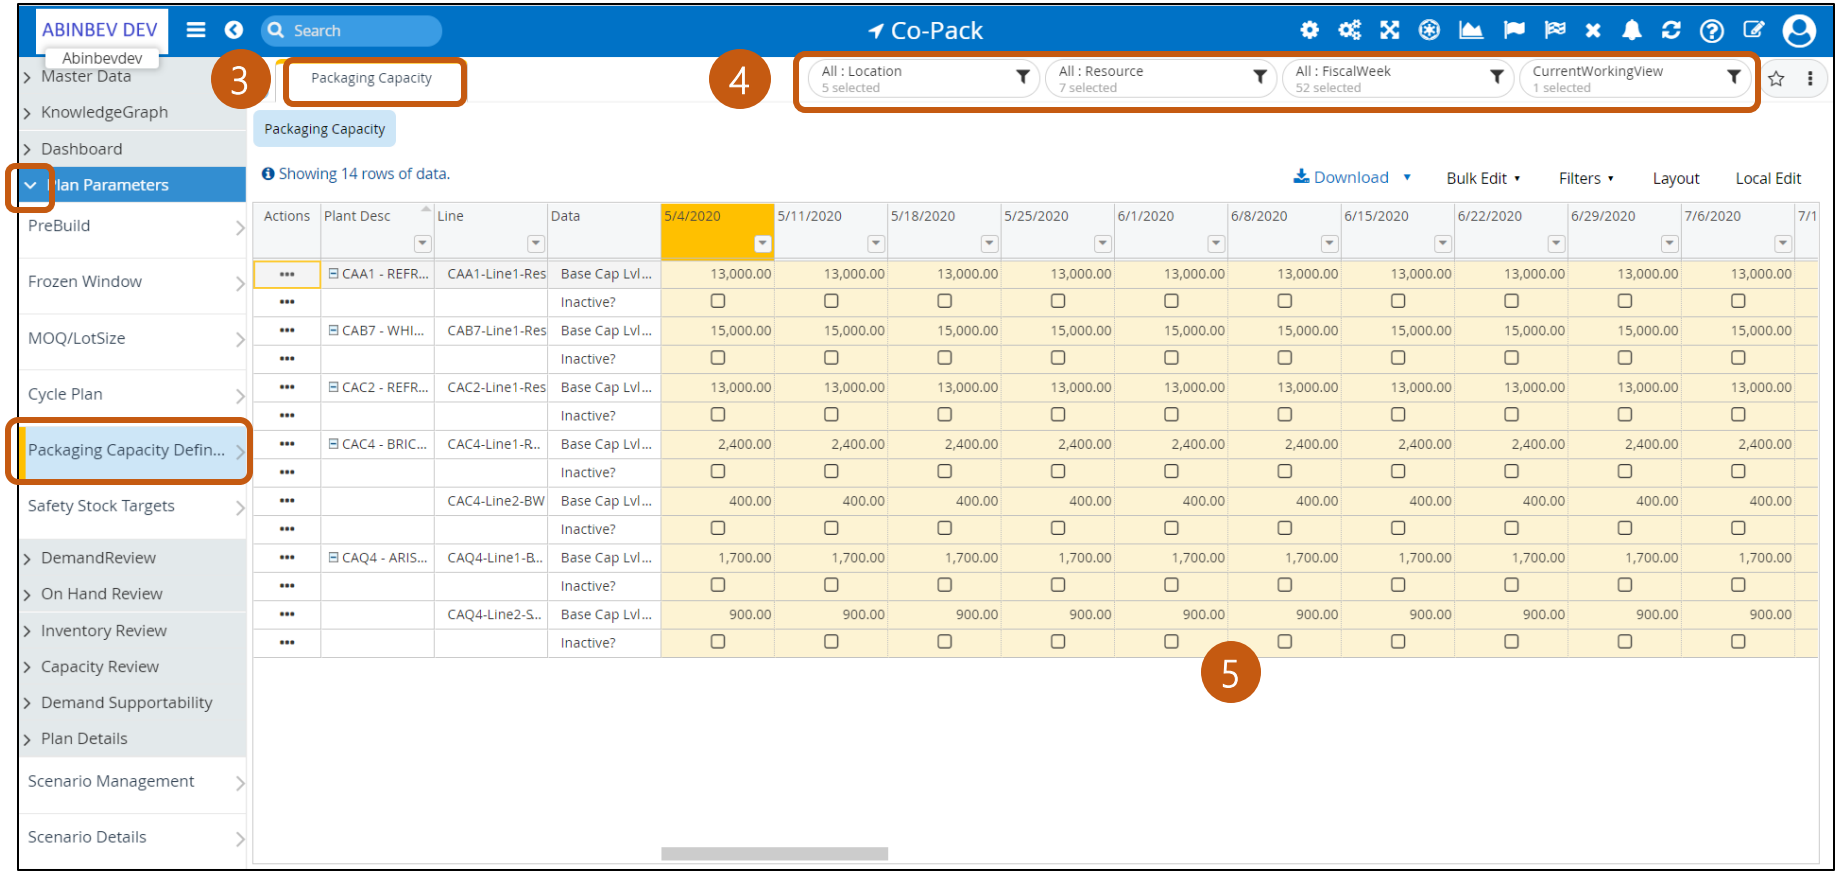
# Plan Parameters – Cycle Plan



Step 1: Click on the arrow corresponding to Plan Parameters
Step 2: Select "Cycle Plan" from the dropdown
Step 3: Click on the "CyclePlanNew" tab
Step 4: Filter on Packaging Type, Brand, Location, Resource, Date and Scenario
Step 5: Click on the Define Cycle Plan button to create a new cycle
Step 6: The Define Cycle Plan pop up window appears. Detail the specified values for the cycle. The timestamp of when the cycle was created and the user that created it are automatically defined
7: Select the row of an existing cycle from the table in the middle of the screen and click on the Edit Cycle Plan icon to edit that cycle. Edit the required parameters of the cycle and click Submit
8: Select the row of an existing cycle from the table in the middle of the screen and click on the Delete Cycle Plan icon to delete that cycle. Click Submit
9: The weeks the cycle selected in from the table in the middle of the screen is active is detailed in the Override Cycle Plan table below

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

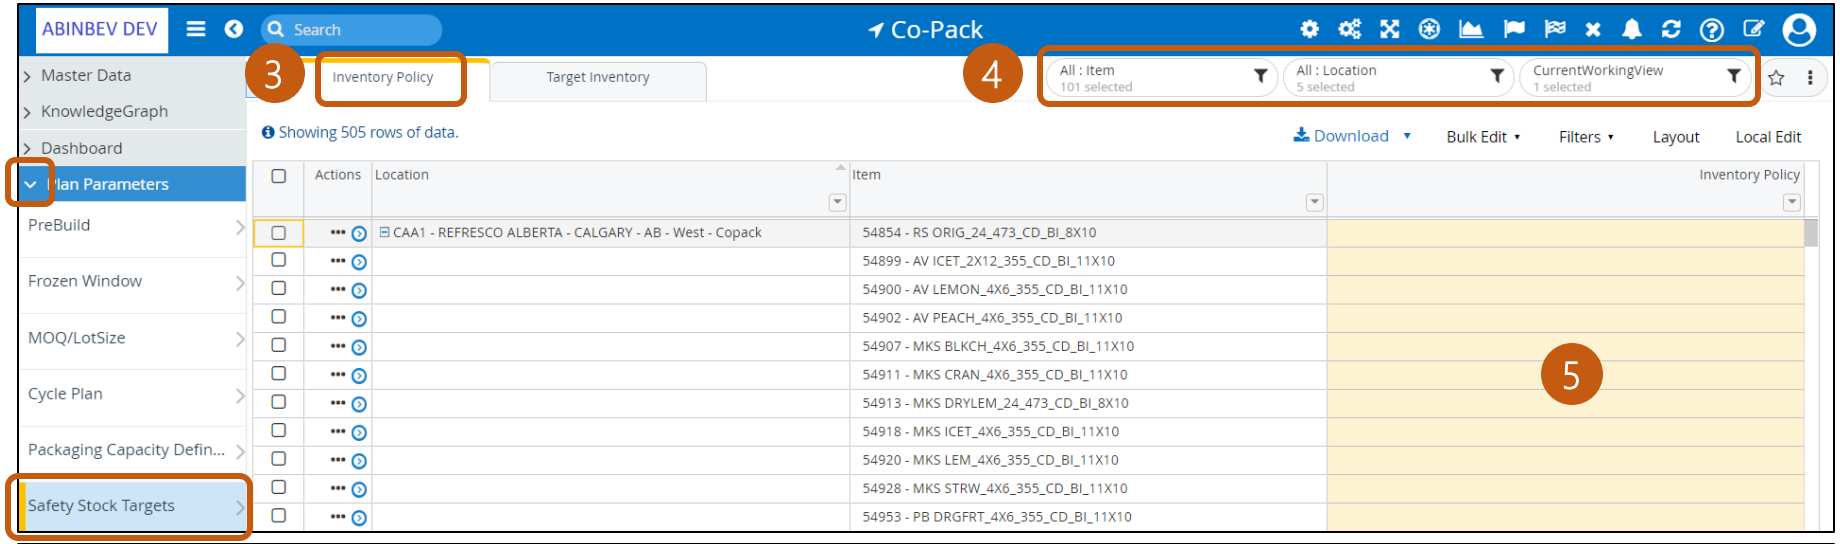
# Plan Parameters – Packaging Capacity Definition



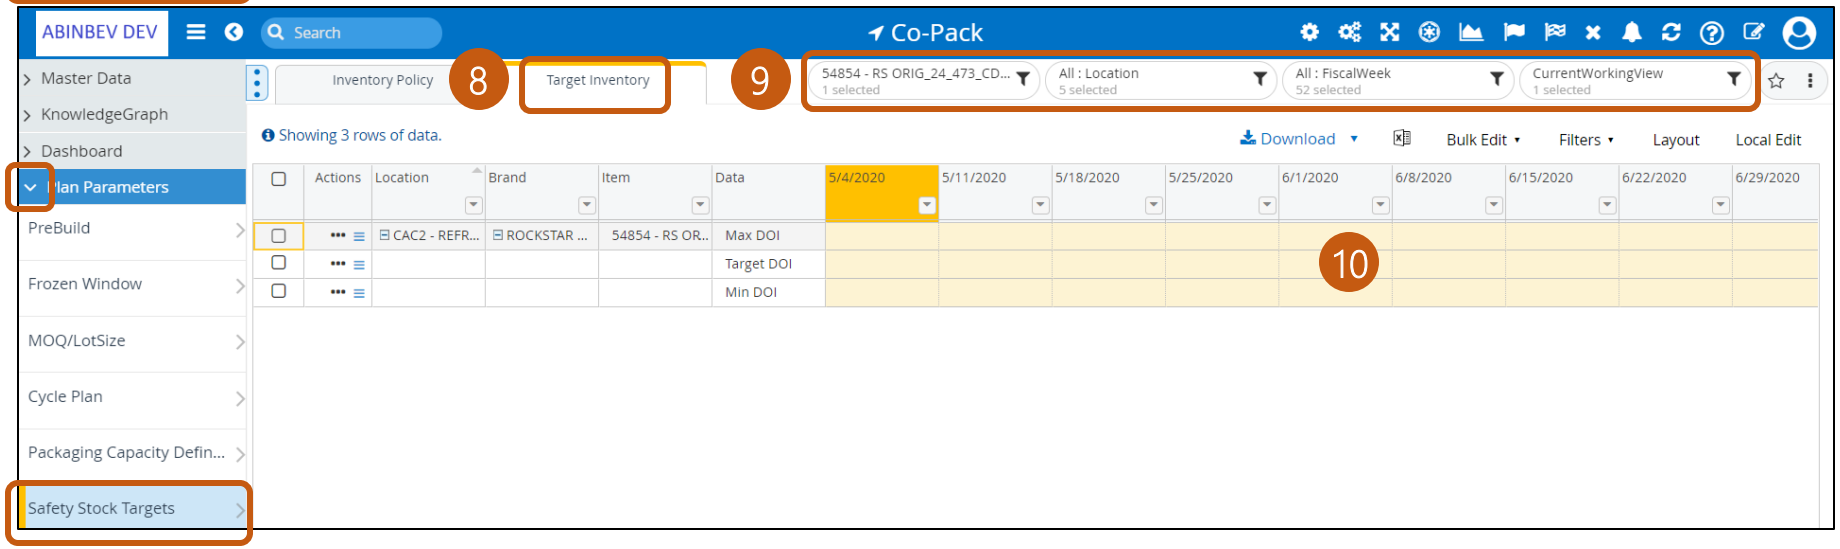
Step 1: Click on the arrow corresponding to Plan Parameters
Step 2: Select "Packaging Capacity Definition" from the dropdown
Step 3: Click on the "Packaging Capacity" tab
Step 4: Filter on Location, Resource, Date and Scenario
5: Review the base capacity for all of the resources in a given location. Update data as needed in the columns highlighted in pink and specify if the given resource is inactive in any of the weeks

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameters – Safety Stock Targets: Inventory Policy & Target Inventory



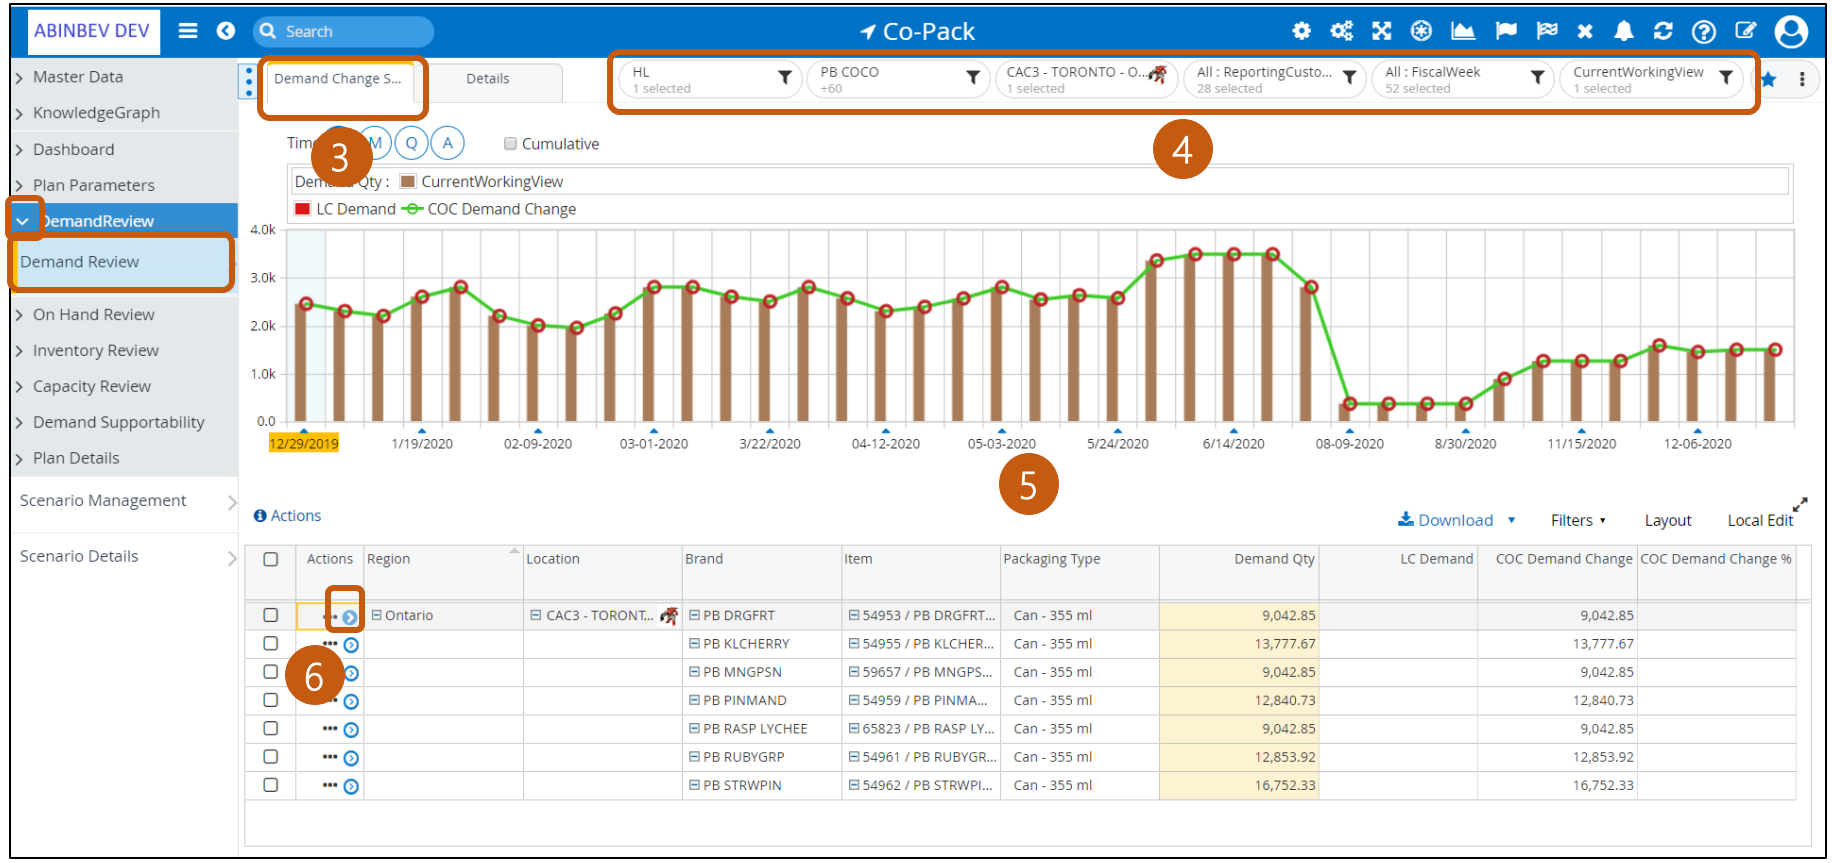
Step 1: Click on the arrow corresponding to Plan Parameters
Step 2: Select "Safety Stock Targets" from the dropdown
Step 3: Click on the "Inventory Policy" tab
Step 4: Filter on Item, Location, and Scenario
5: Review the inventory policy by location and item. Update data as needed in the columns highlighted in pink



Step 6: Click on the arrow corresponding to Plan Parameters
Step 7: Select "Safety Stock Targets" from the dropdown
Step 8: Click on the "Target Inventory" tab
Step 4: Filter on Item, Location, Date and Scenario
5: Review the inventory targets by location and item each week. Update data as needed in the columns highlighted in pink

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

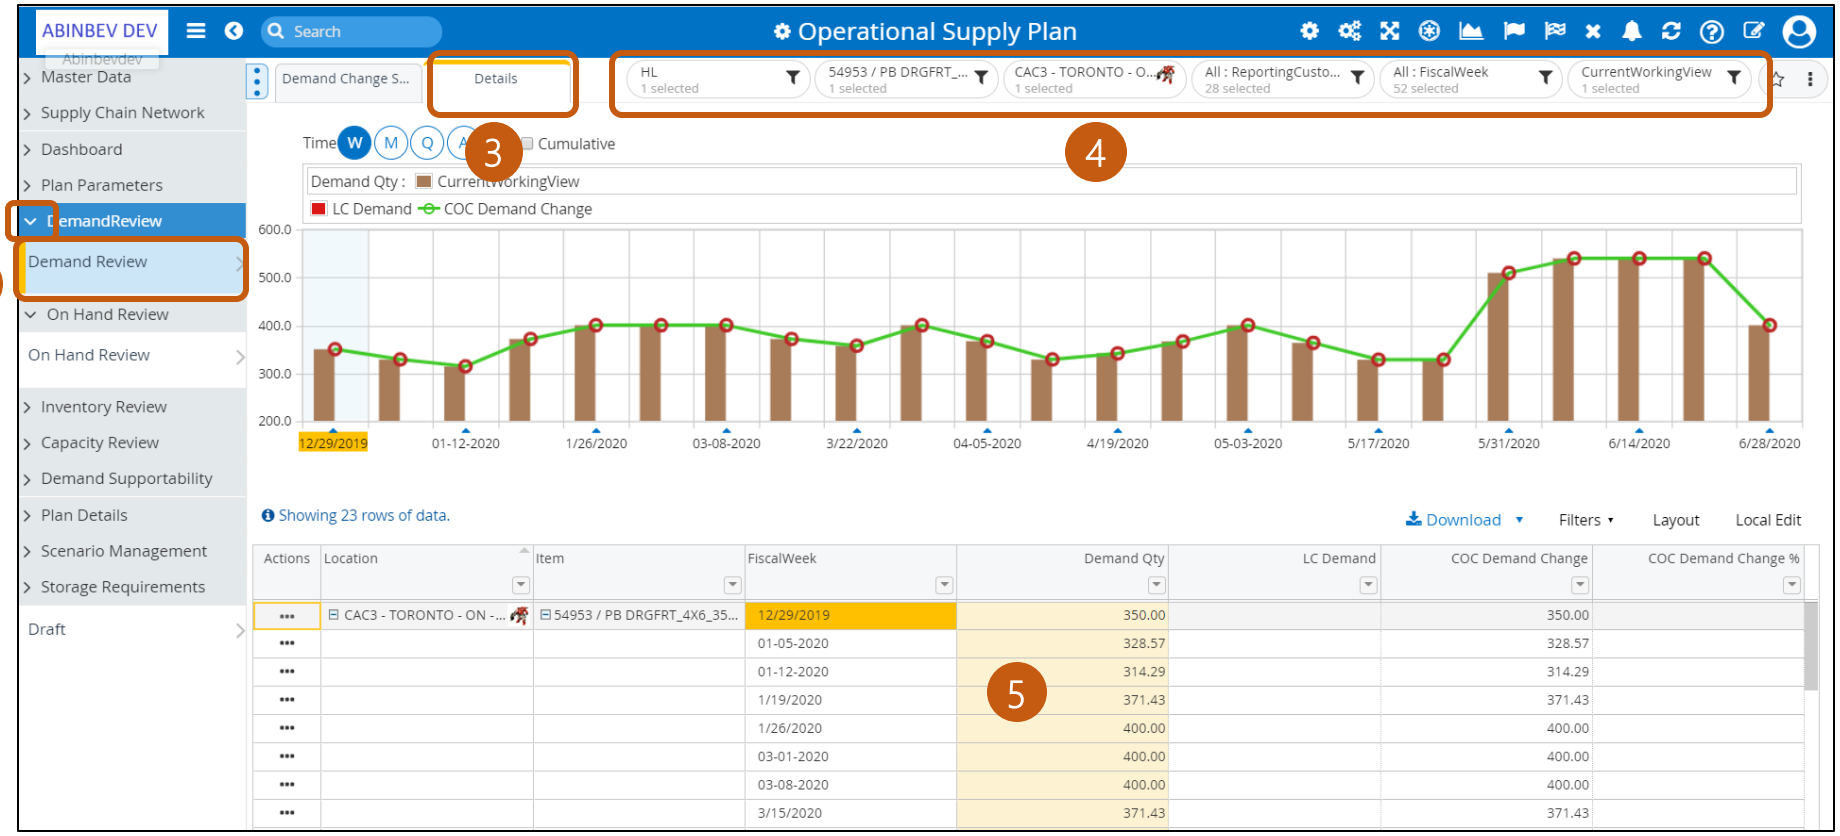
# Demand Review – Demand Review: Demand Change Summary



Step 1: Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Review" from the dropdown
Step 3: Click on "Demand Change Summary" tab
Step 4: Filter on Unit, Item, Location, Reporting Customer, Week and Scenario
5: Review the graph and table for last cycle demand quantity and % change; User can edit Demand Quantity
Step 6. Click on the Actions arrow and it will take the planner to the details about the given item within that brand and location
Highlight that with a box

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

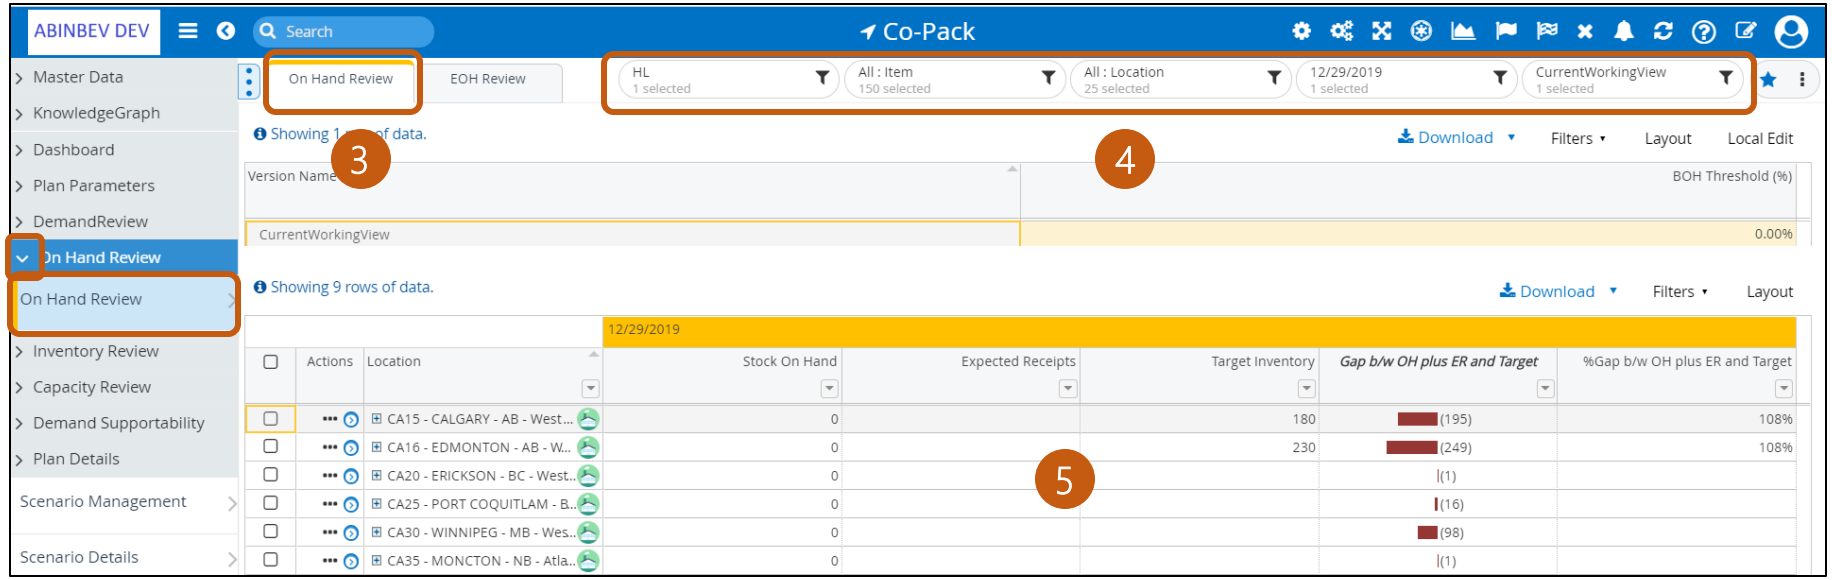
# Demand Review – Demand Review: Details



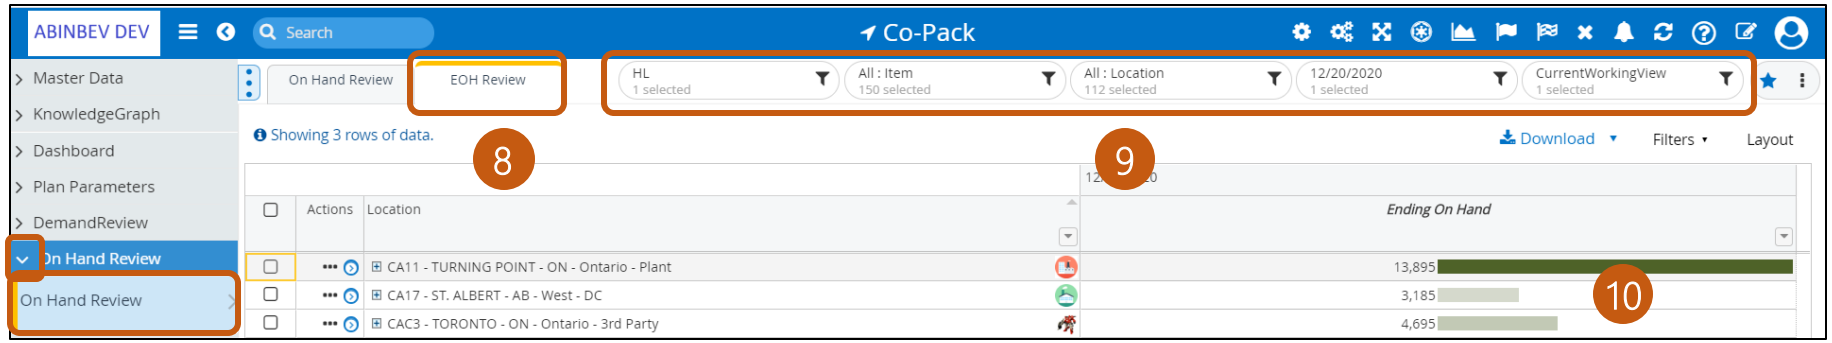
Step 1: Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Review" from the dropdown
Step 3: Click on "Details" tab
Step 4: Filter on Unit, Item, Location, Reporting Customer, Week and Scenario
5: Review the graph and table; User can edit Demand Qty

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# On Hand Review – On Hand Review: On Hand Review & EOH Review



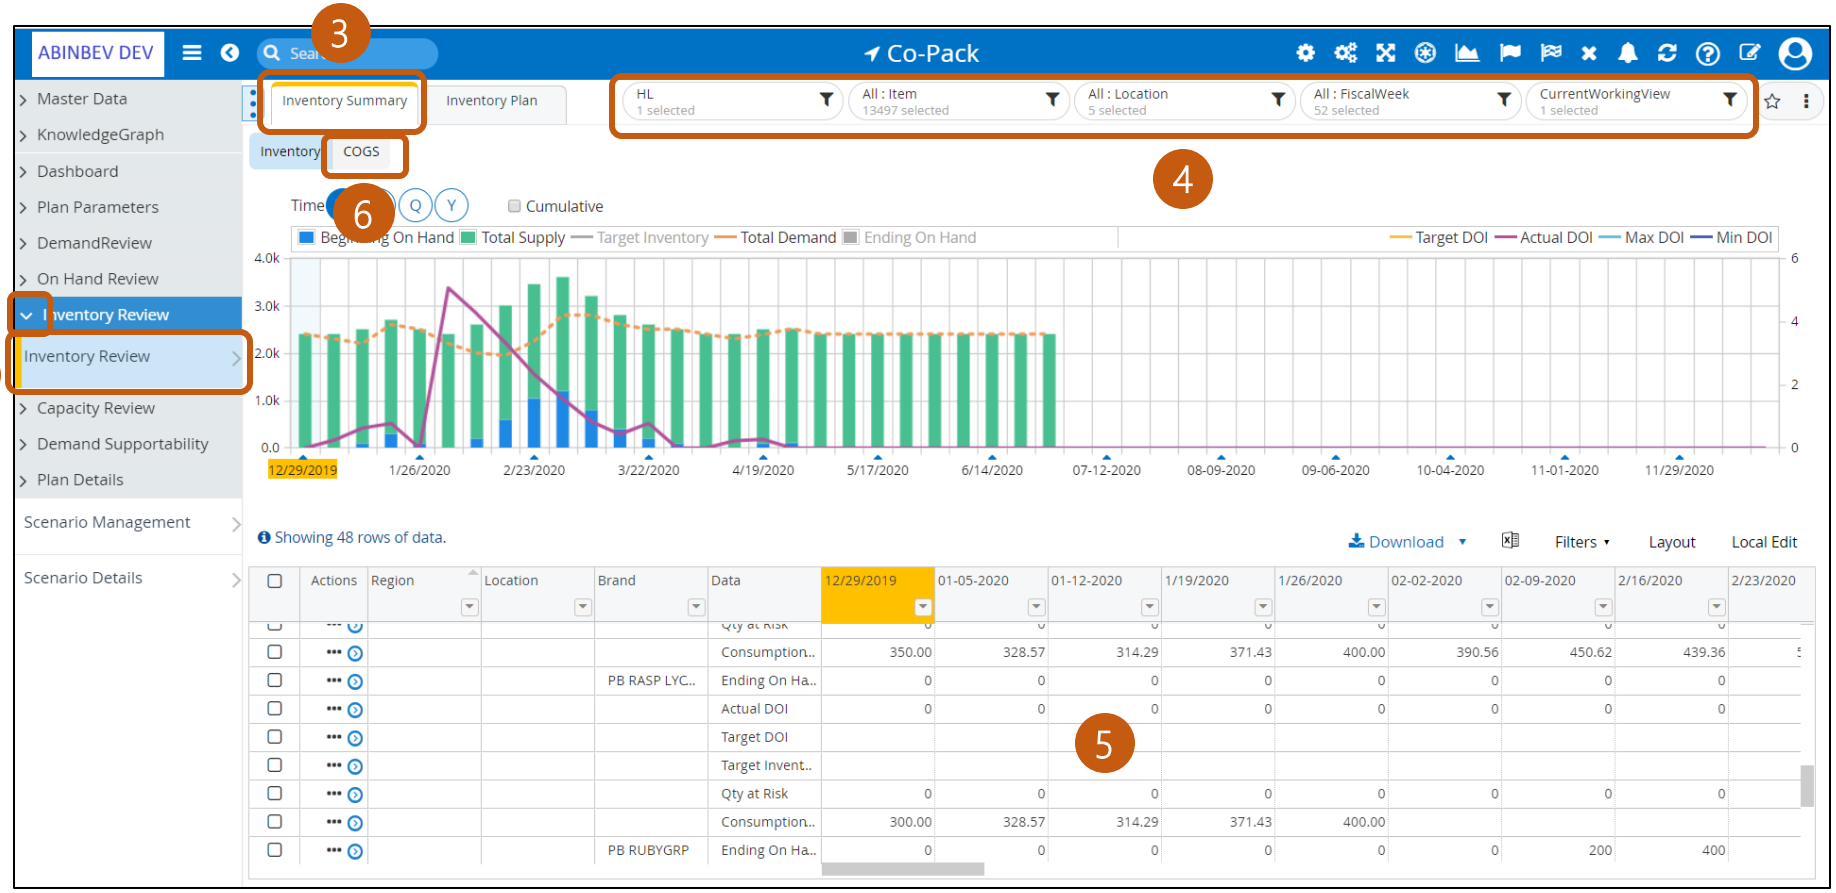
Step 1: Click on the arrow corresponding to OnHand Review
Step 2: Select "OnHand Review" from the dropdown
Step 3: Click on "OnHand Review" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Stock on Hand, Expected Receipts, Target Inventory



Step 6: Click on the arrow corresponding to OnHand Review
Step 7: Select "OnHand Review" from the dropdown
Step 8: Click on "OnHand Review" tab
Step 9: Filter on Unit, Item, Location, Week and Scenario
10: Review the table for Ending on Hand,

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

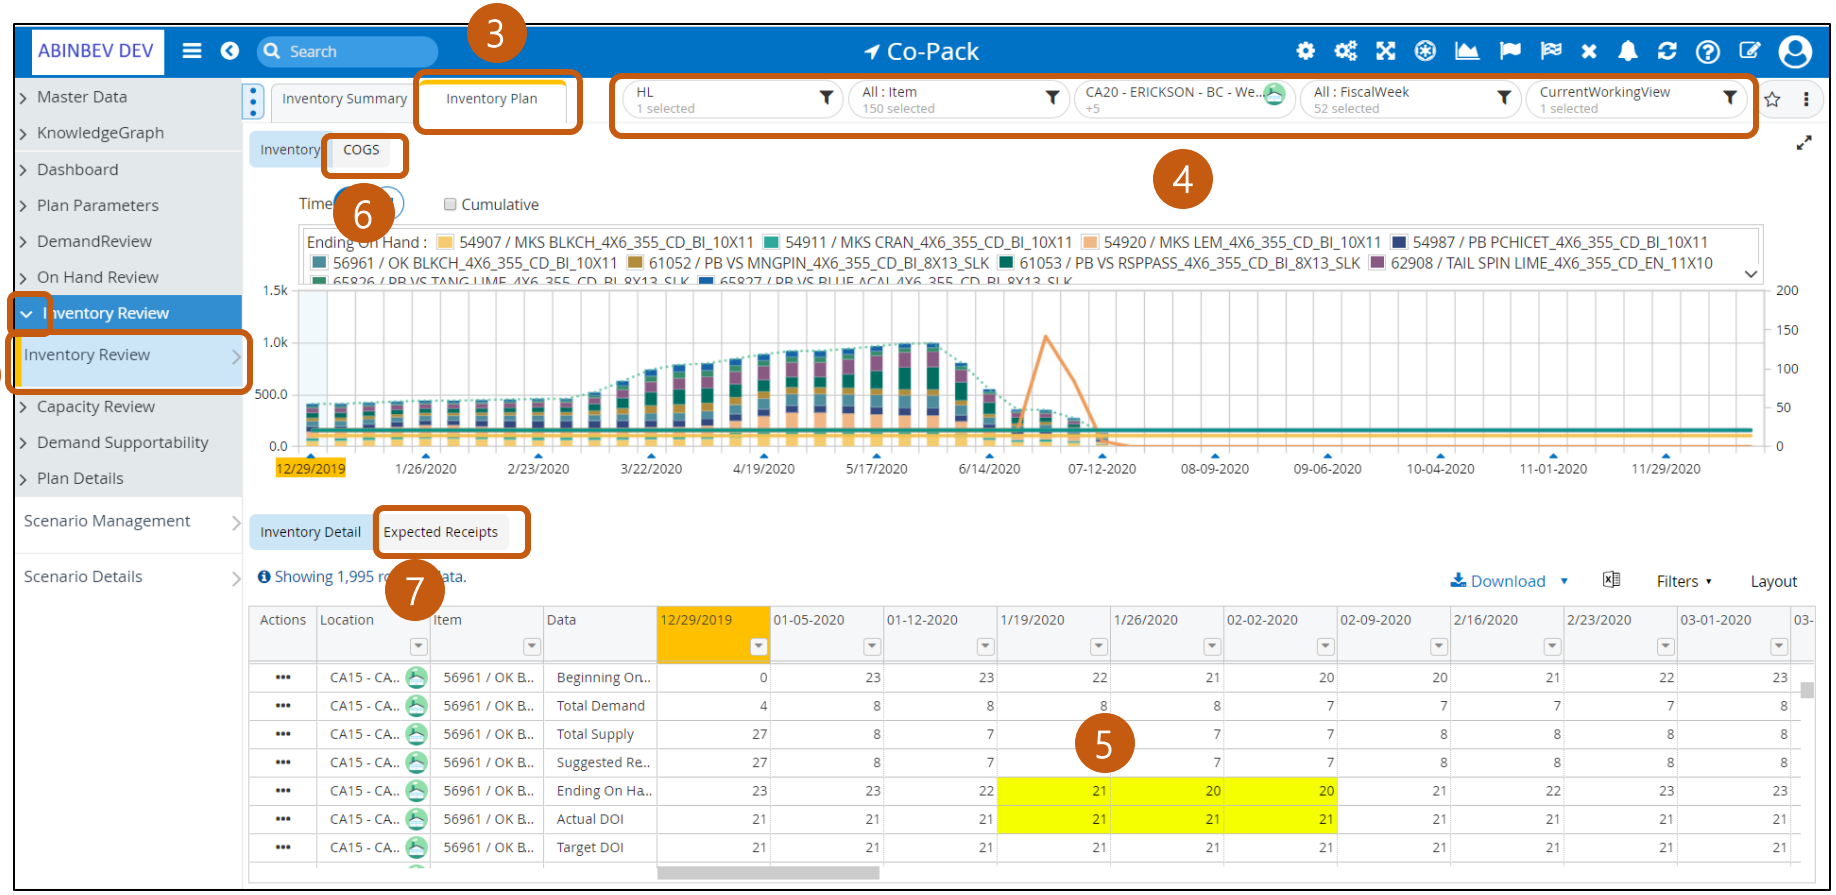
# Inventory Review – Inventory Review: Inventory Summary



Step 1: Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Review" from the dropdown
Step 3: Click on "Inventory Summary" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Ending On Hand, Actual DOI, Target DOI, Target Inventory and Qty at Risk
Step 6: Click on COGS sub tab and review the graph

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

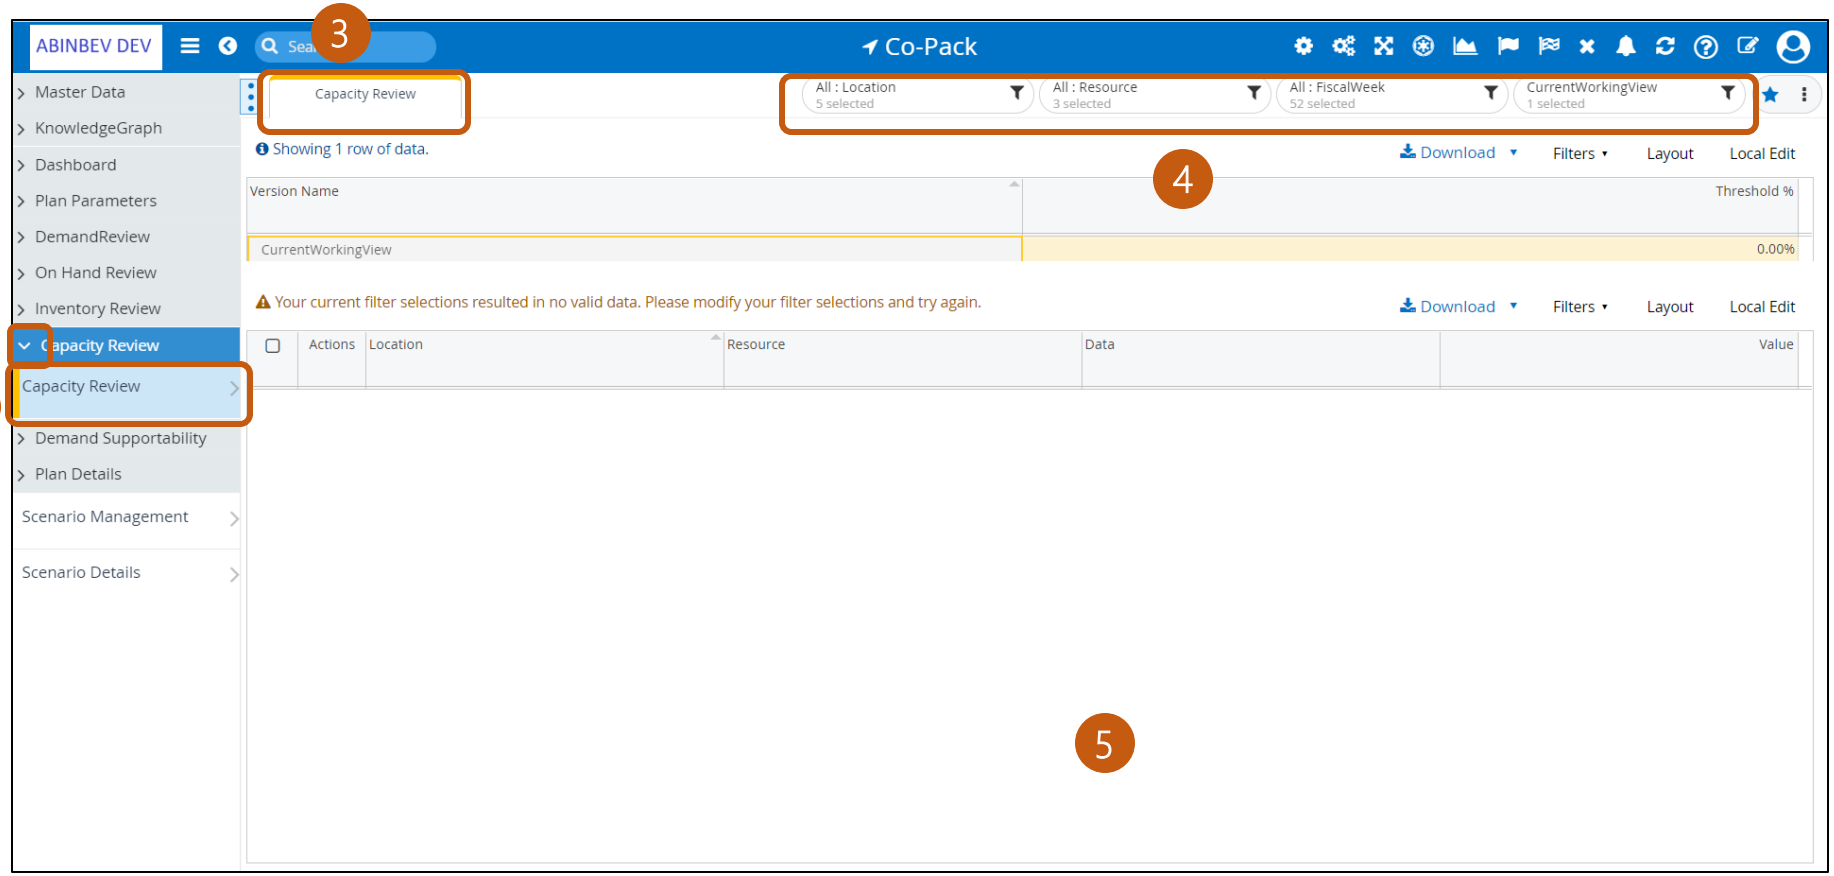
# Inventory Review – Inventory Review: Inventory Plan



Step 1: Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Review" from the dropdown
Step 3: Click on "Inventory Plan" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Beginning On Hand, Total Demand, Total Supply. Cells will be highlighted in Yellow if EOH and Target DOI is greater than Maximum limit and cells will be highlighted in Red if the value is below the minimum set limit
Step 6: Click on COGS sub tab and review the graph
Step 7: Click on Expected Receipts and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

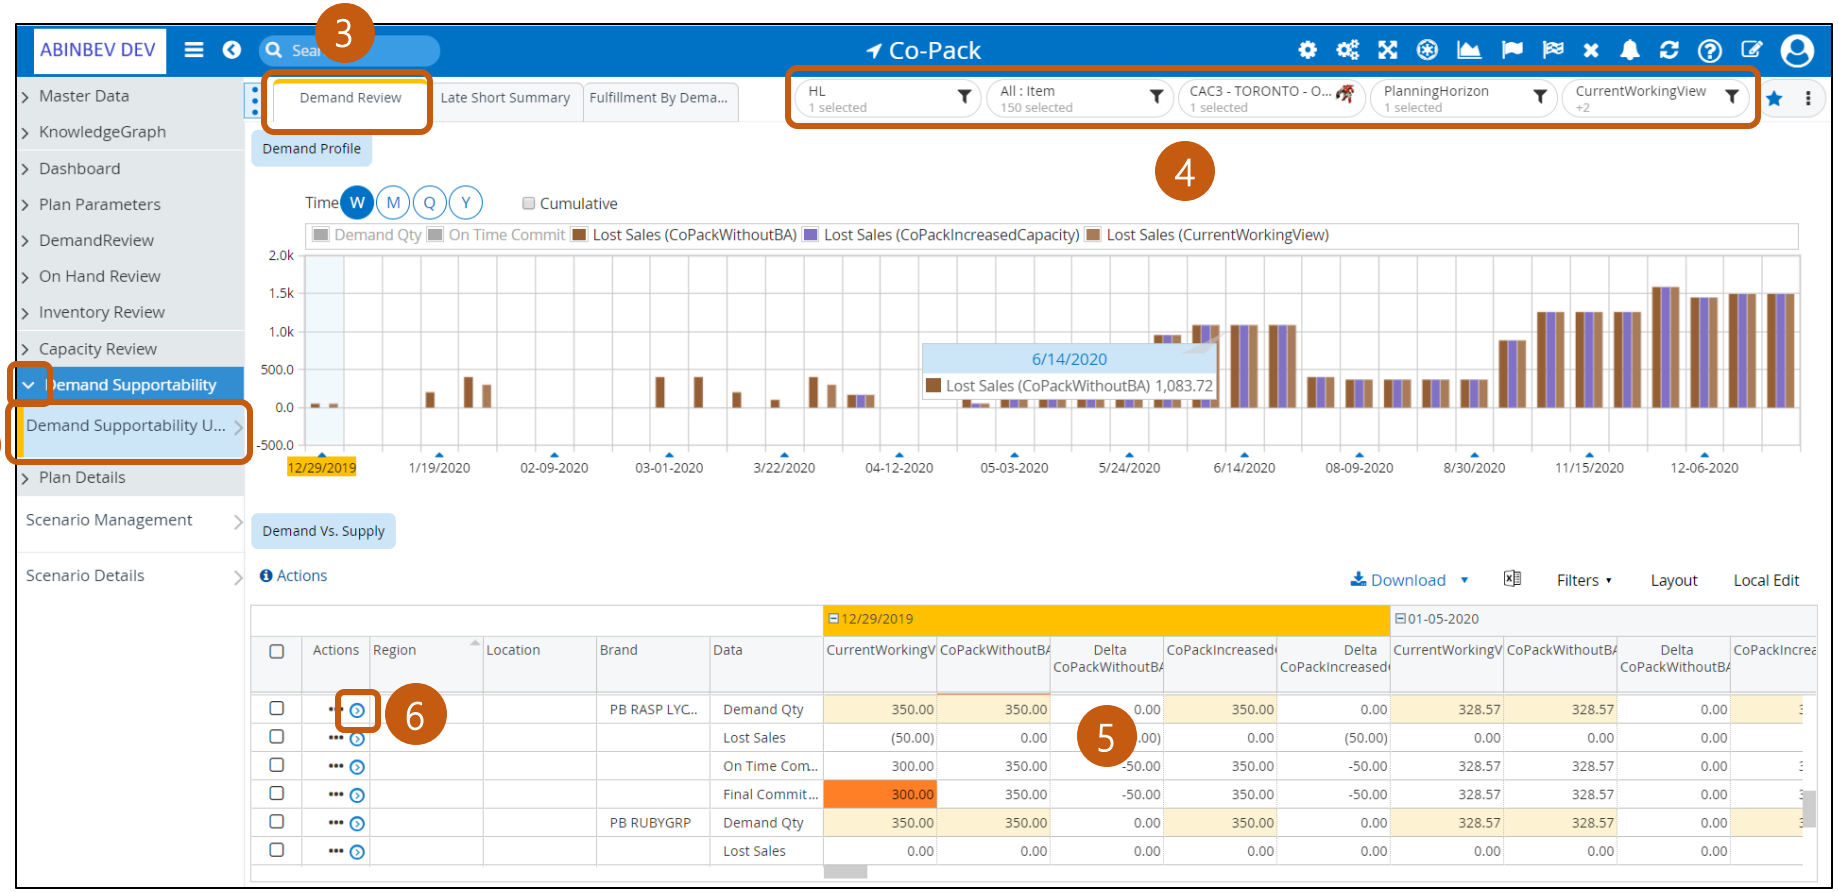
# Capacity Review – Capacity Review



Step 1: Click on the arrow corresponding to Capacity Review
Step 2: Select "Capacity Review" from the dropdown
Step 3: Click on "Capacity Review" tab
Step 4: Filter on Location, Resource, Week and Scenario
5: Review the table for Ending On Hand, Actual DOI, Target DOI, Target Inventory and Qty at Risk
Step 6: Click on COGS sub tab and review the graph

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

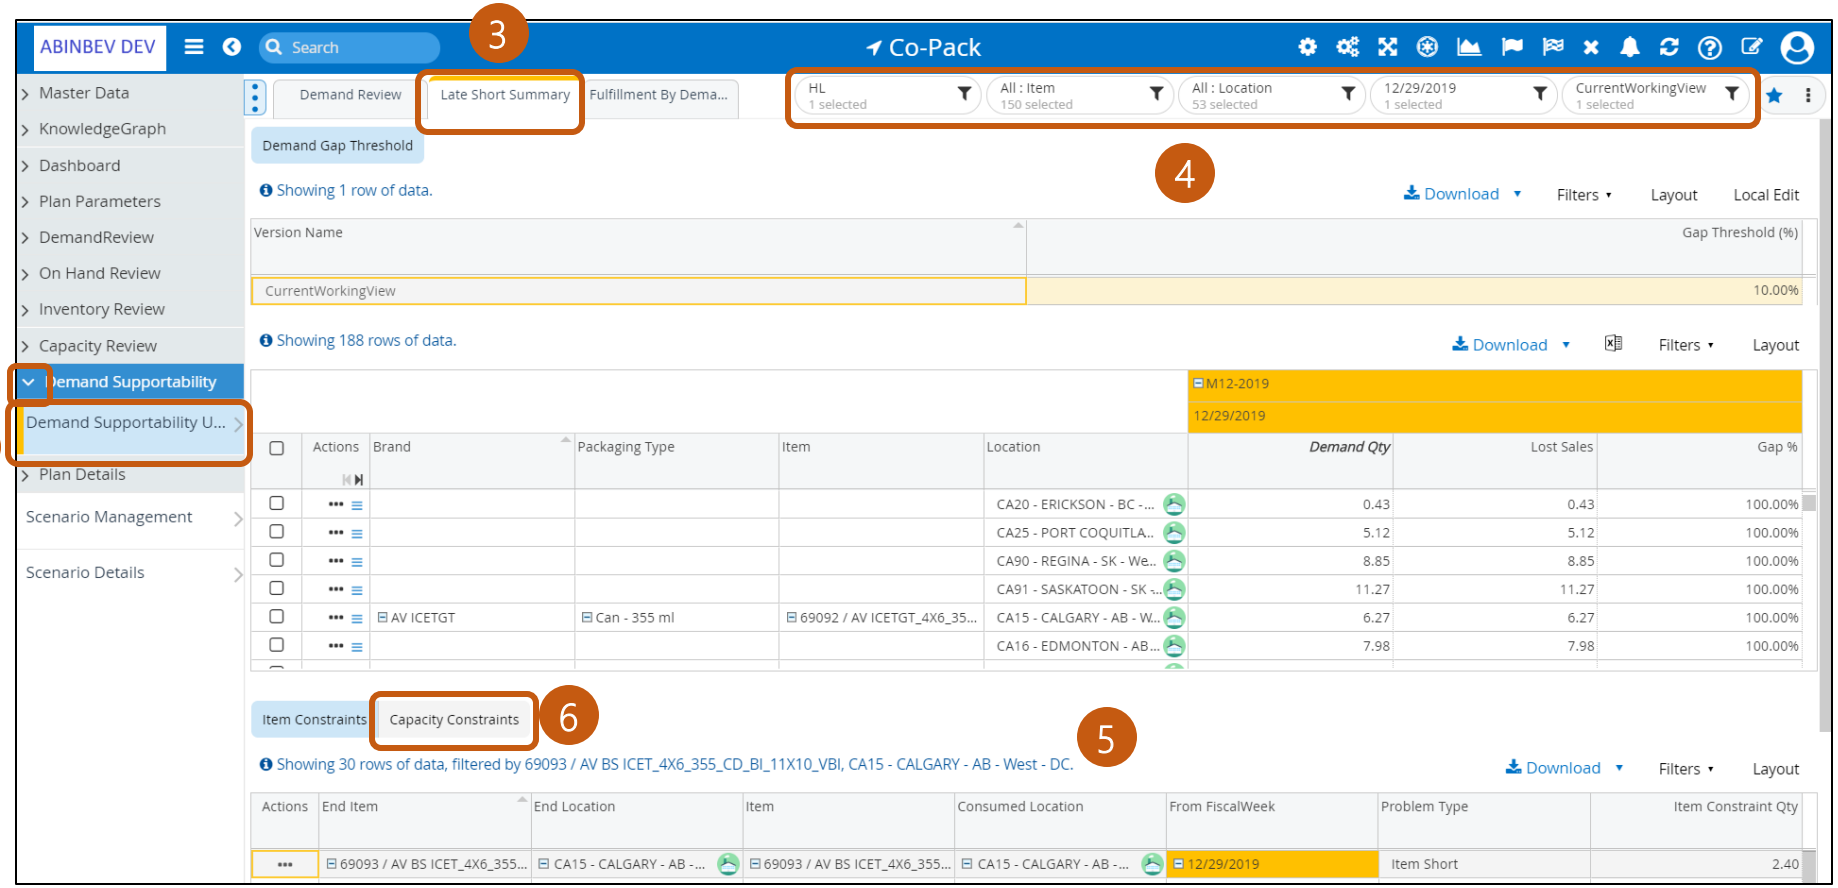
# Demand Supportability – Demand Supportability Updated: Demand Review



Step 1: Click on the arrow corresponding to Demand Supportability
Step 2: Select "Demand Supportability Updated" from the dropdown
Step 3: Click on "Demand Review" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Demand Qty, Lost sale On Time Commit, Final Commit for different scenarios
Step 6: Click on the Action arrow for a gap to get more details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

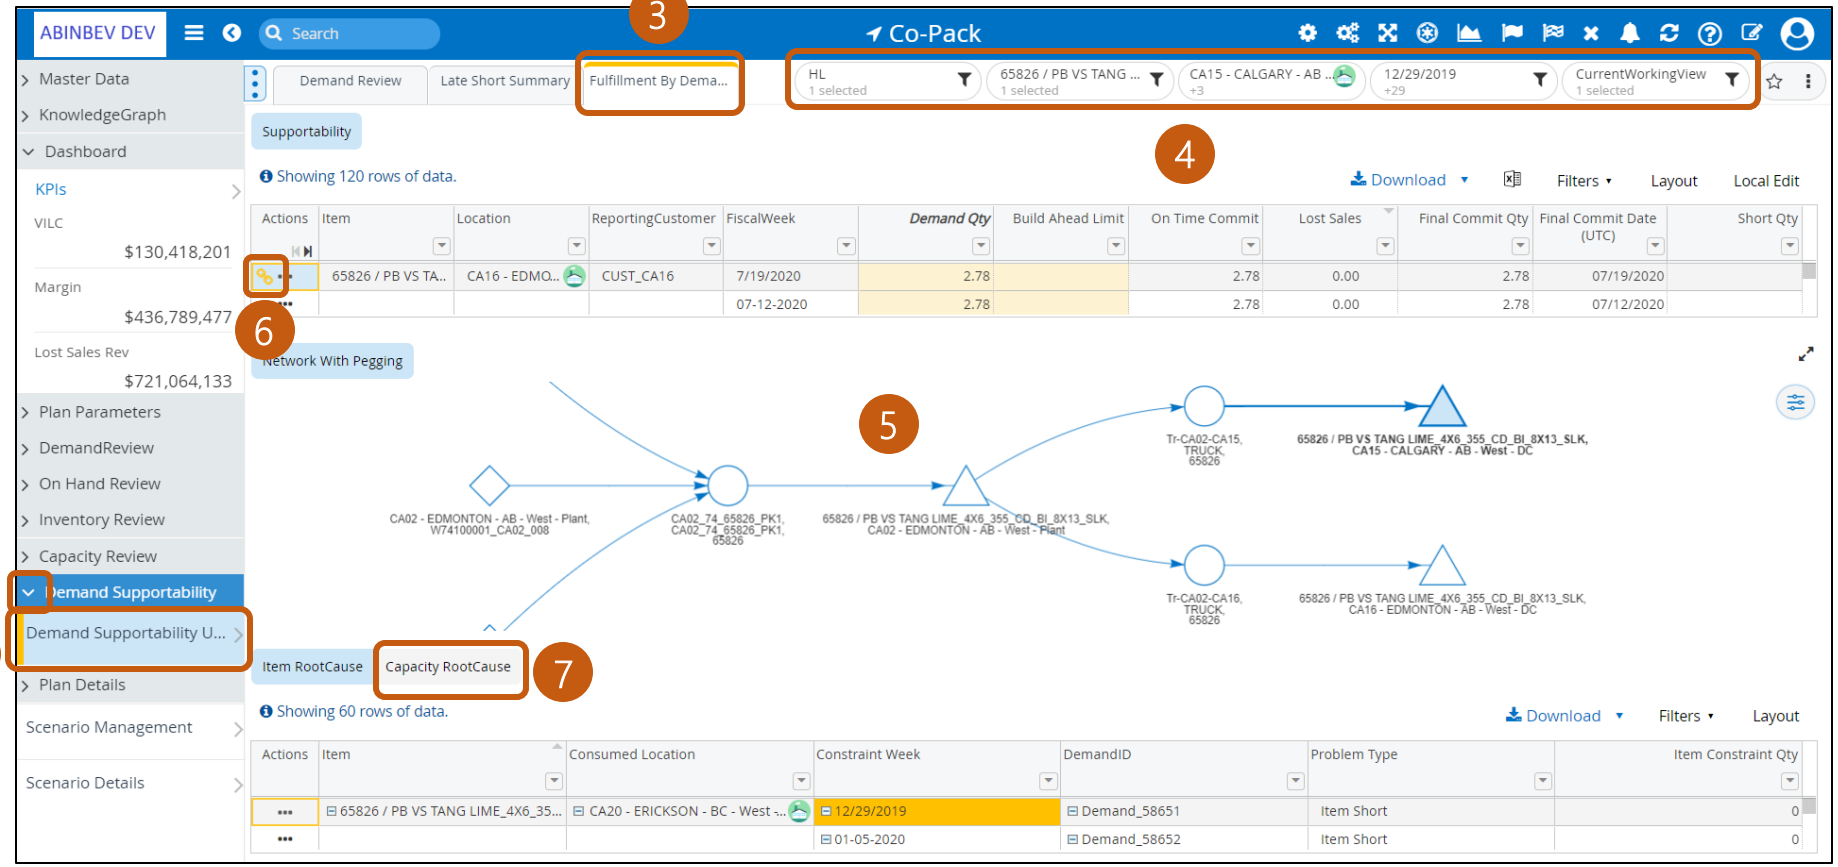
# Demand Supportability – Demand Supportability Updated: Late Short Summary



Step 1: Click on the arrow corresponding to Demand Supportability
Step 2: Select "Demand Supportability Updated" from the dropdown
Step 3: Click on "Late Short Summary" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Demand Quantity, Lost Sales, Gap%; also review the Item Constraint table for details and to know the problem Type
Step 6: Click on Capacity Constraints and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

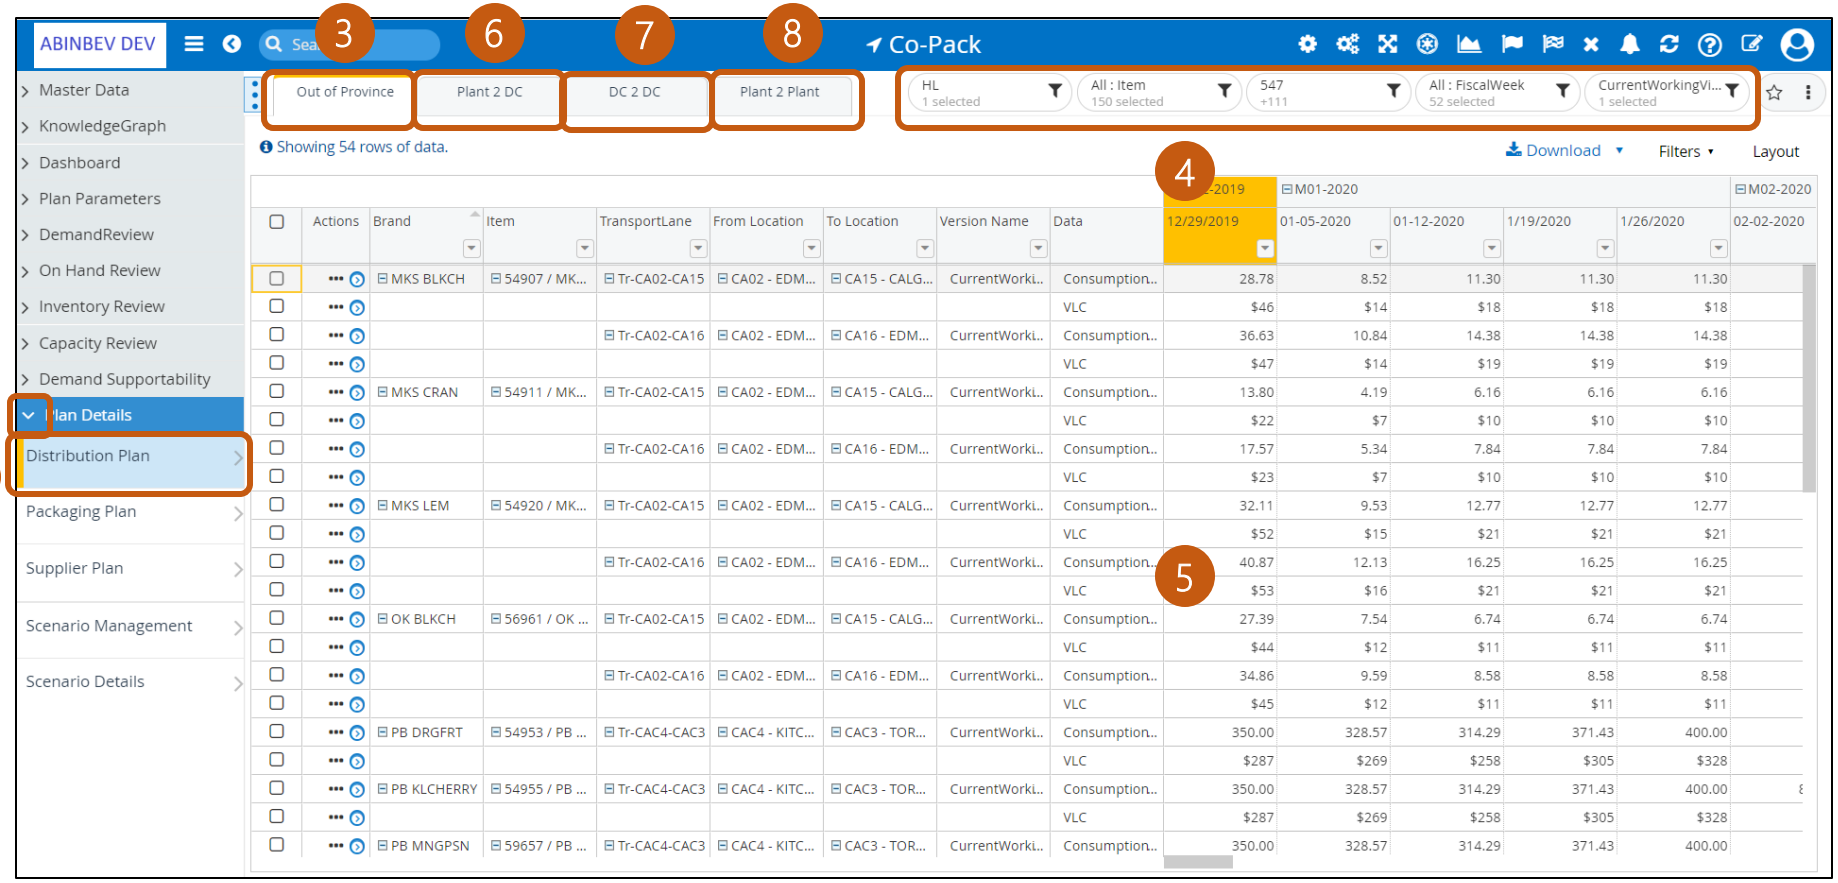
# Demand Supportability – Demand Supportability Updated: Fulfillment By DemandID



Step 1: Click on the arrow corresponding to Demand Supportability
Step 2: Select "Demand Supportability Updated" from the dropdown
Step 3: Click on "Fulfillment By DemandID" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Demand Qty, Build Ahead Limit, Lost sales
Step 6: Click on Yellow chain icon , Item Root Cause table will be updated and review the table to know the problem type
Step 7: Click on Capacity Root Cause sub tab and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

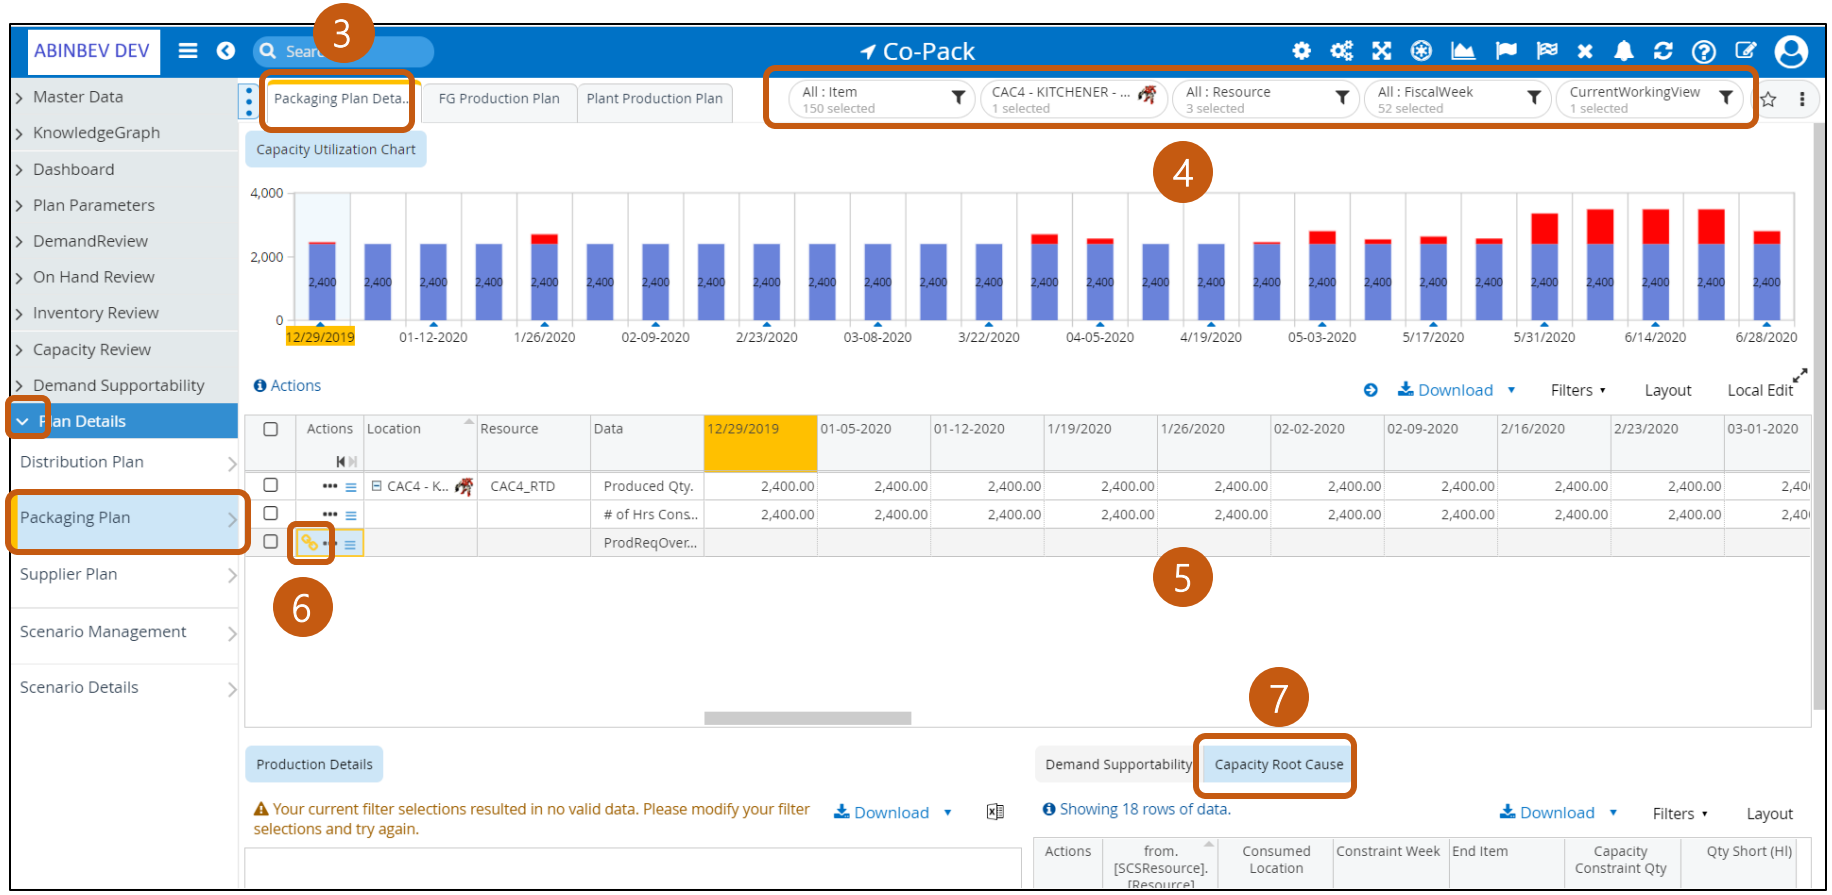
# Plan Details – Distribution Plan:
# Out of Province, Plant 2 DC, DC 2 DC and Plant 2 Plant



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "distribution Plan" from the dropdown
Step 3: Click on "Out of Province" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Consumption requirements and VLC for Out of Province lanes
Step 6: Click on Plant 2 DC tab and review the graph and table for Consumption requirements and VLC for Plant 2 DC lanes
Step 7: Click on DC 2 DC tab and review the graph and table for Consumption requirements and VLC for DC 2 DC lanes
Step 8: Click on Plant 2 Plant tab and review the graph and table for Consumption requirements and VLC for Plant 2 Plant lanes

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

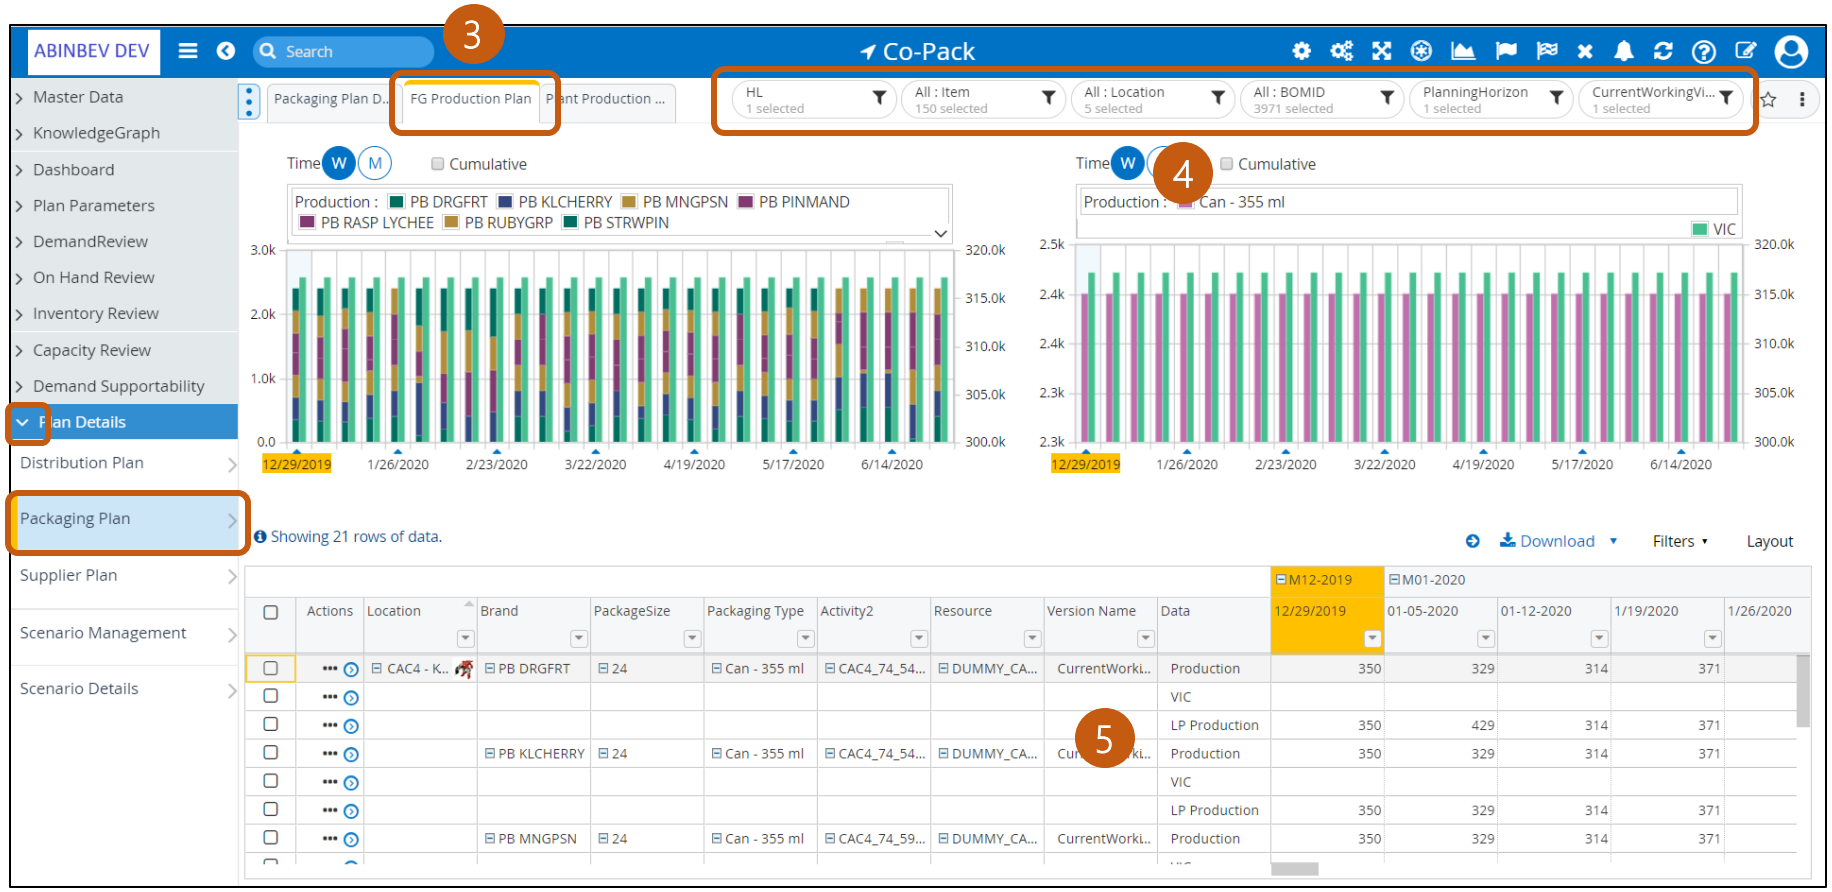
# Plan Details – Packaging Plan: Packaging Plan Details



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "Packaging Plan Details" tab
Step 4: Filter on Unit, Item, Location, Resource, Week and Scenario
5: Review the graph and table for Capacity Utilization
Step 6: Click on the yellow chain Icon to review the production Details in Production Details table
Step 7: Click on Capacity Root Cause sub tab and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

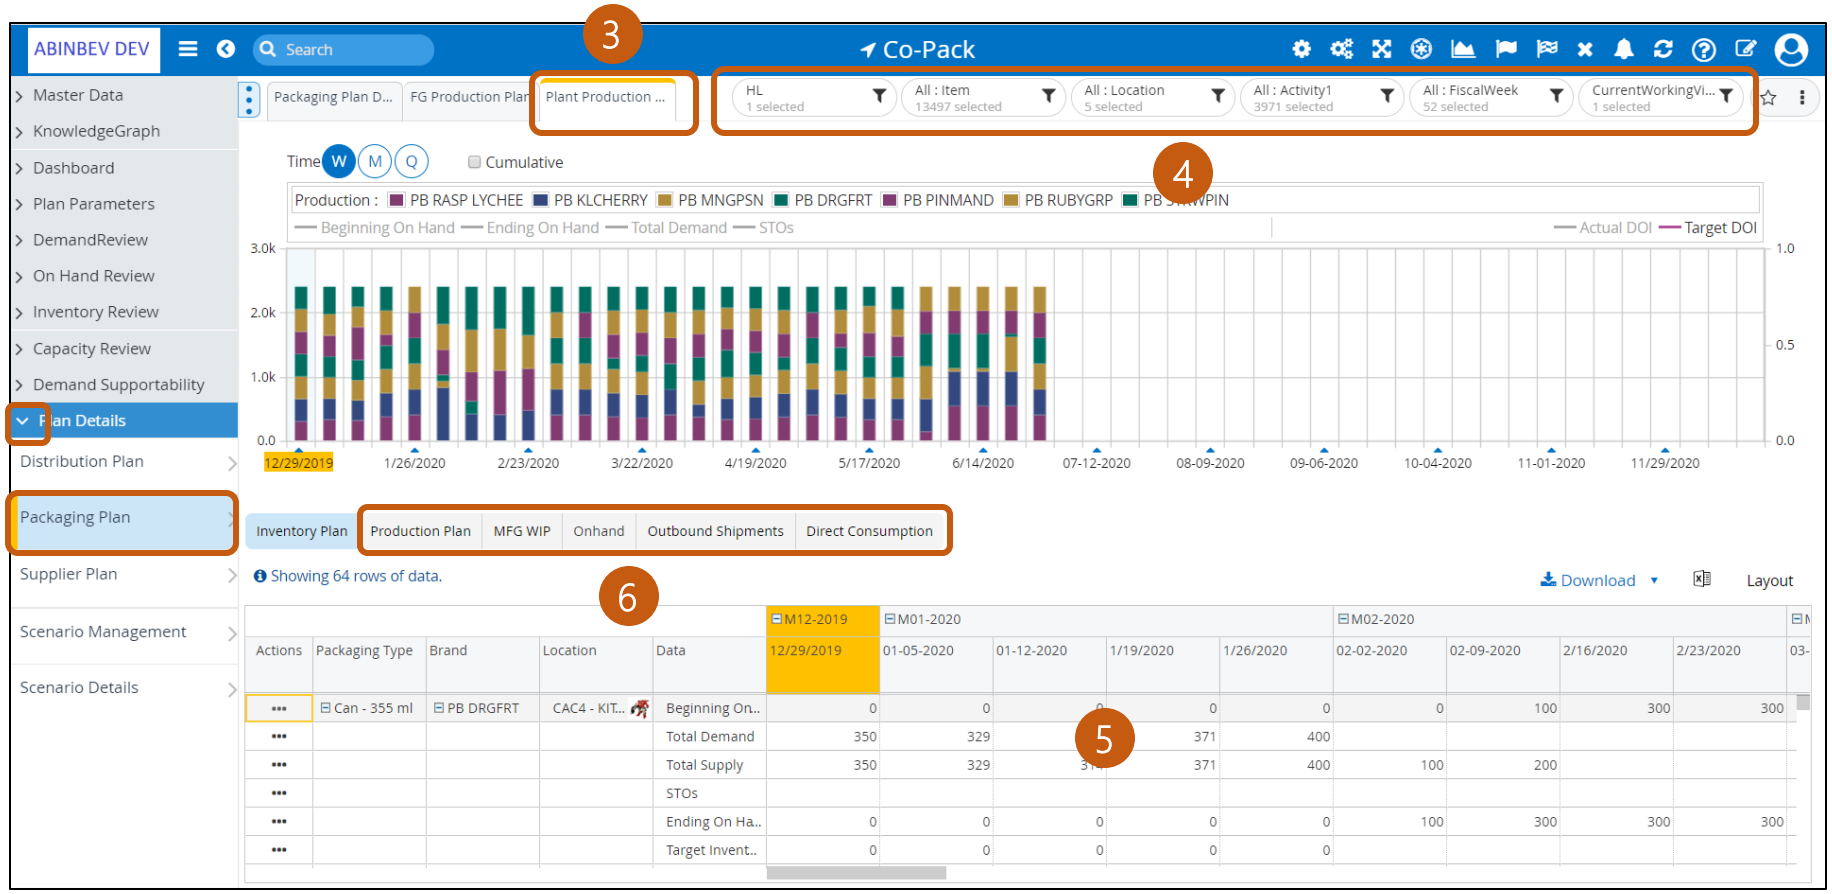
# Plan Details – Packaging Plan: FG Production Plan



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "FG Production Plan" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the graphs and table for Production details, VLC and LP Production attributes

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

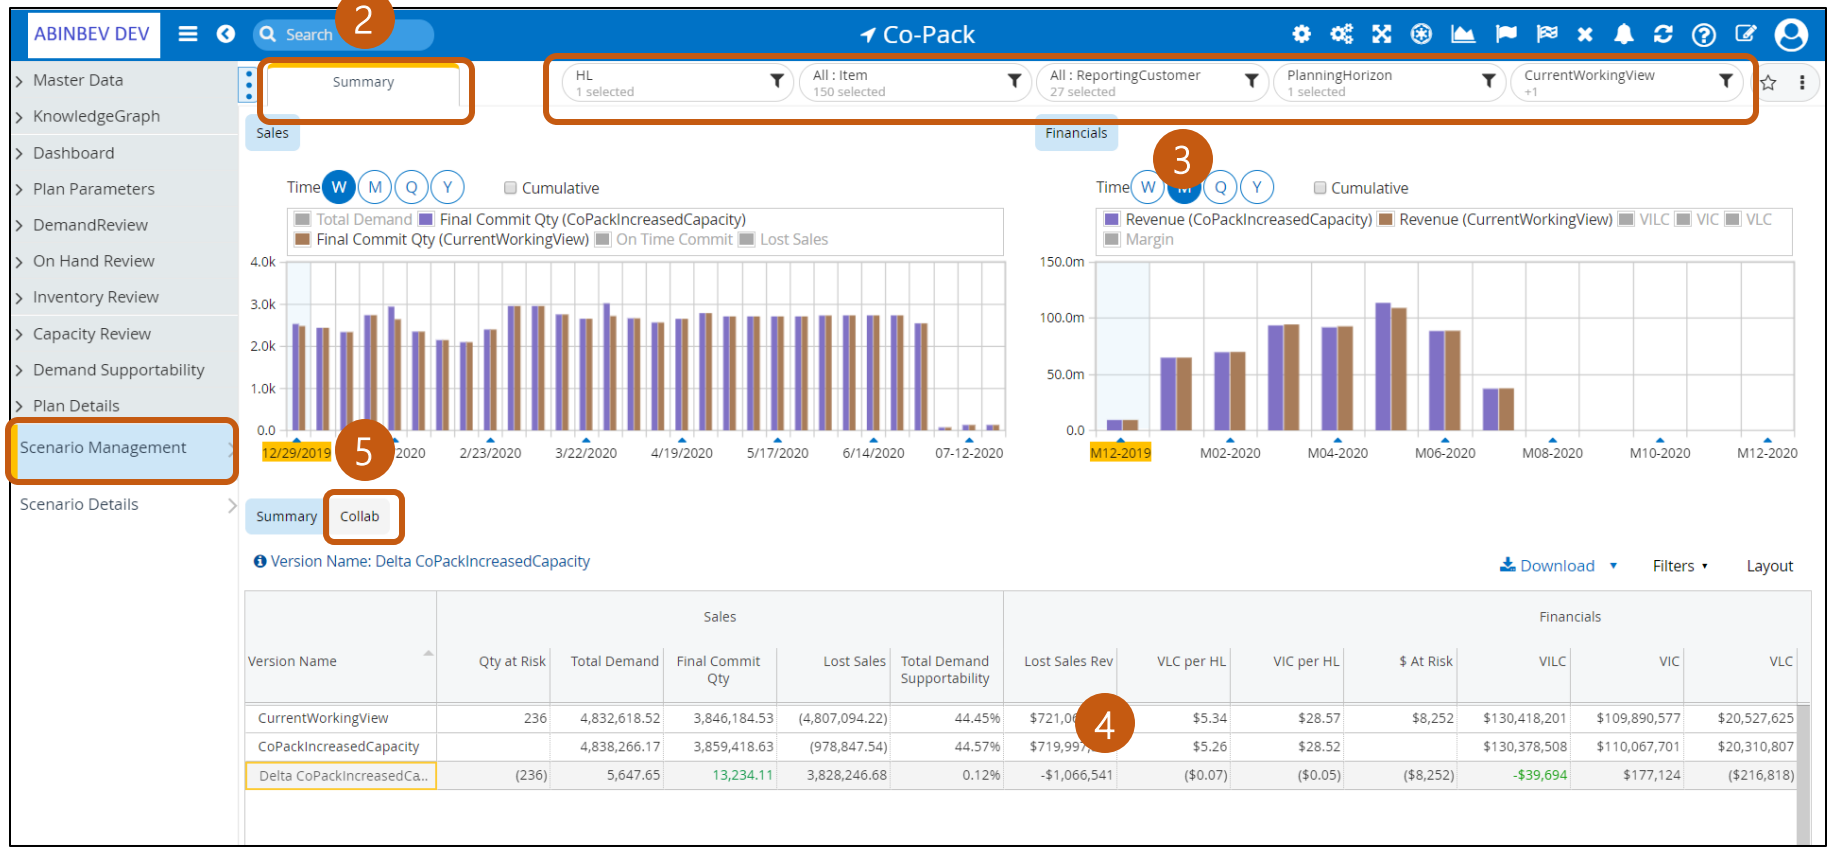
# Plan Details – Packaging Plan: Plant Production Plan



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "Plant Production Plan" tab
Step 4: Filter on Unit, Item, Location, Activity1, Week and Scenario
5: Review the graphs and Inventory Plan table for BOH, EOH, Total Demand, total Supply attributes
Step 6: Click on each tabs to fetch details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

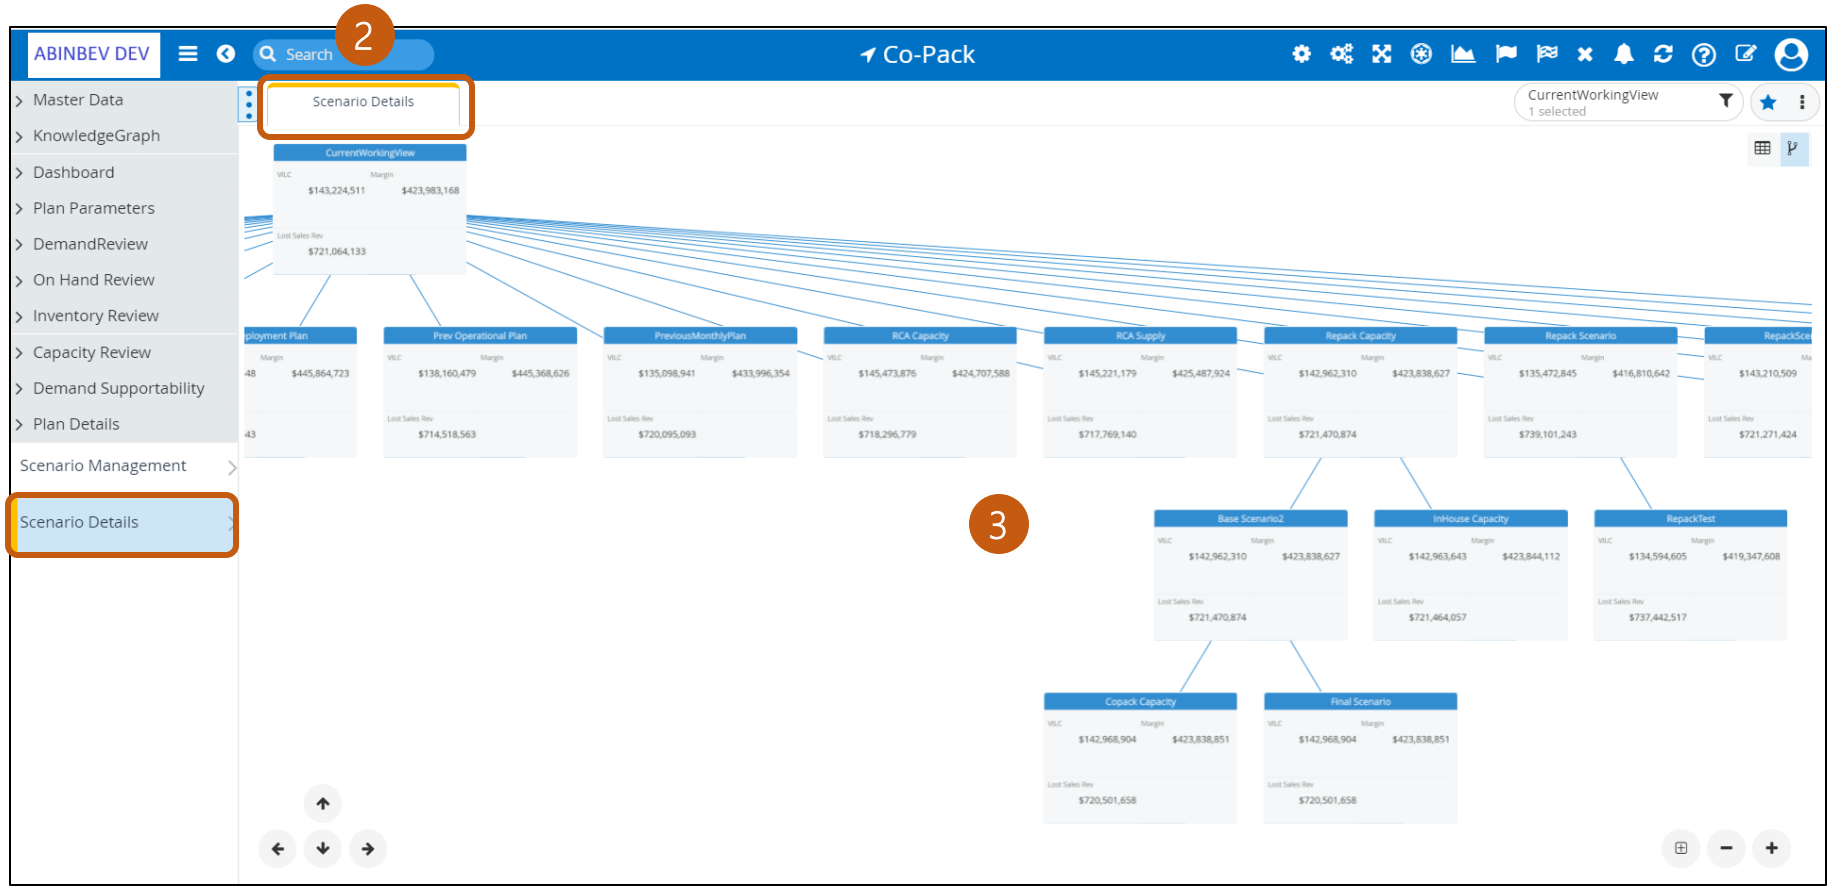
# Scenario Management – Summary



Step 1: Click on Scenario Management
Step 2: Summary tab opens
Step 3: Filter on Unit, Item, Reporting Customer, Week and Scenario
4: Review the graphs and Inventory Plan table for all sales and Financial details for all selected scenarios
Step 5: Click on Collab tab and user can write posts or comments

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Details – Scenario Details



Step 1: Click on Scenario details
Step 2: Scenario Details tab opens
Step 3:Review the data

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Work Instructions for Re-Pack Planner

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

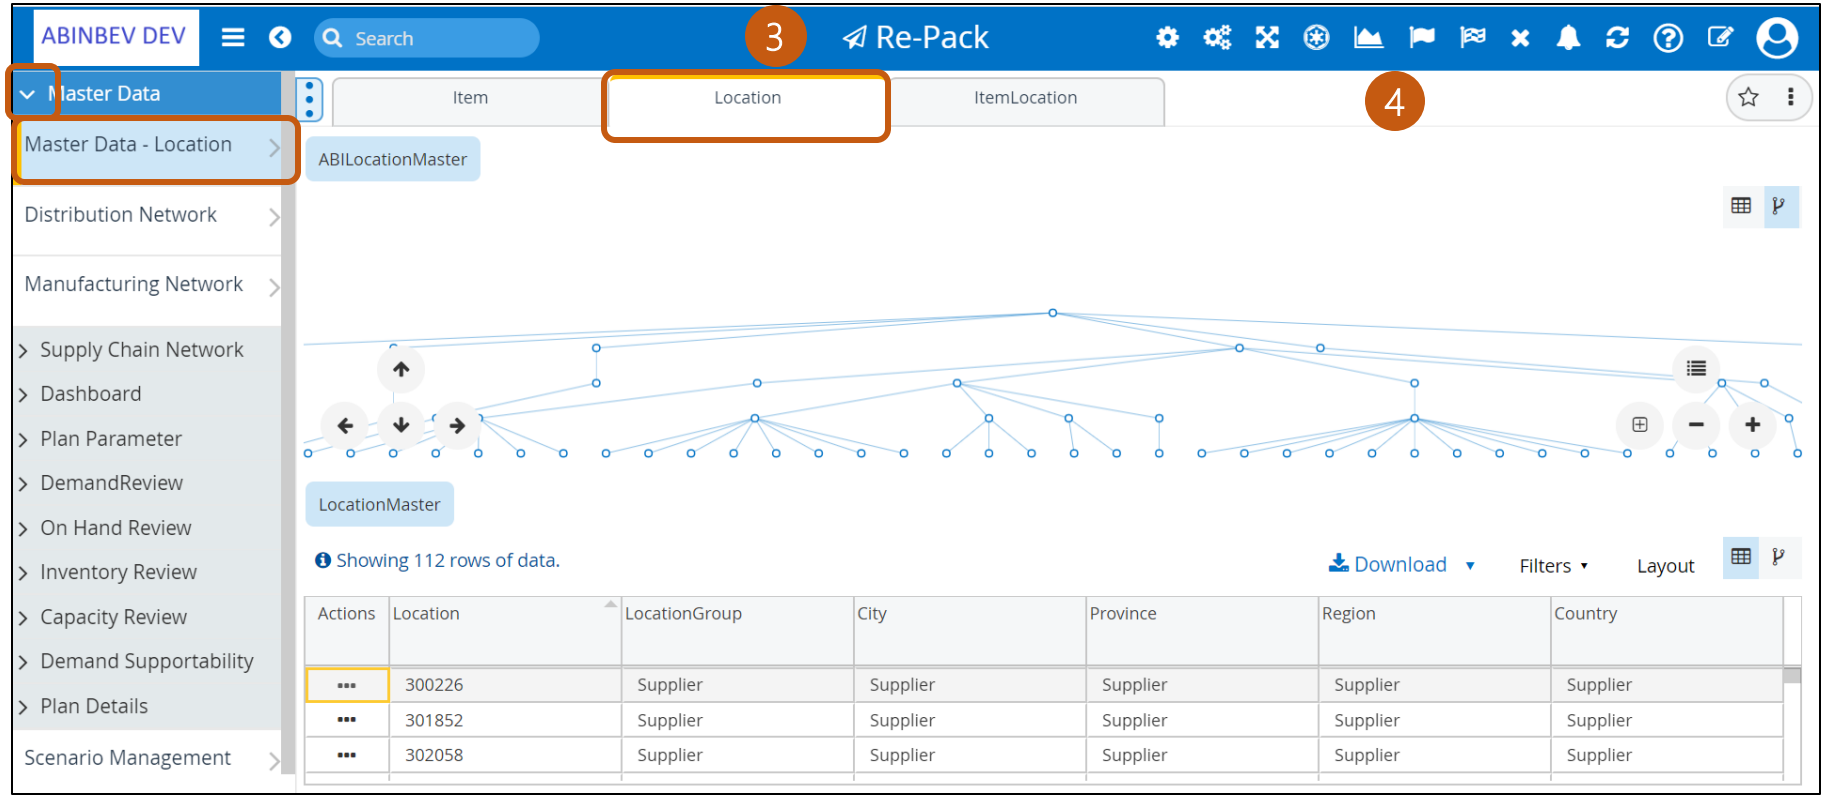
# Master Data – Master Item - Location: Location

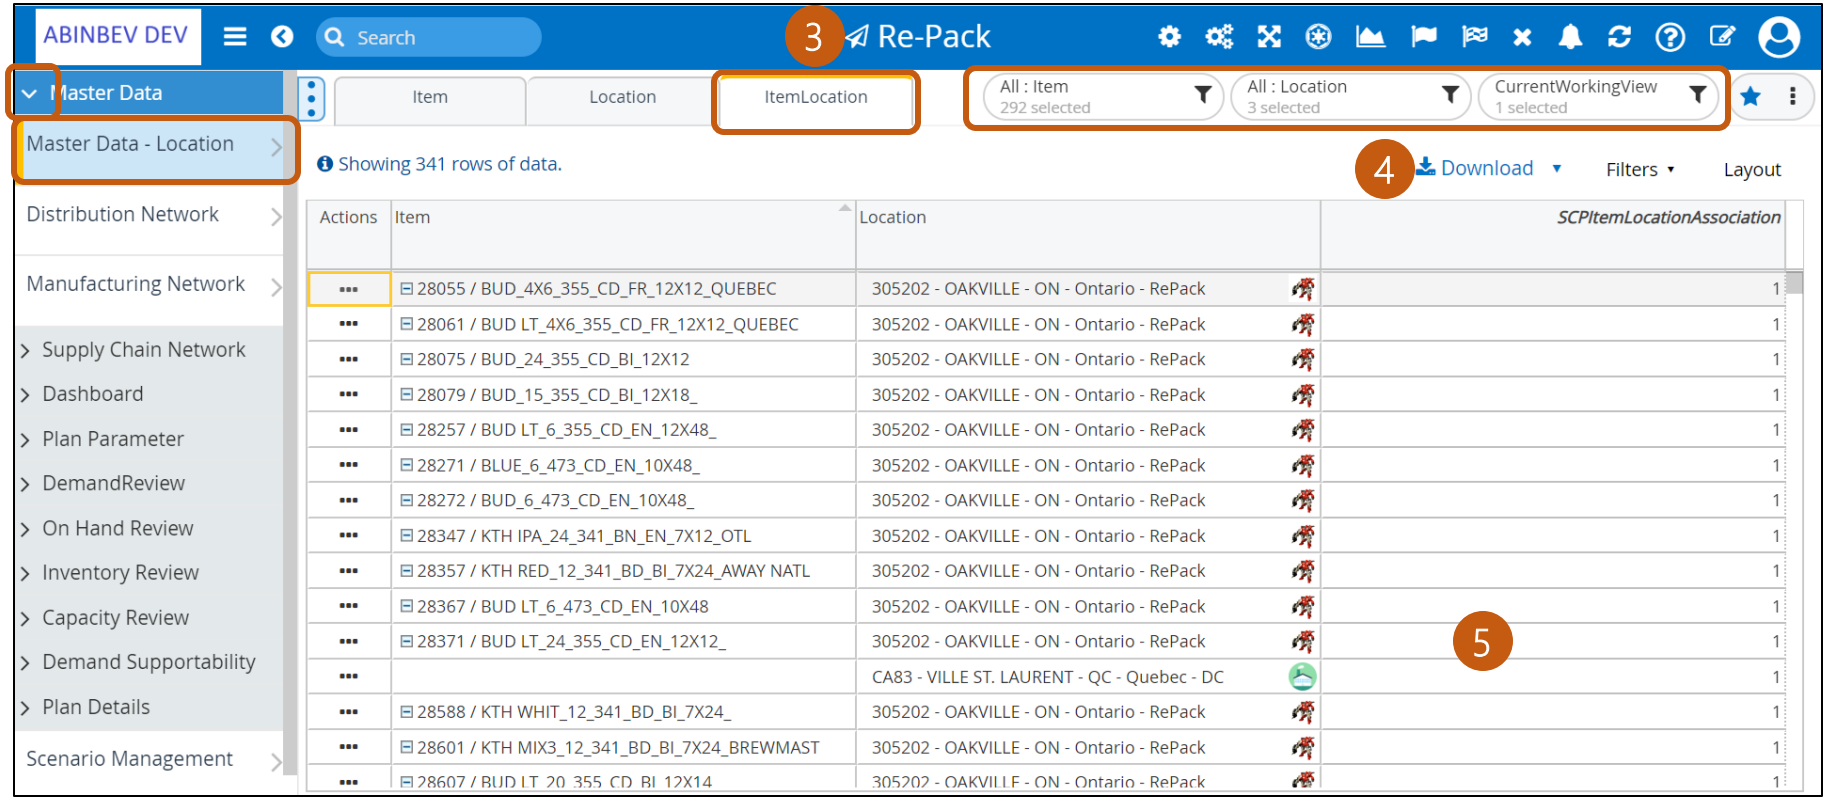
Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Master Item - Location" from the dropdown
Step 3: Item page opens
Step 4: Review Location related attributes



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Master Item - Location: ItemLocation

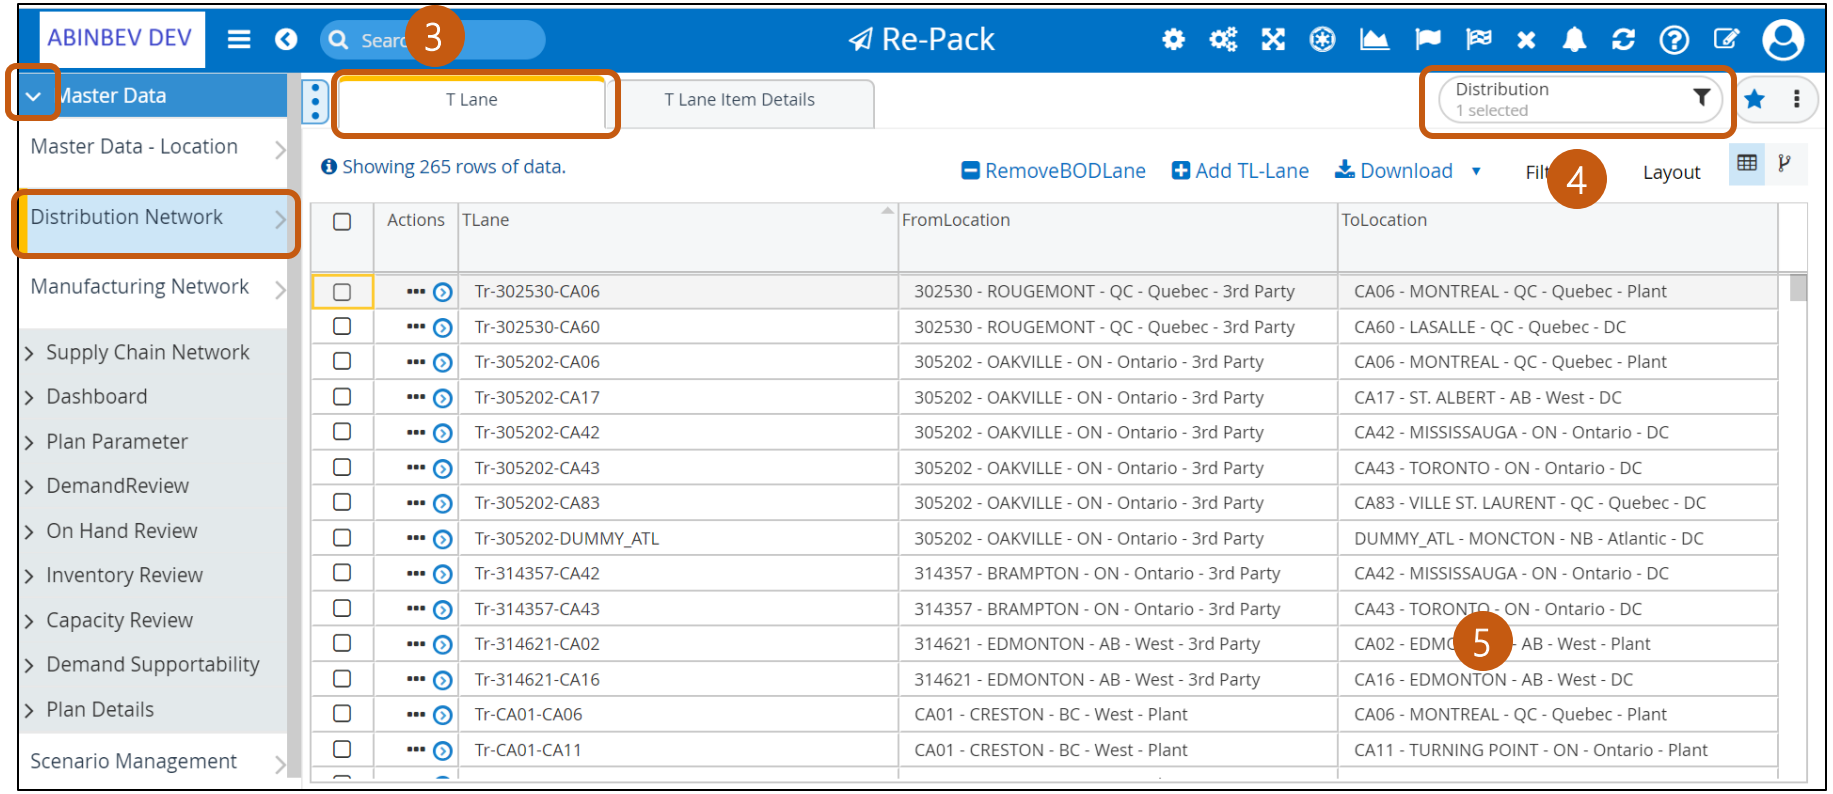
Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Master Item - Location" from the dropdown
Step 3: Click on "ItemLocation" tab
Step 4: Filter on Item, Location and Scenario
5: Review Item and Location related attributes



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Distribution Network: T-Lane

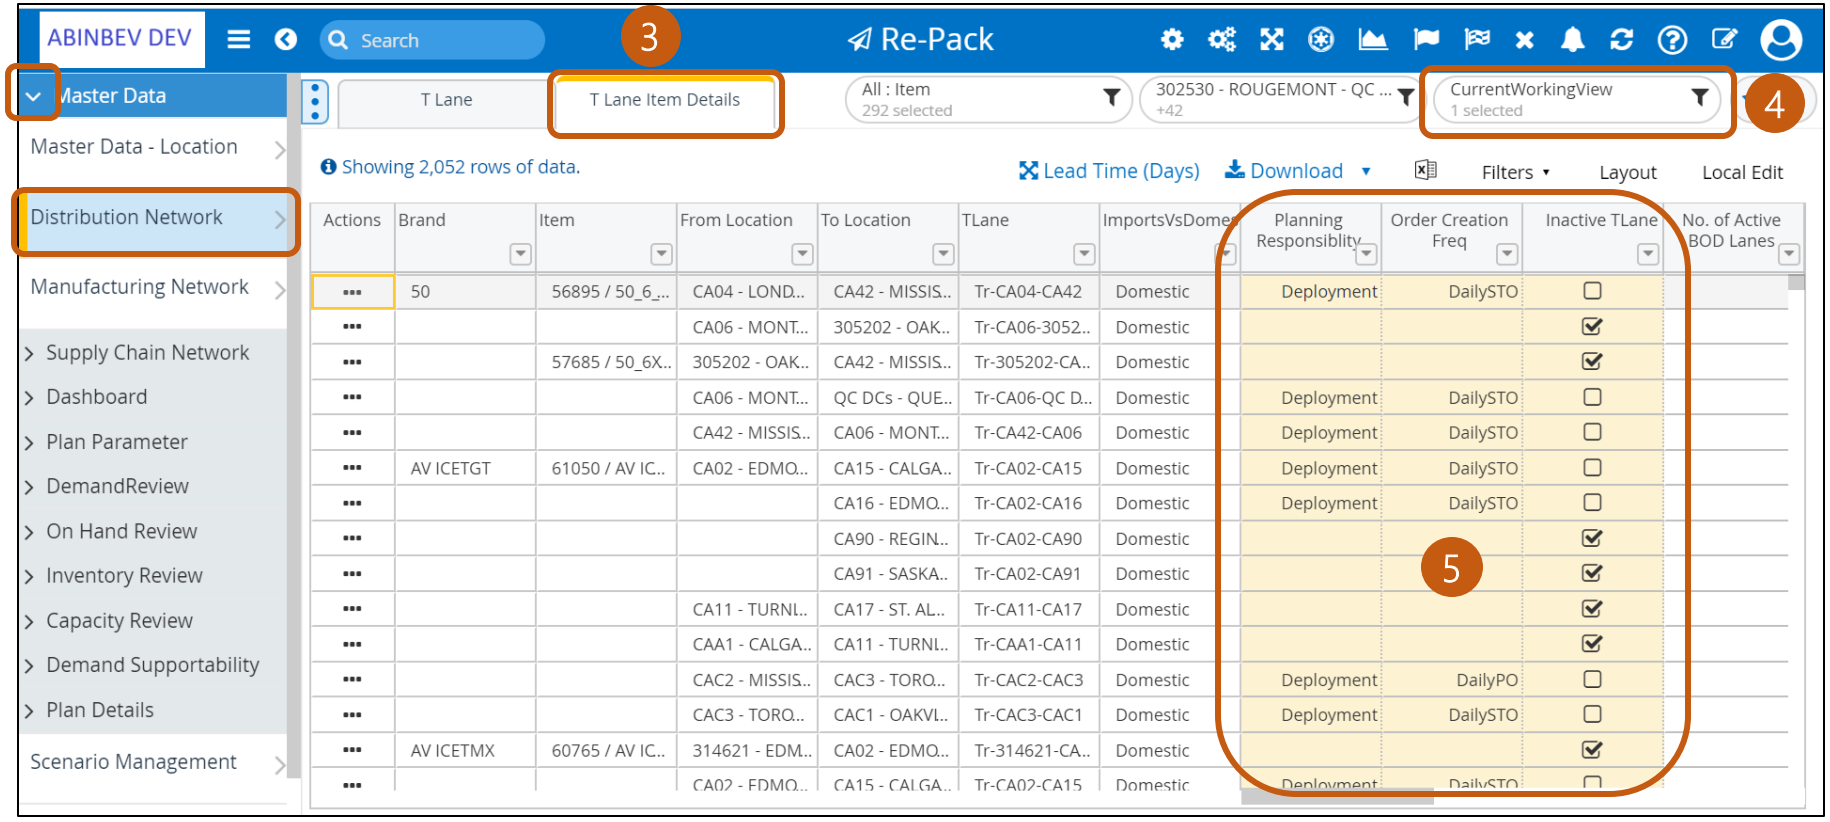
Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Distribution Network" from the dropdown
Step 3: Click on "T-Lane" tab
Step 4: Filter on "Distribution"
5: Review T-Lane related attributes



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Distribution Network: T Lane Item Details

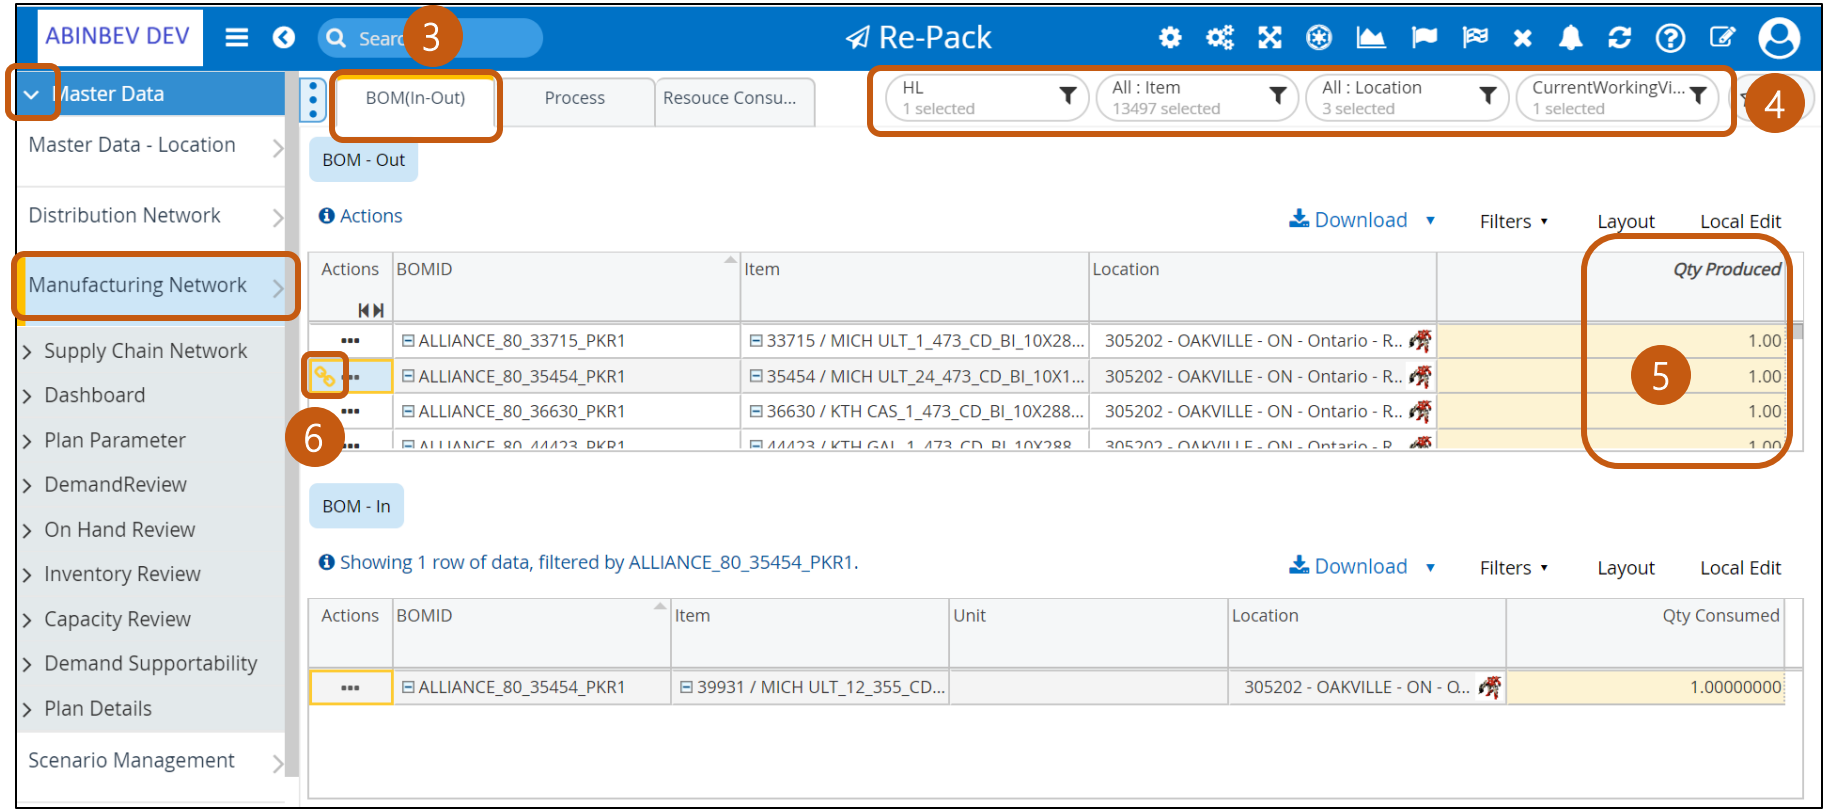
Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Distribution Network" from the dropdown
Step 3: Click on "T-Lane Item Details" tab
Step 4: Filter on Item, BOD Lane and Scenario
5: Review the table; User can edit Planning Responsibility, Order Creation Freq and can check and Uncheck Tlanes to make the lanes Active/Inactive



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Manufacturing Network: BOM(In-Out)

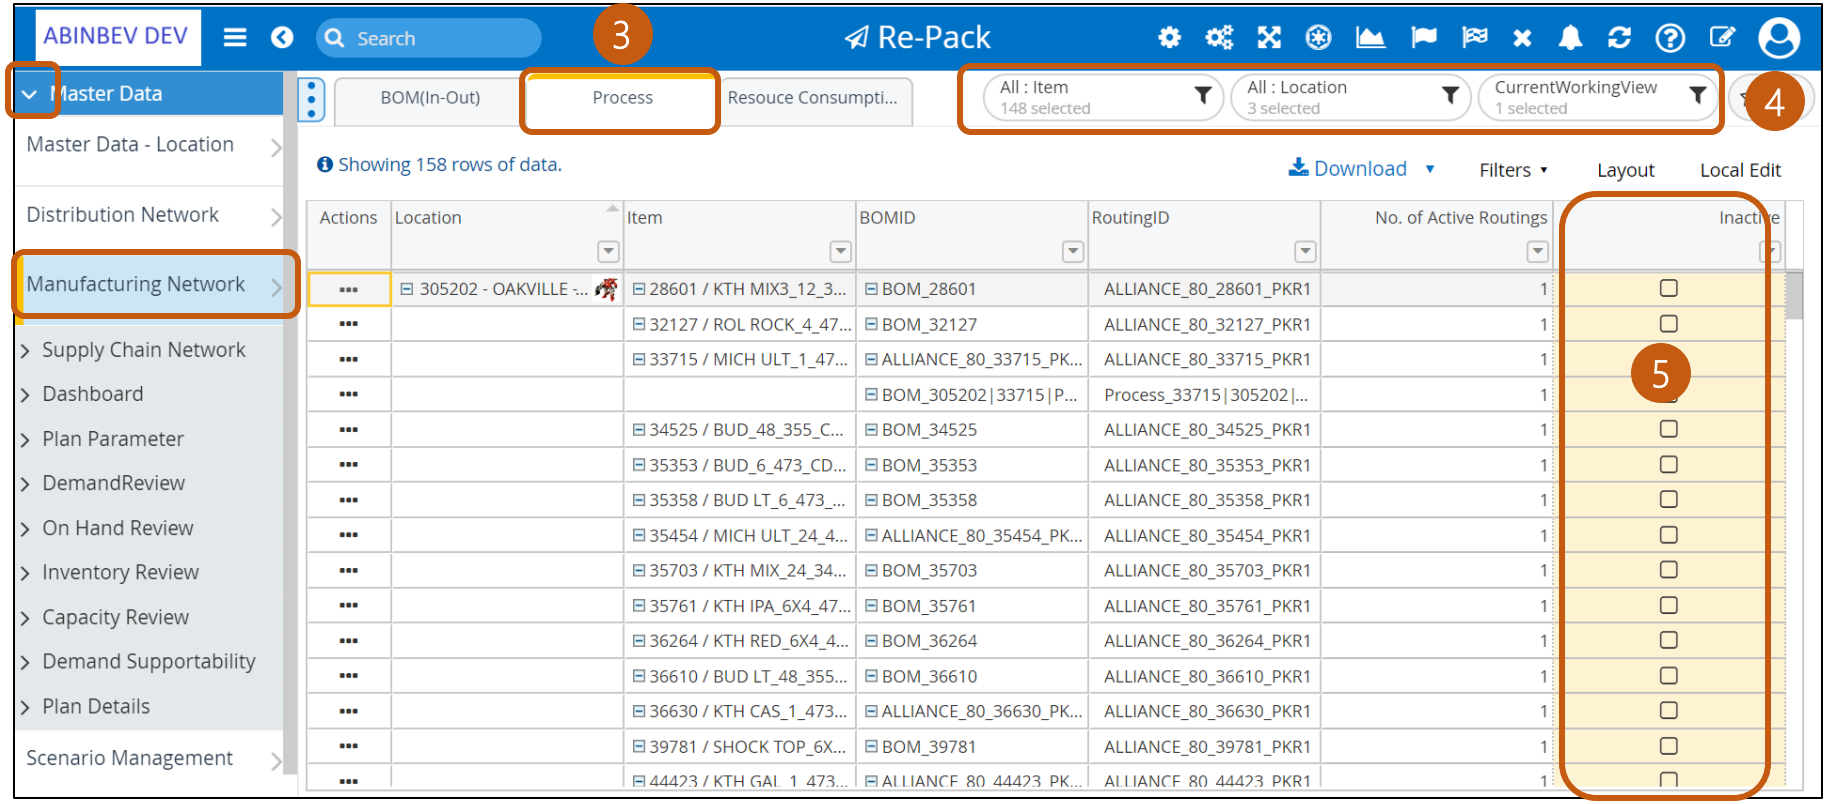
Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Manufacturing Network" from the dropdown
Step 3: Click on "BOM(In-Out)" tab
Step 4: Filter on Unit, Item, Location and Scenario
5: Review BOM-Out table; User can edit Qty Produced
Step 6: Click on the Yellow chain icon to see details of BOM-In in the 2nd table



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Manufacturing Network: Process

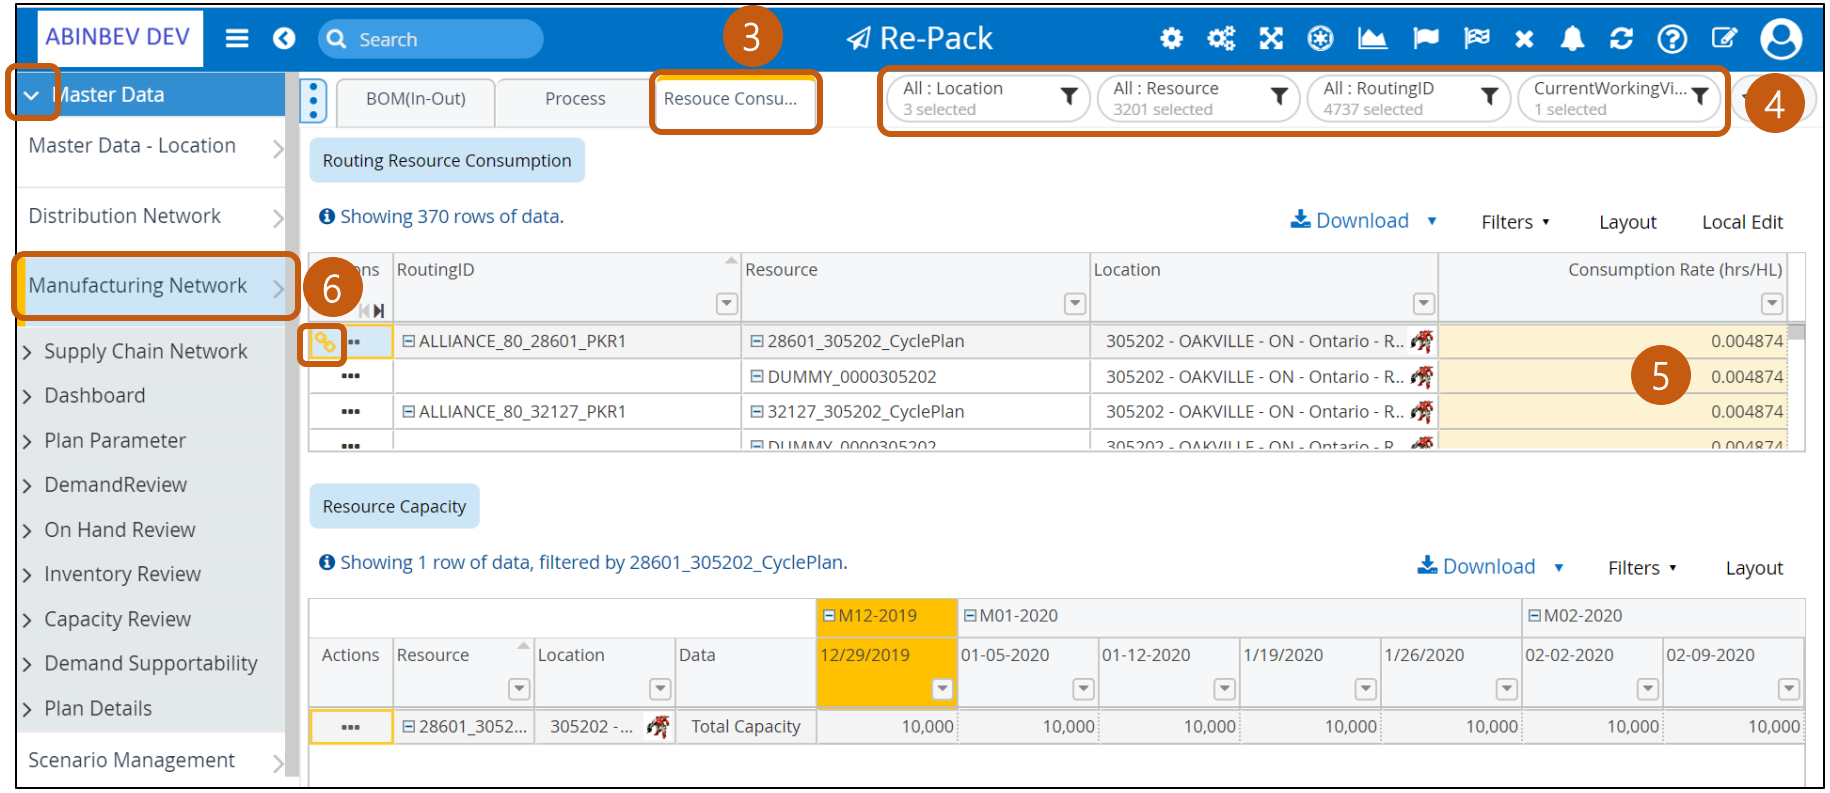
Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Manufacturing Network" from the dropdown
Step 3: Click on "Process" tab
Step 4: Filter on Item, Location and Scenario
5: Review the table; User can make the Routing Active or inactive by checking and unchecking the checkboxes



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Master Data – Manufacturing Network: Resource Consumption - Capacity

Step 1 : Click on the arrow corresponding to Master data
Step 2: Select "Manufacturing Network" from the dropdown
Step 3: Click on "Resource Consumption - Capacity" tab
Step 4: Filter on Location, Resource, RoutingID and Scenario



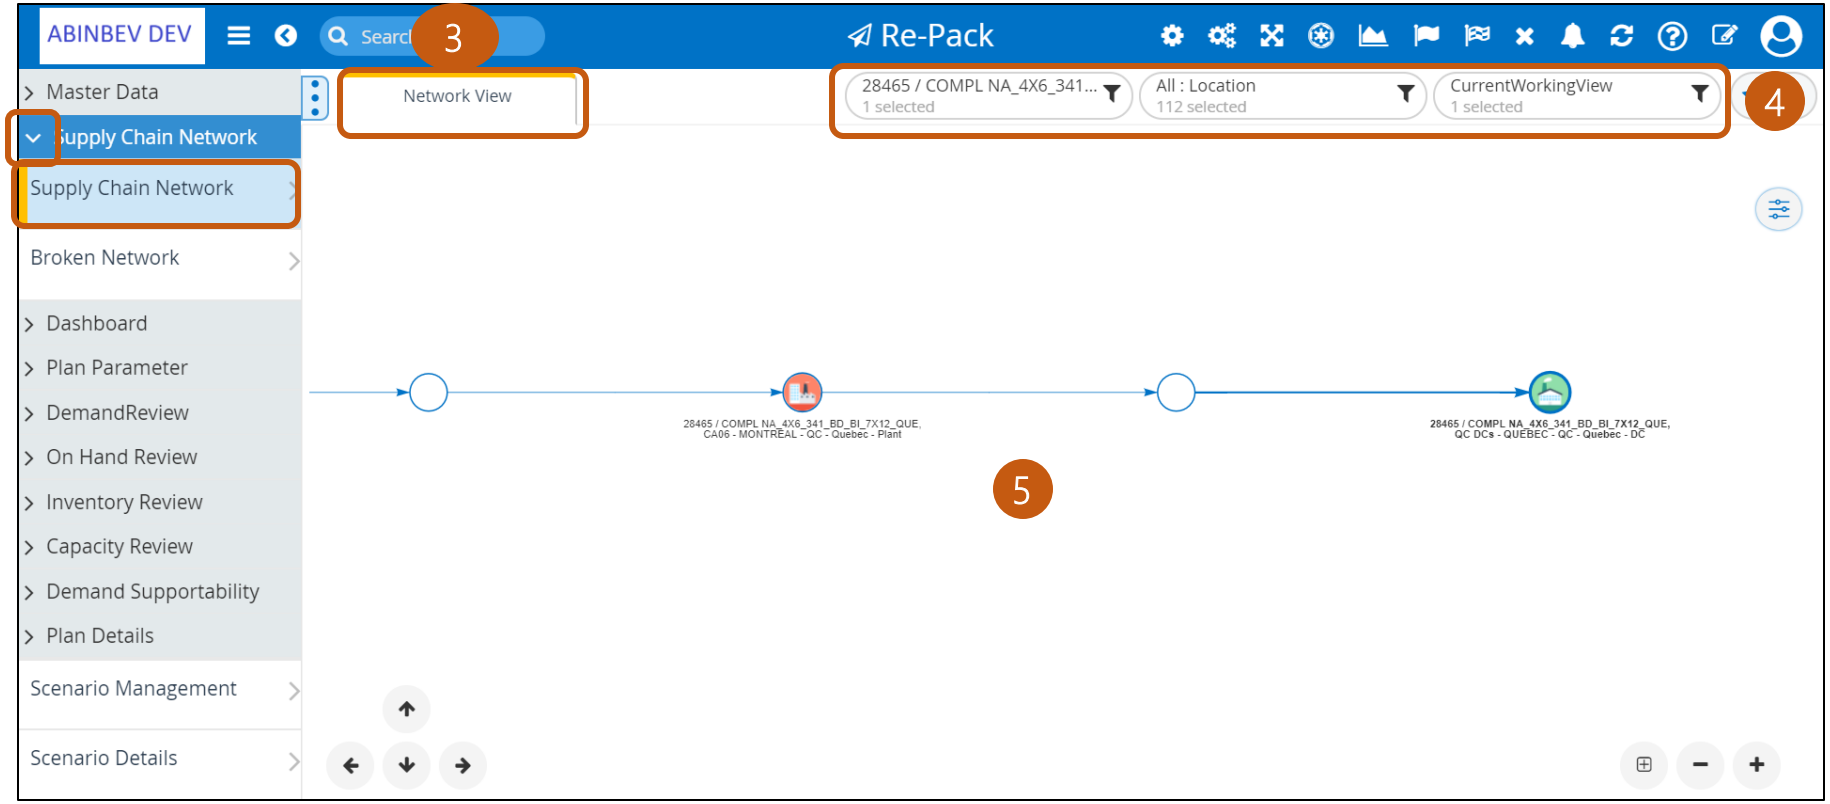
5: Review the table; User can edit the Consumption Rate

Step 6: Click on the yellow icon to know capacity related information in the 2nd table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Supply Chain Network– Supply Chain Network: Network View

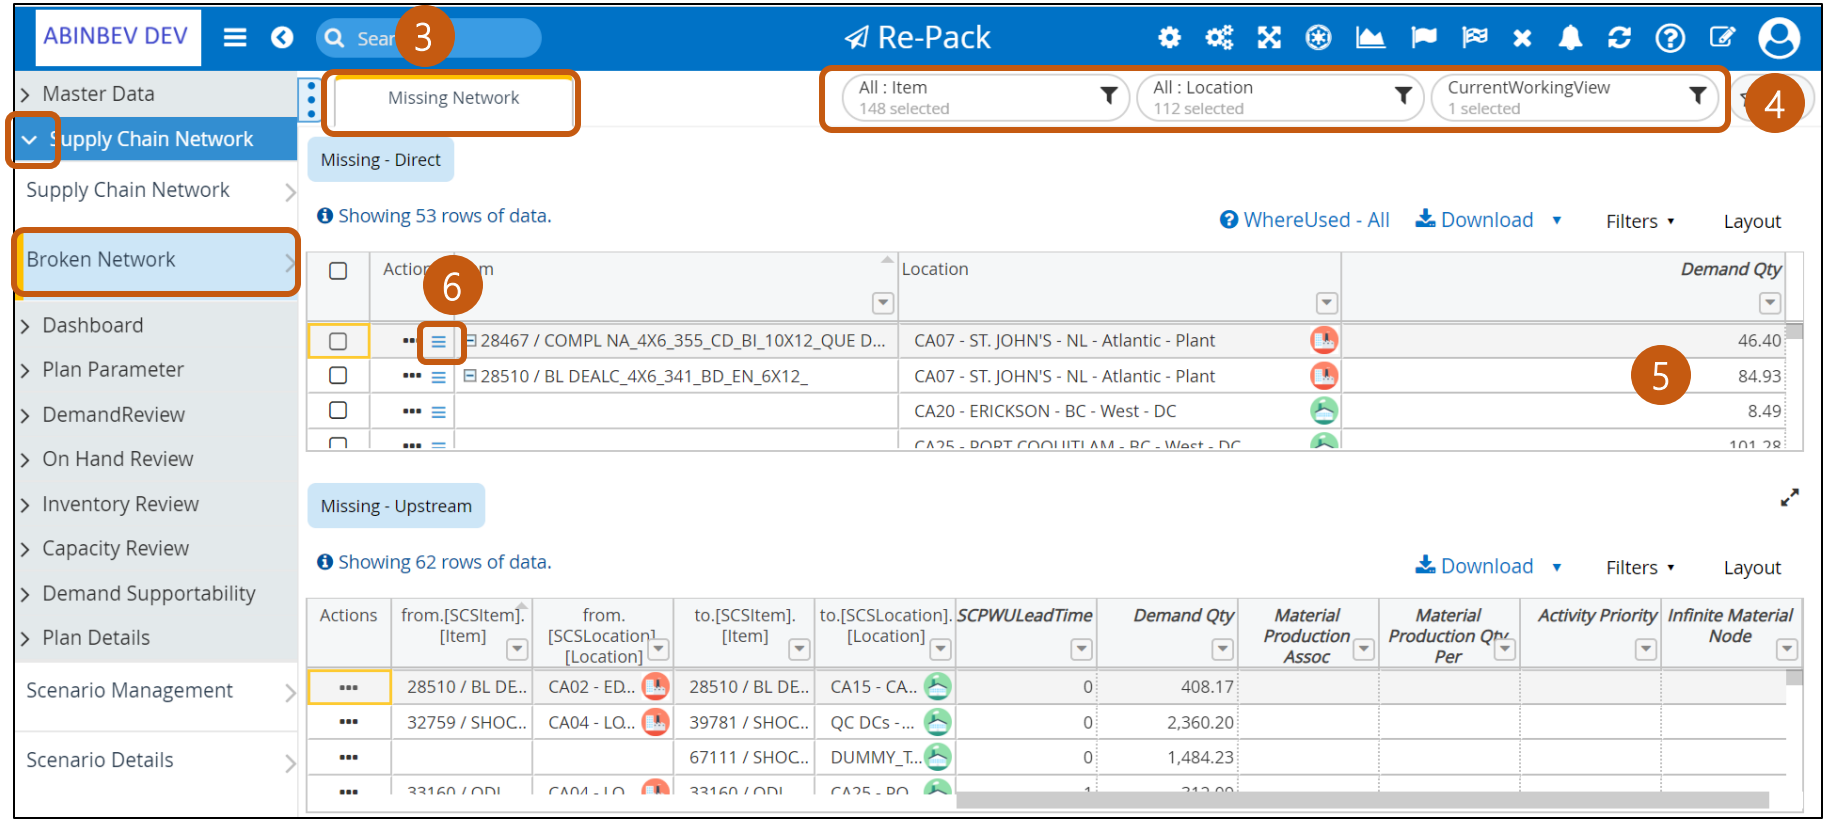
Step 1 : Click on the arrow corresponding to Supply Chain Network
Step 2: Select "Supply Chain Network" from the dropdown
Step 3: "Network View" tab opens
Step 4: Filter on Item, Location and Scenario
5: Review the network



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Supply Chain Network – Supply Chain Network: Broken Network

Step 1 : Click on the arrow corresponding to Supply Chain Network
Step 2: Select "Broken Network" from the dropdown
Step 3: Click on "Missing Network" tab
Step 4: Filter on Item, Location and Scenario

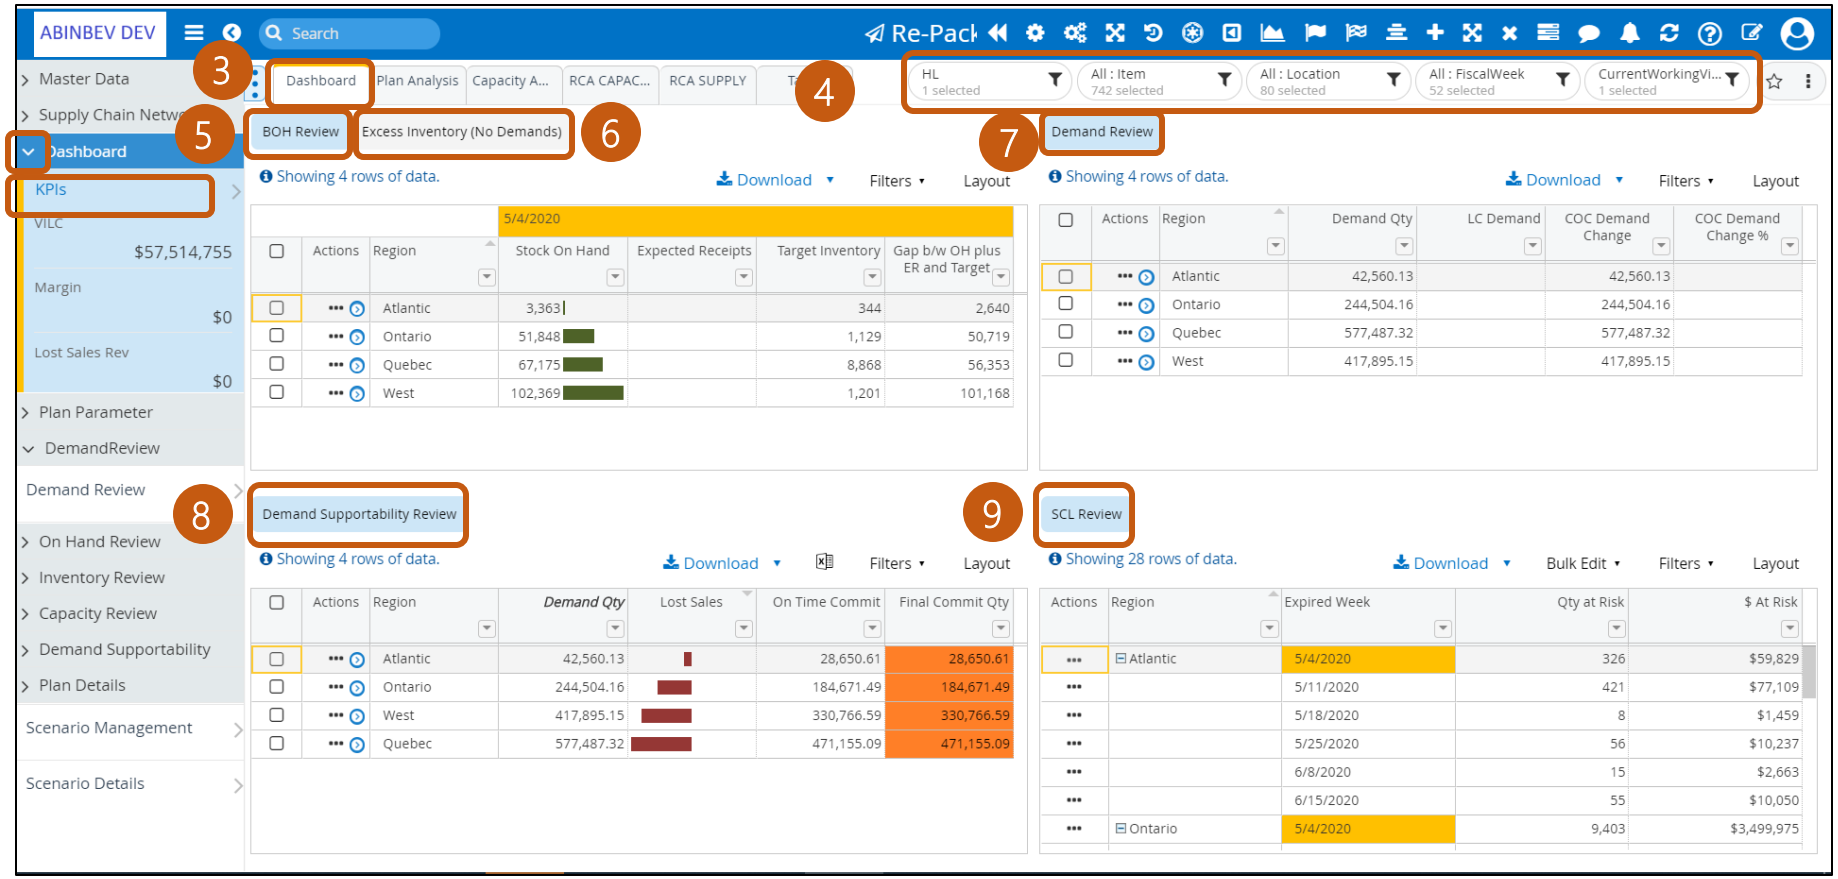


5: Review the table

Step 6: Click on the Blue lines icon to get more information

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Dashboard – KPIs: Dashboard

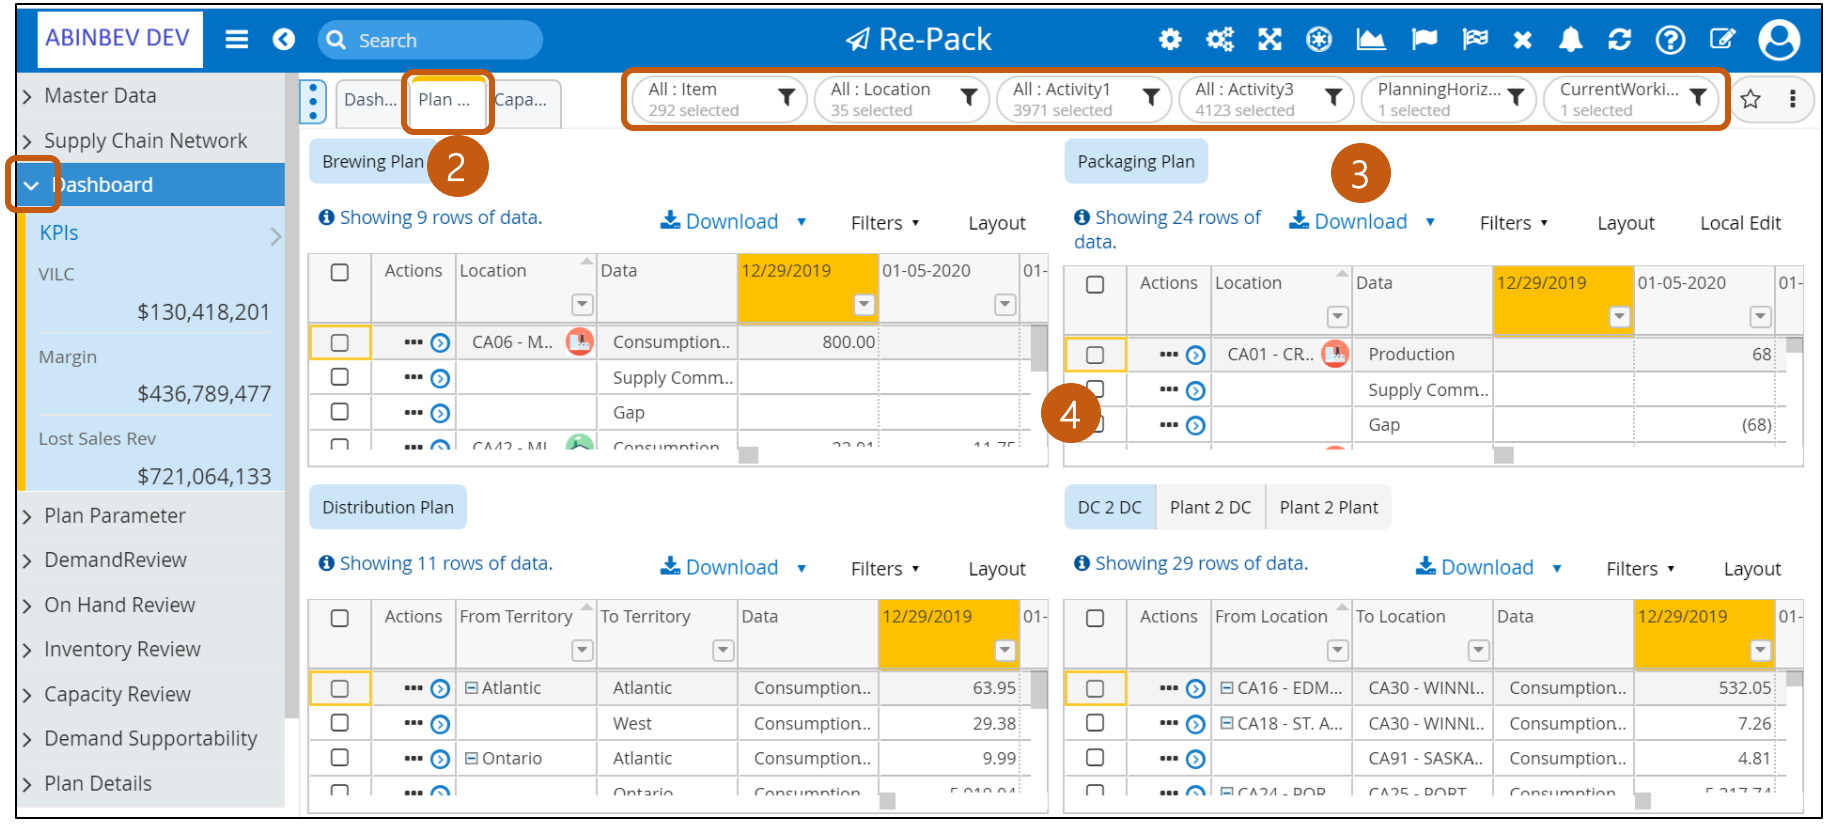


Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "Dashboard" tab
Step 4: Filter on UOM, Item, Location, Date and Scenario
5: The BOH Review tab details the total on hand by region and gap with the target inventory
6: Although not shown the Excess Inventory (No Demands) tab details the inventory in a region which is available at the end of the horizon with no demand
7: The Demand Review tab details the difference in demand with the last cycle by region
8: The Demand Supportability Review tab details the demands that are lost and the on time commit by region
9: The SCL Review tab details the quantity at risk by region and week

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Dashboard – KPIs: Plan Analysis

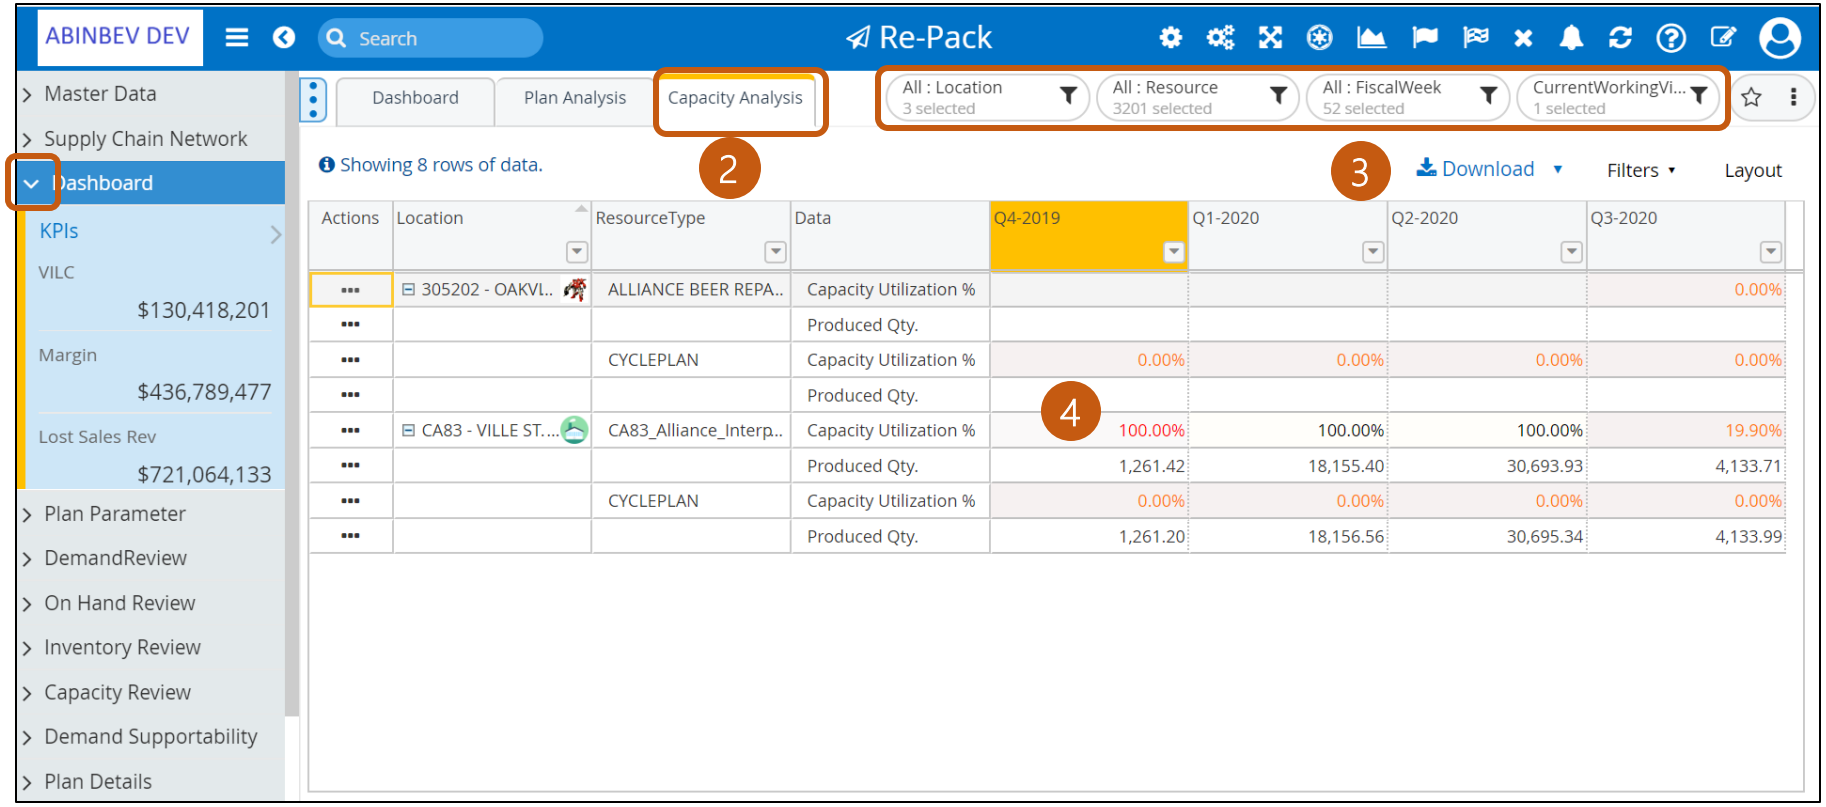
Step 1 : Click on the arrow corresponding to Dashboard
Step 2: Click on Plan Analysis tab
Step 3: Filter on Item, Location, Activity1, Activity3, Time and Scenario
Step 4: Review the tables



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

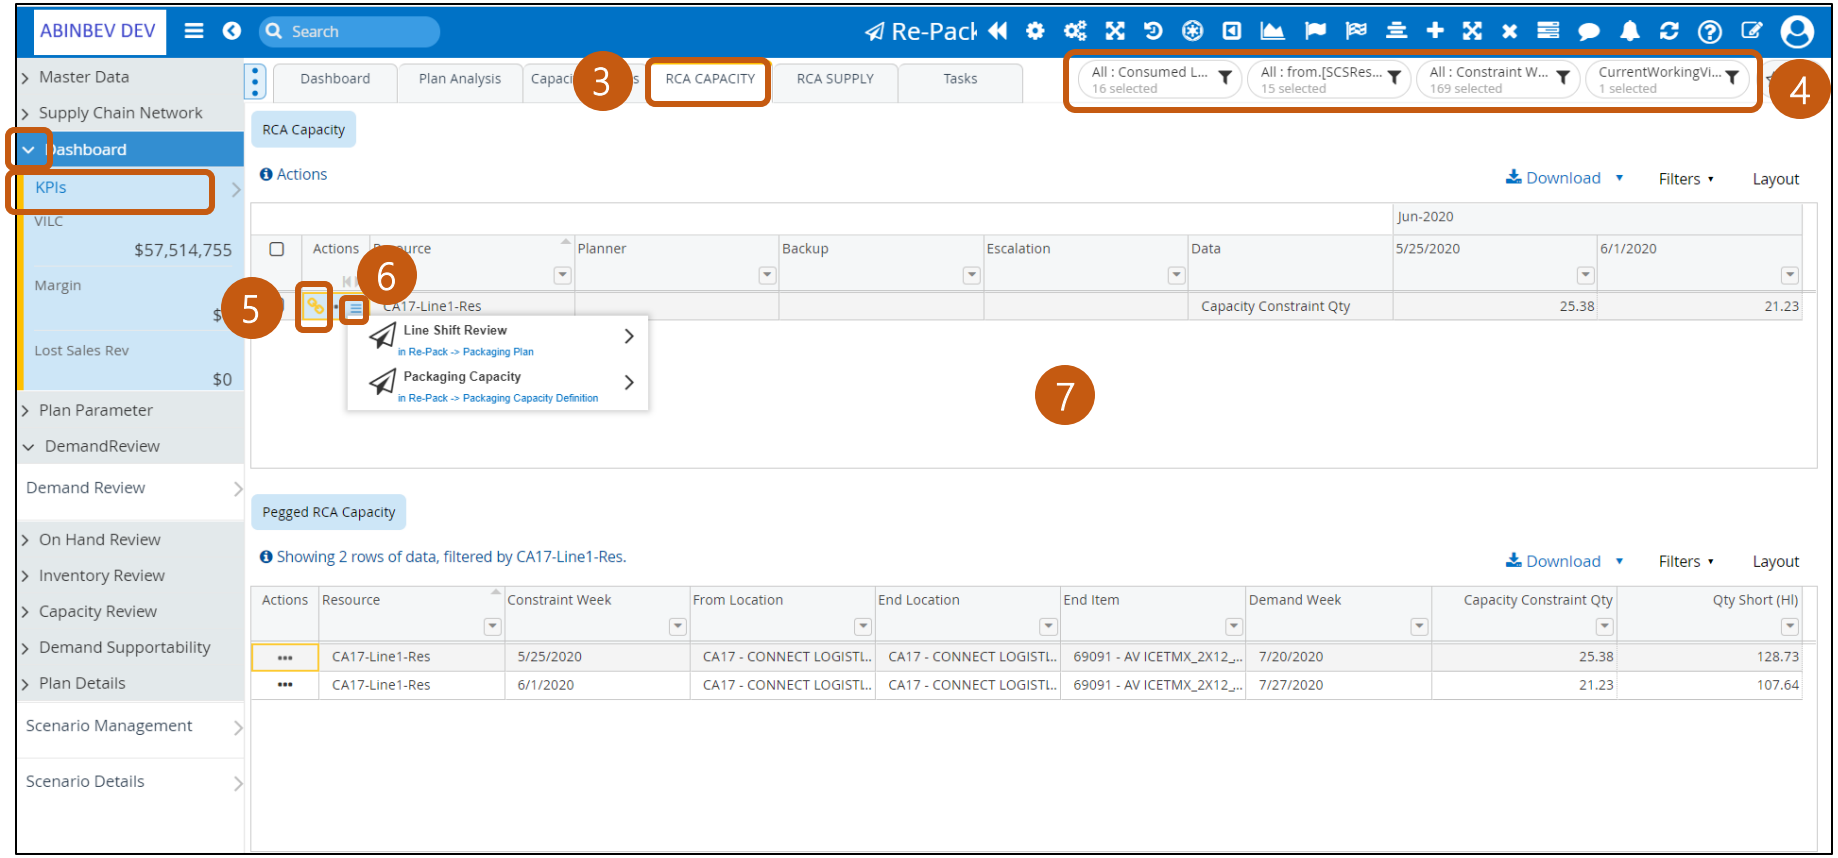
# Dashboard – KPIs: Capacity Analysis

Step 1 : Click on the arrow corresponding to Dashboard
Step 2: Click on Capacity Analysis tab
Step 3: Filter on Location, Resource, Time and Scenario
Step 4: Review the tables



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

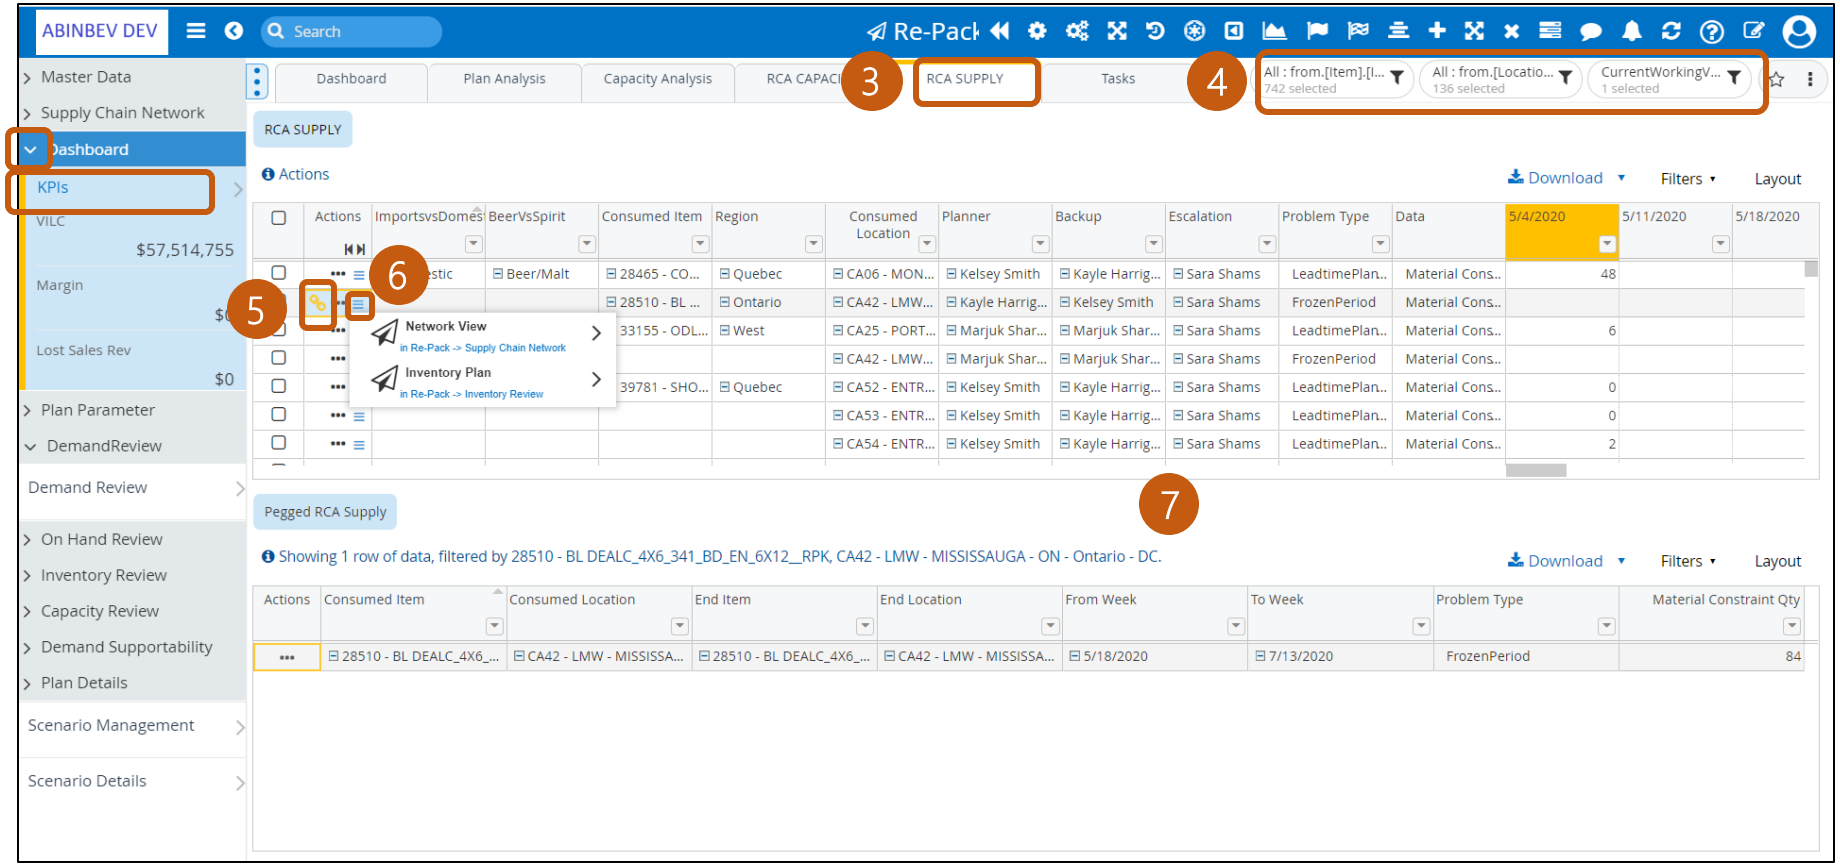
# Dashboard – KPIs: RCA CAPACITY



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "RCA Capacity" tab
Step 4: Filter on Location, Resource, Date and Scenario
Step 5: Click on the two yellow circles in the RCA Capacity table to see the given items which are short in the table below
Step 6: Click on the three blue lines in the RCA Capacity table to navigate to different reports, in order to drill down further into this root cause
7: For a given resource review all of the weeks it is overloaded and the corresponding items which are short. This is the starting point for the planner to then resolve these overloads by either increasing capacity or getting supply from another location.

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

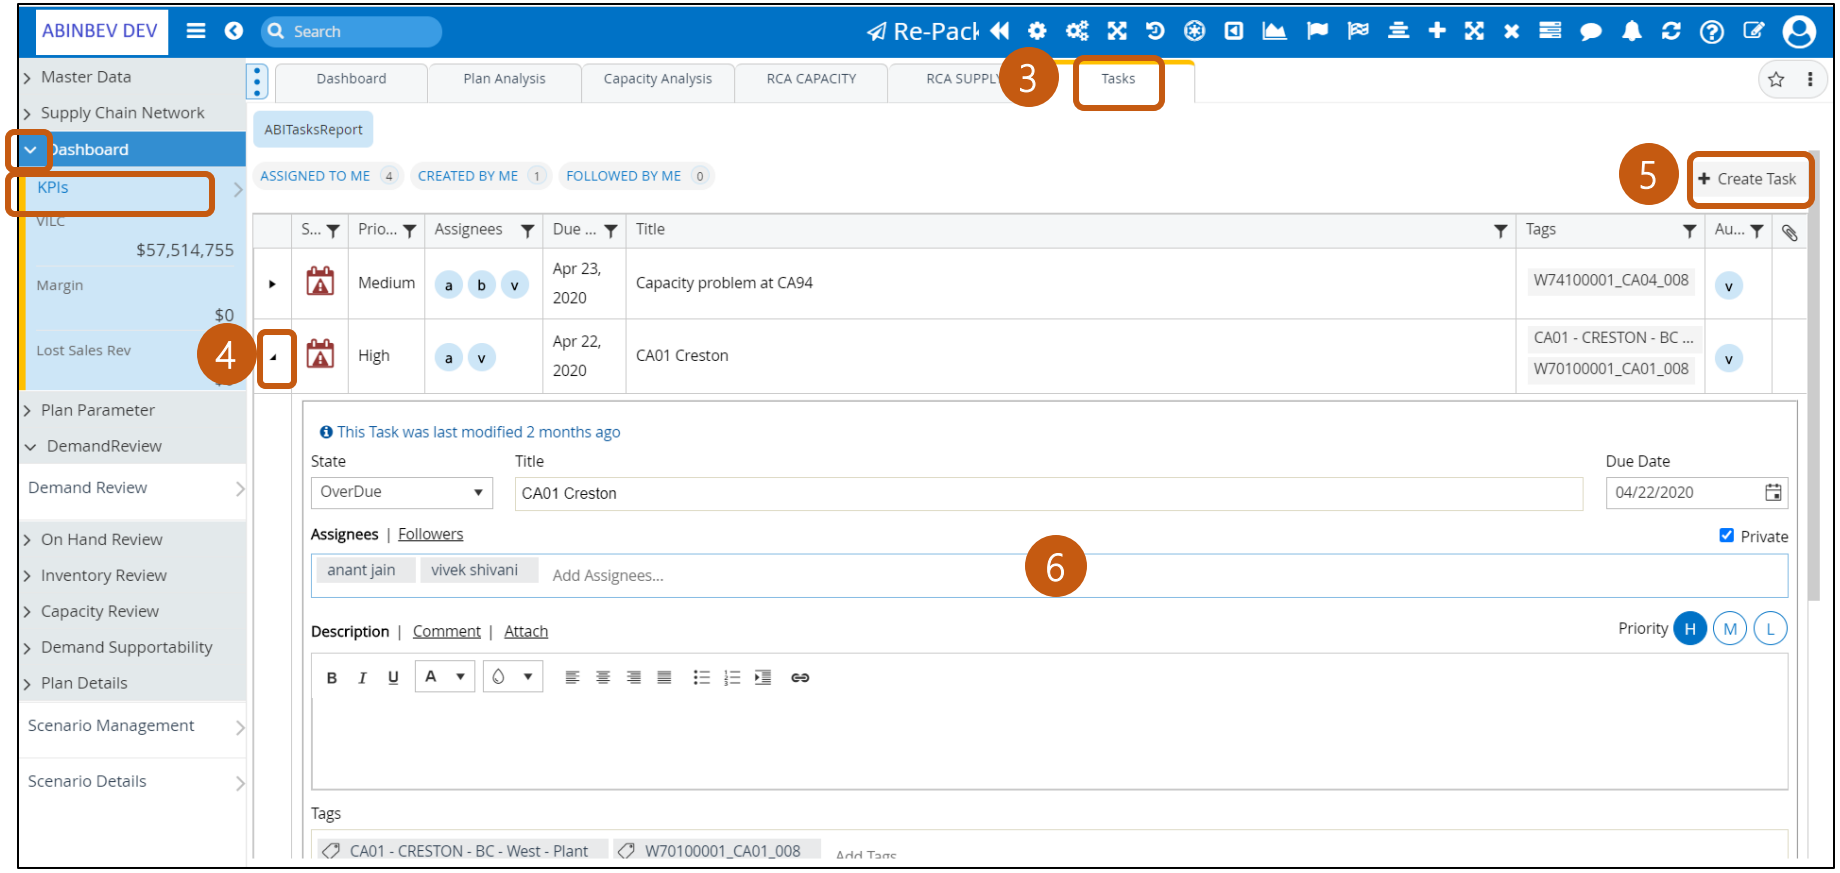
# Dashboard – KPIs: RCA SUPPLY



Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "RCA Supply" tab
Step 4: Filter on Problem Type, Item, Location and Scenario
Step 5: Click on the two yellow circles in the RCA Supply table to see the given end item, end location, problem type and issue quantity each week in the table below
Step 6: Click on the three blue lines in the RCA Supply table to navigate to different reports, in order to drill down further into this root cause
7: For a given item and location review all of the weeks there is a supply problem and the corresponding end items and end locations which are short. This is the starting point for the planner to then resolve these problems by getting supply from another location.

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Dashboard – KPIs: Tasks

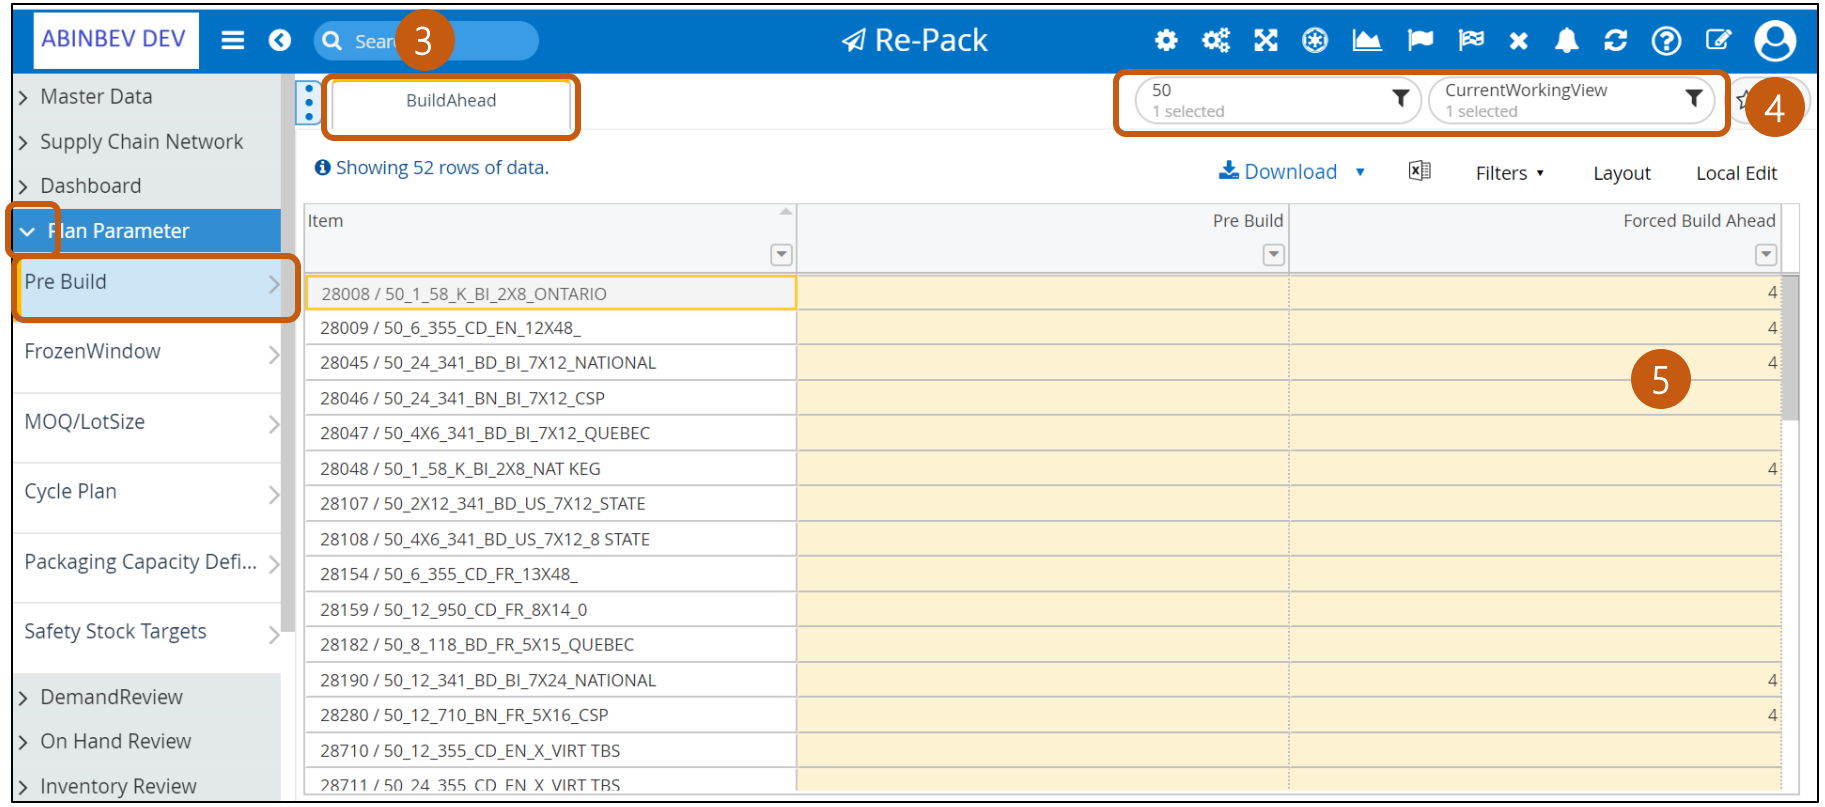


Step 1: Click on the arrow corresponding to Dashboard
Step 2: Select "KPIs" from the dropdown
Step 3: Click on the "Tasks" tab
Step 4: Review all of the Tasks. Click on the arrow to expand any of them and review their details.
Step 5: Click on the Create Task button to create a new task. Here the planner needs to specify the Title, Due Date, Assignees, Followers, If it is Private (recommended to uncheck this box), Description, Priority and Tags. It is recommended to provide as much details as possible
6: List of all tasks, which can be ordered and filtered. The tasks in previous plans can be reviewed and this provides a searchable repository

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter – Pre Build: BuildAhead

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "Pre Build" from the dropdown
Step 3: Click on "BuildAhead" tab
Step 4: Filter on Item and Scenario

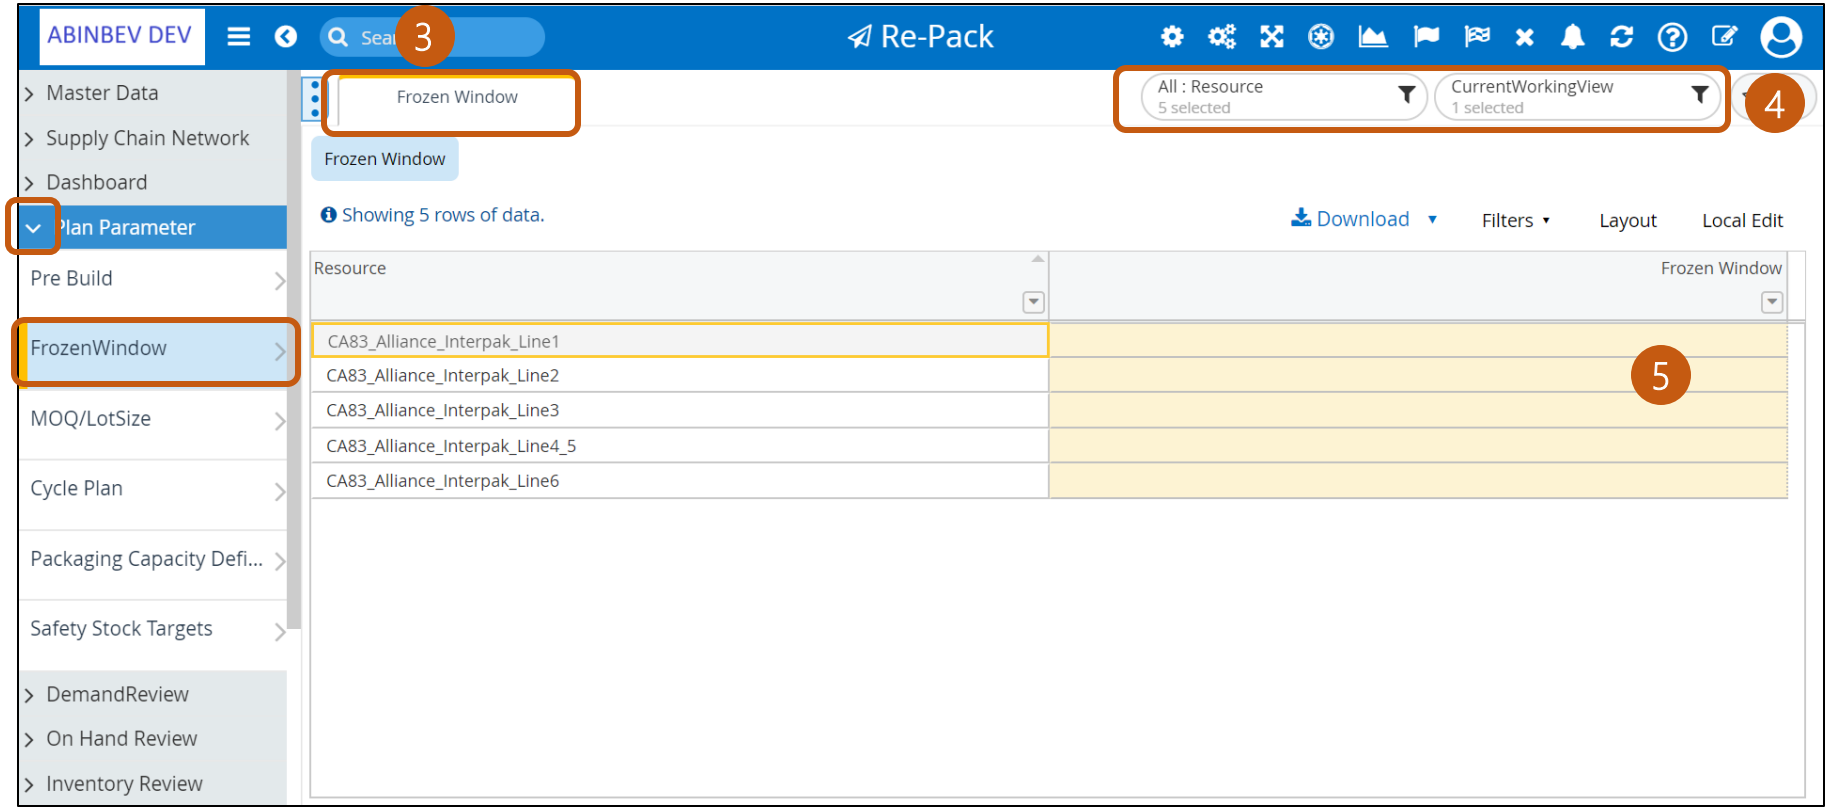


5: Review the table, User can edit Pre Build and Forced Build values

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter – FrozenWindow: Frozen Window

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "FrozenWindow" from the dropdown
Step 3: Frozen Window tab opens
Step 4: Filter on Resource and Scenario

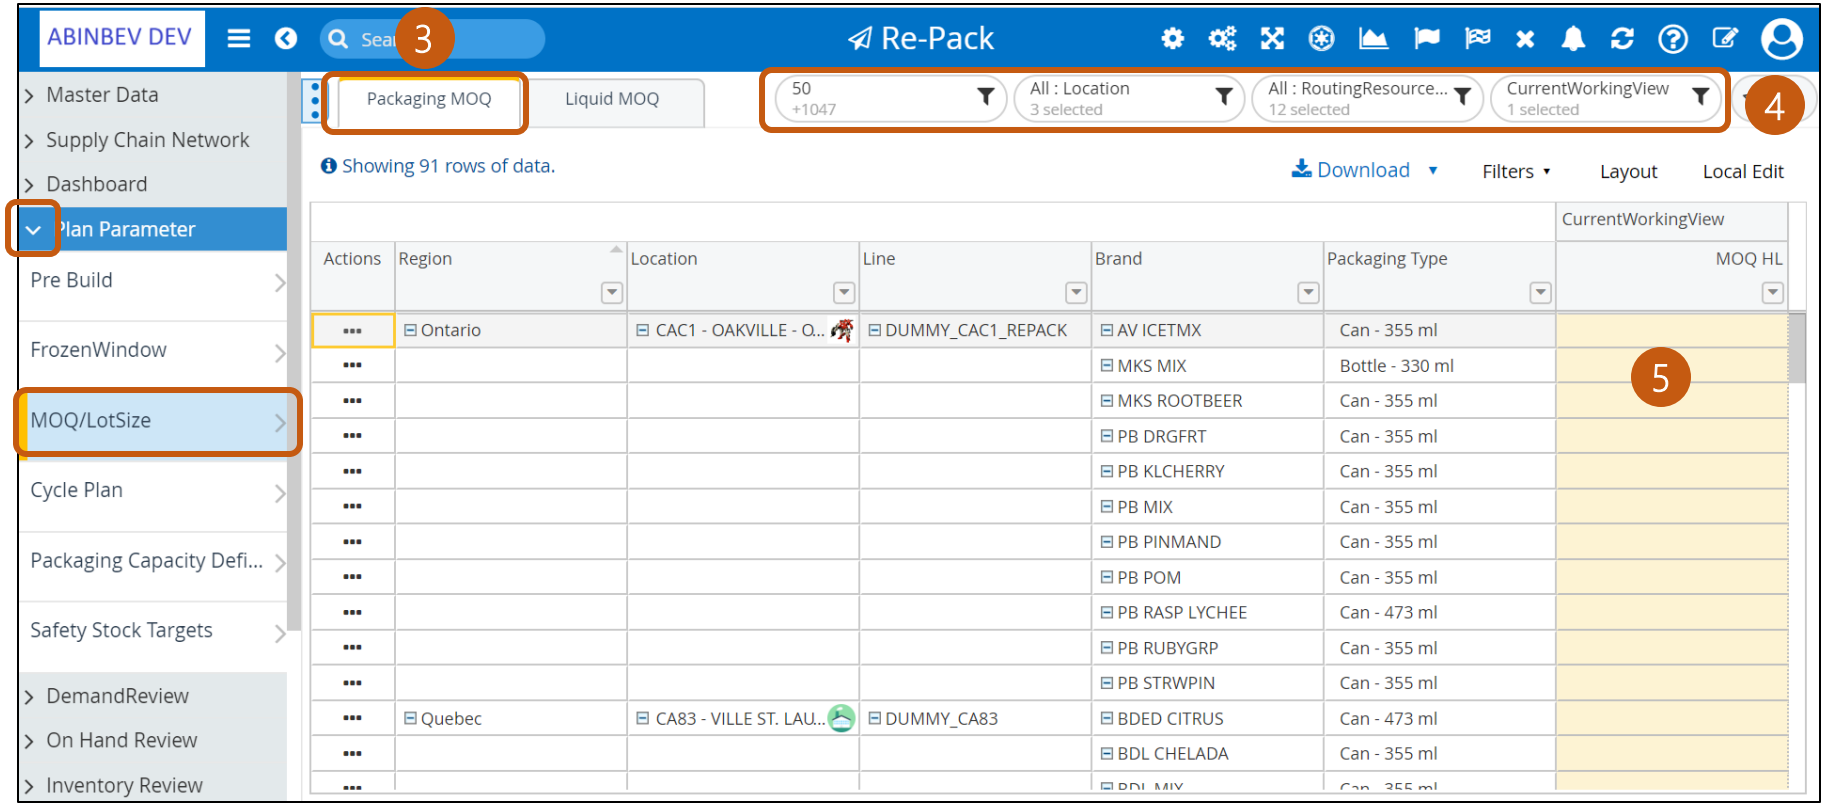


5: Review the table, User can edit Frozen Window attribute

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter – MOQ/LotSize: Packaging MOQ

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "MOQ/LotSize" from the dropdown
Step 3: Click on Packaging MOQ tab
Step 4: Filter on Item, Location, Resource and Scenario

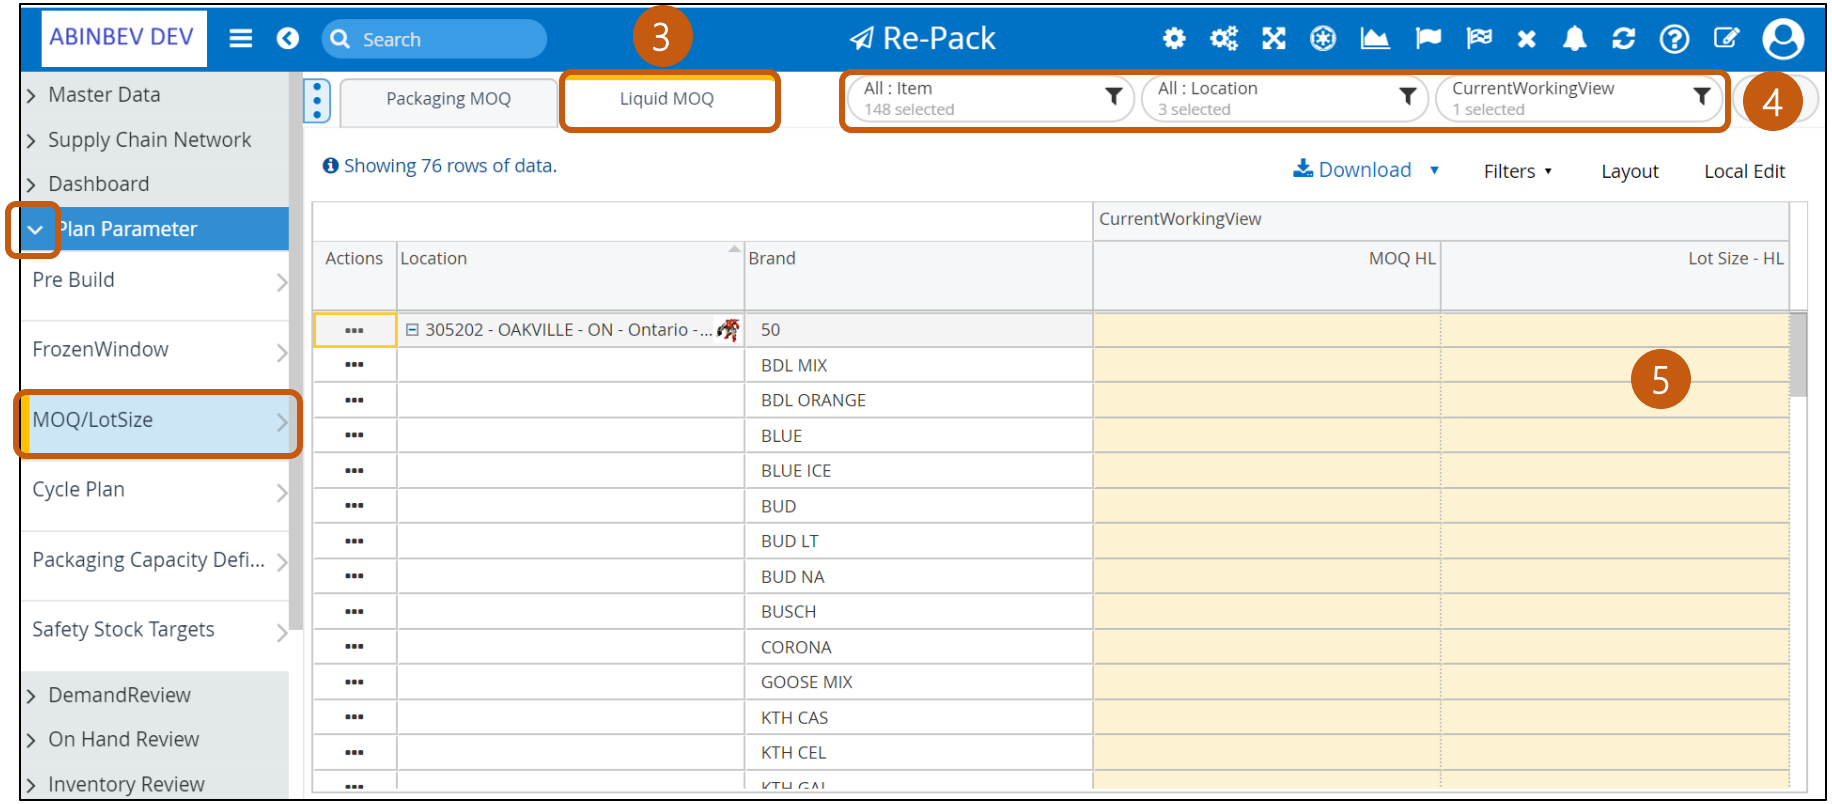


5: Review the table, User can edit MOQ HL attribute

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter – MOQ/LotSize: Liquid MOQ

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "MOQ/LotSize" from the dropdown
Step 3: Click on Liquid MOQ tab
Step 4: Filter on Item, Location and Scenario

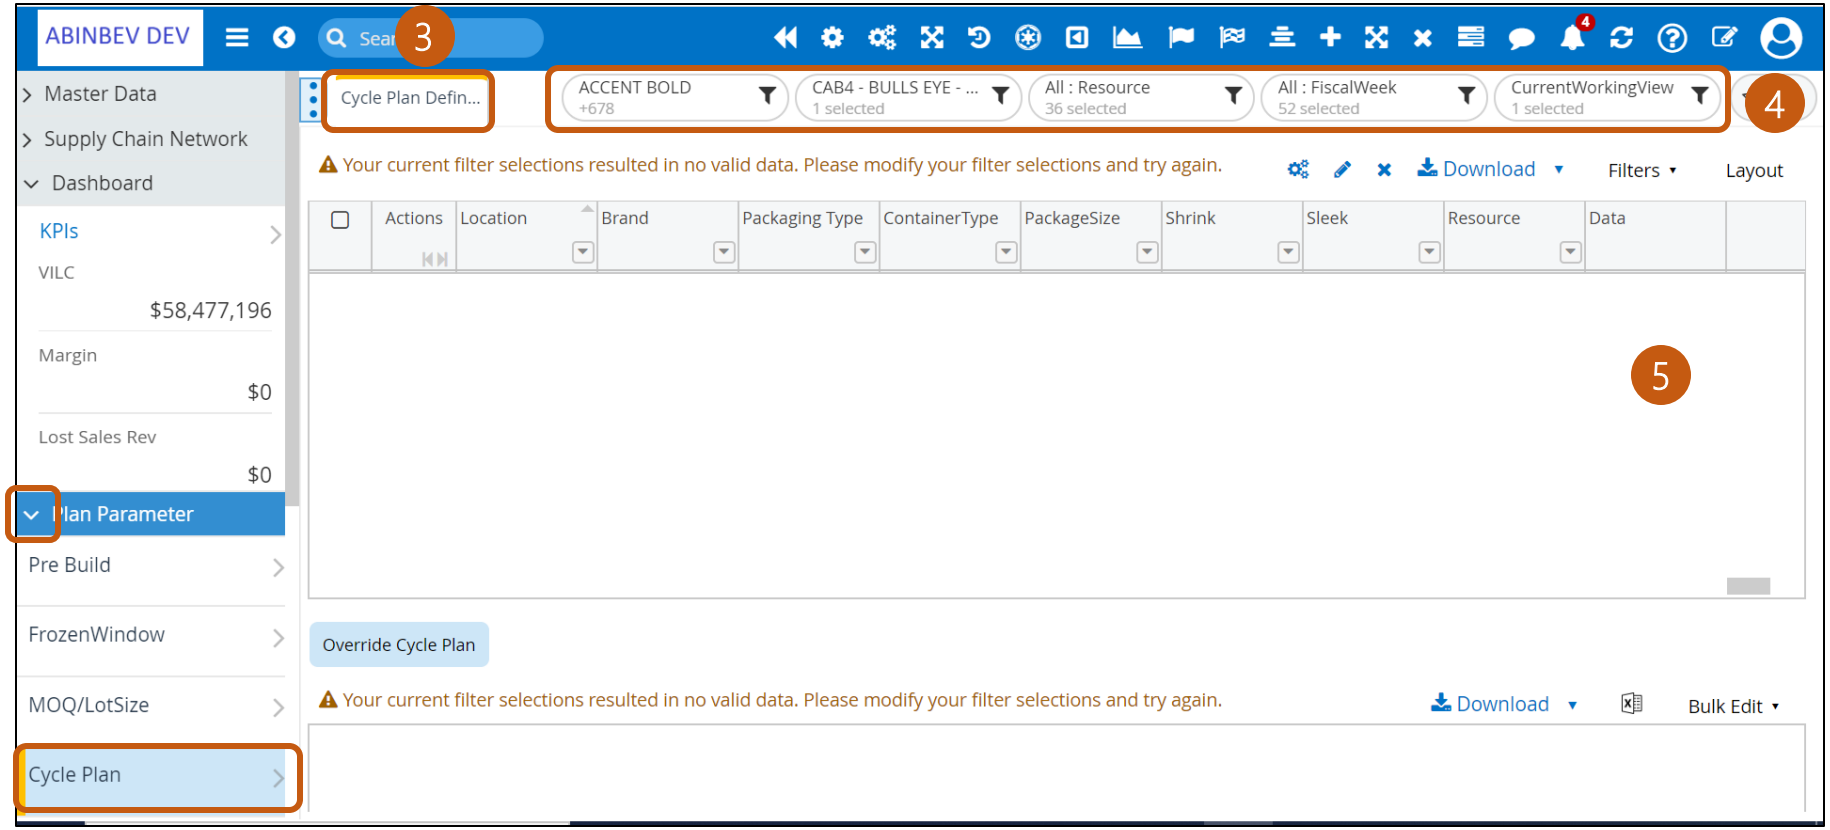


5: Review the table, User can edit MOQ HL and Lot Size-HL attribute

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter – Cycle Plan: Cycle Plan Definition

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "Cycle Plan" from the dropdown
Step 3: Cycle Plan Definition tab opens
Step 4: Filter on Item, Location, Resource, Week and Scenario

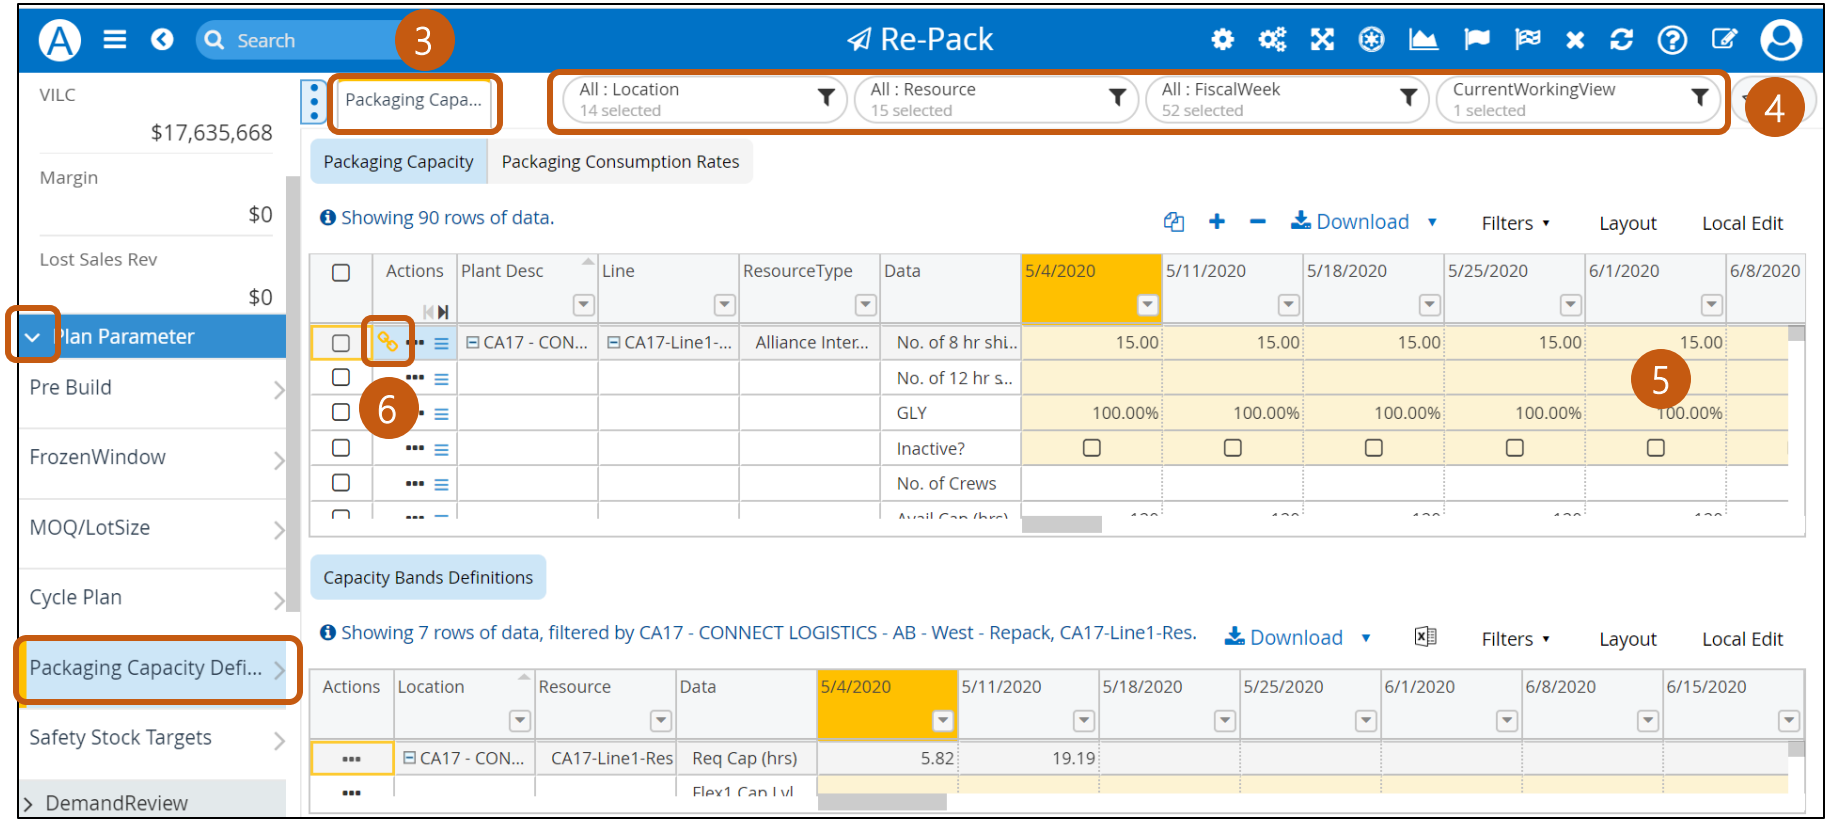


5: Review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter – Packaging Capacity Definition: Packaging Capacity

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "Packaging Capacity Definition" from the dropdown
Step 3: Packaging Capacity tab opens
Step 4: Filter on Location, Resource, Time and Scenario



5: Review the table, User can edit No. of 8 hr shift, No. of 12 hr shift

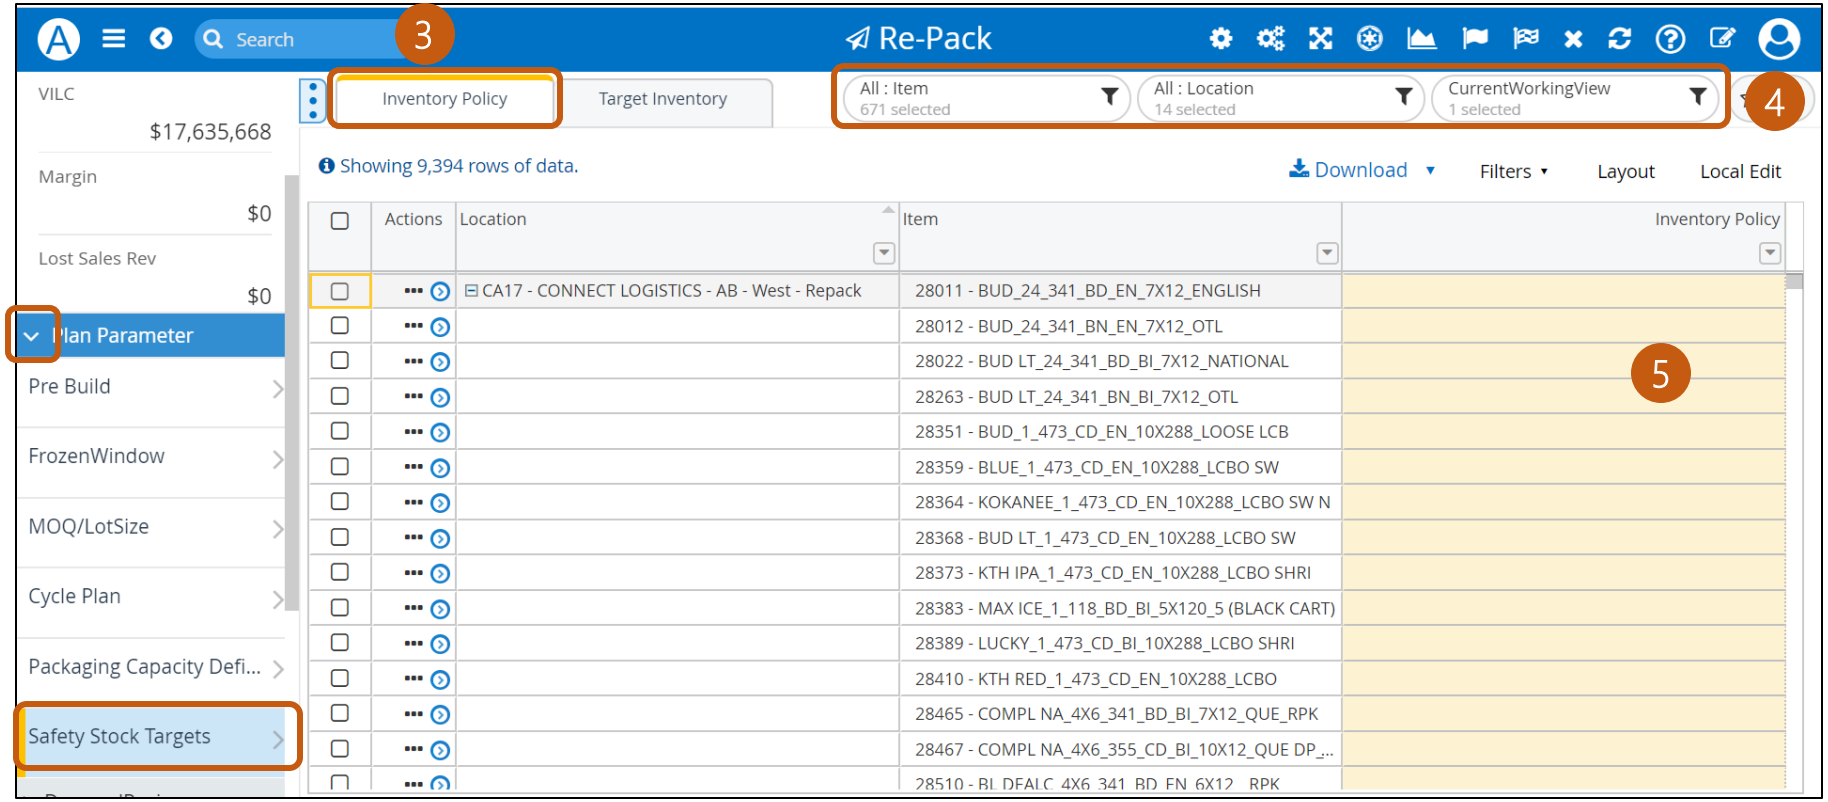
Step 6: Click on the Yellow icon and user can see the details for that selection in the 2nd table below

User can click on the blue line in Actions column and can navigate into Line shift Review page or Cycle plan definition page

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter - Safety Stock Targets: Inventory Policy

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "Safety Stock Targets" from the dropdown
Step 3: Packaging Capacity tab opens
Step 4: Filter on Item, Location and Scenario

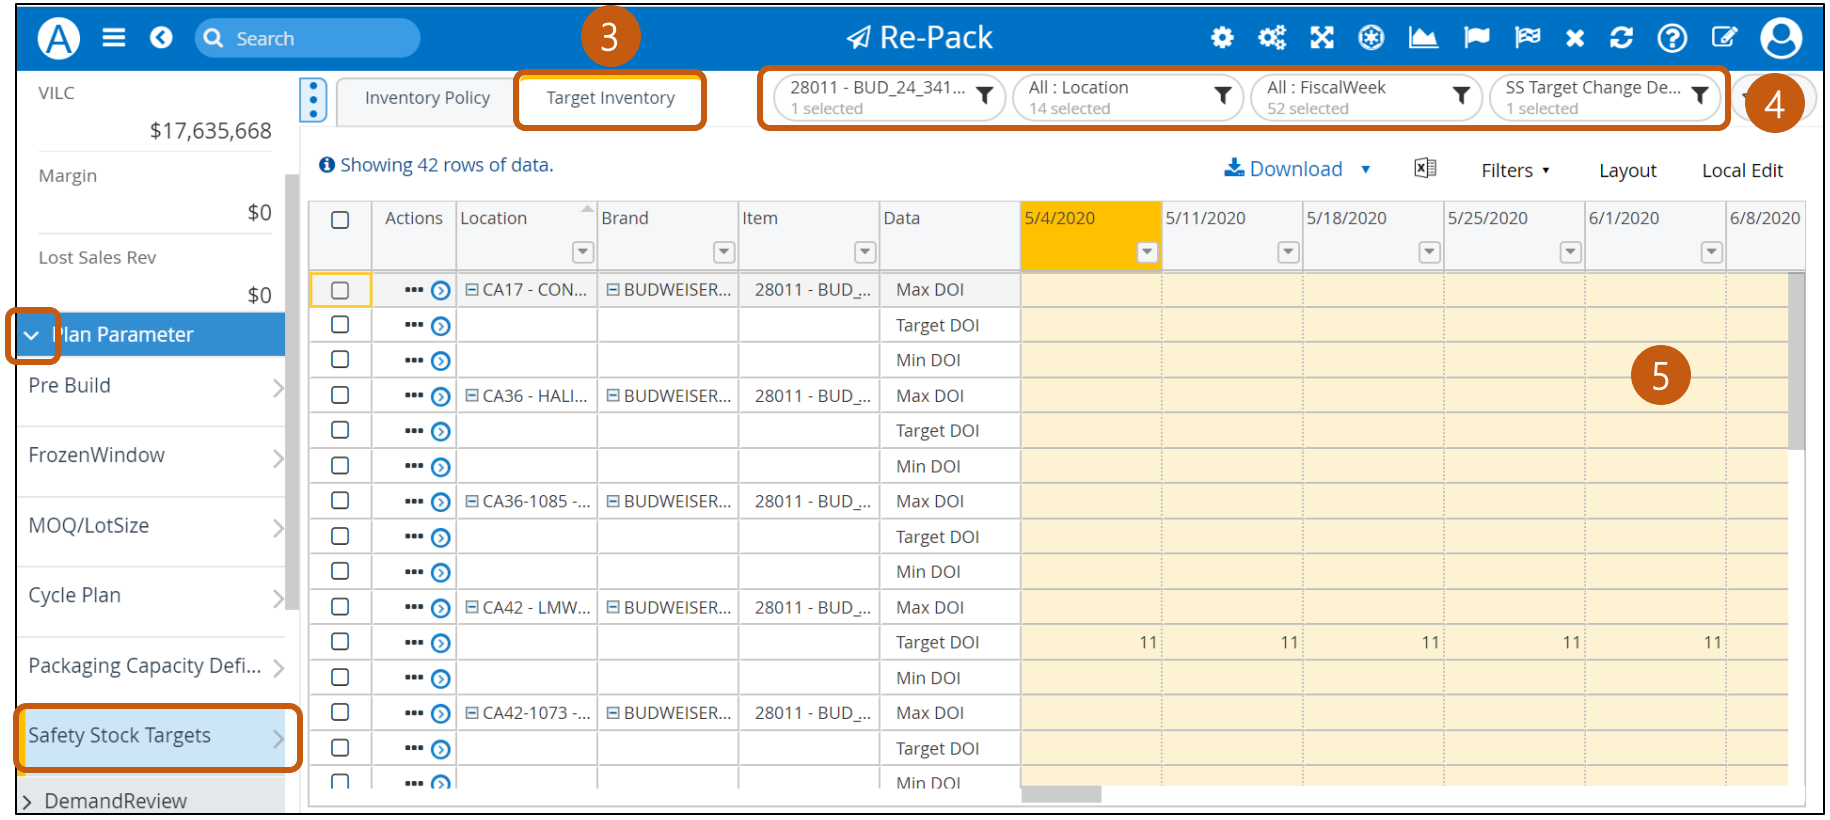


5: Review the table, User can edit Inventory Review attribute

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Plan Parameter - Safety Stock Targets: Target Inventory

Step 1 : Click on the arrow corresponding to Plan Parameter
Step 2: Select "Safety Stock Targets" from the dropdown
Step 3: Click on Target Inventory tab
Step 4: Filter on Item, Location, Time and Scenario

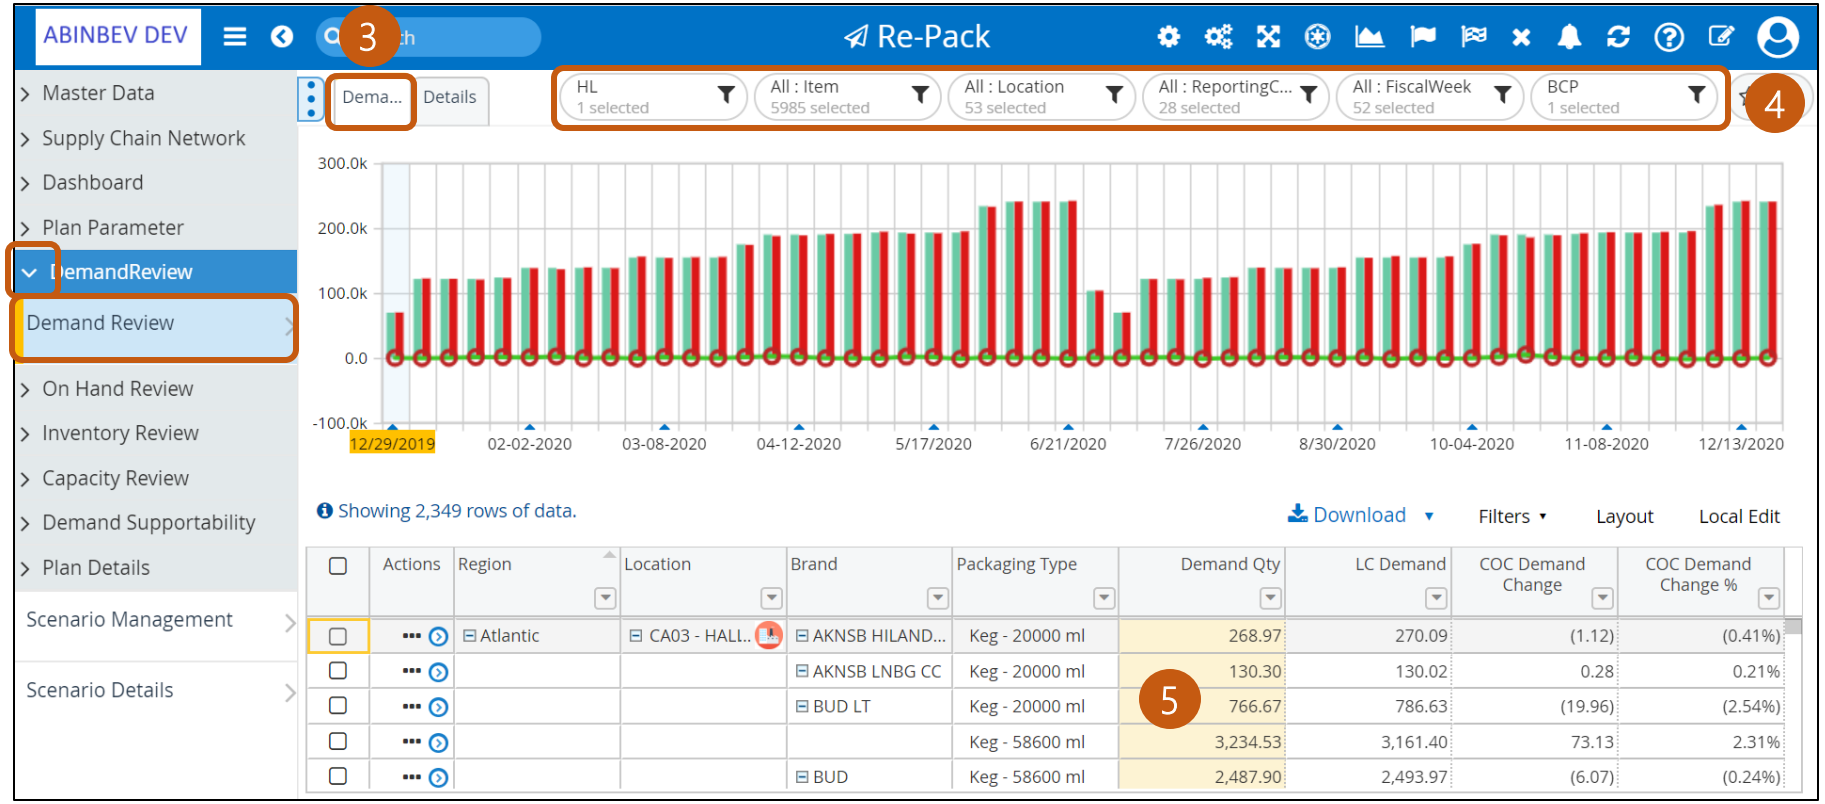


5: Review the table, User can edit Max DOI, Min DOI and Target DOI

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Review: Demand Change Summary

Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Review" from the dropdown
Step 3: Click on Demand Change Summary tab
Step 4: Filter on Unit, Item, Location, Reporting Customer, Time and Scenario

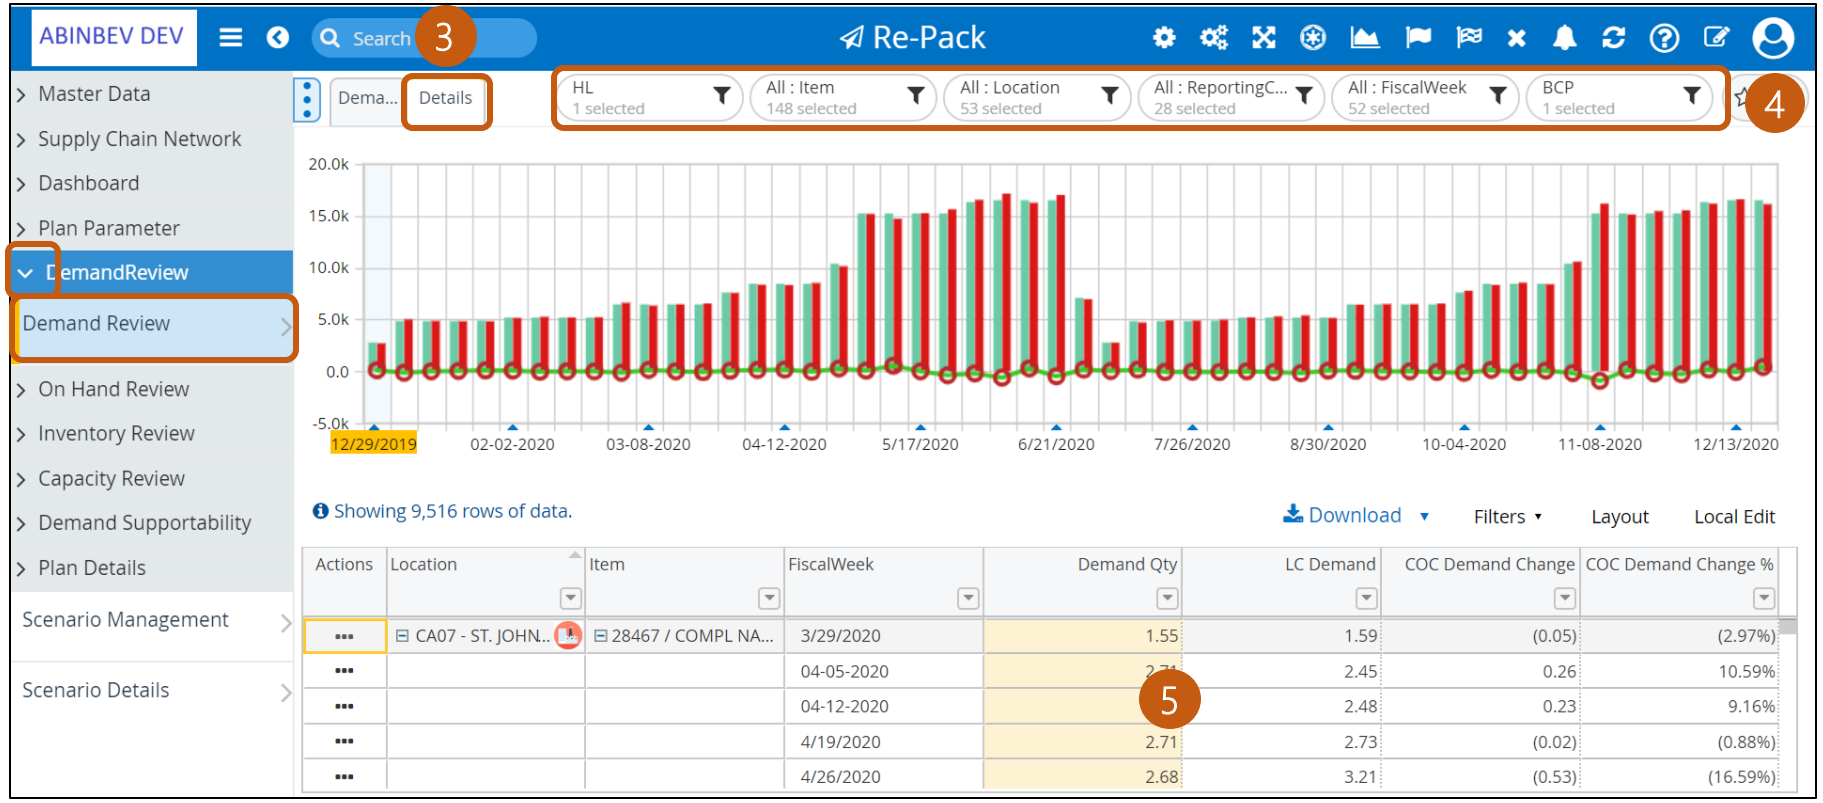


5: Review the graph and table, User can edit Demand Quantity in the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Demand Review – Demand Review: Details

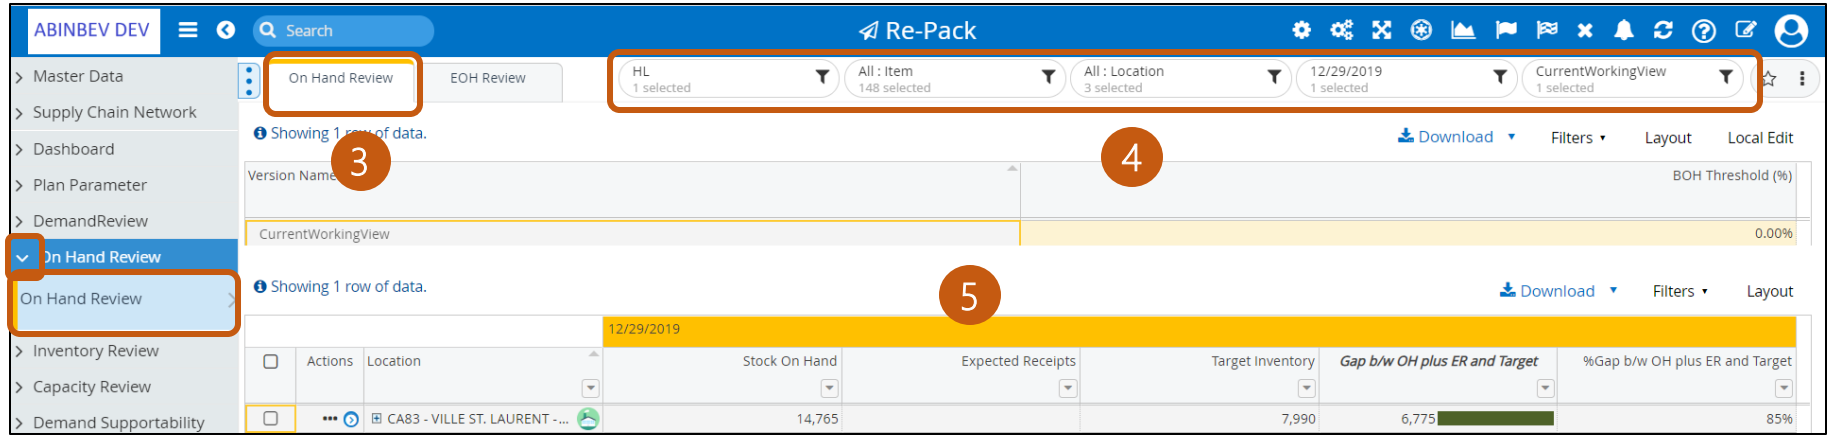
Step 1 : Click on the arrow corresponding to Demand Review
Step 2: Select "Demand Review" from the dropdown
Step 3: Click on Details tab
Step 4: Filter on Unit, Item, Location, Reporting Customer, Time and Scenario



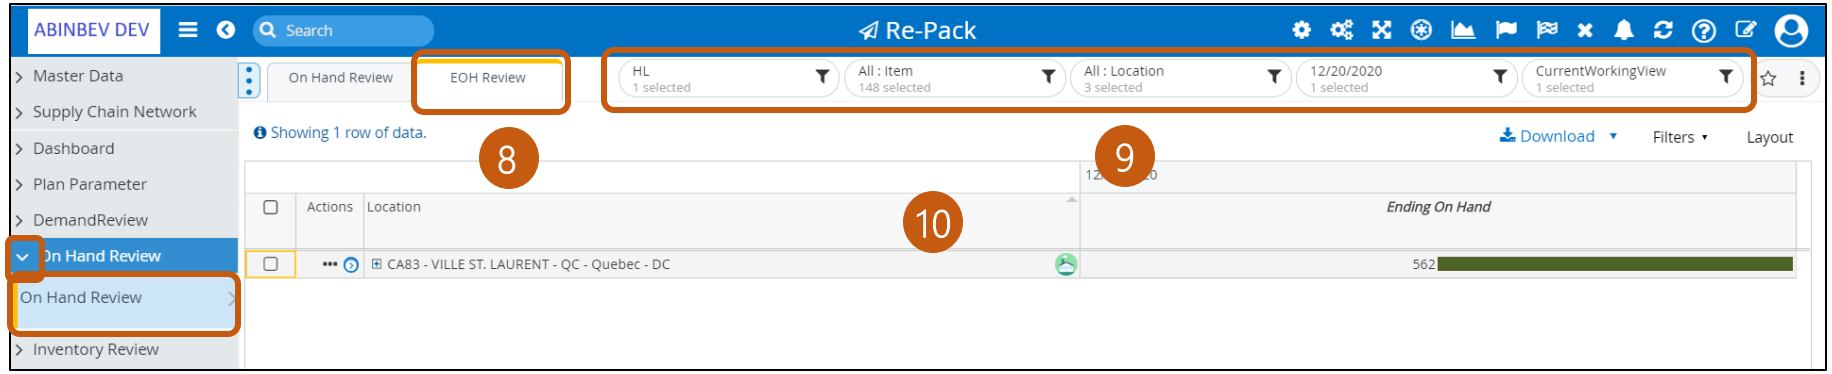
5: Review the graph and table, User can edit Demand Quantity in the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# On Hand Review – On Hand Review: On Hand Review & EOH Review



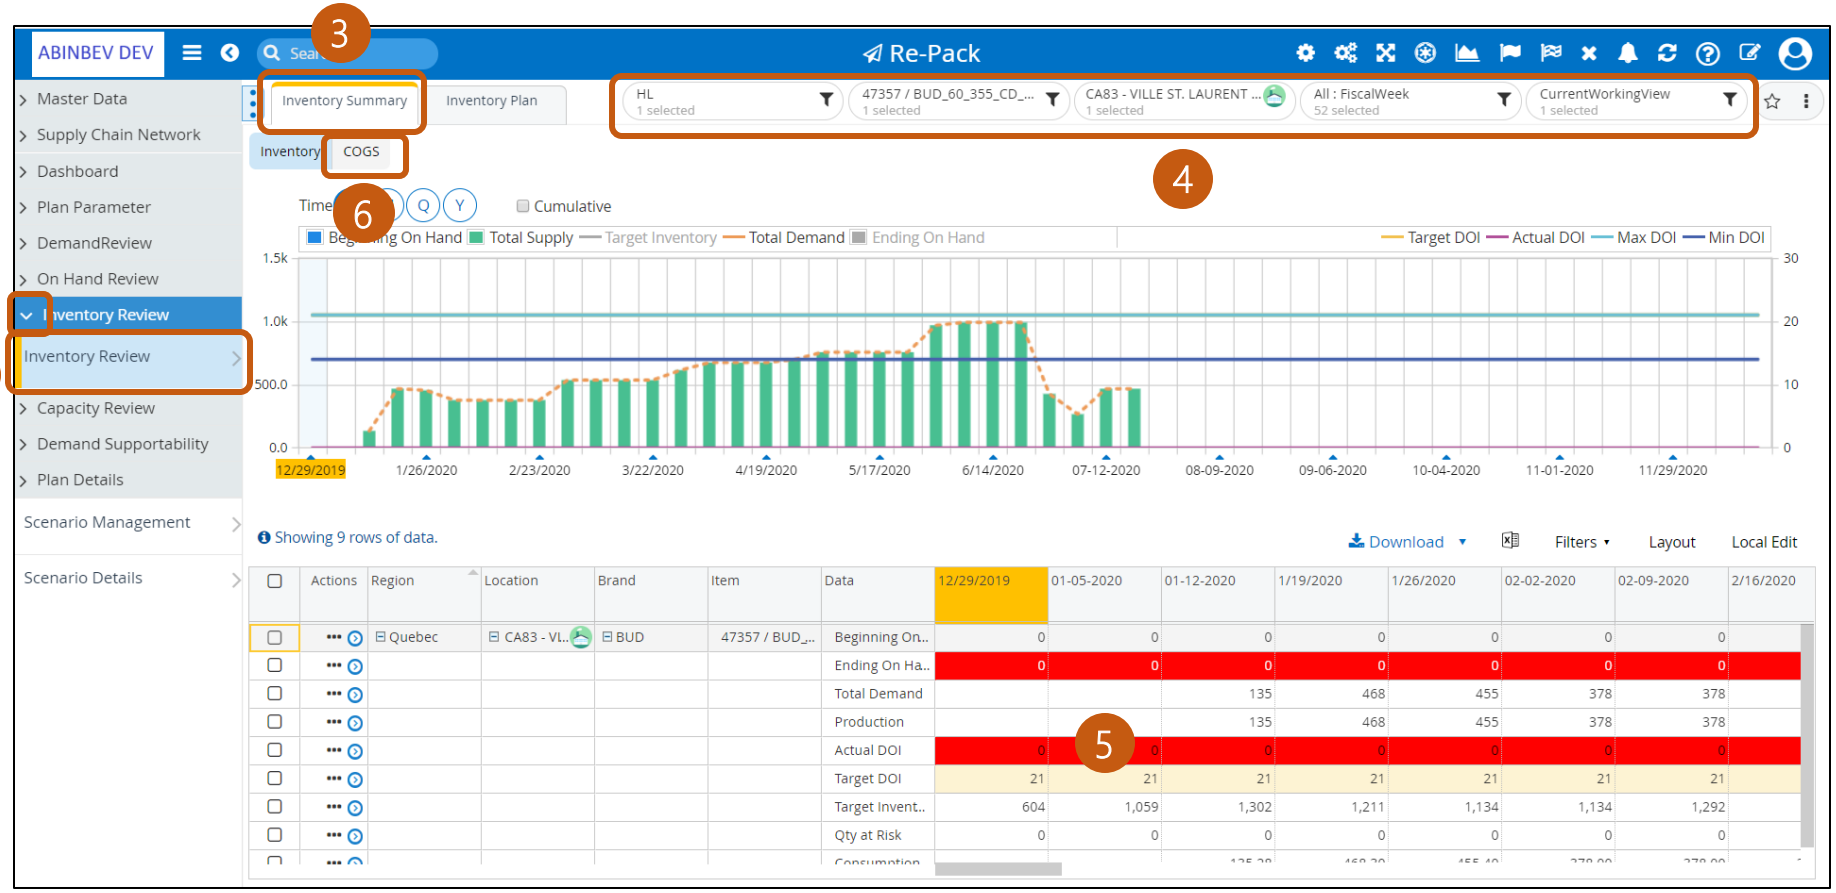
Step 1: Click on the arrow corresponding to OnHand Review
Step 2: Select "OnHand Review" from the dropdown
Step 3: Click on "OnHand Review" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Stock on Hand, Expected Receipts, Target Inventory



Step 6: Click on the arrow corresponding to OnHand Review
Step 7: Select "OnHand Review" from the dropdown
Step 8: Click on "OnHand Review" tab
Step 9: Filter on Unit, Item, Location, Week and Scenario
10: Review the table for Ending on Hand,

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

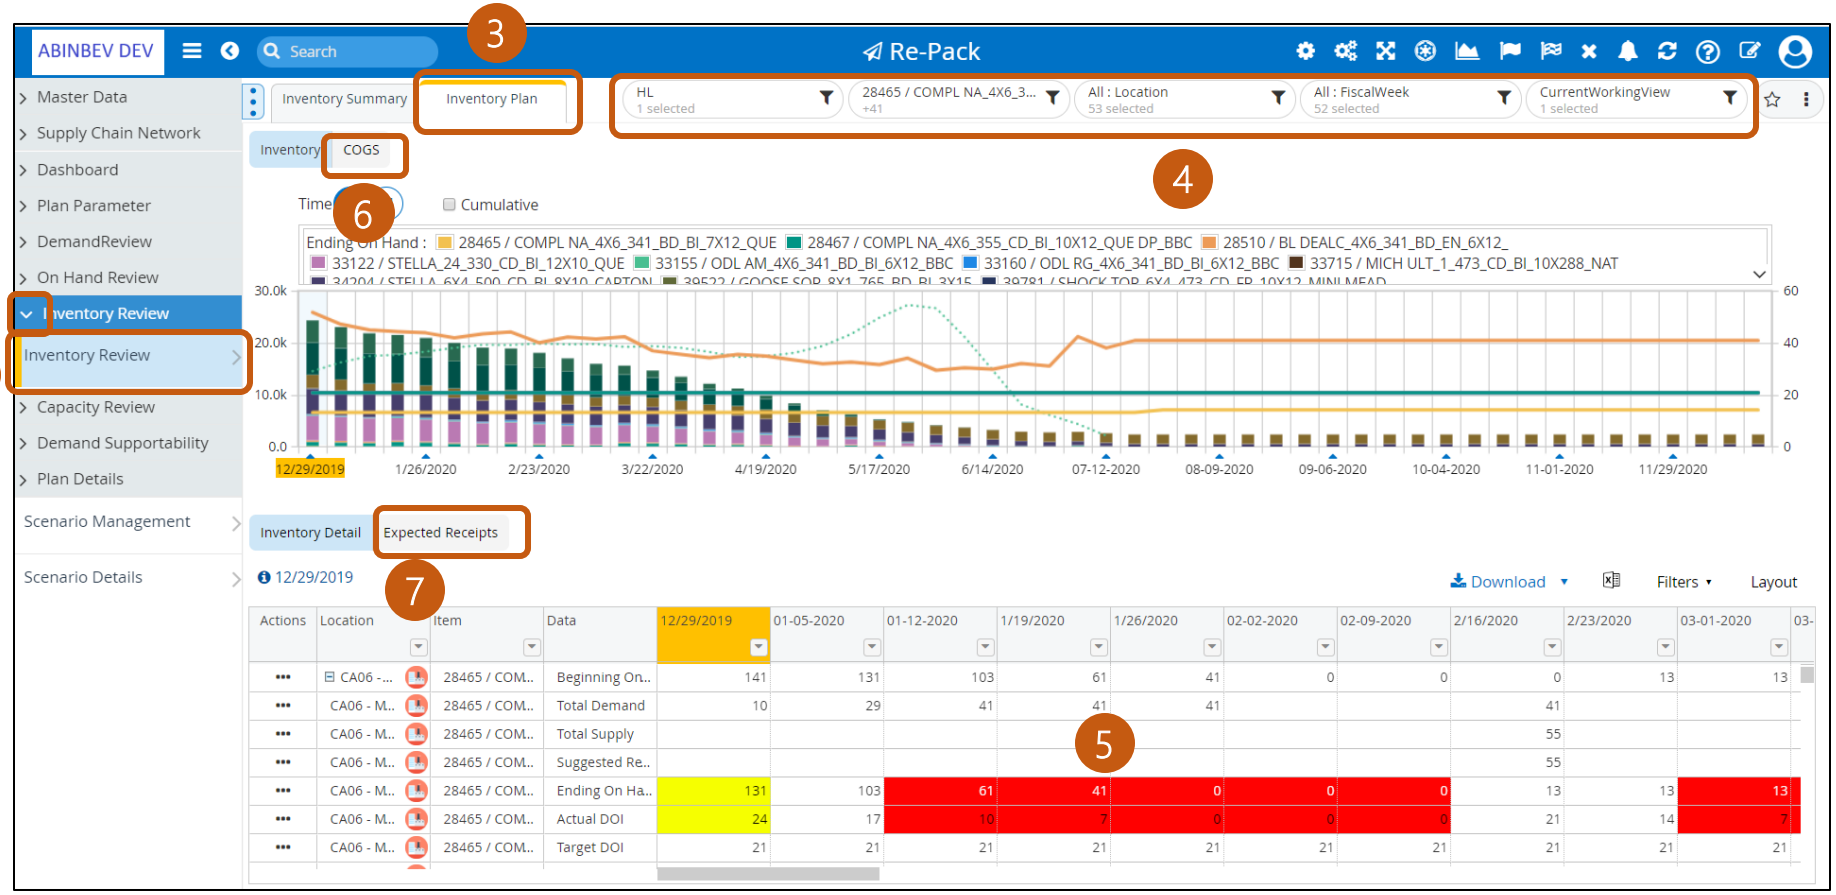
# Inventory Review – Inventory Review: Inventory Summary



Step 1: Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Review" from the dropdown
Step 3: Click on "Inventory Summary" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Ending On Hand, Actual DOI, Target DOI, Target Inventory and Qty at Risk
Step 6: Click on COGS sub tab and review the graph

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

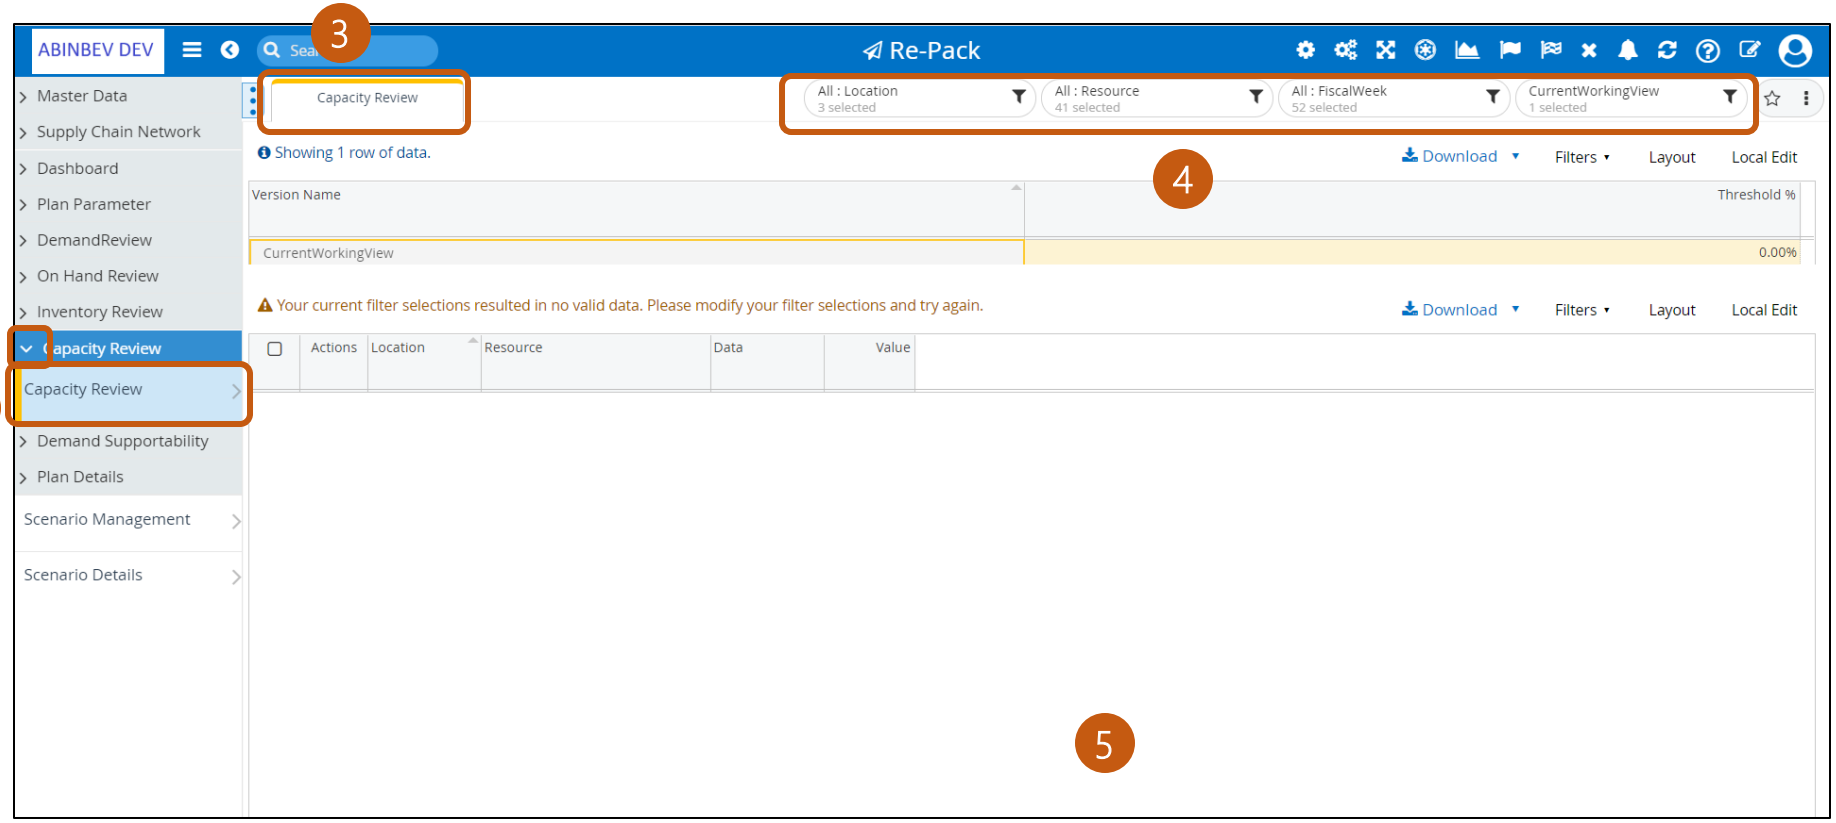
# Inventory Review – Inventory Review: Inventory Plan



Step 1: Click on the arrow corresponding to Inventory Review
Step 2: Select "Inventory Review" from the dropdown
Step 3: Click on "Inventory Plan" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Beginning On Hand, Total Demand, Total Supply. Cells will be highlighted in Yellow if EOH and Target DOI is greater than Maximum limit and cells will be highlighted in Red if the value is below the minimum set limit
Step 6: Click on COGS sub tab and review the graph
Step 7: Click on Expected Receipts and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

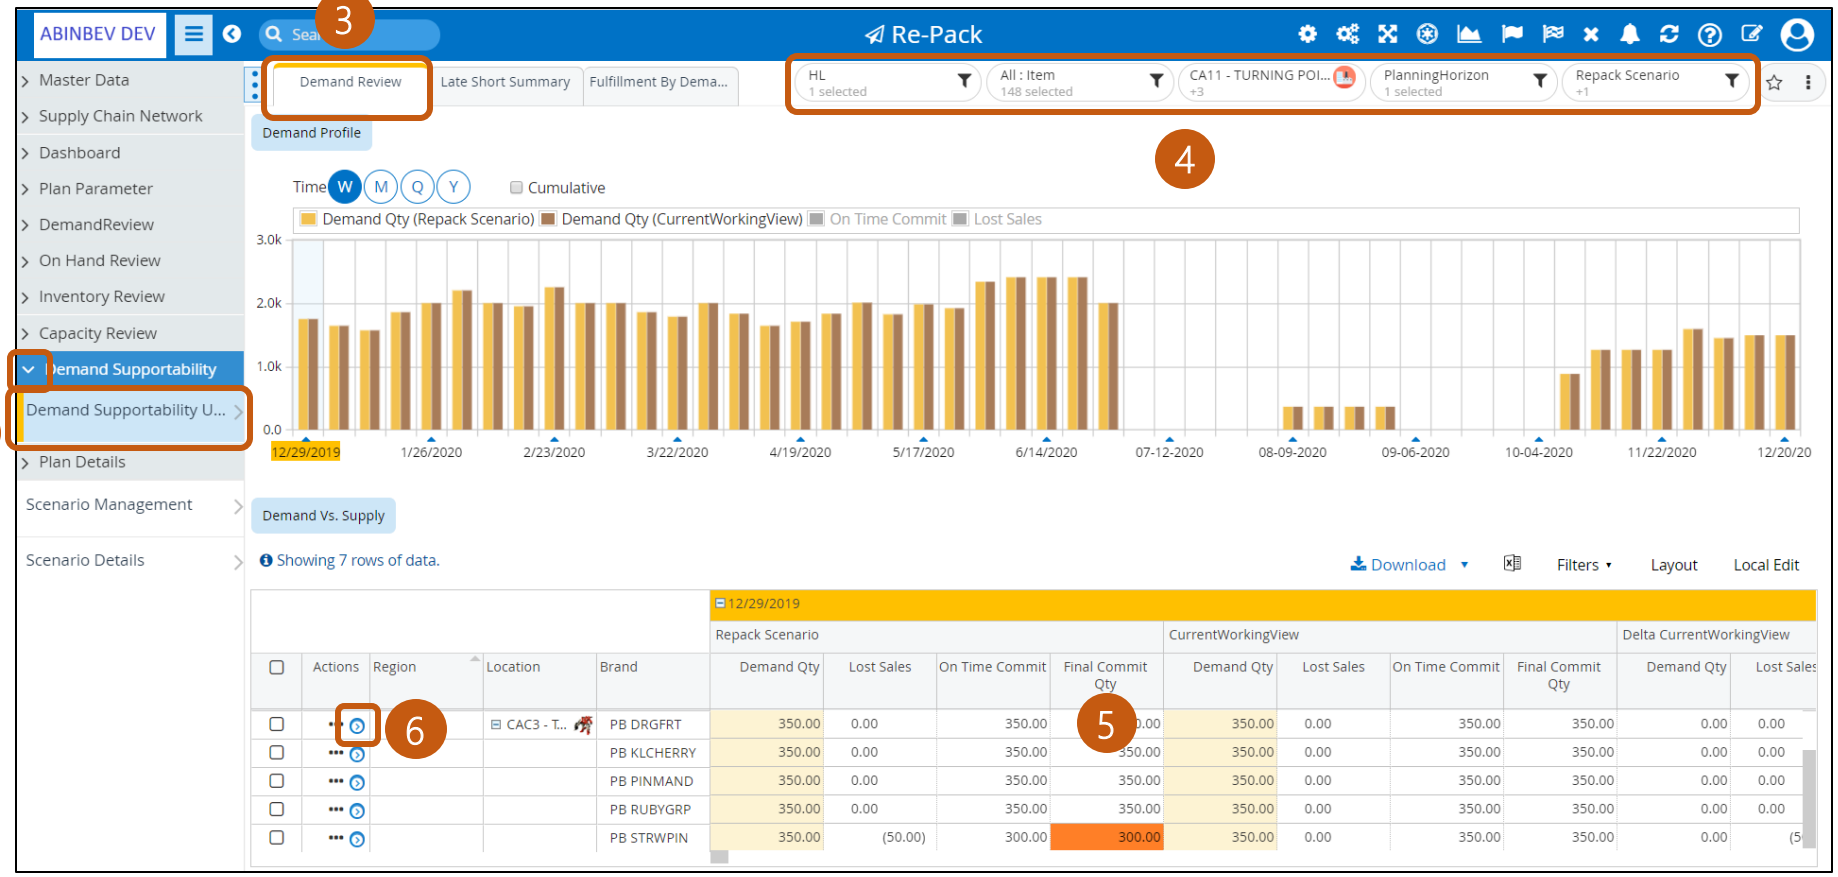
# Capacity Review – Capacity Review



Step 1: Click on the arrow corresponding to Capacity Review
Step 2: Select "Capacity Review" from the dropdown
Step 3: Click on "Capacity Review" tab
Step 4: Filter on Location, Resource, Week and Scenario
5: Review the table for Ending On Hand, Actual DOI, Target DOI, Target Inventory and Qty at Risk
Step 6: Click on COGS sub tab and review the graph

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

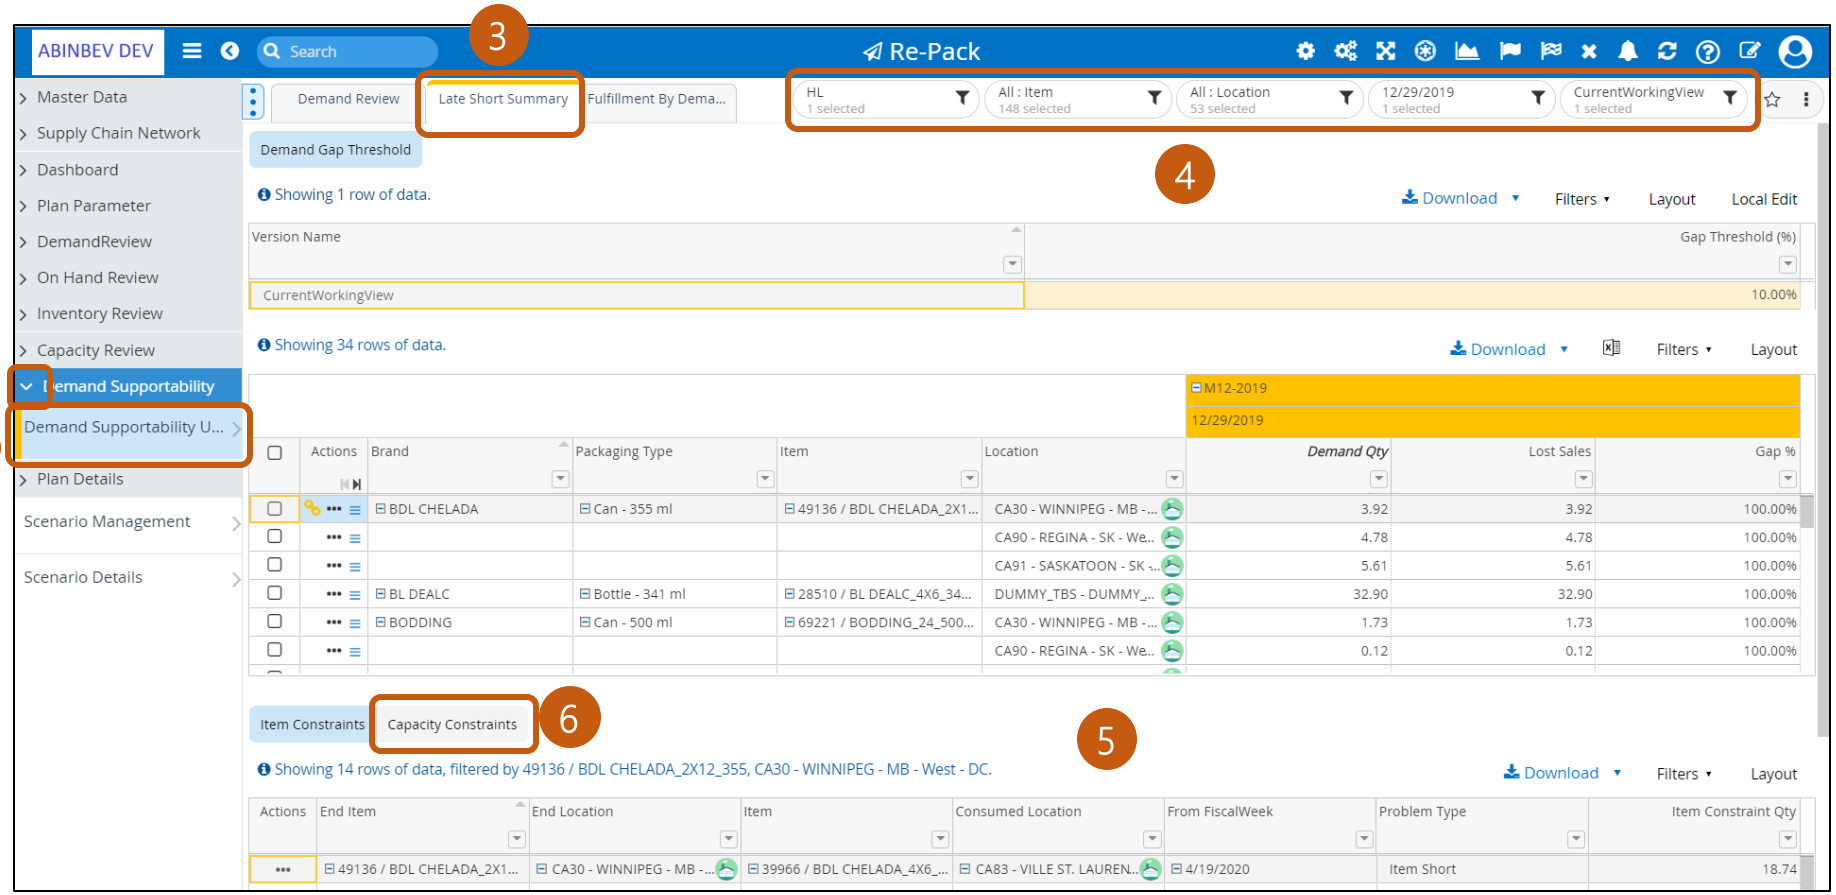
# Demand Supportability – Demand Supportability Updated: Demand Review



Step 1: Click on the arrow corresponding to Demand Supportability
Step 2: Select "Demand Supportability Updated" from the dropdown
Step 3: Click on "Demand Review" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the graph and table for Demand Qty, Lost sale On Time Commit, Final Commit for different scenarios
Step 6: Click on the Action arrow for a gap to get more details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

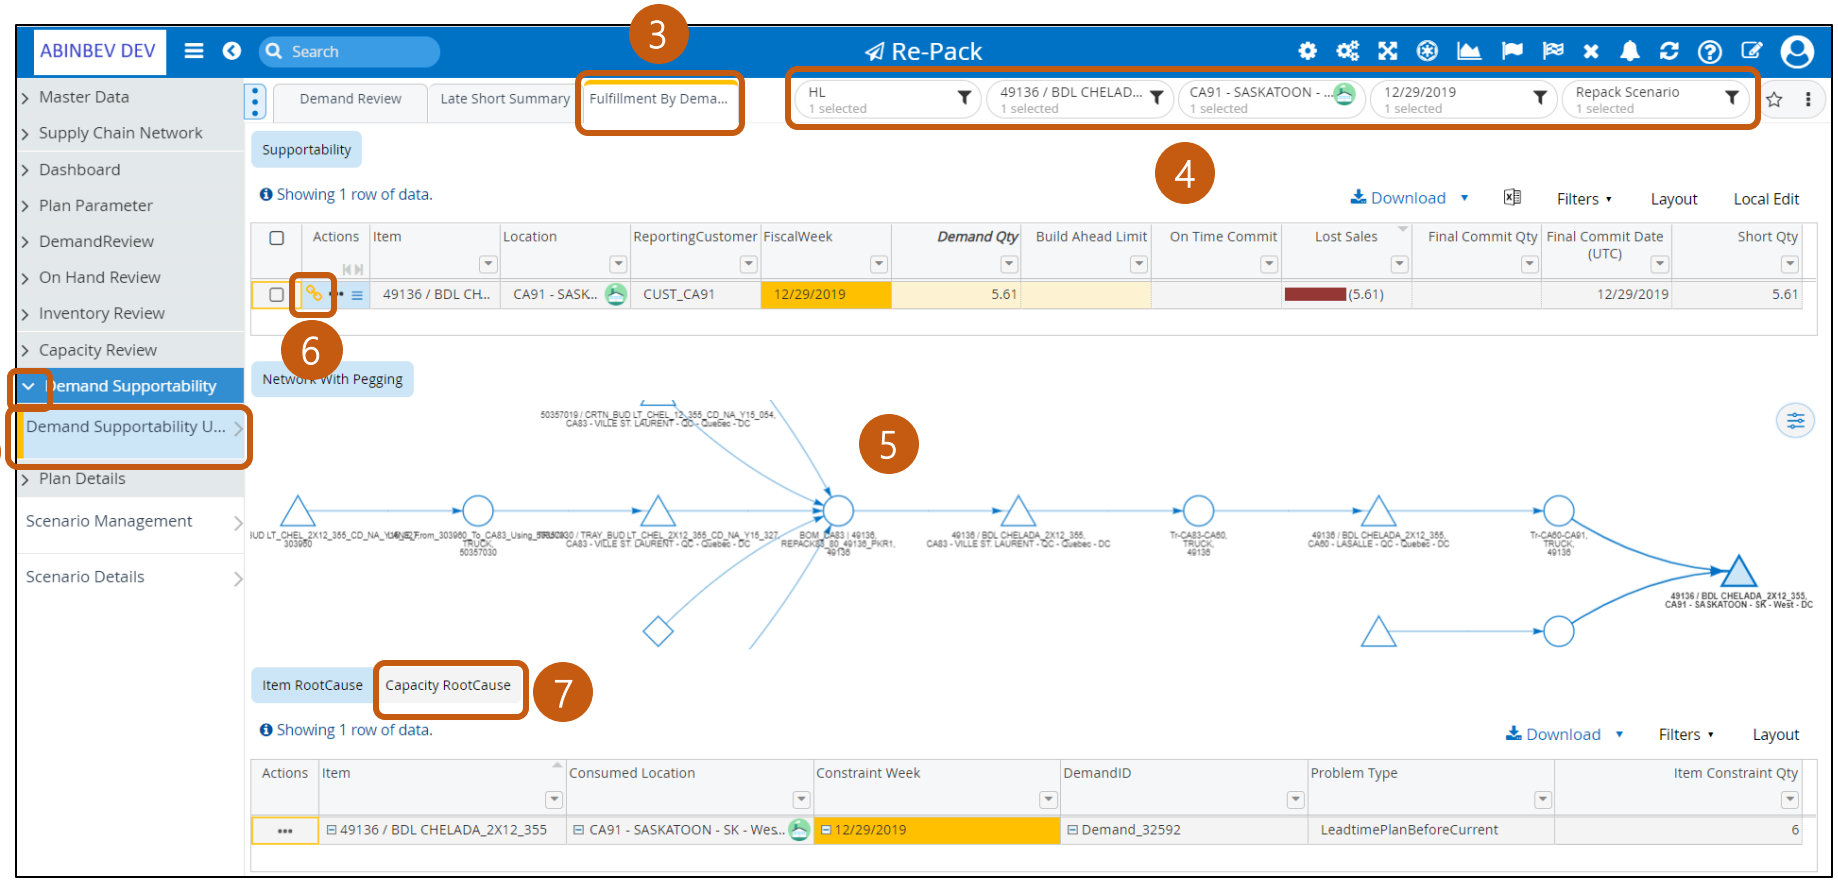
# Demand Supportability – Demand Supportability Updated: Late Short Summary



Step 1: Click on the arrow corresponding to Demand Supportability
Step 2: Select "Demand Supportability Updated" from the dropdown
Step 3: Click on "Late Short Summary" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Demand Quantity, Lost Sales, Gap%; also review the Item Constraint table for details and to know the problem Type
Step 6: Click on Capacity Constraints and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

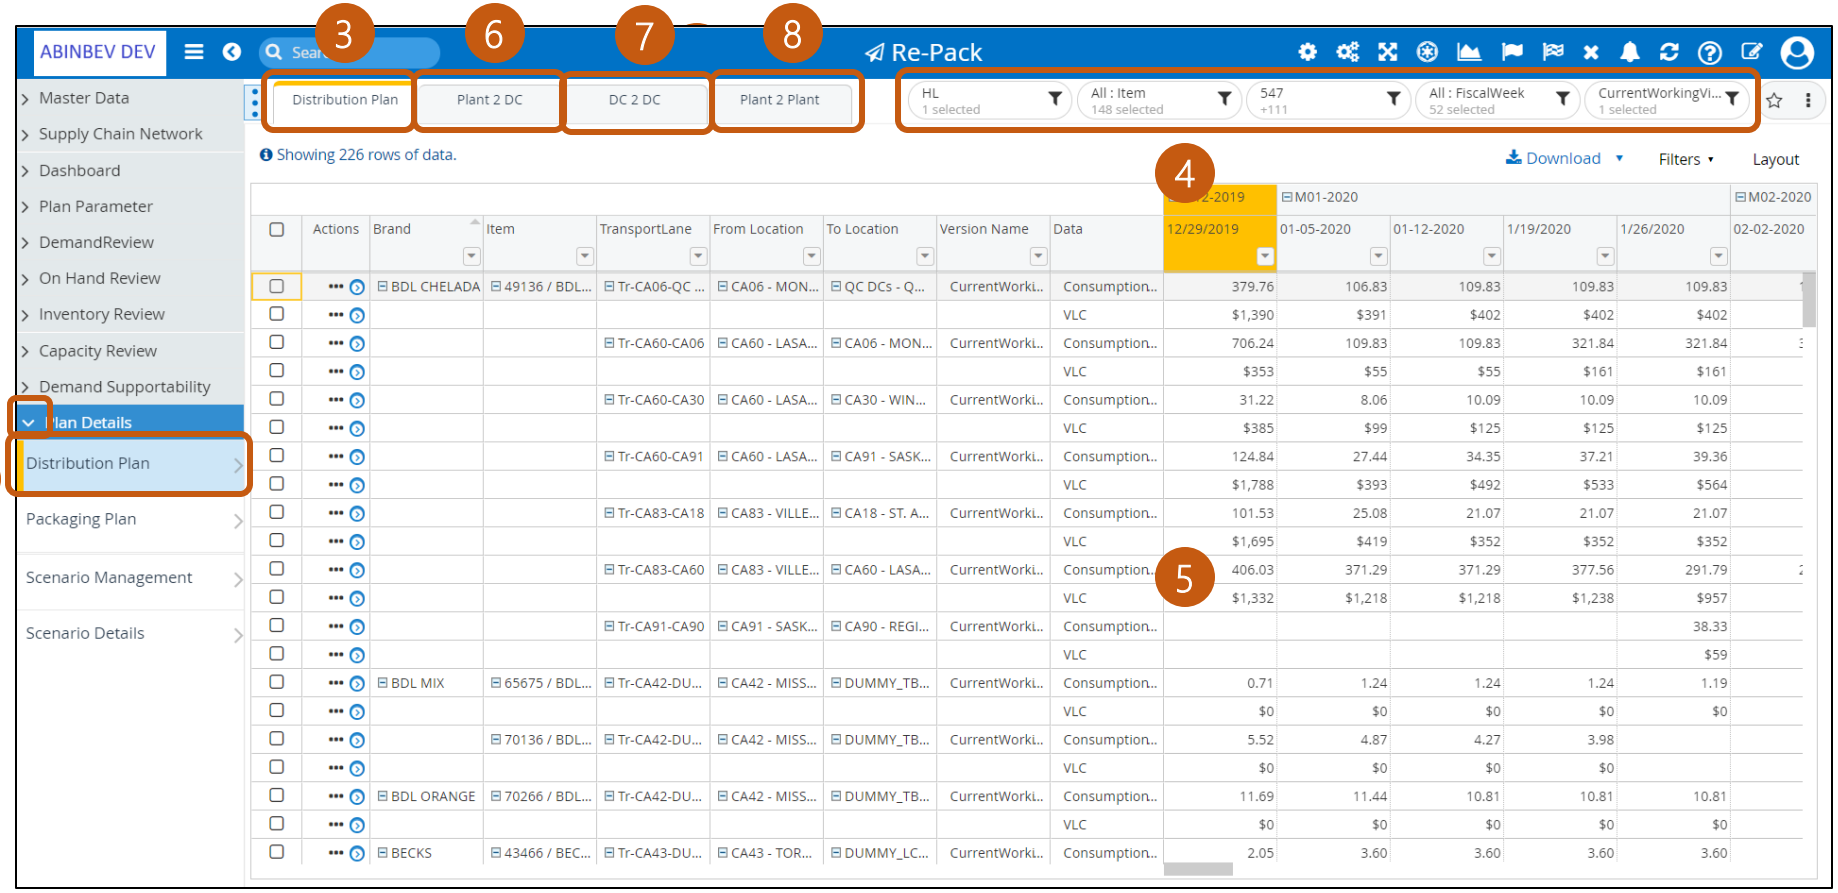
# Demand Supportability – Demand Supportability Updated: Fulfillment By DemandID



Step 1: Click on the arrow corresponding to Demand Supportability
Step 2: Select "Demand Supportability Updated" from the dropdown
Step 3: Click on "Fulfillment By DemandID" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Demand Qty, Build Ahead Limit, Lost sales
Step 6: Click on Yellow chain icon , Item Root Cause table will be updated and review the table to know the problem type
Step 7: Click on Capacity Root Cause sub tab and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

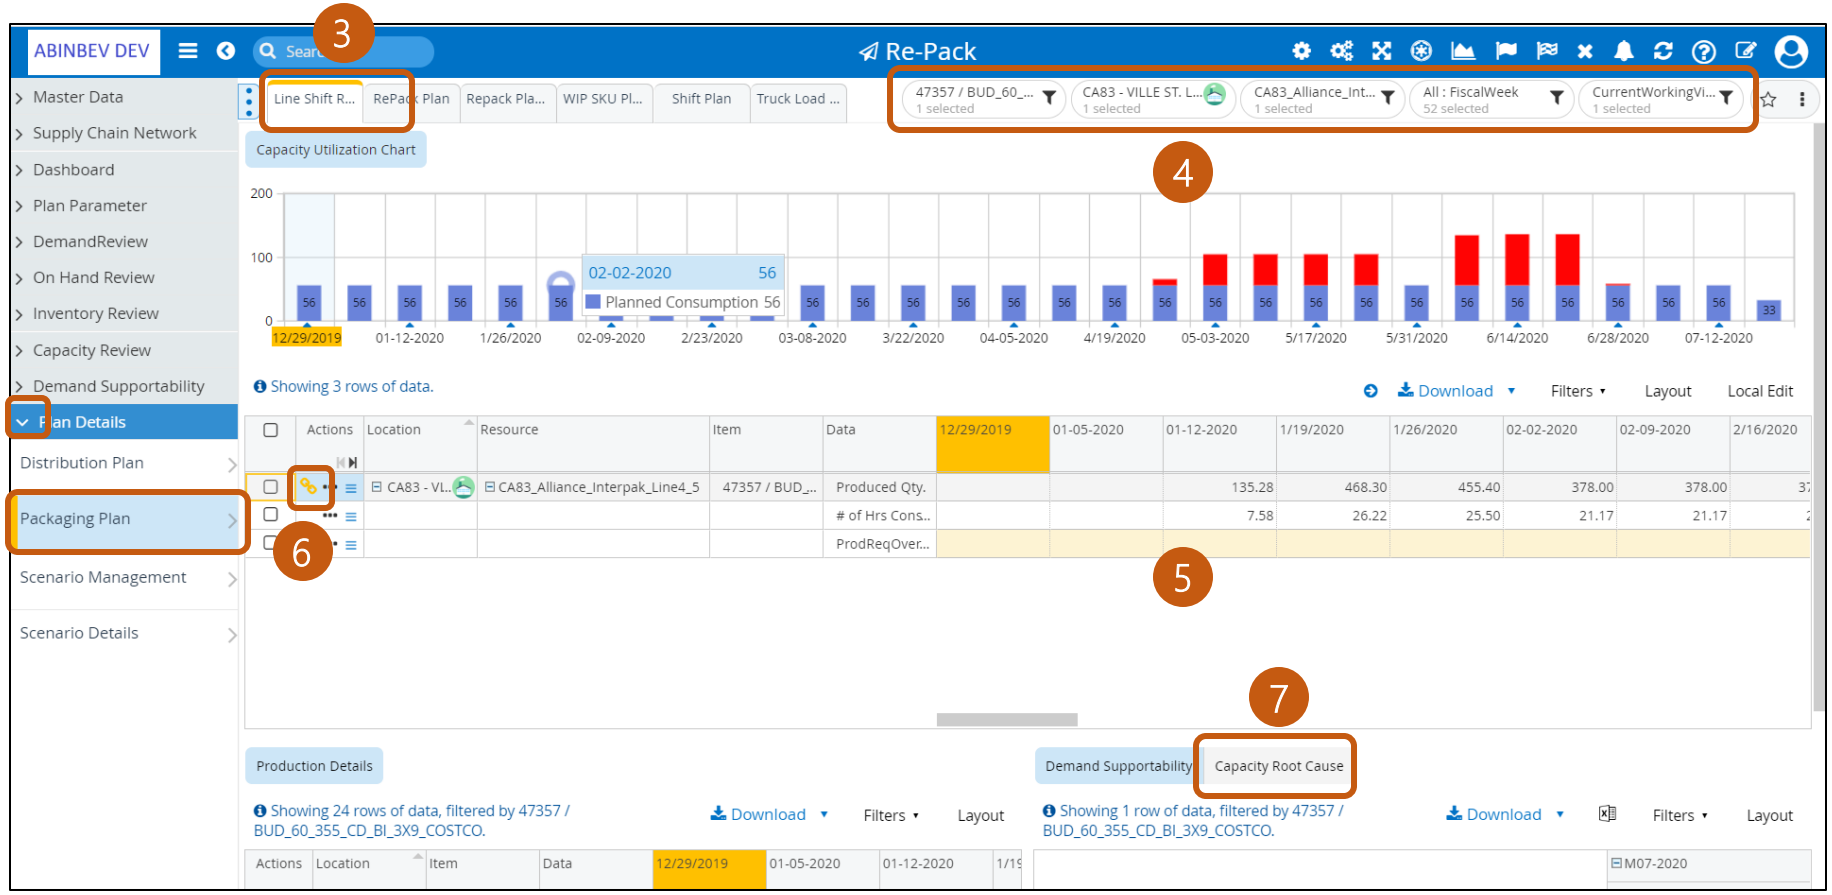
# Plan Details – Distribution Plan:
# Distribution Plan, Plant 2 DC, DC 2 DC and Plant 2 Plant



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "distribution Plan" from the dropdown
Step 3: Click on "Distribution Plan" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Consumption requirements and VLC for Out of Province lanes
Step 6: Click on Plant 2 DC tab and review the graph and table for Consumption requirements and VLC for Plant 2 DC lanes
Step 7: Click on DC 2 DC tab and review the graph and table for Consumption requirements and VLC for DC 2 DC lanes
Step 8: Click on Plant 2 Plant tab and review the graph and table for Consumption requirements and VLC for Plant 2 Plant lanes

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

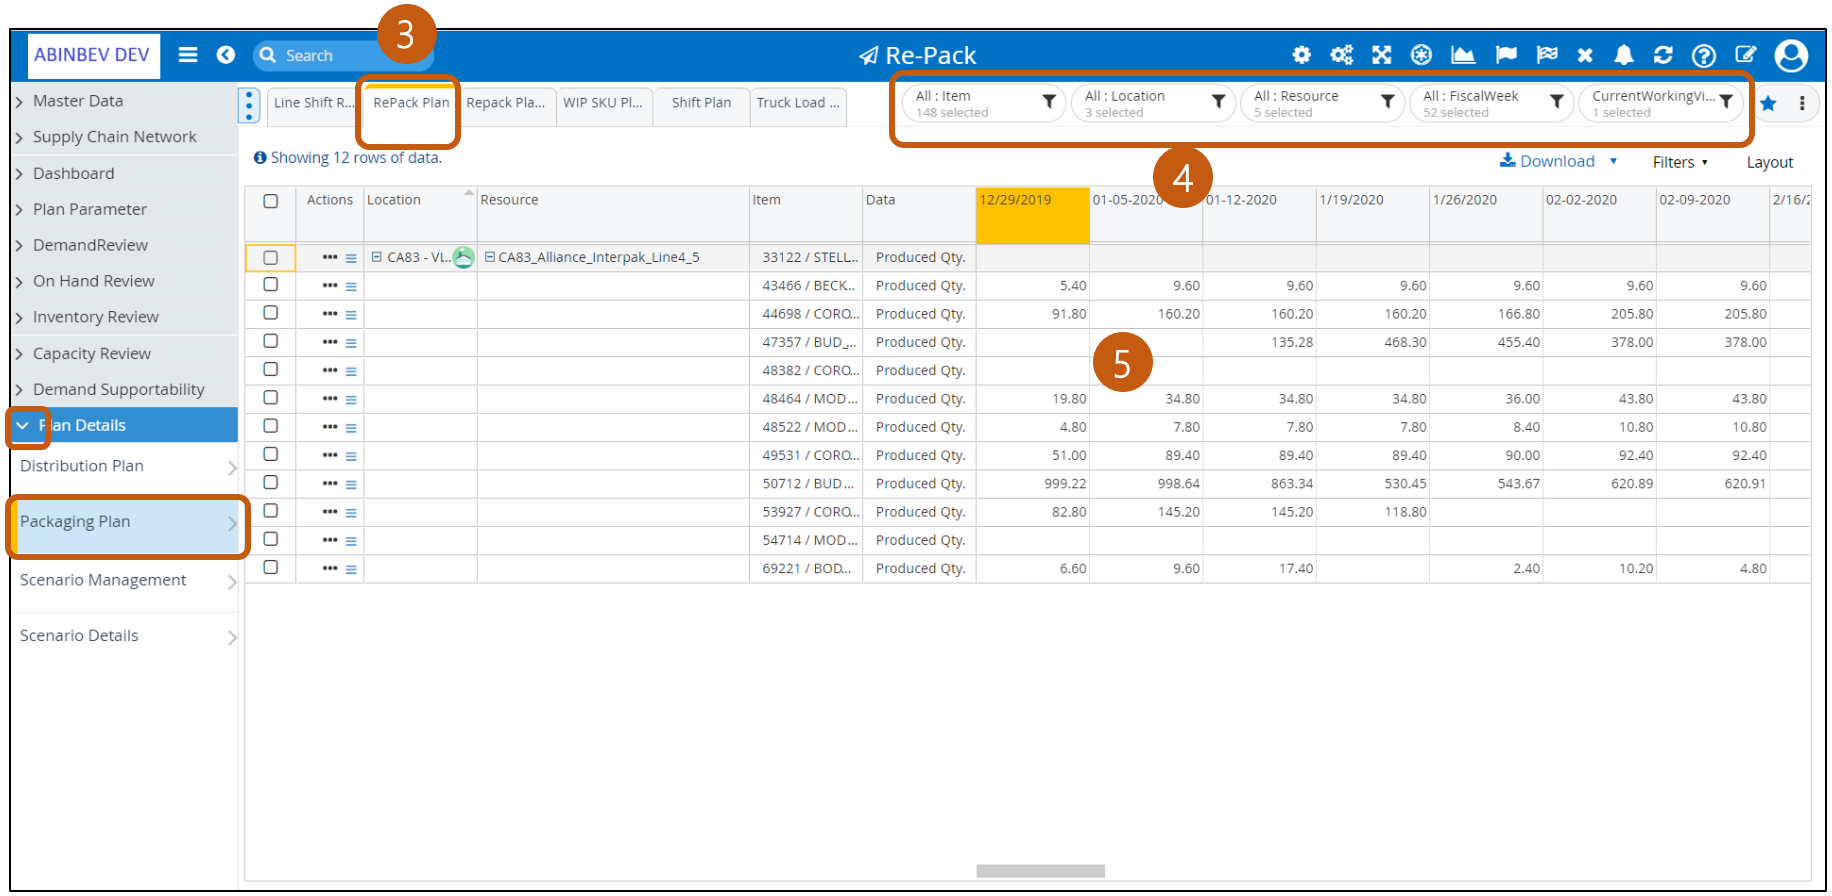
# Plan Details – Packaging Plan: Line Shift Review



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "Line Shift Review" tab
Step 4: Filter on Item, Location, Week and Scenario
5: Review the graph and table for Capacity Utilization
Step 6: Click on the yellow chain Icon to review the production Details in Production Details table
Step 7: Click on Capacity Root Cause sub tab and review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

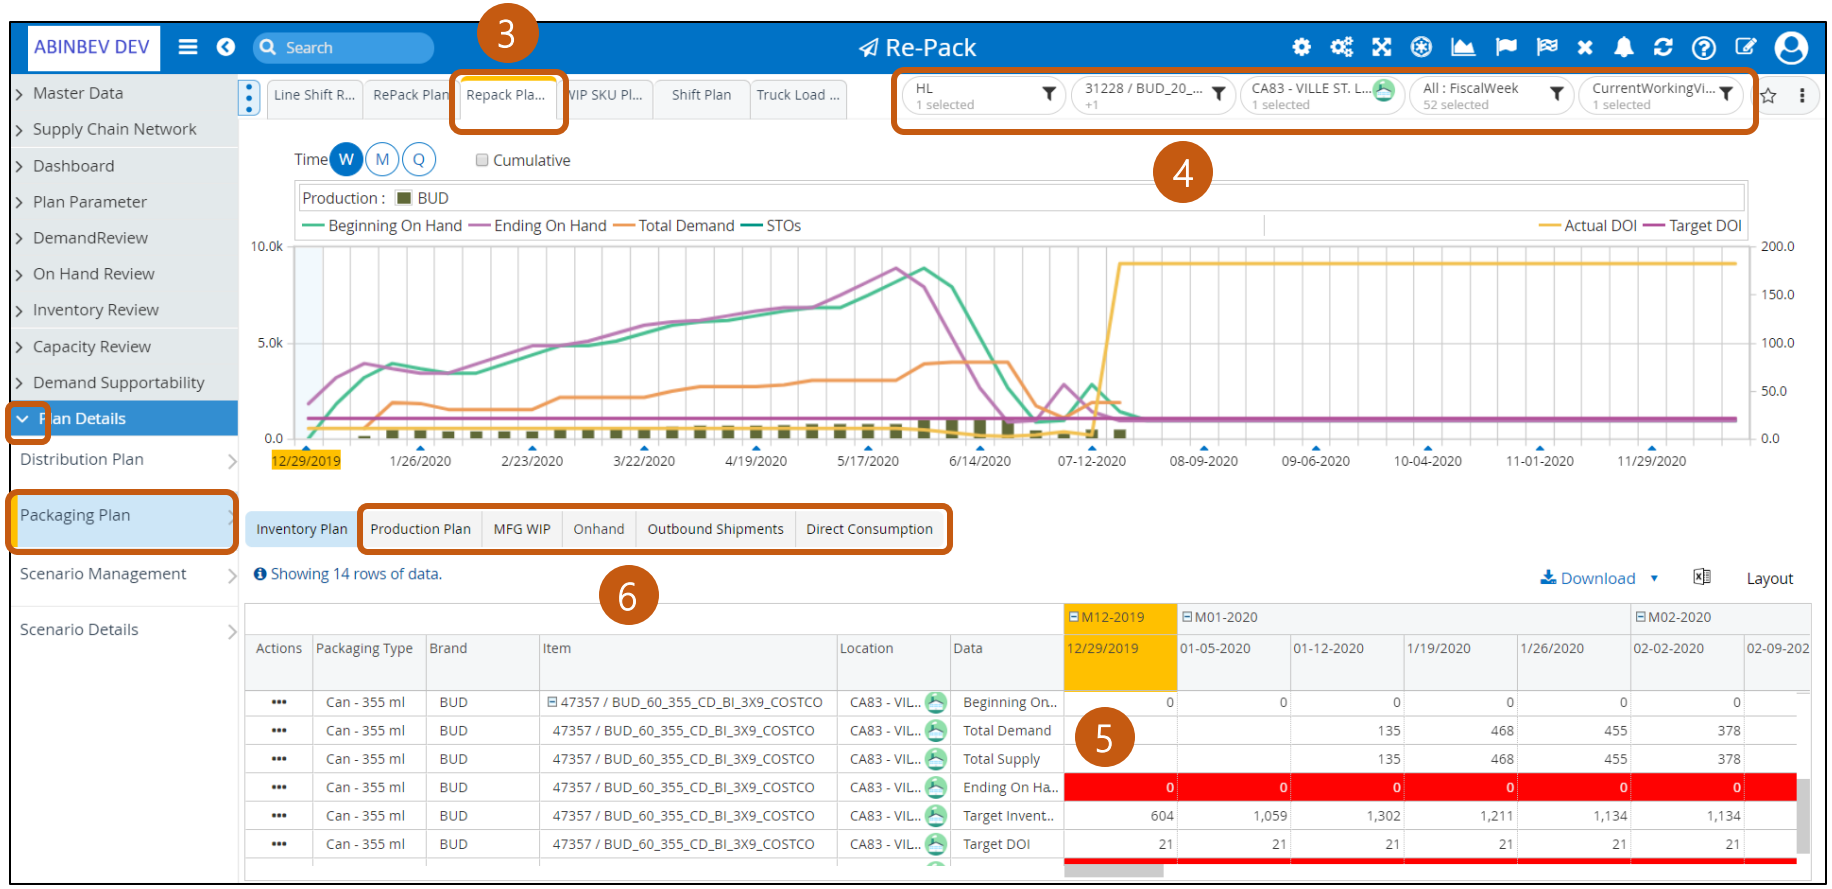
# Plan Details – Packaging Plan: RePack Plan



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "Repack Plan" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the table for Produced Quantity

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

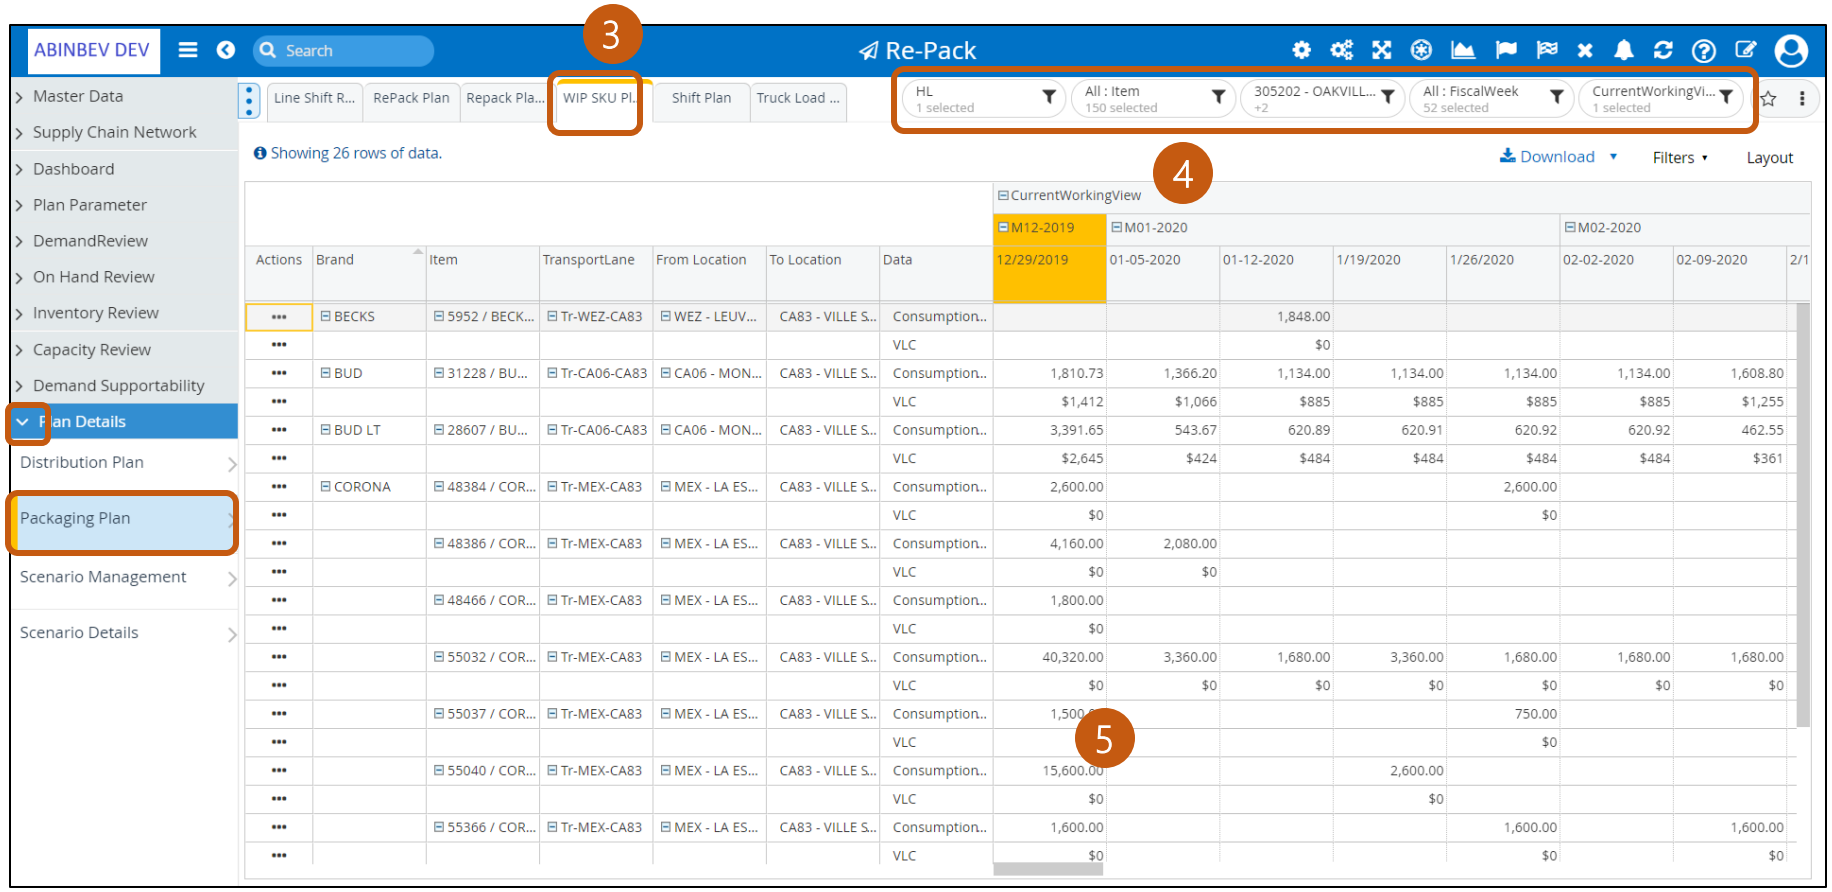
# Plan Details – Packaging Plan: RePack Plan Details



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "RePack Plan Details" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the graphs and Inventory Plan table for BOH, EOH, Total Demand, total Supply attributes
Step 6: Click on each tabs to fetch details

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

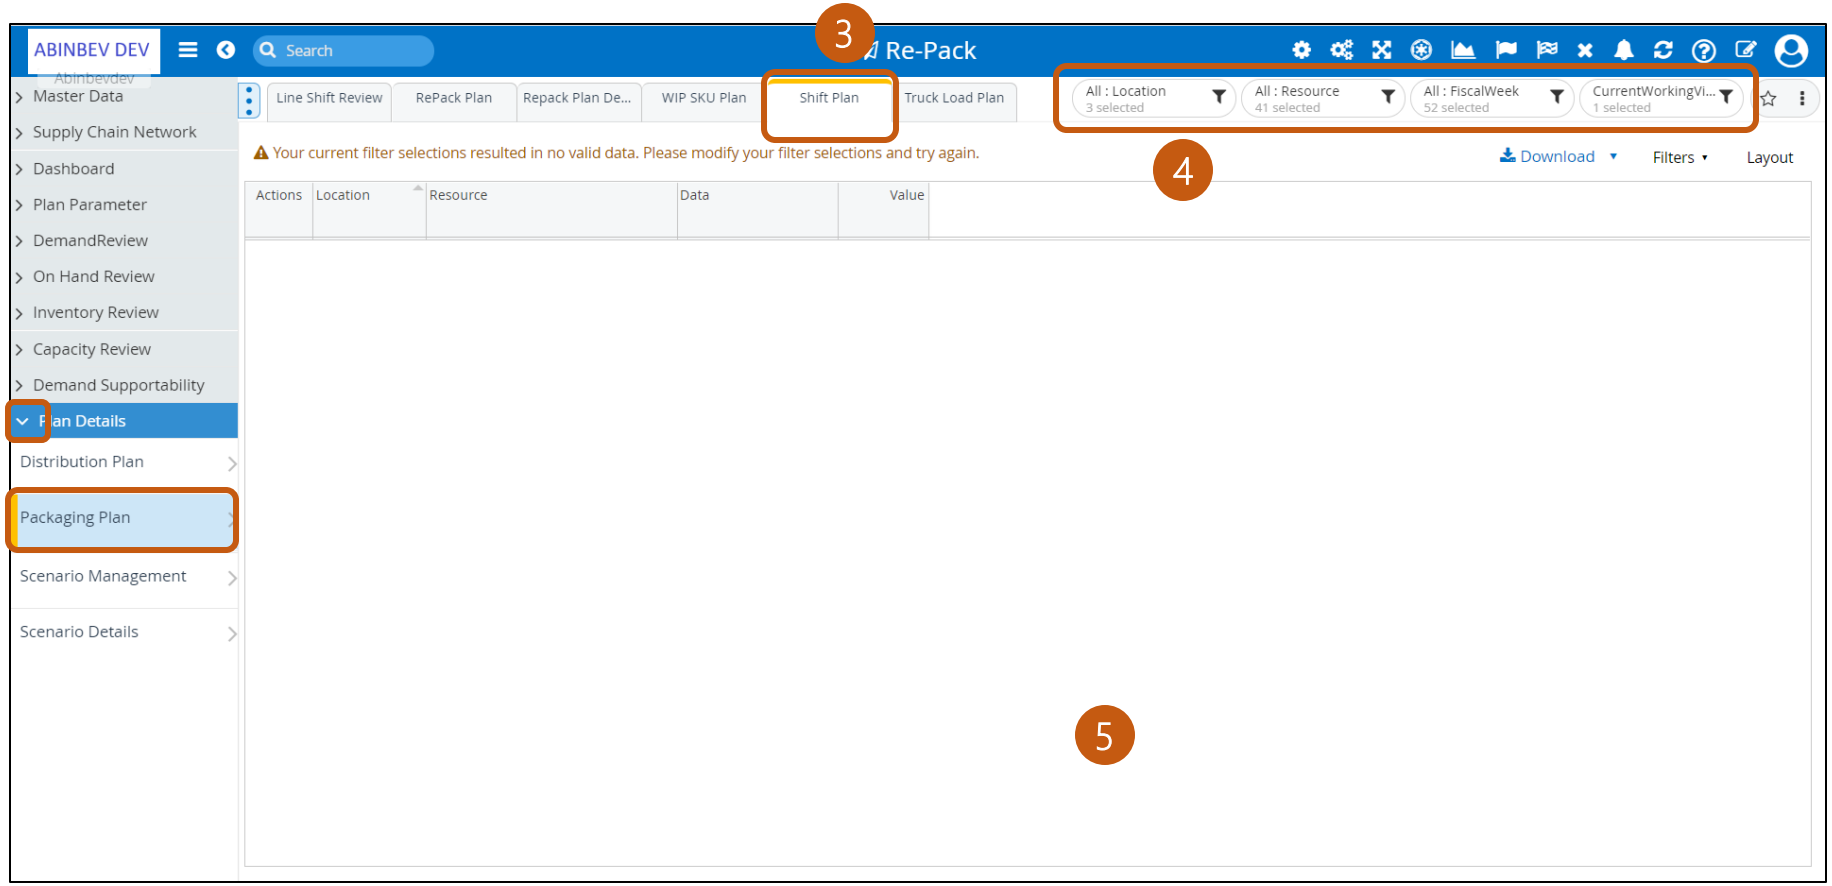
# Plan Details – Packaging Plan: WIP SKU Plan



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "WIP SKU Plan" tab
Step 4: Filter on Unit, Item, Location, Week and Scenario
5: Review the Inventory Plan table for Consumption Details and VLC

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

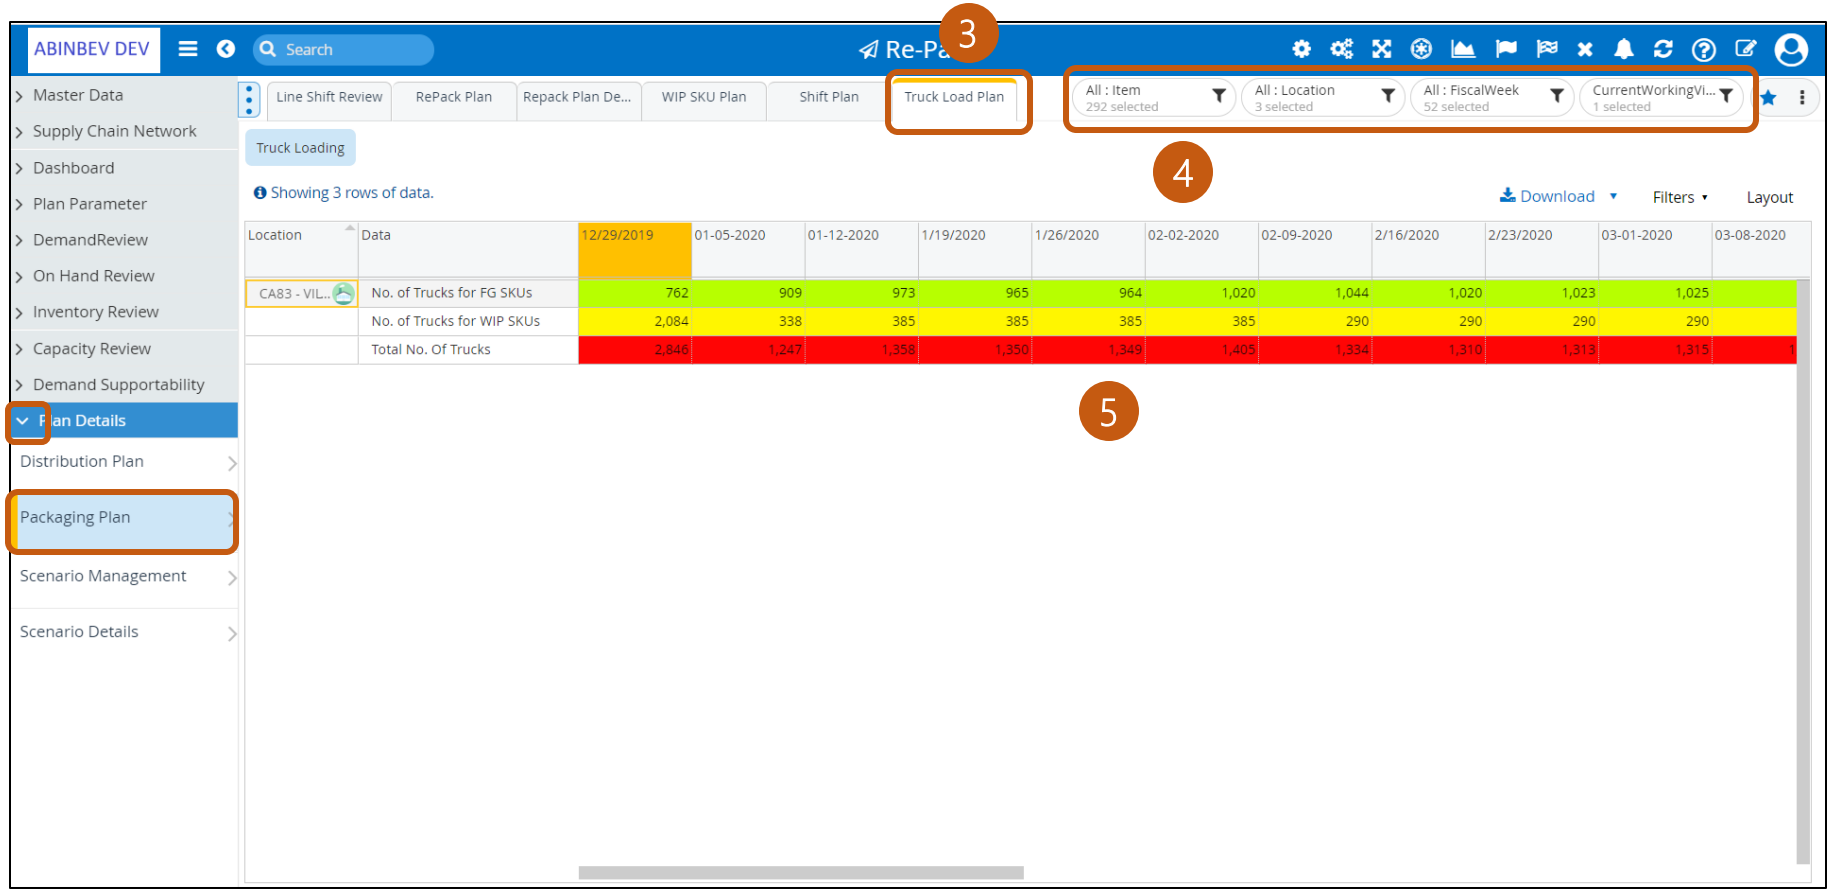
# Plan Details – Packaging Plan: Shift Plan



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "Plant Production Plan" tab
Step 4: Filter on Location, Resource, Week and Scenario
5: Review the table

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

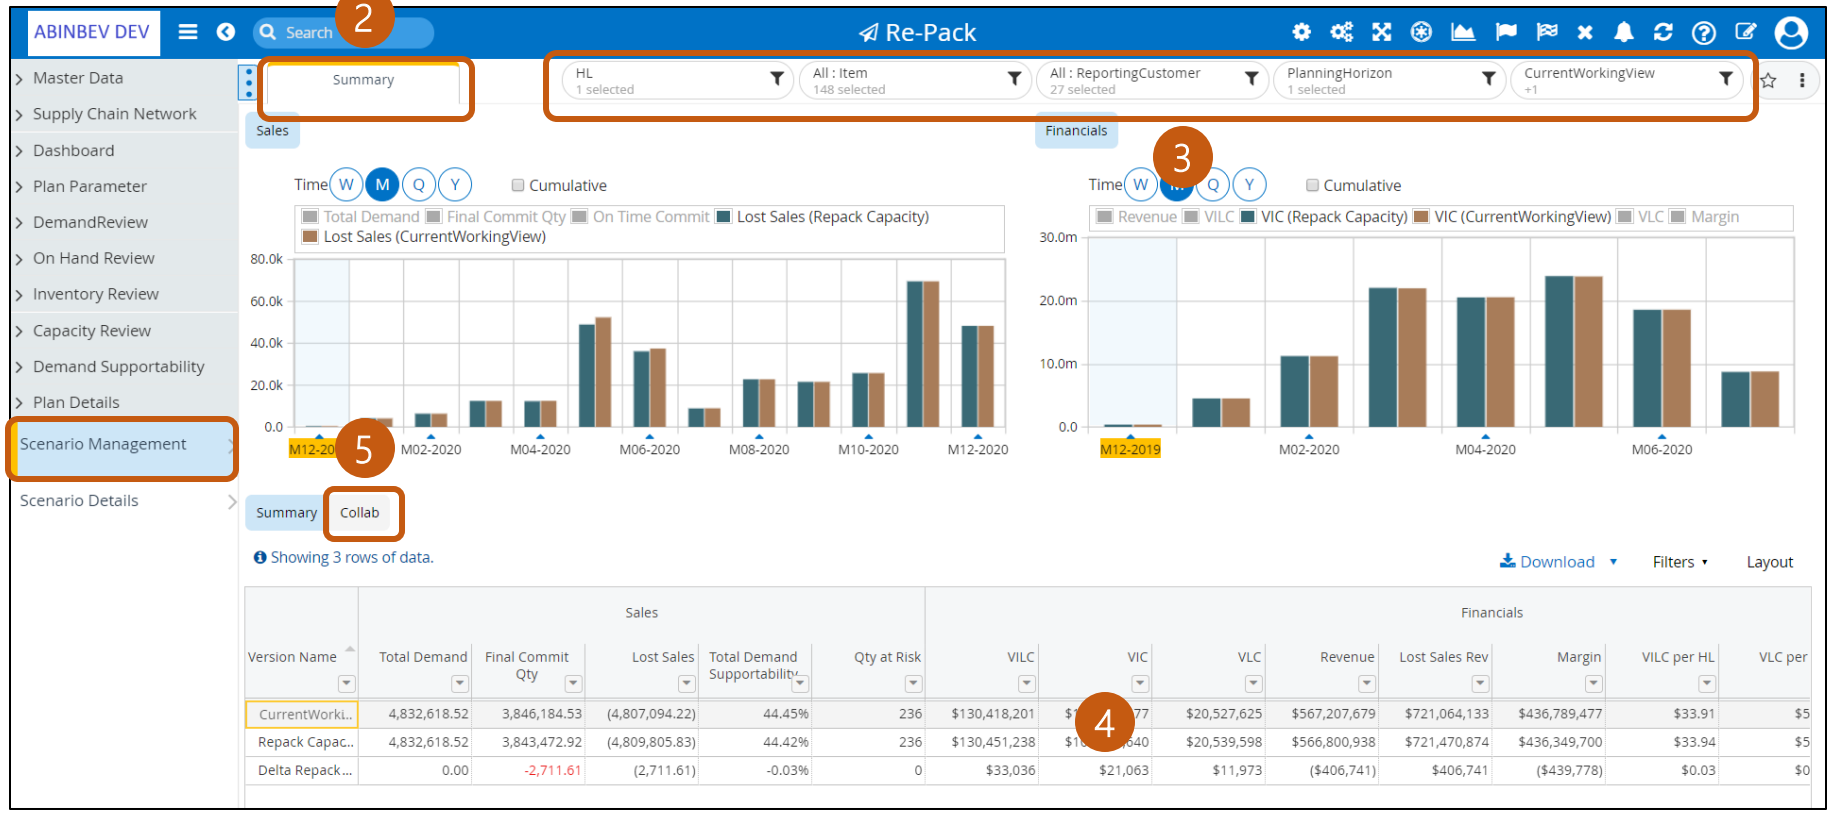
# Plan Details – Packaging Plan: Truck Load Plan



Step 1: Click on the arrow corresponding to Plan Details
Step 2: Select "Packaging Plan" from the dropdown
Step 3: Click on "Truck Load Plan" tab
Step 4: Filter on Item, Location, Week and Scenario
5: Review the table for No of Trucks for FG and WIP SKUs

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

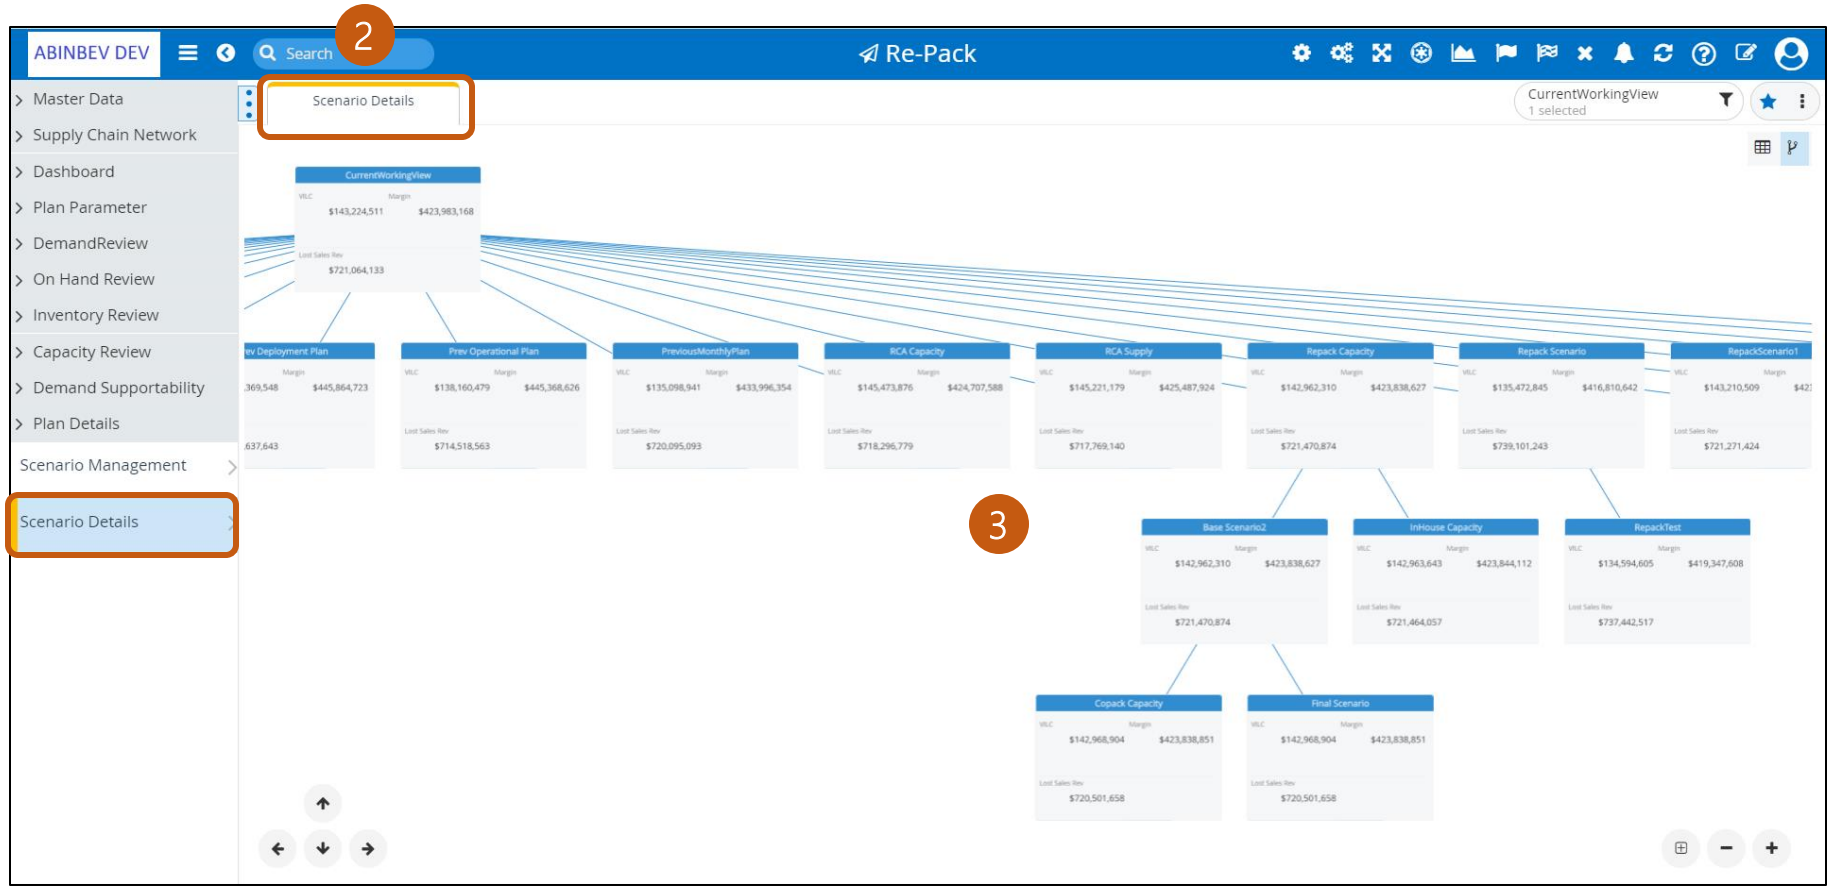
# Scenario Management – Summary



Step 1: Click on Scenario Management
Step 2: Summary tab opens
Step 3: Filter on Unit, Item, Reporting Customer, Week and Scenario
4: Review the graphs and Inventory Plan table for all sales and Financial details for all selected scenarios
Step 5: Click on Collab tab and user can write posts or comments

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Scenario Details – Scenario Details



Step 1: Click on Scenario details
Step 2: Scenario Details tab opens
Step 3:Review the data

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

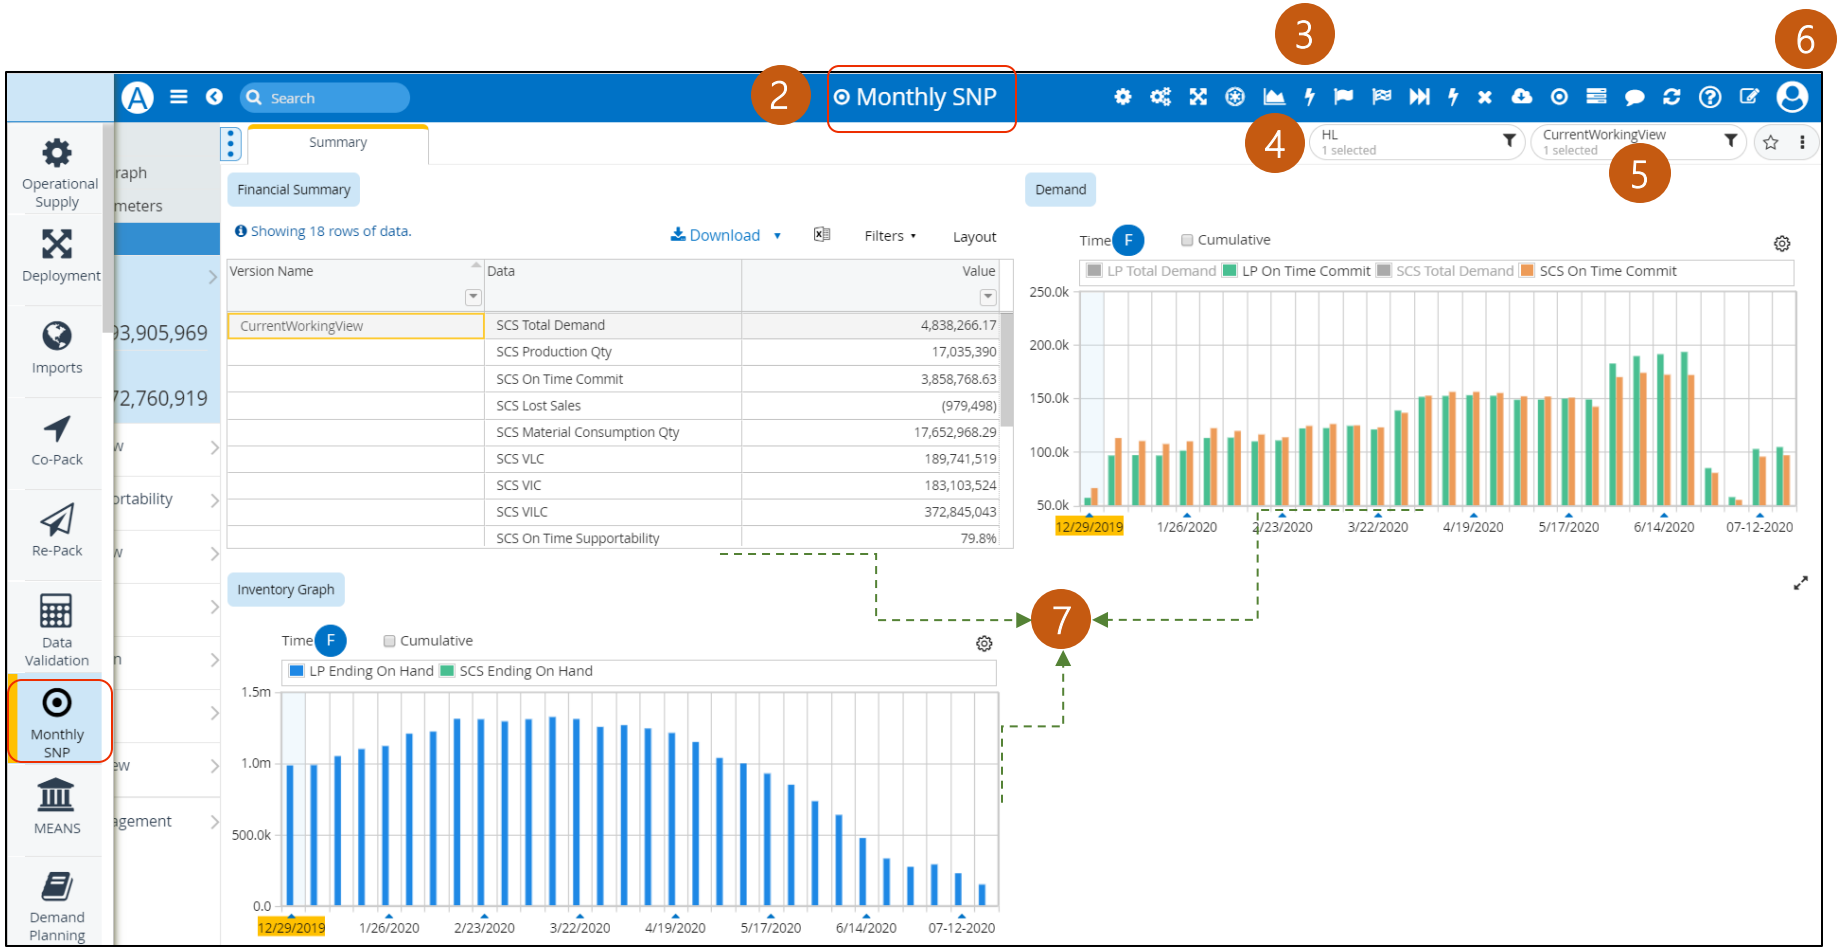
- LP Reports – Allocation Plan – ABIDistPlan_LC
- LP Reports – Inventory Review: Inventory All
- LP Reports – Scenario Management

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

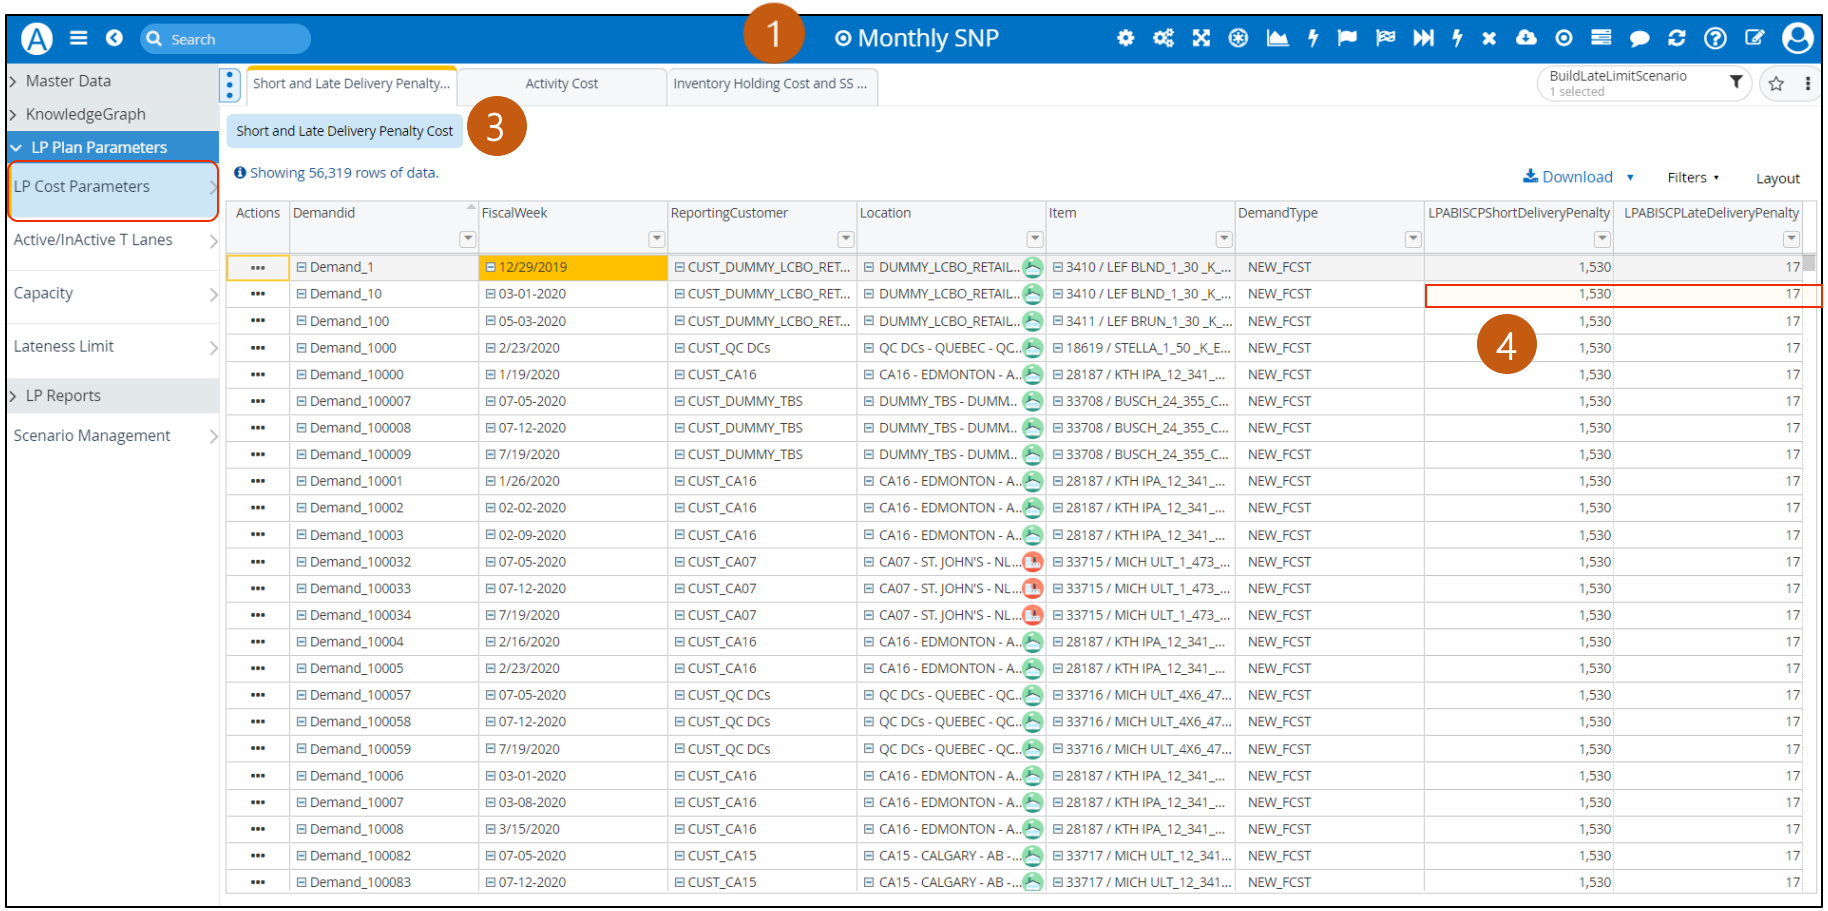
# Monthly SNP: Landing Page



1. Monthly SNP Workspace
2. Navigation Panel Monthly SNP for monthly planner
3. Run LP Solver
4. Create Scenarios
5. Filter for Scenario
6. Select LP Tenant
7. Result screens displaying dashboard entities of interest. (This is under continuing development)

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

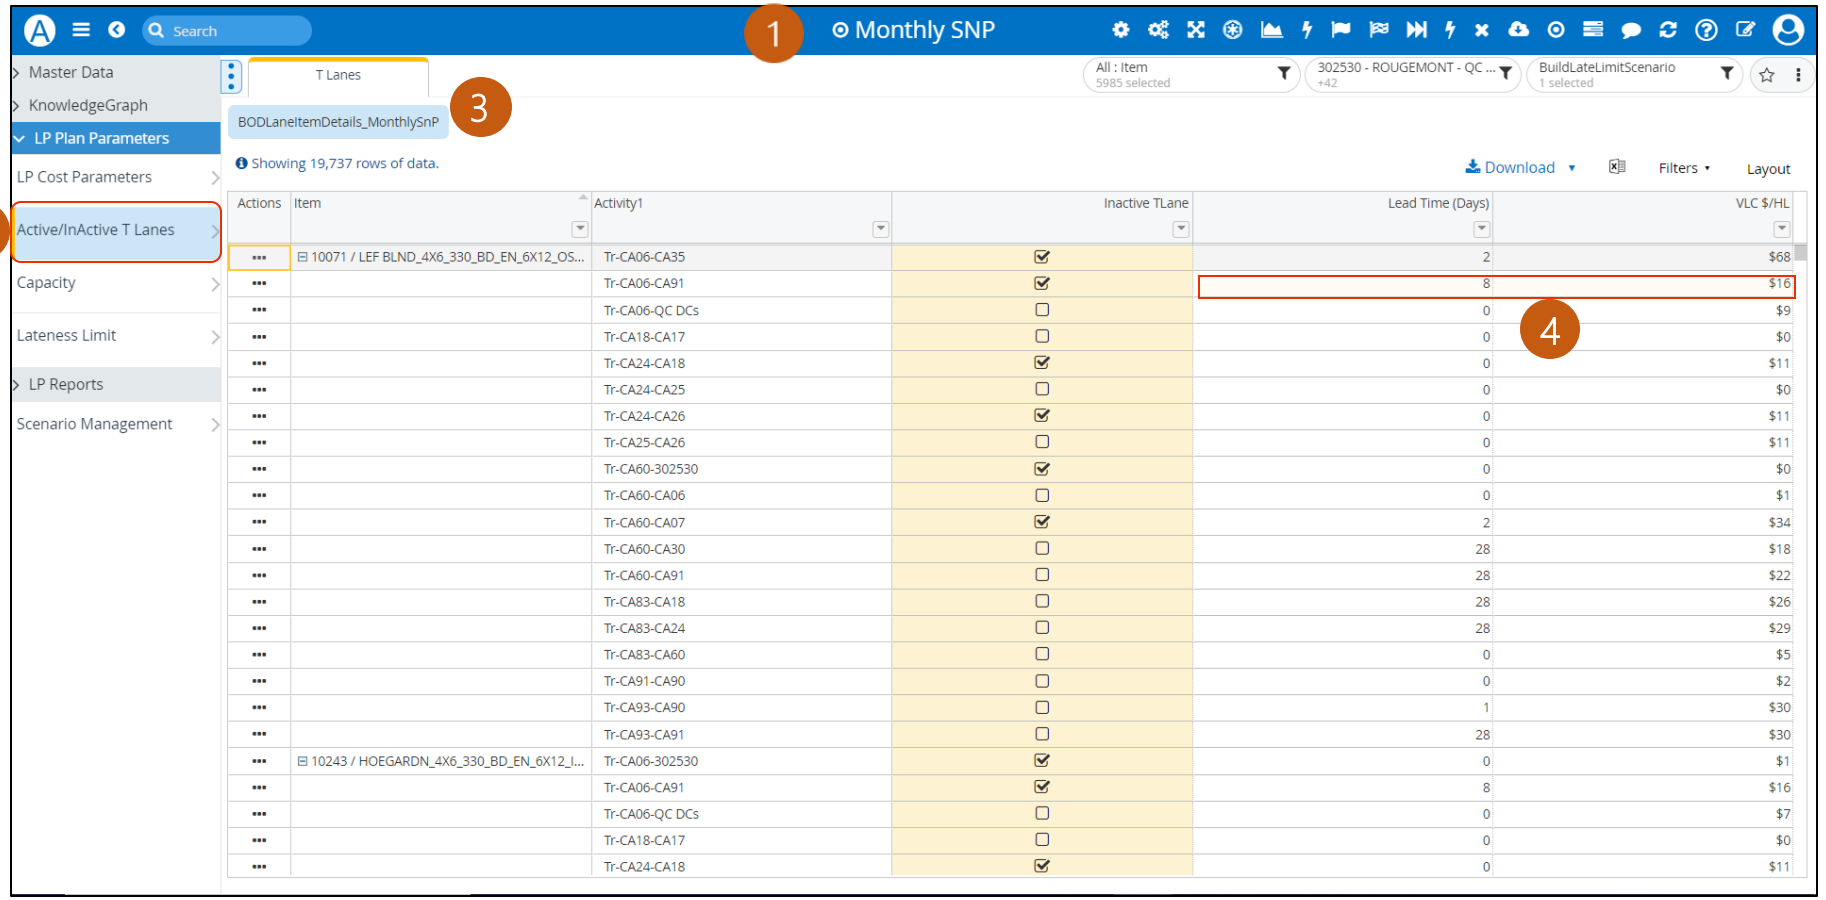
# LP Plan Parameters – LP Cost Parameters: Short/Late Delivery Penalty



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Plan Parameters – LP Cost Parameters page
3. The tabs on the top allow planner to check the input costs: Short and Late Penalty, Activity Cost, Inventory holding cost
4. The data is shown for short and late delivery penalty as an example of how to view the costs

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

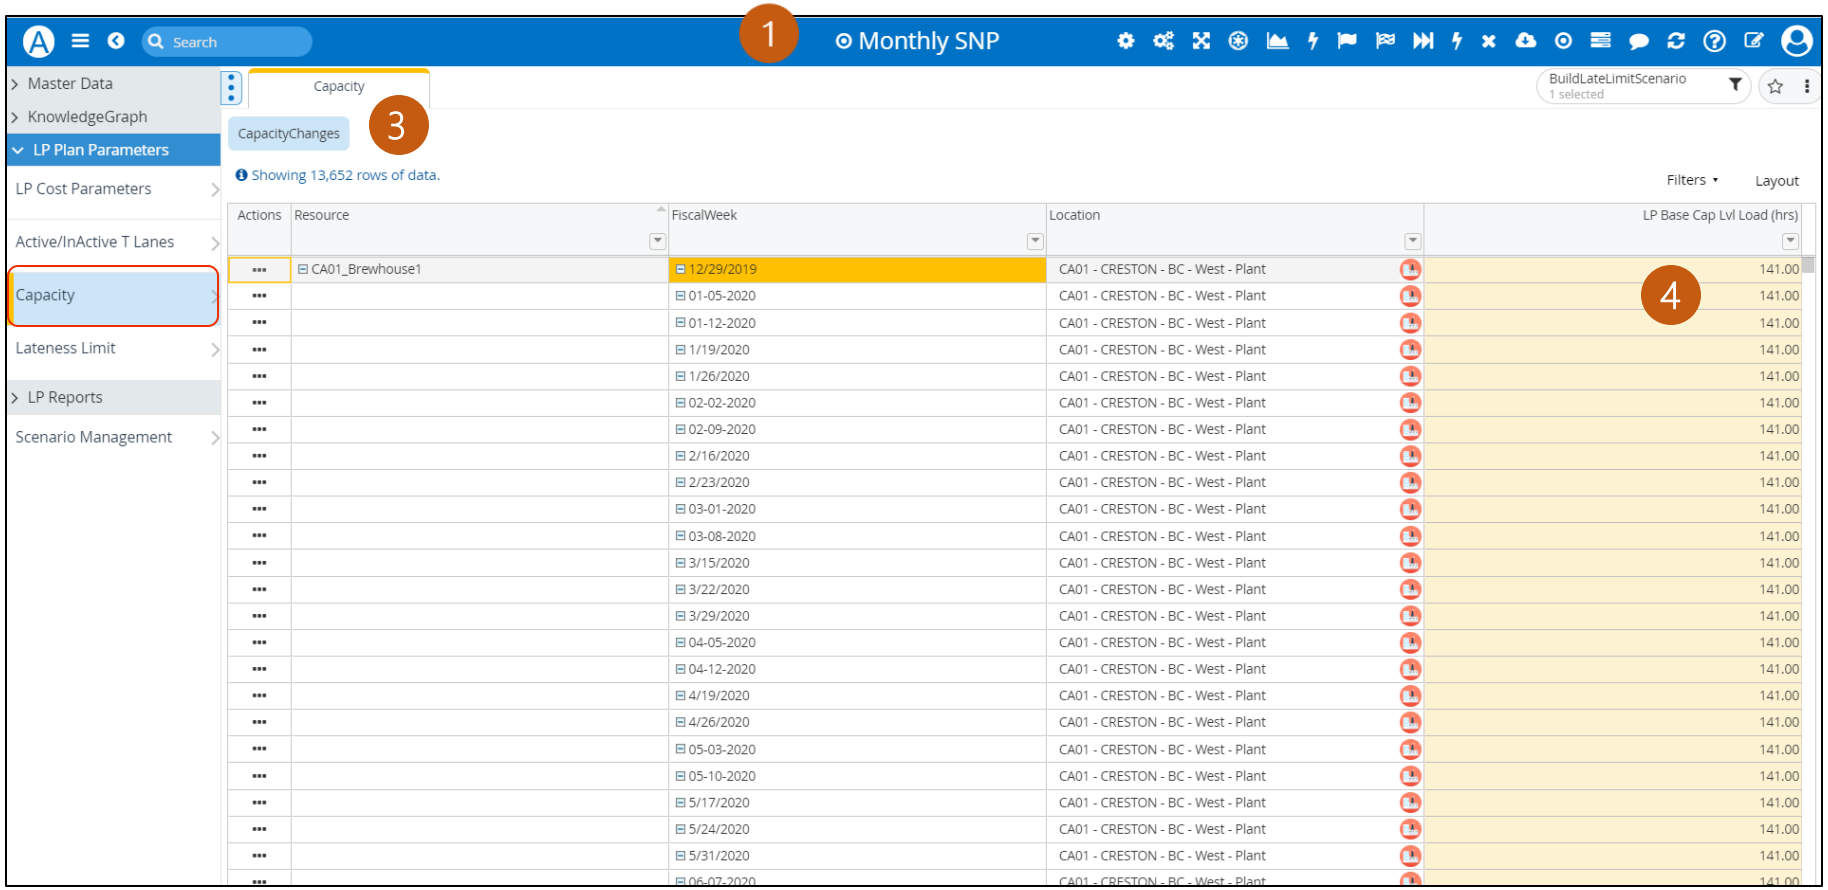
# LP Plan Parameters – LP Cost Parameters: T Lanes



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Plan Parameters – Active/Inactive TLanes page
3. The tabs on the top allow planner to check T-Lanes set up to run LP.
4. Active/Inactive lanes can be adjusted for LP run and planner can also see VLC costs

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

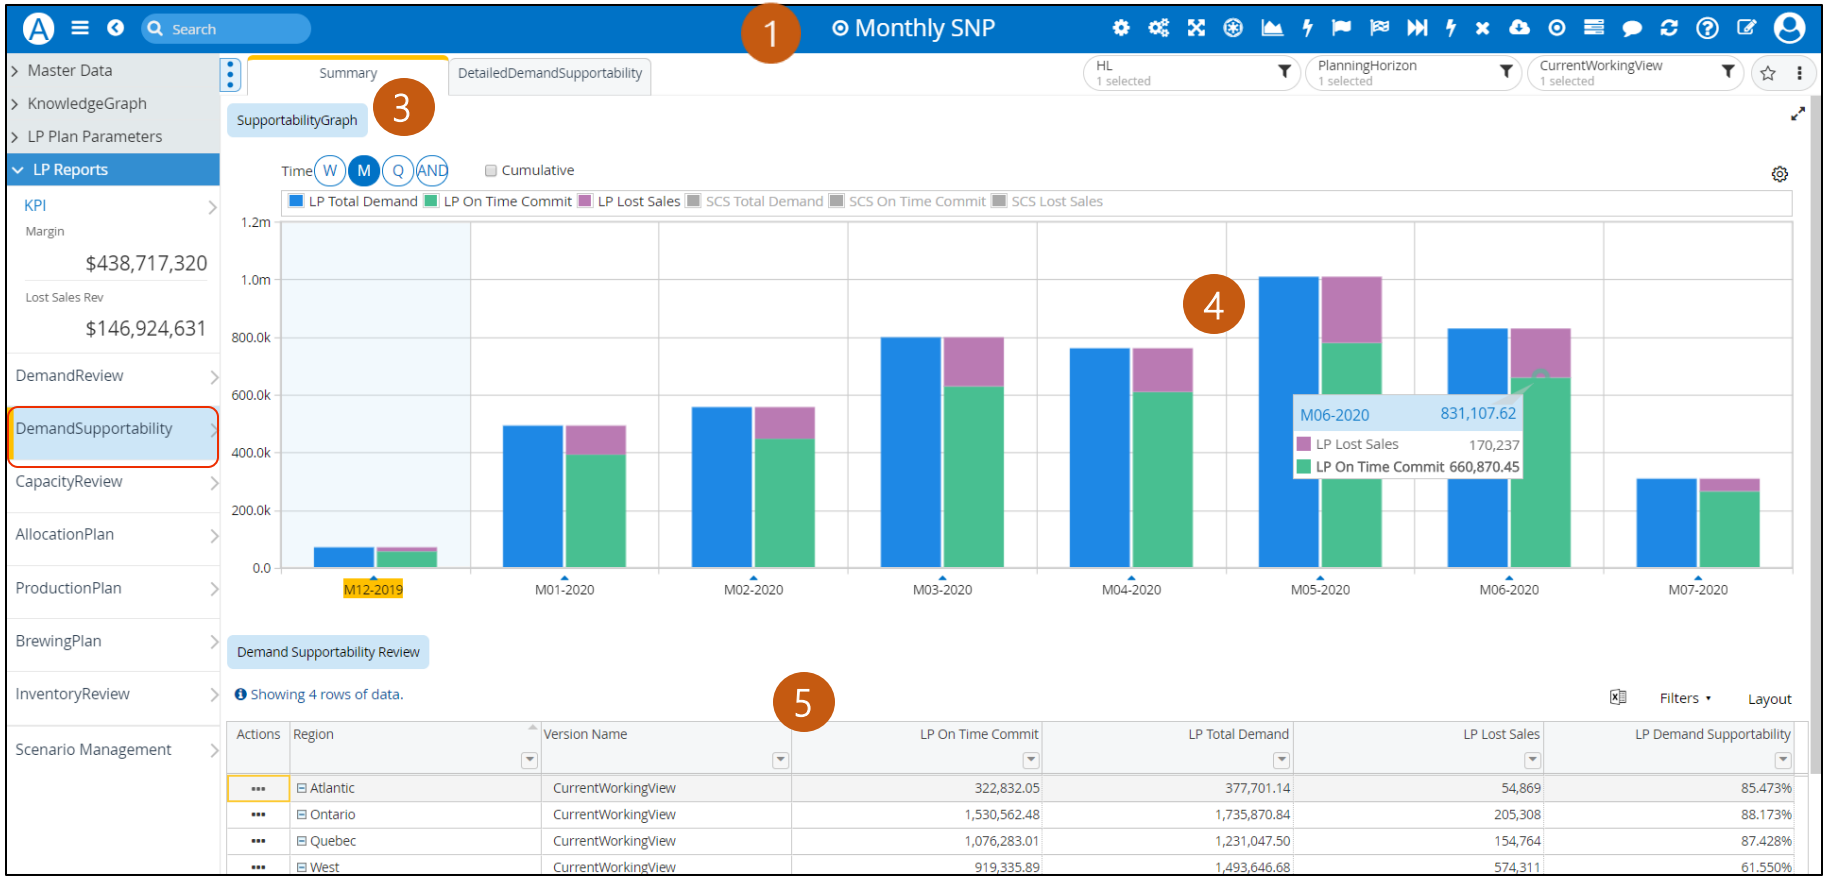
# LP Plan Parameters - Capacity



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Plan Parameters – Capacity page
3. The tab on the top allows planner to check resource capacity used to set up LP run
4. Weekly capacity is shown in the editable column. You can filter by location and resource.

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

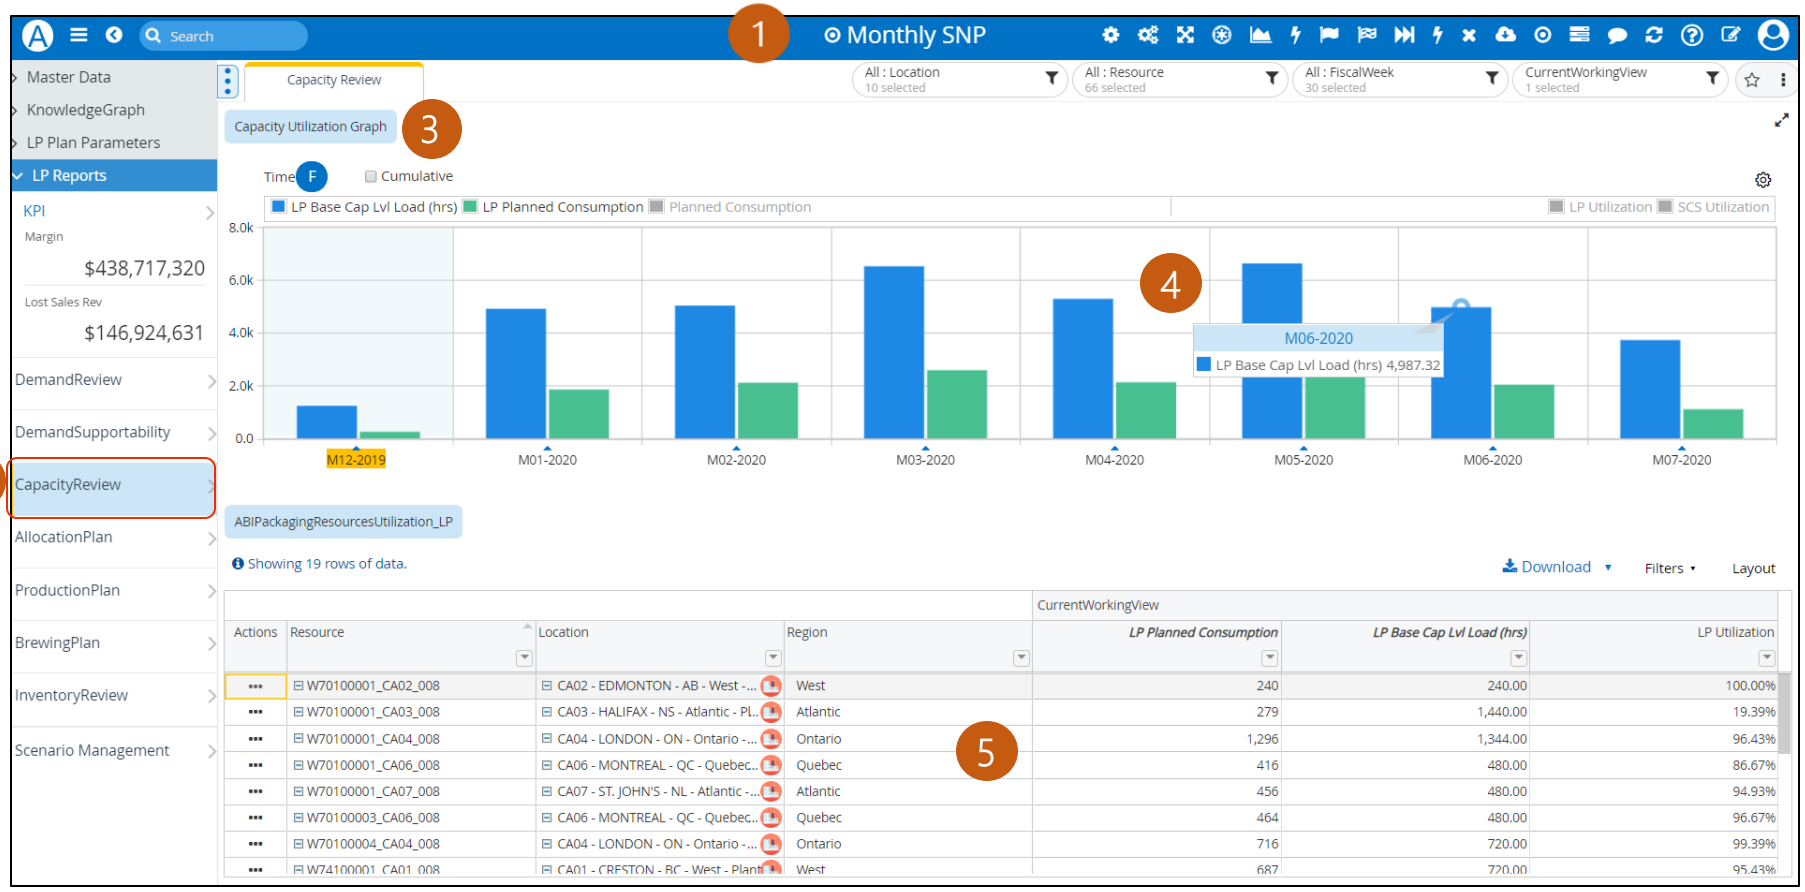
# LP Reports – Demand Supportability: Summary



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Reports – Demand Supportability page
3. The tabs on the top allows planner to check a summary or detail view of demand supported by the LP Plan
4. Graph on top shows demand, committed demand and lost sales.
5. Table below shows the same information and also service level %.

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

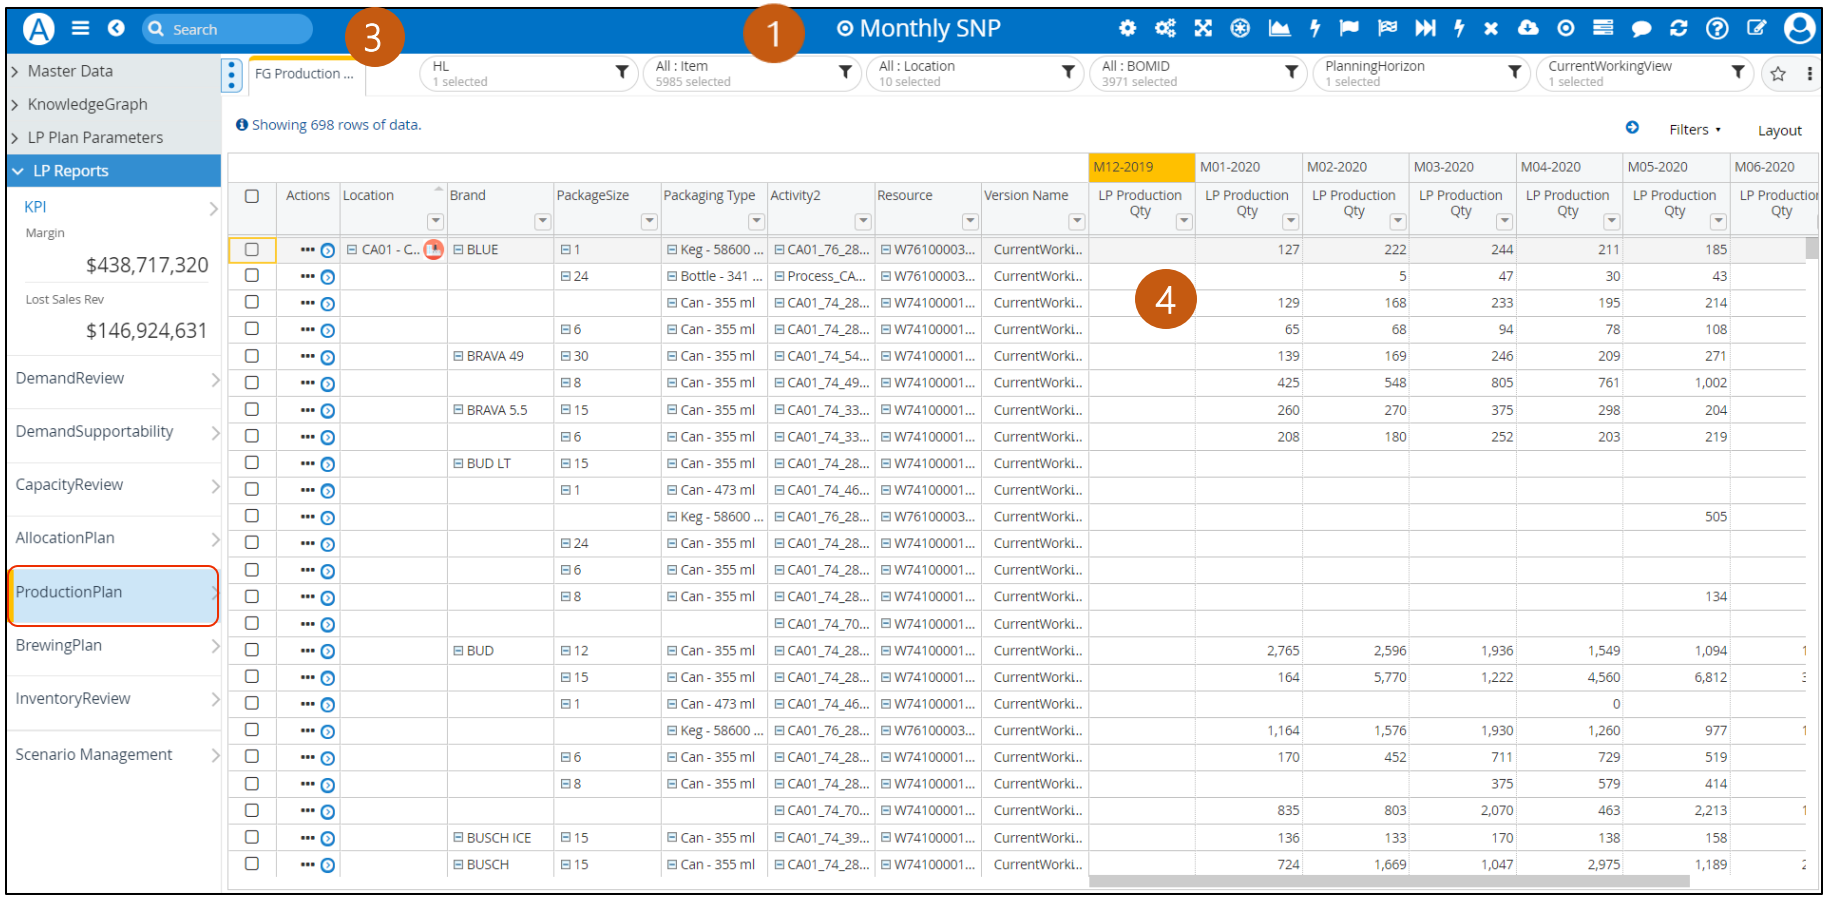
# LP Reports – Capacity Review: Capacity Utilization Graph



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Reports – Capacity Review page
3. The tab on the top allows planner to review capacity utilization
4. Graph on top shows available capacity and the consumed capacity for the resource(s) selected
5. Table below shows the same information in a downloadable format

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

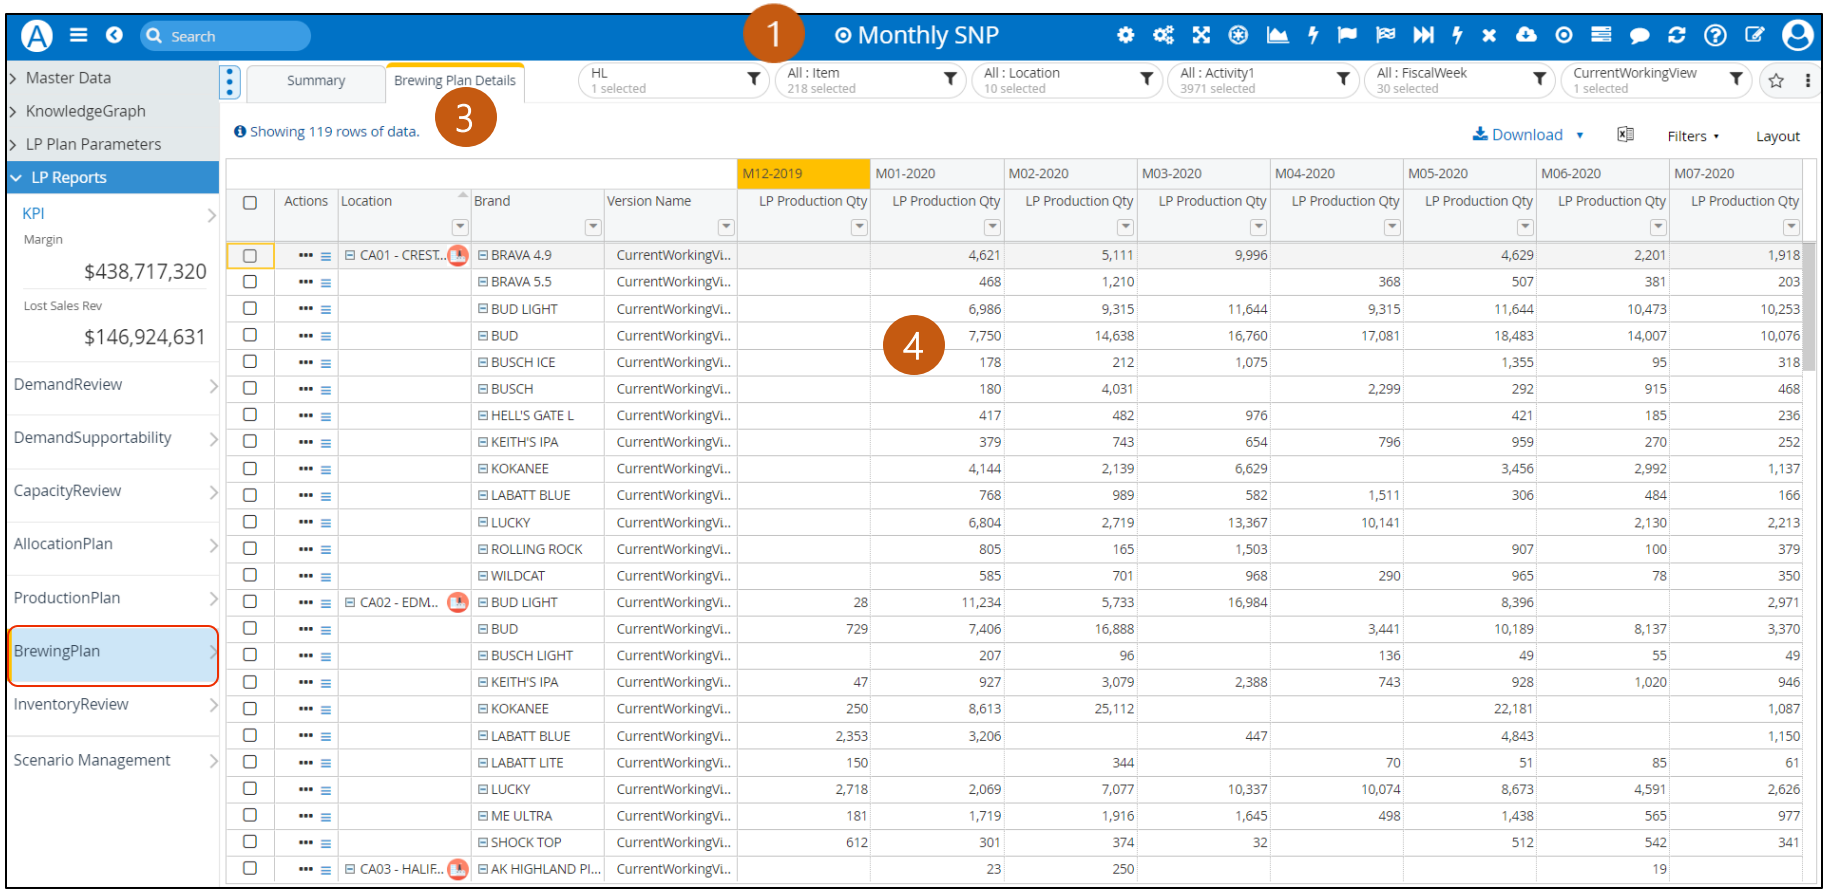
# LP Reports – Production Plan: FG Production Plan



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Reports – Production Plan page
3. The tab on the top allows planner to review Production Plan
4. Table shows the FG production plan

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

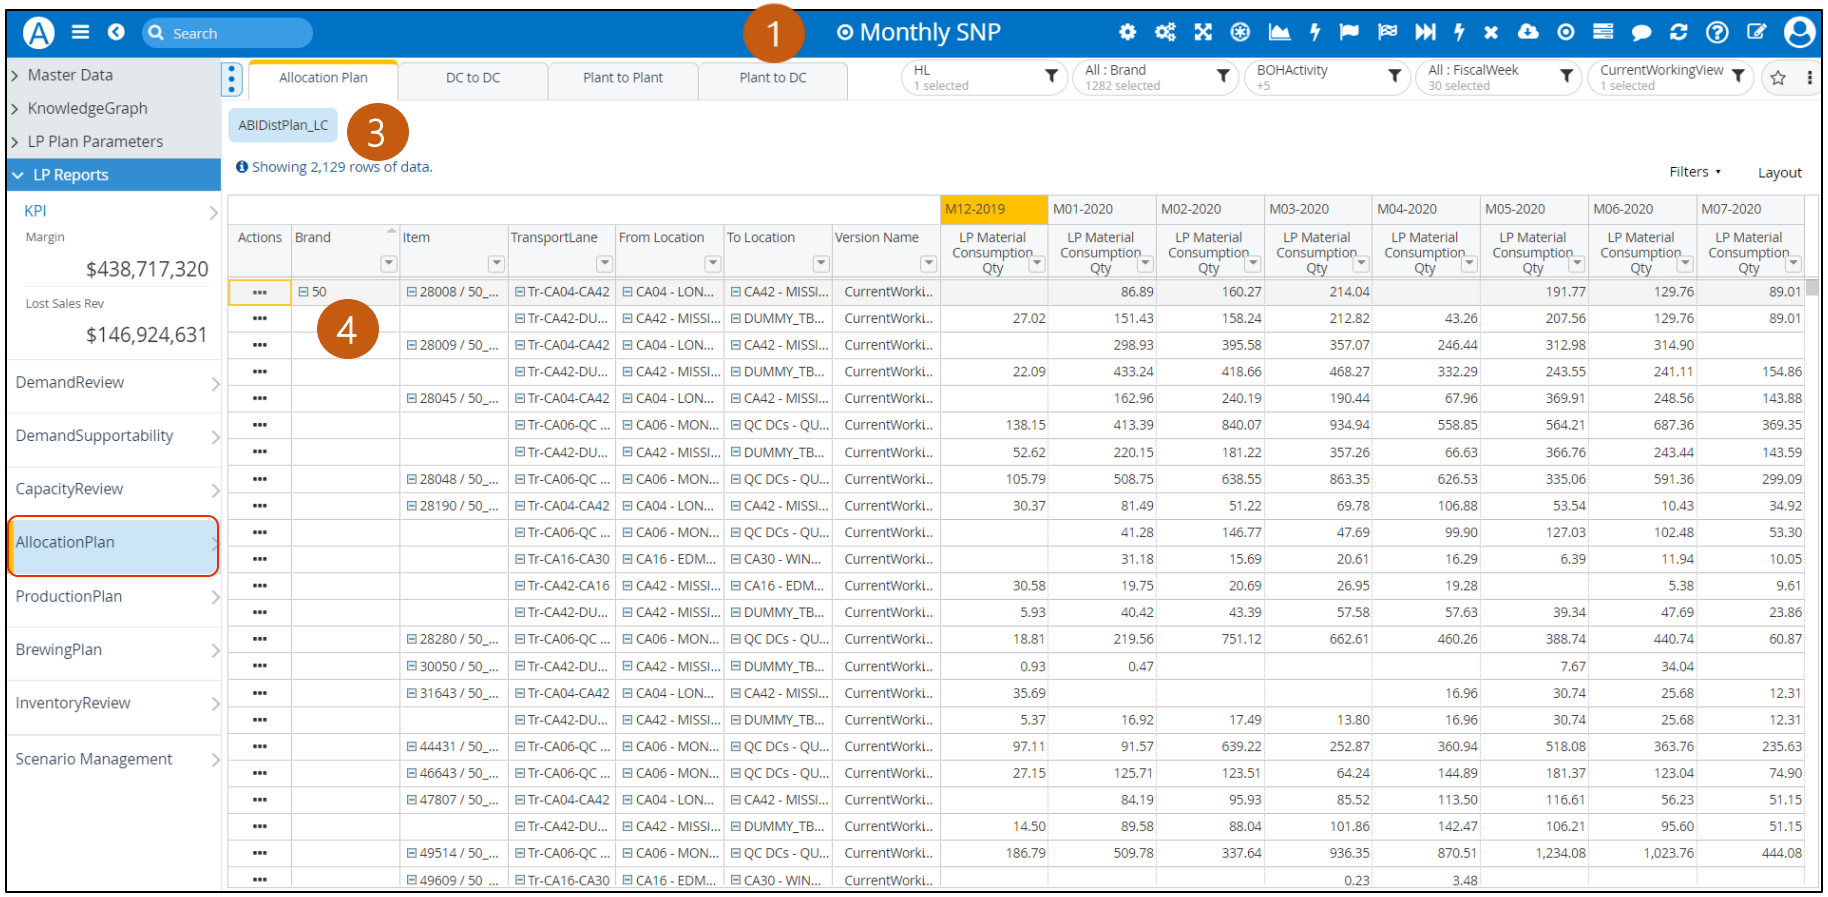
# LP Reports – Brewing Plan: Brewing Plan Details



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Reports – Brewing Plan page. The top allows planner to review brewing plan details or get a summary view of brewery plan
3. Table shows the brewery production plan

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# LP Reports – Allocation Plan – ABIDistPlan_LC



1. Make sure you are in Monthly SNP Workspace
2. Go to LP Reports – Allocation Plan page
3. The tab on the top allows planner to review distribution plan on an overall basis or segmented looking at DC-DC, Plant-Plant, and Plant-DC views.
4. Table shows the Distribution Plan. The distribution plan from Plant to DC will be used for generating lane sourcing priorities for the Weekly heuristics plan

o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

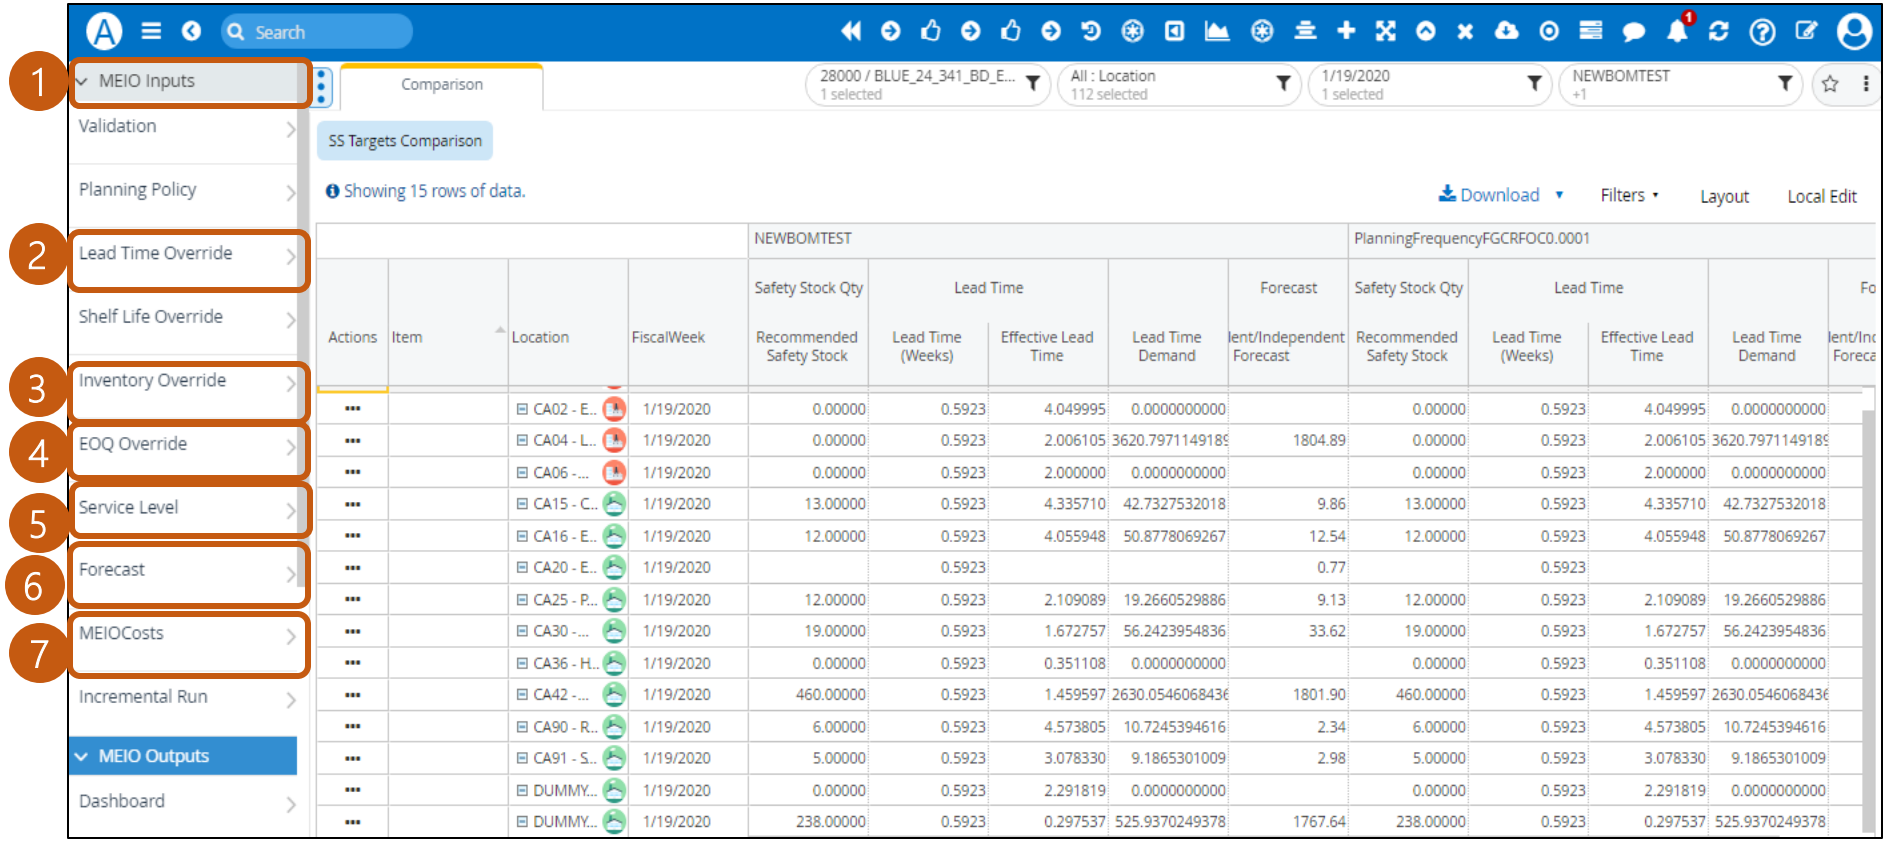
# Validation of Key Inputs for MEIO

Step 1: Go to MEIO Inputs Page group
2: Page for overriding Lead time & Lead time Std.
3: Page for overriding Reorder Point (ROP)
4. Page for overriding Economic Order Qty (EOQ)
5. Page for overriding Service Level (SL)
6. Page for overriding Forecast and Demand SD
7. Page for overriding MEIO related costs



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Running the MEIO Solver

1: Click the RunMEIO action button in the top
2: Select the appropriate scenario
3: Select the solver starting and ending bucket
4. Select the dependent historical starting and ending bucket.
5. Click Submit

# Scenario Analysis

1: Click on Create Working Scenario action button to make a new scenario and choose a base scenario
2 Make appropriate changes to MEIO Input parameters in MEIO Inputs page group
3: Click the RunMEIO action button
4. Once the run is complete , go to scenario comparison page and go to SS Targets Comparison report
5. Select the appropriate item, location and fiscal weeks
6. Select the appropriate scenarios to compare against each other
7. Select the appropriate parameters to display through the layout option

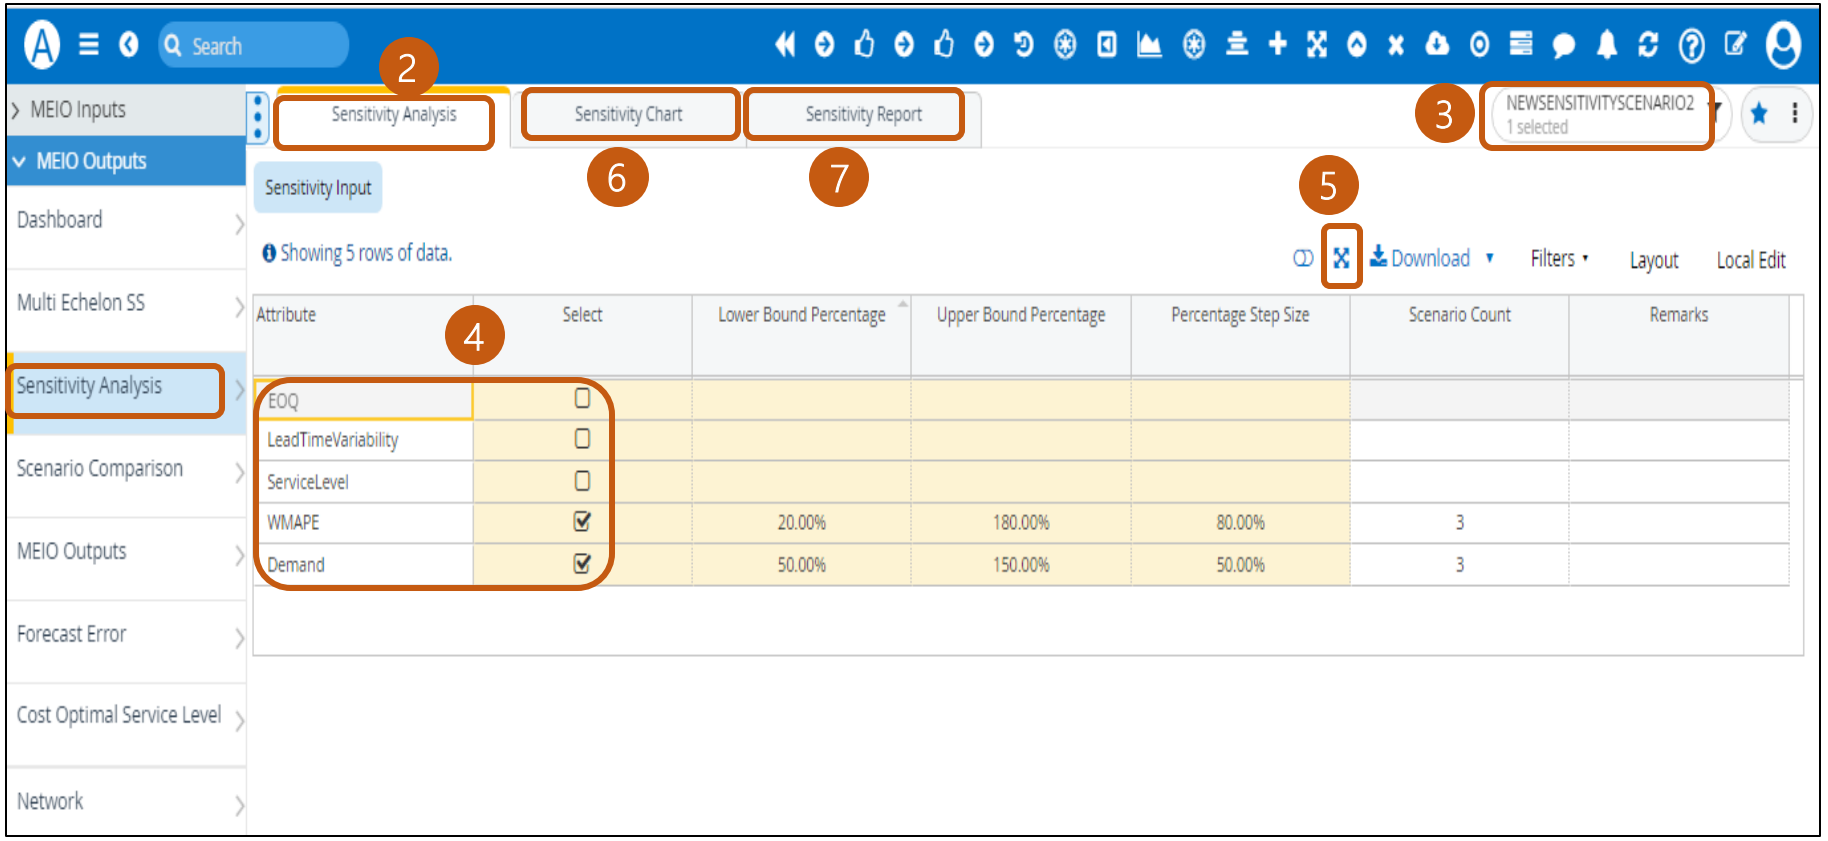
# Sensitivity Analysis

1: Go to Sensitivity Analysis page for doing sensitivity Analysis
2 Go to the Sensitivity Analysis page and Sensitivity Input report
3. Select the appropriate scenario for in which sensitivity analysis is to be carried out
4. Select the parameters for which one want to run the sensitivity analysis and choose the appropriate lower , upper bound percentage and step size
5. Run the RunSensitivityAnalysis action button to execute the run
6. Once the run is complete, the results can be view in terms of chart for different parameters in Sensitivity Chart report
7. In the Sensitivity Report tab, the results can be viewed in detail at item-loc and fiscal week level



o9 Solutions, Inc. Confidential & Proprietary. Your use of these materials is governed by the terms of your written agreement with o9 Solutions. All unauthorized use and reproduction or distribution is prohibited.

# Exception Tracking

1: Go to Multi Echelon SS page in MEIO outputs page group
2 Go to the MEIOSSTargets – Exception based report to track item-locations which deviate by a larger amount as compared to last cycle
3. Select the appropriate list of items
4. Select the appropriate list of locations
5 Select the appropriate list of fiscal weeks
6. Select the appropriate scenario
7. Compare the Recommended buckets of cover with the last cycle number and choose appropriate action (accept/override)

# Template Guidelines

## Guidelines

- When taking screenshots, start at the Workspace title (Blue bar), do not include the URL. Also keep the screen navigation panel on the left, do not hide that
- Make the width of the screenshot about 24 cm (9.45 inches), the height will be proportional based on what has been captured in the screenshot. This will provide a screenshot of suitable size to showcase capabilities and functionality as well as provide enough space to detail the steps to be followed by the planner
- The title of the slide should be Page Group – Page: Tab, e.g. Master Data – Master Item - Location: Item
- All steps users have to complete on a screen should be captured in one slide
- The order of activity should be called out in Steps. If there are no steps to be followed, but just pointing something out, specify the number, without the word Step
- Text box
  - Use a text box approach for calling out steps
  - Use the same line color/line thickness for the text box
- Numbers
  - Use the same fill color and size for the number circles
- Key points
  - Provide key points for each slide. Do not include them in the slide, they are to be incorporated in the workflow document before the given slide is inserted
- Screenshots
  - Size of screenshot to the left should be the same for all slides
  - Screenshot should have the same line color / line thickness border – 0.75 pt black
- Title font / color should be same
- Footer should be as shown below
